## THE HIGH SCHOOL MAGAZINE.

VOL. V., NO. 1.

MAY, 1914.

PRICE 1/-

### Editorial.

Once more we appear before our readers at the end of the term in which, apart from the unimportant matter of school work, the most prominent features are swimming, cricket, and rowing. Before these lines are read, it will have been decided on the river whether we are to occupy once more a position that has often been ours in the past. It is not a position of which we can be proud, and our fairest and manliest course is to admit that we have cut rather a sorry figure in the history of the boat race, and not to look round for various more or less flimsy excuses. But one thing may perhaps in fairness be said. We are a small school, and our choice lies among a very few to fill our various teams. Usually, our crew forms the backbone of our cricket eleven, so that training is interfered with by cricket practice and matches, and occasionally both have to be set aside in favour of parades, or shooting, or some other call. It is perhaps worth considering whether in the part of Jack-of-all-trades we are likely to shine with any special brilliance. In the days when we devoted all our energies to cricket, and were shy of allowing other calls to interfere, we met with unbroken success. The question is whether the little handful to whom we have to look to represent us in every department, as well as to obtain whatever examination results we can secure, are capable of such diverse activities. We are never lucky enough to have a boy remaining at school, or returning after having left, with the sole object of rowing in the boat race, and able therefore to devote his whole mental and physical energy to this one end. Such an extreme example of specialising, indeed, we could not regard as commendable; but experience seems to have shewn us that in the effort to do many things we are not likely to do any one particularly well. It is not in every school year that an Admirable Crichton makes his appearance, much less a crew or team of Crichtons.

There is another and a larger question suggested by these considerations. Among thoughtful observers there is a growing feeling that games, and particularly school games, are no longer played in the proper spirit. The object of games in a school is to provide means of exercise in its best form, better, that is, for the mind and body as a whole than gymnastics pure and simple. Friendly rivalry with other schools of the same standing has always been regarded as useful to ensure keenness and to improve the standard of skill, as well as to teach the lesson of good temper

and generosity of spirit. But when beyond the playing of the game for its own sake there is to be considered the destination of some cup or shield or trophy, there is a grave danger of the game ceasing to serve its highest purposes. The Rugby Union has always set its face against cups and league competitions. The Northern Union, seceding on this question, has become entirely professional. In British Association football it is well known that the finals of cup ties never provide good exhibitions of the game as it ought to be played, but an abundant crop of fouls and rough or shady tactics. The meetings of the Football League are concerned entirely with the unsavoury business of fines, permits, transfers, suspensions, and appeals. Furthermore, the governing of every branch of sport by an association involves a huge mass of legislation beneath the weight of which the proper game-playing spirit is in danger of being choked. It is always surprising how half a dozen men, individually of sound judgment and sportsmanlike instincts, as soon as they are formed into a committee or board, can collectively legislate unwisely or unjustly. But it seems to be inevitable. There is no need to rake up recent instances in which the action of an association has been at once ignorant and meddlesome, but it should be clear that for a school it is best that it should regulate its own affairs, play the games that commend themselves to its type and its traditions, and play them with the mind on the game itself and not on averages or tables, or trophies. No doubt this is an unpopular view, because a large section of the public think that games, even school games, are played for their benefit solely, as spectators or readers of results on which they may offer their enlightened comment. If we are to "play the game" it will not be with one eye on an association and the other on the newspaper reader, or with the destination of a cup as the uppermost thought in our minds.

---

## School News.

---

The prefects for first half of this term were: Montgomery, Lefroy i., Maitland and Meares Headmaster's prefects, and Davy, Smith and Allen boys' prefects. For the second half of the term they were: Lefroy i., Maitland, Meares and Smith Headmaster's prefects, and Davy, Steere and Cobham boys' prefects.

The present number on the roll is 100.

As usual, we lost many of the boys at Christmas.

O. R. Corr was appointed Headmaster's prefect in 1912; cricket XI., 1912-13; played football XI. in 1913; was a representative in the interschool sports in 1913; second rowing crew, 1913.

S. K. Montgomery left during the term. He was elected prefect in 1912; Headmaster's prefect in 1913; cricket XI. in

1911-14; football XI., in 1912, 1913; representative in the interschool sports in 1912-13; second rowing crew, 1913.

R. Parker, prefect in 1913; football XI. in 1912-13; representative in the interschool sports 1912, 1913; cricket XI. in 1912, 1913.

J. C. Dickinson was in the cricket XI. in 1912-13; football in 1913; representative in interschool sports in 1912, 1913.

V. C. Mathews played in the cricket XI. in 1913 and in the football XI. in 1913.

Hester—Shooting eight in 1910-13; interschool swimming in 1911.

Allen—prefect in 1914; cricket XI. in 1913; football XI. in 1913; representative in interschool sports 1913.

The following have also left: Caris, Saw i., Sharman, Morrison, Woodward, Harvey and Henriques.

There were eighteen new boys this term: Cowan, Gibson, Shafto, Crommelin i., Crommelin ii., Sanders ii., Bird, Turner i., Turner ii., Turner iii., Tepper, Mead, Carmicheal, Lefroy iv., Driver ii., Parkes ii., Hardinge, and Veitch.

