## SCHOOL NOTES

On 1st July, His Grace the Archbishop, at the invitation of Dr. Buntine, very generously gave us some of his time in order to speak to the boys.

The Prefects' Dance, which was admirably arranged and carried out, was held on 19th August. The School Hall in its decorations of light blue and dark blue streamers presented a gay appearance, which, with a good orchestra, combined to make the evening a success. Due appreciation is given to those who in many ways helped in the work of preparation.

During the term the Rev. N. Richards, the minister at the Trinity Congregational Church in St. George's Terrace, spoke to the school on the subject of "The Principles of Sport as Applied to Real Life."

The Boxing Tournaments were held on the night of Saturday, 29th October, in the School Hall. Mr. P. Bastow very kindly consented to referee the bouts, which were fewer than usual.

Before the close of the term Mr. Saw and Mr. James addressed the older boys of the school concerning the activities and membership of the Old Boys' Association, and urged every boy when he left school to become a member. Until a boy has reached twenty-one years of age, his first year of membership is free; after this first year, he may become a financial member, for which the subscription is 10/6.

Messrs. Hantke and Treacy visited the school to ask any boys interested to join the Old Boys' Athletic Club. They gave some account of the club and its meetings, and mentioned that it was intended that the club should take part in "A" grade competitions. Present boys, if they so desire, may become members before they leave school.

On the night of the 8th of December, parents of boys and friends of the school witnessed the annual Drill Display given by the boys under the direction of Mr. Wells.

The grounds and school buildings were brilliantly illuminated with coloured lights, which very effectively showed up the performers, who were all in white. The various squads of well-drilled boys, as well as the individual performers on bars and other apparatus, did their work in perfect style. One of the most effective items was club-swinging with lighted clubs. For this item all the electric lights were put out. Mr. Wells was responsible for all the success of the evening, for it was due to the selection and artistic arrangement of items as well as to his wonderfully successful methods of training.

On the 27th February, the Old Boys of the School held their Annual Old Boys' Day. In the morning over forty ex-scholars, after assembling on the lawn, marched with the present boys of the School into the hall, where, after morning prayers, the Old Boys' answered to a Roll Call, at the same time stating the years during which they were attending the School. Later, all present joined in singing "Forty Years On," and the School Song.

After the Present Boys had cheered the Old Boys, who returned the compliment, Dr. Buntine made a brief speech, in which he remarked on the cloud which was cast over the prospects of the day by the recent death of Mr. T. A. L. Davy.

Before closing, the Doctor expressed the hope that at some time in the near future it would be possible to conduct this annual gathering of Old Boys wholly at the School.

In the afternoon, the boys were given a half-holiday in order to see the cricket match at the W.A.C.A.

The Old Boys who were present in the morning were:—

S. Chipper - - -	1878-1881	G. Burgoyne - - -	1922-1930
H. Rowe - - -	1896-1902	M. Parry - - -	1924-1931

C. Kenrick - - -	1928-1932	D. Law - - -	1916-1925
G. Lapsley - - -	1930-1932	R. Sewell - - -	1920-1926

At the end of last year Mr. Glenister and Mr. Honner, who had been with us as Masters for one and four years respectively, left the School. To fill the vacancies Mr. Purvis and Mr. Marshall joined the Staff. We extend to them a hearty welcome.

Mr. Parker, who had been with the School for quite a long time, finding that his business left him insufficient time, resigned his position as Boxing Instructor. Mr. E. Hickling has been appointed to carry on the Boxing Classes.

On Wednesday morning, the 29th March, four new prefects were inducted. Archdeacon Riley, a very well-known Old Boy, gave a short address, in the course of which he laid emphasis on the importance of the work of prefects in upholding the reputation and tone of the School.

At the conclusion of this address, each of the four boys repeated the customary promise after the Headmaster. Having been presented with their badges by the Archdeacon, and congratulated by the Masters, they took their place on the platform with the three other prefects.

D. Clement, P. Clarke, D. McDaniel, and R. Neale are to be congratulated on their appointment. L. Gray is also to be congratulated on being appointed Captain of the School.

Mr. A. H. Dickson, at the invitation of Dr. Buntine, visited the School, and, taking as his subject "The Heritages of Youth," gave us a very stirring address. He enumerated the heritages as Hope; Friendship, which, when begun at school, is more lasting and intimate than any begun later in life; Love and Romance, which bring new life to a man, and are a tonic

to a humdrum existence; and Faith, Experience—which youth is too inclined to disregard—and Opportunity, which is the greatest and most golden. Opportunities when we are young are numerous, and should be grasped immediately, because as we grow older they become fewer and fewer.