Sharman and Smith passed the Adelaide Junior in the five following subjects: Algebra, arithmetic, geometry, English literature and English history.

In the Adelaide Senior Maitland passed in Latin (with honors), French, English literature, algebra and arithmetic, geometry and trigonometry.

M. B. Woodward passed the senior in trigonometry (with honors), Latin and French. He also passed the Higher Public in algebra and trigonometry, geometry and trigonometry.

O. R. Corr passed the Higher Public in Greek, Latin, algebra and trigonometry, geometry and trigonometry.

S. K. Montgomery passed in Greek, Latin (with honors), French, algebra and trigonometry, geometry and trigonometry. He came second in Latin for both States. He also won a Government University Exhibition of £50 for three years.

The crew has been training hard for the Schools' race. We have two of last year's crew left, Meares and Maitland. T. A. L. Davy, our coach, has turned out a fairly good crew considering the short time he has had us. The following are the crew:—

G. G. Maitland ... ..	stroke	10st. 6lbs.
E. Meares ... ..	3	10st. 9lbs.
C. J. B. Davy ... ..	2	10st. 4lbs.
J. M. Smith ... ..	bow	9st. 12lbs.
E. Arney ... ..	cox	5st. 4lbs.

Average weight, 10st. 4½lbs.

Emergency, Lefroy i.

The Headmaster has reluctantly had to refuse several applications for admission as boarders owing to lack of accommodation.

R. Irving has passed the test for the Royal Life Saving Society's bronze medal.

The foundation stones of the new buildings were laid on February 14th by His Excellency, the Governor, Sir Harry Barron, K.C.M.G., C.V.O., and by Sir Edward Wittenoom, M.L.C. A detailed account of the proceedings will be found in another column.

The buildings in Havelock Street are rising slowly. Most of the walls are up to the roof, but the stone cutting for the front wall has retarded operations. Portions of the roof are now up, and the contractor, Mr. Brine, expects to be finished by the end of July. The general opinion is that the buildings will be very good, especially the hall, which, though not large, will be very suited for its purpose.

Football has already begun. After the holidays the first XI. will play in the Second Junior Competition, and the second XI. in the Third Junior Division.

Lefroy i., Davy and Montgomery played in the cricket match between the combined Secondary Schools and the State Eleven. Lefroy made 21, Davy 2, Montgomery 8. Lefroy got 1 wicket for 49 runs.

---

### Inter-School Swimming Championships.

---

The Interschool swimming took place on Saturday morning, the 14th of March, in the new Crawley Baths. Previously there has been only one event, but this year there were three, namely, the 100 yards open, 220 yards open and the 100 yards under 15.

Mr. Le Couteur acted as judge; Sergeant Smith as starter, and Mr. J. Crawcour as timekeeper. Points were awarded as follows: 5, 3, 2, for the open events, and 3, 2, 1, for the junior. The Scotch College obtained the most points, gaining 22 out of 26. The High School came second, and the C.B.C. and C.E.G.S. third and fourth respectively.

The results were as follows:—

#### 100 YARDS OPEN.

- |      |          |                  |
|------|----------|------------------|
| 1st. | McNeil   | (S.C.), 5 points |
| 2nd. | Maitland | (H.S.) 3 points  |
| 3rd. | Clowes   | (S.C.) 2 points  |

Time, 1 min. 4 2-5 seconds.

## 220 YARDS OPEN.

1st.	McNeil	(S.C.)	5 points
2nd.	Jones	(S.C.)	3 points
3rd.	Watson	(S.C.)	2 points

Time, 2 min. 47 seconds.

## 100 YARDS (under 15).

1st.	Watson	(S.C.)	3 points
2nd.	Maxwell	(S.C.)	2 points
3rd.	Low	(C.B.C.)	1 point

Time, 1 min. 11 1-5 seconds.

The High School was represented in the 100 yards open by Maitland, Steere, Wilkinson; in the 220 yards by Maitland, Hearle, Smith; in the 100 yards under 15 by Parkes, Williams, i., Saw, i.

---

## School Swimming.

---

The annual swimming sports were held in the Claremont Baths, as usual, on Wednesday, the 18th of February.

This year the entries were not as good as usual; boys would not enter for the races because they were afraid of coming last.

Mr. Priestly acted as starter, and got the races well off to time. Thanks are due to him for arranging and conducting affairs so successfully. Mr. C. St. C. Trenaman kindly acted as judge for the neat dive. The handicapping was done by the Prefects.

The following are the results:—

100 Yards Championship—Ist, Maitland; 2nd, Davy.

50 Yards Open Handicap—Ist, Steere (2 sec.); 2nd, Montgomery (7 sec).

100 Yards Open Handicap—Ist, Maitland (scr.); 2nd, Smith, (12 sec.)

75 Yards Breast Stroke Handicap—Ist, Steere (scr.); 2nd, Meares (9 sec.)

100 Yards (under 16) Handicap—Ist, Williams (10 sec.); 2nd, Wilkinson (scr.)

50 Yards (under 14) Handicap—Ist, Parkes (6 sec.); 2nd, Foster (6 sec.)

50 Yards (under 12) Handicap—Ist, Chase (scr.); 2nd, Mosey (10 sec.)

Long Dive—Ist, Maitland; 2nd, Davy. Distance, 47 yards.

Neat Dive—Ist, Parkes; 2nd, Smith.

### Old Boys' News.

W. J. Price is doing his final year for his Honor Classics Degree at the Adelaide University. He was captain of the University Second XI. for the past cricket season. We wish him success in his examination.

G. J. Mitchell is getting on fairly well at Denstone College, Staffordshire. He has just got his first football colors and shooting colors. Also in the last Denstone College sports he came out "Victor Ludorum." He holds the record for the eight-mile cross country run.

An engagement is announced between the Rev. C. L. Riley and Miss L. M. Lefroy, of Cottesloe.

R. J. Lodge is down from the Nor'-West. He is going into Dalgety's.

L. W. Browning is paying a visit to Perth on a holiday from his farm at Dalwallinn.

C. H. Terry arrived back from Melbourne at the end of January. He is now a fully qualified dentist, and intends practising in Perth. It is his opinion that "The Cygnet" would receive more contributions from Old Boys if the Editor were mentioned by name in each number, as "To the Editor," is rather too impersonal an address.

J. H. Lukin is to be congratulated on his passing his final Licensed Surveyors' Examination, for which he sat on March 23.

T. A. L. Davy, our third Rhodes Scholar, returned to Perth in December last. He returned through America, and was greatly impressed by the American hospitality. He is full of experiences, which make most interesting hearing. It is to be hoped he will accommodate a starved "Cygnet" with a few tit-bits. He is coaching this year's rowing crew, and is giving great attention to them; we hope that they will improve on the school's past record under his tuition. He intends to practise as a barrister in Perth, and is putting in his time, meanwhile, working for Northmore and Hale.

C. Cowan is in R. S. Haynes and Co.'s office. He is now a sergeant in his company of the Citizen Forces, and is still making his mark as a sharpshooter.

E. F. Parker played Norman Brookes, the champion tennis player, as the latter passed through here on his way to England to compete in the Davis Cup Competitions. Parker was defeated in the match, 4-6, 1-6, but in an exhibition set afterwards he actually lowered the champion's colors to the tune of 6-5. He seemed rather at sea to Brooke's service, but showed up well when the ball was in play. He also journeyed to South Australia to defend his title of Champion of Australia, but was defeated in the final by Horace Rice. There was also to have been a match, W.A. v. S.A., but for various reasons this did not take place.

On the Eastern Districts tour, as we were weakened by the absence of the two Lefroys, we were accompanied by A. B. Montgomery and C. T. P. Ewing, who both were very successful. Norman Broun, A. Leake, L. Weaver, and I. Johns played against us at Beverley, the first named being largely responsible for our defeat.

R. Phillips has been working for the past three years for Connor, Doherty and Durack, at Wyndham. He seems as a matter of course, to have contracted malarial fever, but is now recovered. He was in Perth for a holiday early in March.

W. E. Leake has returned from the Lachland district in New South Wales.

The following Old Boys are attending lectures at the University of W.A.: J. H. Foxworthy, H. L. Fowler, W. L. Brine, W. A. McCullogh, G. A. Montgomery, S. K. Montgomery, and O. R. Cqrr.

A. R. Gorrie is farming at Chidlow's Well. He entertained a party of University students from the University, who were studying under Professor Wollnough, during the Easter vacation.

R. A. Woods writes from 275 Miller-street, North Sydney, and encloses a year's subscription to "The Cygnet." He says that he is delighted that the school has started its new buildings, and says that for twelve years, to his knowledge, they have been talked about. In fact, they were a regular theme for Prize Day. He says it is very interesting to read in "The Cygnet" of all the "kids" of his day making a name for themselves.

C. M. Huggins writes from Lake Grace, East Wagin, wishing the school every success in the new buildings. He also enclosed a subscription to "The Cygnet" and also one to the Old Boys' Association.

On May 7th, at St. Paul's Church, Bridgetown, Miss Nora Knapp, of "Northlands," Boyup Brook, will be married to Percival Dicey Forrest, of Dwalganup.

Cyril Cadd has gone back to the Nor'-West after spending some time in Perth. He was recuperating after an attack of fever.

V. Abbott has returned from his trip to England and the Continent.

Basil Cooke is engaged on work at the Observatory, Sydney, and is also attending lectures at the Sydney University.

S. B. Connor has set up business as a barrister and solicitor and glories under the name of Connor and

C. E. Fleay came down for the Country Week with the Beverley Cricket Club. He played for the Combined Country team against the W.C.A.

E. W. Stokes, holder of the title, was defeated by Hedeman in the final of the Metropolitan Singles Championship at the King's Park Tournament at Easter. M. McDougal was also beaten in the final of the Junior Championship.

Stanley Connor has entered into partnership with Mr. J. Curtis and is practising in Howard-street, Perth.

O. Piesse helped to give the cricketers a royal time on their visit to Wagin last December.

We have to acknowledge with thanks the following subscriptions: R. H. Woods, 3s.; C. M. Huggins, 2s.; A. P. Turnbull, 3s.; N. Brown, 3s.; T. Loton, 3s.; R. Dixon, 10s.