Mr. Dickson concluded his address by appealing to us to develop, sustain, and retain these heritages to the best of our ability.

This last sentiment was echoed by Mr. Newbery, who, while proposing a vote of thanks to Mr. Dickson, remarked on the necessity of our preparing ourselves for the stirring times in which we are privileged to live.

During the first term, Lieutenant Walton, of the Royal Navy, visited the School in order to give any boys interested some information concerning the career and training awaiting the boys selected as officers for the Navy. His speech, in which he covered most of the phases of the training of young officers, was enjoyed by all.

On April 28th, Mr. Pratt, the travelling Secretary of the Australian Student Christian Movement, visited the School, and spoke to the boys for a few minutes concerning the aims and activities of the Movement. In conclusion, Mr. Pratt spoke of the conflict which is going on in the world around us between Christ and self, the result of which means the life or death of society, and urged any boy who felt later on that connection with the Movement would be of benefit to him should join.

Near the end of first term a tennis team from School was entertained by Guildford Grammar School. The teams consisted of three masters and five boys, and a most enjoyable afternoon was spent. We take this opportunity of thanking Mr. Freeth, the masters and boys for their kind hospitality.

---

## SPEECH NIGHT

The concluding function of the school year, the Annual Speech Night, and Prize-giving, was held in front of the school on the 9th of December, with a good attendance of parents, friends and old boys. Before submitting his report, Dr. Buntine spoke of his intention to establish classes in the school for the teaching of agricultural science, farm bookkeeping, and practical geometry.

Prior to presenting the prizes, Sir James Mitchell commended the headmaster's proposal.

A vote of thanks to Sir James, which concluded the evening, was carried on the motion of Mr. R. O. Law, one of the governors.

### Headmaster's Report

It is my privilege to present the annual report of the 74th year of Hale School. It is, in effect, my first report as headmaster, for at this time last year I was to some extent a stranger among you, knowing but little of the school's past, yet with the experience of the last term, and feeling very hopeful for the future.

At the end of my first year, it seems right that you should have from me some statement of what is being aimed at by those of us to whom you have turned over a large share in the training of your sons. I say a share advisedly, because most of that training must be carried out by you. In a school such as ours, where the majority of boys are day boys only, a small proportion of their time is spent at the school. It is therefore the more essential that your aims should be similar to those of the school and that parents and school should work together in complete harmony.

The purpose of the school can best be expressed by pointing out that our Australian educational ideals are very definitely the children of the English tradition, which is, in origin at any rate, not any thought out, logical scheme of development, but simply a growth out of the life of the nation. Right down the centuries, from the days of King Arthur, when the knight was instructed in the school of chivalry, through the period when Dr. Arnold, of Rugby, laid such emphasis upon the training of the Christian gentleman, to our own time, the great aims of English education have been character training and the ideal of public service. To attempt to describe to you how that training is carried out would be quite impossible, as it was for Dr. Norwood, of Harrow, to reply to the question put to him by a Japanese: "How do you teach public school spirit?" The public school spirit is not teachable. It is not a subject of the school curriculum. There are no text books. It is an atmosphere in the school, and it develops a poise in the members of the school. Further, it is indefinable. Its basis is character, which can only be guided and developed. That development takes place slowly through the years, with its basis in religion (especially in religion as the background of moral training), in games and open air prowess, in the discipline of such school institutions as the cadet corps, in the training through the sense of membership of a community. Discipline is an essential element, not discipline of the barbaric and brutal kind of 100 years ago, but

a moral discipline, at least in part self-imposed, and exercised in a school largely through its boys; a real discipline which is combined with a real freedom.

Important, too, among the elements which help to build the character is athletics. It is unfortunate that there are so many who hold the view that all sport is competitive, designed to demonstrate the superiority of one team over another, or one individual over another. The greater part of the value of games is lost when, for the sake of those games, we lose sight of the reasons for playing them. What does it matter that a team may win or lose, provided that it has played the game and played it hard? What the schools have been striving for is, through games, consciously to implant certain ideals of character and conduct. It is not the result but the game that counts, and the spirit in which it is played. We are in grave danger of losing much of what the English tradition as given us. Never in the history of the world was there greater need for the exercise of those attributes which we deem highest in civilised man—self-sacrifice, co-operation, clear-thinking untainted by self-interest, the suppression of class-consciousness and of individual greed.

When we look back over the history of Hale School, we find that its old boys were not lacking in the ideal of public service. Many of the greatest names among the pioneers and benefactors of this State are the names of old Hale boys. I mentioned the fact last year that a large number of old boys are serving in the Parliament of this country. This year another old boy has been added. I do not want to say more of the past to-night, than to express my gratitude for the inspiration and example old boys are giving to those who are now at school, and also to convey to the Old Boys' Association my great appreciation of the work they have done for the school. At the same time I am not unmindful of the kindly sympathy and generous assistance of parents, governors and other friends of the school.