The Old Boys' crew is as follows: A. R. Gorrie (stroke), T. A. Davy (3), A. P. Turnbull (2), T. G. Watkins (bow), H. L. Fowler (cox).

Although the result of the race will be known when this edition goes to press, the crew are expected to give a good account of themselves, though they are hampered by the lack of training, common amongst all Old Boys' crews.

T. C. Watkins is at present in town from Albany, on his annual leave, and is putting in some of his time rowing for the Old Boys.

Continued good reports come to hand of the progress of Basil Riley, at New College, Oxford.

At a returned Rhodes' Scholars' dinner recently held in Perth, there were three representatives from the School, namely, J. L. Walker, A. P. Turnbull and L. A. Davy.

Frank Maley has passed his final law examination, and has also taken unto himself a wife, being married to Miss Bushell. He is at present managing his father's farm at Katanning during his brother's absence on a holiday.

Also entered the bonds of matrimony lately, Leo. Harwood, who married Miss N. Maley, and is now a farmer in the Albany district.

## The Laying of the Foundation Stones of the New Buildings.

---

On the 14th of February, the two foundation stones of the new buildings were laid, the first by His Excellency, the Governor, Sir Harry Barron, K.C.M.G., C.V.O., the other by an Old Boy of the School, Sir Edward Wittenoom, K.C.M.G., M.L.C. There were a large number of Old Boys and parents of present boys present, as it was generally felt that the occasion marked an era in the history of the School. The two stones are situated, one on either side of the entrance porch. In the course of the afternoon, the Board of Governors entertained the visitors at afternoon tea in a large marquee, which was erected opposite the buildings. The School Cadets (A Coy., 88th Batt.), under command of Captain Jenkins and Lieutenants Emmott and Montgomery, were drawn up facing the platform, which was erected between the two foundation stones. One of the Regimental Bands was very kindly lent for the occasion, and all the Cadets found the music a great help to the marching. After the inspection of the guard of honor by Excellency, the laying of the stones was proceeded with.

Sir Walter James drew attention to the significance of the occasion, and traversed at length the history of the High School. The buildings in course of erection, he said, were the first permanent home of the School since 1877. He dwelt on the handicaps under which the School had labored and paid a high tribute to the work of the various headmasters. He said that few headmasters had had to face such difficulties as Mr. Faulkner, who had, however, been singularly successful. He trusted that His Excellency, Sir Harry Barron, would take a lively interest in the destinies of the School. Sir Edward Wittenoom had been asked to lay the second stone, as he was an Old Boy, and was one whose public work reflected credit on the School. He then detailed the foundation of the School and paid a tribute to Bishop Hale, and in the course of it he quoted Viscount Bryce's opinions on secondary education, which he said had been put into practice by Bishop Hale. He showed how the late Colonel Haynes had carried on the work of the School till the passing of the High School Act, and commended his unselfish attitude at that time. There had never been a moment's break in the continuity of the history of the School from 1858 to the present time. They had had generations of the same family passing through the School, and at the present time there was an instance of the third generation being represented. That was a record which no other school in Western Australia could show. He then detailed the history of the various buildings occupied by the School. They had now, he said, entered upon a new phase of the School's history, a phase which it was hoped would be brighter and more successful even than the past. There was a spirit of strong attachment to the old school among

the old boys, who, in many cases, had left their mark on the history of the State. This should be an incentive to the present boys to see that its reputation did not suffer at their hands. He regretted that a sudden illness had prevented Mr. L. S. Eliot, the present Under-Treasurer, who was the first scholar at Bishop Hale's College, from being there that afternoon. Mr. Eliot, however, sent his greetings. They had had difficulties in the past and would have more in the future, but they would not be worth their salt if they did not overcome them. The Governors wanted the Old Boys to help them, and to give according to their means. He gave instances of the fidelity of Old Boys as they had lately come to his notice, and said that this was the spirit which he wished to see.

At the request of Sir Walter James, His Excellency then laid the first foundation stone, declaring it to "well and truly laid."

His Excellency said that he had listened with great interest to the record of the High School, as outlined by Sir Walter James. He could only say that they should all be ashamed of the school building as it was to-day. He had been glad to learn that new buildings were to be erected, as he felt it was a disgrace to a city like Perth and to an institution like the High School that it should be so badly accommodated. He had been pleased to hear Sir Walter speak, not only of what the School had done in the past, but also of what it intended to do in the future. To his mind nothing appealed to one more strongly than school life. He was delighted to assist in the ceremony that afternoon, as he was honestly ashamed of the buildings the High School was at present housed in. He hoped that the School should continue to be an important factor in the life of the State, and that the traditions of the School should be kept up as long as Western Australia existed.

Sir Edward Wittenoom, who entered Bishop Hale's College in 1866, then laid the second foundation stone. In the course of his remarks, he delved into the history of education in the early days. He said that any rate they taught boys how to write in those days. The matter seemed to be overlooked somewhat in the present day. He commended these remarks to the boys, and also to Sir Walter James. He regretted to see so few of his old schoolfellows present. He desired to re-echo the words of Sir Walter James in praise of the magnificent work of Mr. Faulkner. Sir Edward then spoke of some of the rather amusing attempts which had been made at secondary education before the foundation of Bishop Hale's school. He said that he thought that nowadays they tried to teach a boy too much, with the consequence that he was not thorough in anything in particular, and in addition, became discontented with taking up any position where manual labor was required. Manual labor was no disgrace, and led to greater independence than town positions generally did. He contended that a boy should be instructed in such branches as would help him in the everyday business of life. He was convinced that the system in vogue in Western Australia was better

than that in England. He trusted that the old school in new and favorable quarters would be able to compete favorably with the other secondary schools, and he hoped that ample playground accommodation would be found for the new buildings.

Sir Walter James then invited the gathering to afternoon tea.

During the progress of afternoon tea Sir Edward Stone proposed the health of "The Old Boys and present boys and success to the School." He commented on the fact that the School had turned out men with high and lofty ideals and a sense of duty to the State. He thought that nowadays young men tended to strive too much after games, instead of seeking to improve the knowledge. He could desire that young men should take as keen an interest in their intellectual advancement as they did in sport. He said that the High School had done an immense amount of good and trusted that the difficulties before them would be easily surmountable. After paying an eloquent tribute to the work of Mr. Faulkner, he wished continued success to the School.

Mr. George Lefroy and Mr. Frank Parker replied in fitting terms on behalf of the Old Boys. The latter dealt in interesting vein with some of the incidents of school life, and urged all Old Boys to come forward and help. They wanted to make sure in their present site of having proper playgrounds, and the Old Boys could help in that direction. He made feeling reference to the death of the late Colonel Haynes, and in conclusion said that the fact that four Rhodes Scholars had been selected from the High School was a fitting tribute to the work of Mr. Faulkner.

The proceedings then terminated.

---

### The Cadet Corps.

---

The usual parades have been going on regularly, though on one occasion the Company was dismissed after roll-call as the thermometer stood at 104 degrees.

On February 14th the Company formed a Guard of Honor at the laying of the foundation stones of the new school in Havelock Street. The Guard was inspected by His Excellency, the Governor, who expressed himself particularly pleased with its smart appearance.

Owing to the courtesy of Major Hunt we were able to get the greater number of the 1914 boys into uniform. And so we turned out numerically strong on that historic occasion. We sincerely thank Major Hunt, who, for the second time, has come to our assistance in the matter of uniforms. He has at all times been a good friend to us.

The O.C. received a very nice letter from Sir Walter James, the Acting Chairman of the Board of Governors, thanking the

Guard for its attendance, and congratulating the Company on its soldierly bearing.

Our especial thanks are due to Colonel Collett, who kindly allowed the band of the 88th I.R. to play on that occasion, and to those of the band who voluntarily gave up their afternoon to make our parade more successful by their harmony.

On the few occasions when we have been "on public view" we have always had the countenance of the Commandant, and we thoroughly appreciate the interest he has always taken in our Company. And if he is to leave the State he may be sure that our best wishes will go with him and his.

---

### The Eastern Districts Tour.

---

Without a doubt the great event of the year for the Cricket Eleven is the tour of the Eastern Districts. It is a pleasure looked forward to from the beginning of the year, as our country friends entertain us as only country people can. Our School team was not a strong one, and the Lefroy brothers were unable to go. However, we were greatly helped by the presence of two Old Boys, A. B. Montgomery and C. T. P. Ewing. The latter found he had a convenient business engagement at Wagin—our first stop—but, notwithstanding found time to play for us, as he did at our stopping places whither business, no doubt, led him. We were very glad of their assistance.

We left Perth for Wagin on Friday, December 13th. After a pleasant journey, as far as train journeys can be, we were met on arrival at Wagin by the Hon. C. A. Piesse and members of the Cricket Club. Half the team were motored out to the Piesse homesteads, the remainder went to the two hotels, the Wagin and the Federal. We have to give our heartiest thanks to Mr. Piesse and to the proprietors of these hotels for putting us up during our stay.

Saturday morning was spent by most in motoring around the district. In the afternoon we played the Wagin Club. In consequence of the Wednesday half-holiday being in force there, the Club could not get out their full strength, but what they got was quite enough for us. The School batted first, but, for some reason or other, could do nothing. The innings closed for 38, the only batsman to reach double figures was Corr (23 not out). Love, Tuhey and Rauth did the bowling for Wagin. Wagin replied with 63 (Smith 14, Williams 11, ea 10). Bowling, A. B. Montgomery, 4 for 36, and Davy, 2 for 2, bowled the best. The School went in again, and, thanks mainly to Dickinson (27) and A. B. Montgomery (12), reached 64, thus leaving Wagin 40 to win. This they accomplished with six wickets in hand. It was a most enjoyable match, and we have to thank the people of Wagin, especially the ladies, for their splendid hospitality.

We left Wagin shortly after midnight on Saturday, with many regrets. In fact, the only thing which sustained some members of the team was that we were going to places in telephone communication with Wagin. We disturbed the peace of Narrogin by arriving there at 3.30 a.m. It was necessary to travel by this train to meet the wishes of the Narrogin Club, that we should play a whole day match. We commenced play in the morning, and compiled the respectable score of 167. Mr. Priestly played well for 37. Dickinson, with a vigorous 43, and Steere, with a lucky 33, helped materially, while the only others to get double figures were Ewing (10) and A. B. Montgomery (13). The brunt of the bowling fell on Thompson (3 for 43), Grainger (2 for 33), and Scott (3 for 30). Narrogin then went in and passed our score with two wickets in hand, and eventually won by 44 runs. Hardacre played a careful innings for 59. Others to score were Grainger (20), Facy (25), Dowsett (17), Davis (14), McClure (11), Scott (30 not out). A. B. Montgomery got 4 wickets for 36, Dickinson 2 for 27 and Mr. Priestly 2 for 43. We were entertained at dinner in the evening by Mr. Scott at his house. After a sumptuous repast we spent a very pleasant musical evening. The School has perhaps no stronger supporter than Mr. Scott, and we owe him a heap of thanks for his many kindnesses. We walked into Narrogin at a late hour and slept the sleep of the just. We have to thank the proprietors of the Narrogin hotels and members of the Cricket Club for putting us up.

We left next day for Pingelly, at which place we arrived at mid-day. After dinner we played tennis, and in the evening patronised the local school concert. On the next day (Wednesday) we played Pingelly, gaining our one victory of the tour. The School batted first and made 138. The start was very unpromising, six wickets falling for 35. Then the Montgomery brothers became associated and carried the score to 105. A. B. Montgomery made 33 and S. Montgomery 64 by almost faultless cricket. The only other one reaching double figures was Davy (14). Pingelly then went in, and the first wicket fell for 14 ru. Then followed a sensational collapse. A. B. Montgomery and Dickinson were almost unplayable. The innings closed for 25. The bowling averages were: Montgomery, 48 balls, 0 maidens, 18 runs, 5 wickets; Dickinson, 42 balls, 4 maidens, 4 runs, 4 wickets. Montgomery finished up by getting the hat trick. Pingelly followed up and made 135. The chief run-getters were D. Smith (46), Camm (21) Sutcliffe (10), G. Pearce (11), and Humphrys (18). Davy, 2 for 17, Ewing, 4 for 17 and Mr. Priestly, 2 for 18. This left us 23 to win, which we obtained with the loss of two wickets. Mr. Priestly made 11 and A. B. Montgomery, not out, 12. We thus won by eight wickets. The day was very hot, and we all felt the strain of an afternoon in the field. The evening was spent at a strawberry fete in aid of the local church funds.

We left Pingelly on Thursday morning for Beverley. We give

our heartiest thanks to Mrs. May, Mr. Camm, the proprietor of the Exchange and Pingelly Hotels, and members of the Cricket Club, for their kindness in accommodating us. We played Beverley on Thursday. The School batted first and made 167. Mr. Priestly made 31, Davy 17, Corr 12, Smith 12, A. B. Montgomery 26, S. Montgomery 32 and Steere 26 not out. The chief bowlers were: Hall, 3 for 41; Anderson, 2 for 32; Brown, 3 for 34, and Walsh, 2 for 21. Beverley entertained us at dinner, and afterwards easily passed our score. Clarke played a splendid innings for 84 not out. Their total was 171 for four wickets. Others who made runs were Anderson 10, Weaver 13, Brown 30, and Lennard 24 not out. We left Beverley for Perth on Friday.

---

### Cricket.

---

At the end of last term four of our team left, namely, Corr, Parker, Dickinson and Mathews, and half-way through this term Montgomery and Allen left.

His Excellency, the Governor, kindly presented a bat for the Cup match batting average, which was won by Lefroy i. The Cup match bowling average was headed by Steere.

In all matches Lefroy i. again headed the list, with Steere at the head of the bowling. There were no brilliant scores made this season.

The trophy, generously donated by Mr. E. A. Randell for the most consistent field, was won by Lefroy i. In addition to the trophy for the first XI., Mr. Randell has given two prizes for the best batting average in the second XI., and the under 14 XI., respectively. The former was won by Thomson i., the latter by Scott. Mr. Scott has kindly given a trophy for the best bowling average in the under 14 XI., which was won by Moore ii.

The scoring in all first XI. matches was done by Mears i., who deserves a word of praise for the careful and neat way in which he has kept the book.

### CUP MATCHES.

#### v. C.B.C.

On the 27th of March we played our first Cup Match, against C.B.C. Lefroy won the toss and decided to bat, but we were unable to make many against the bowling of Porter and Campbell. Thomson ii. (24) was the only one to reach double figures out of a total of 59. C.B.C. made 104; Campbell (27), Kilfoyle (20), Mansfield (17), all batted well. Lefroy secured 7 wickets for 49. In our second innings we did not do much better, only reaching a total of 84; Saw and Davy batted well for 34 and 25 respectively, and were the only ones to make a stand. This left C.B.C. 40 to win, which they made for the loss of two wickets.

The following are the scores:—

## v. C.E.G.S.

The second Cup match was played against C.E.G.S., on April 1st. Blundell, the Grammar School Captain, won the toss and elected to bat. Owing to consistent scoring they gained 224 runs. Sinclair ii. (46), Blundell (32), Styles (32), Crawford (23 not out) were the chief scorers.

We started off with disaster. We had two wickets down for none, when Lefroy i. and Thomson ii. raised the score to 26 before the next wicket fell. The fourth wicket fell at 49. Then followed a collapse, owing to the fine bowling of Parks, the last five wickets fell for eleven runs. Lefroy i. (39) was the only one to reach double figures. The innings closed for 60 runs.

This left us still 164 runs in the rear, so we were obliged to follow on. Again the bowling proved too strong. We were all dismissed for 43. Scott (10 not out) made top score. C.E.G.S. thus won by an innings and 121 runs.

The following are the scores:—

## v. S.C.

The third Cup match was played on April 3rd. Scotch won the toss and batted first. Crawford played a fine innings for 96. The first three wickets fell for 41, then Crawford made a stand, and when the next wicket fell the score was 112. Hewby played a very fine innings for 62. The innings closed for 225 runs.

Davy and Thomson opened for us, but were soon dismissed. Saw (25) and Lefroy (86) then made a stand. Lefroy played a

fast and brilliant innings, making 86 in 50 minutes, including three "sixers" and twelve "fourers." When the fifth wicket fell, the score was 142. Then the tail failed to wag, and the last five wickets fell for two runs.

Scotch went in again, and, although Steere got the hat trick, they soon reached 143 runs. Richardson made 43, Hewby 30 not out (including two "sixers").

We then went in again with 224 runs to make in forty minutes (rather a big thing). Nine of our wickets fell before time for 52. Thomson ii. made 28 and Scott 13. Thus Scotch won by 81 on the first innings.

## PAST v. PRESENT.

This was the last match of the season, and was played on the W.A.C.A. Grounds on Monday, April 6th. The Present Boys batted first, and, owing to the good bowling of Davy and Ewing, their wickets began to fall rapidly, until Smith and Lefroy ii. got going, they were the only ones to reach double figures, Smith making 30 and Lefroy ii. 23. The Present Boys were all out for 107 runs.

The Old Boys went in and reached a total of 90. Loton batted slowly for 22 and Lukin (14 not out), Davy (13), Ewing (11) batted well.

C. J. B. Davy took four wickets for eleven, and Steere five for thirty-two.

The Present Boys went in again and were five wickets down for 26, when the Old Boys had enough.

The two teams were kindly entertained at lunch by Mr. Faulkner, at the conclusion of which Mr. Turnbull proposed Mr. Faulkner's health, at the same time expressing his regret on behalf of Old Boys that it was the last occasion on which he would be presiding as host, to which Mr. Faulkner feelingly responded.

The following are the scores:—

## THE DAY BOARDERS AND BOARDERS' MATCH.

On Wednesday, 4th of March, on the W.A.C.A. the Day Boys and Boarders played for the Day Boys and Boarders Challenge Cup. The match ended for a win to the Boarders by eight wickets. This was the first cricket match to be played for the Cup, which was held by the Day Boys from last term.

The Day Boys went in first and made 69. Montgomery played an extremely lucky innings for 52, Davy 11. Bowling, Lefroy i., 8 wickets for 35 runs.

Boarders went in and made 55; Steere (13), Lefroy (8), Smith (8). Bowling, Montgomery 5 for 21; Davy 4 for 19.

For the second innings Day Boys made 35. Montgomery (16). Bowling, Lefroy i., 3 for 9; Steere, 6 for 14.

Boarders lost two wickets for 50 in their second innings. Saw (20 not out), Lefroy i. (24 not out).

Thus the Cup for this term falls to the Boarders. Day Boys will have to wake up if they want to win it back next term.

## SECOND XI. MATCHES.

Wednesday, 25th of February v. Modern School, at Subiaco Oval. Lost by an innings and 49 runs. P.H.S., Scot (9 not out). P.M.S., Powell (18), Anderson (38), Rhys (20).

Saturday, 7th of March v. Christian Brothers College, at King's Park. Lost by 35 on the first innings. C.B.C., Riordan, 18. H.S., More i., 6.

Wednesday, 11th of March, v. Modern School, at Subiaco Oval. Modern School, 7 for 124; Evans (47), Powell (28), Simms (21), Thyer (16). High School, 27; Hungerford (6). Lost by 97 runs.

Saturday, 21st of March, v. Scotch College, at Claremont. Scotch College, 101; Birch (26), Black (12), Gawler ii. (38). High School 238; Thompson i. (7). Lost by 63.

Saturday, 28th March, v. Church of England Grammar School, at King's Park. C.E.G.S., 65; Hammersley (13), Hardy (13), Colebatch (12). H.S., 22; Thomson ii. (8). Lost by 43.

Captain of Second XI., Wilkinson; vice-captain, Forrest.

## GENERAL MATCHES.

Versus Modern School, at the Subiaco Oval on Wednesday 25th, February. Modern School batted first and compiled 65. Hammond batted soundly for 31. The School then went and made 79, thus winning by 14 runs. Steere (29) and Lefroy i. (20) both batted well.

Versus Mr. Parry's XI., at Guildford on Saturday, 28th February. Messrs Priestly, Davy, Riley and Corr played for the School. Mr. Parry's XI. batted first and declared when they were six wickets down for 141; Whiteman (36), Blundell (25), Sinclair ii. (21 not out), Parks (17), Sinclair i. (15). The School then went in and had compiled 123 for the loss of four wickets when time was called. The chief scores were Mr. Davy (55 retired), C. J. B. Davy (38 not out). Match drawn.

Versus Training College, on Wednesday, 11th March. Mr. Priestly won the toss and decided to bat, but we put up a poor stand, making only 49. Saw (27) and Mr. Priestly (10) were the only ones to make double figures. Training College went in and made 73, thus winning by 24 runs. The College very kindly supplied afternoon tea.

Versus Modern School, at Modern School grounds, on Saturday, 14th March. High School batted first and reached a total of 78; Montgomery (34) and Lefroy i. (22) were the chief scorers. Modern School went in and were unable to do much against the bowling of Davy and Lefroy i. They made 64; Hammond (22) and Spargo (18). We went in again and were two wickets down for 71 when stumps were drawn. Montgomery (26), Saw (33 not out) both batted well. Match won by 14 runs on the first innings.

Versus Mr. Loton's XI., at Upper Swan. The annual match against Mr. Loton's XI. was played at Upper Swan on Wednesday, March 18. This game is always looked forward to with great keenness, as, besides obtaining a whole holiday, Mr. Loton's kindness and hospitality is proverbial. We left Perth by the early morning train and were met at Upper Swan station by "Piggy" Loton, who showed us the way to the ground. We were soon changed—the trees by the roadside serving as an efficient, if somewhat cool, dressing room—and were ready to start play by 10 a.m. Winning the toss, the School opened their innings with Mr. Priestly and Saw i. These two carried the score to 24 when Saw, who evinced reluctance to leave the wickets, was given out from what he considered was a "bum" ball. The next six wickets fell quickly, and the score stood at 41 for 7 wickets when a partnership by Steere and Maitland produced 22 runs, and the whole side was out for 81. Loton and Devereaux opened for Upper Swan, and so well did they resist the bowling that at lunch time they were still together and had put together 30 runs in an hour and a quarter. Lunch was served under the trees, and the School, despite a case of grapes consumed during the morning, did full justice to the excellent spread. Watermelons of all shapes and sizes were for a time in evidence and were consumed in the manner which seemed best to each individual. On resuming cricket, Loton and Devereaux were soon dismissed, but a partnership by Rev. A. Burton and Barker carried the score to 109, and the last wicket fell with the score at 152. Lefroy, 4 wickets for 38; Steere, 2 for 15; and Davy, 2 for 40 were our best bowlers. Being 71 runs behind, the School commenced their second venture with the intention of scoring quickly, and Steere, Davy, Mr. Priestly, Saw and More, all making runs, the innings was declared closed at 137 for seven wickets, thus leaving Upper Swan 67 runs to make to win. These they obtained with the loss of three wickets, the winning hit being made after the sun had set and with darkness stealing o'er the land. Then, having thanked Mr. Loton for his hospitality, we were driven the ten miles to Midland Junction, where we caught the 8.30 train, having spent one of the most enjoyable days of the season.

## Characters of the First XI.

- LEFROY, i.—Has led his team very well during the season. He is a fine forcing batsman, with strokes all round the wicket, and is especially strong in driving. He has not made as many runs this season as expected, but this is probably due to responsibilities of Captainship. Much improved in bowling, and has been the most consistent wicket-getter of the side. A safe catch and splendid field.
- DAVY, C. J. B.—A right handed batsman and left handed bowler. He has a good defence and can hit hard, but cannot resist pulling straight balls. On his day, he is a dangerous bowler, but has no luck and rowing practice has taken away much of his sting. A good catch, but slow in the field.
- STEERE.—A left handed batsman, with good strokes on the off side. Has a strong defence, but is impatient to score. He must get over his desire to pull good length balls. A good change bowler, who uses his head. He is a brilliant cover-point and his picking up and returns are very smart.
- SAW. i.—A strong hard hitting batsman, with plenty of defence, especially good at cutting and driving. He is quite a young player and should develop into a first class cricketer. He can field smartly but suffers from tiredness.
- SMITH.—A left handed batsman, without much style. He has a fair defence. He kept wicket very well for a part of the season. Is a smart and safe field.
- LEFROY, ii.—A promising right handed batsman, with good off drive. His cutting is very weak at present, and he must learn to get over the ball. A smart field and fair change bowler.
- MAITLAND.—A left handed batsman, with some good strokes on the off. He has no defence and plays best on matting. He kept wicket the latter part of the season. A fair field.
- THOMSON, ii.—A very safe batsman, with some good strokes. He is quite new to first XI. cricket, but should develop into a sound batsman. Is a good field and returns well.
- MORE, i.—A very much improved batsman. He scores mostly on the leg side at present, and must try and use his wrists more. Is a good change bowler and very smart in the field.
- THOMSON, i.—A right handed batsman, with very stiff and rustic style. A good change bowler, who must learn to vary his pace. Much improved field, but still picks up badly.
- WILKINSON.—A good catch and smart field. His batting is at present weak.