You, Sir James, show a spirit of optimism in your faith in the future of this State. A school such as ours is a State in miniature, and the same faith which inspires you also inspires me, a faith not lightly acquired, but one which is forced upon me by what I have learned of Hale School during my first year as its headmaster. There is much in evidence to show that my confidence in the school is not misplaced. During the past year, in spite of difficulties, we have rather more than held our own both financially and from the point of view of numbers. These latter have shown a slight increase on those of last year, and I believe I am not unduly hopeful in looking for a further increase next year. Indeed, there is every indication of it.

## LIFE SAVING TEAM

P. CLARKE, D. CLEMENT

MR. WELLS

L. GRAY, D. McDANIEL

Regarding the work of the school this year, I intend to say only this, that it has been satisfactory throughout. I want to thank the members of the staff who have worked untiringly to give their best to the school. Never in all my experience have I worked with such a happy family of colleagues, a condition which does much to make the life of the school as a whole a happy one. I want especially to thank Mr. Newbery for his whole-hearted support and valuable assistance. I would like also to welcome among us Mr. Allan, who came at the beginning of the year to take charge of the senior Latin and to be form master of IV form, and Mr. Glennister, who has had charge this year of leaving and junior certificate French.

That the work of the school during 1931 was of high quality, is shown by the public examination results of that year. Ross Weatherburn won the Mathematics Exhibition with distinction in mathematics A and B, applied mathematics, physics and chemistry. W. R. Cuthbertson also distinguished himself by passing in eight subjects and gaining distinction in five of them—French, Latin, mathematics, A and B, and applied mathematics. It was most unfortunate that the grouping of his subjects, together with the fact that he was very unwell during the examinations, prevented him from gaining an exhibition. Both of these boys have done well at the University this year. At the University of Western Australia the following passes have so far been published this year:—Engineering: First year: J. Burnett, A. Dimmit, A. Ellis, M. Utting; second year, A. Hill, F. le Souef, D. Mills; third year, N. Mitchell, D. Morrison, A. Weatherburn, D. Weatherburn. Science: First year, R. Cooke, W. Cuthbertson (distinction in physics), K. Weatherburn (distinction in mathematics and physics); third year, R. Allen, K. Van Raalte. Medicine: First year, A. G. Davies, C. Jones. Agriculture: Second year, B. Williams. Arts: M. Levinson. The law results have not yet been published. H. Trenaman, who secured his M.A. degree last year, has this year been awarded a Hackett studentship which entitles him to one year of study overseas and to a further three years in Western Australia. His special line of study will be the philosophy of religion, with research into the history and nature of religious experience. Kemp Robertson has been awarded the Orient Steamship Company's travelling scholarship, and he will spend a year in England in a special study of electrical engineering. At the Waite Institute, Adelaide, C. Gurney has taken his master of science degree. At Melbourne University, A. J. Gray has passed his second year in medicine and E. Campbell-Wilson is doing his fourth year, but his results are not yet available. Arthur Merrith, who passed his final medicine examinations with honours last year, is a resident medical officer at the Melbourne Hospital. R. Officer is a

resident medical officer at the Prince Alfred Hospital, while Mortimer Tymms, who recently took the degree of master of surgery, is doing further work at the Children's Hospital, Melbourne. J. Scurlock has passed in finals in pharmacy. I would like to mention here, too, that Mr. Drake has passed in economics at the University of Western Australia, and Mr. Honner has passed his fourth year in law, thus completing his law course.

At the public examinations in 1931, the following passes were recorded:—Leaving Certificate: Nine full passes (of these eight matriculated and are now at the University). At the junior standard, there were 13 full passes, and several others completed the junior certificate by passing the necessary extra subjects. This year there has been a larger entry than usual for the junior certificate, but eight only sat for the leaving certificate. For the results we must, of course, wait until January. Before leaving the scholastic side of the school life, I wish to offer my congratulations and those of the school to D. L. Thomas, whose splendid work this year won him the distinction of being dux of the school.

In sport, the school's strength at present appears to be swimming and athletics. We won the inter-school swimming sports by a comfortable margin from Scotch College. Our life-saving team won the Law Shield for the tenth time in succession. In the athletic sports competition we put a fine team into the field. They acquitted themselves with full credit to their school, and were unfortunate in meeting an even finer combination from Christian Brothers' College. Edgar Dunn proved himself the inter-school champion, and his winning of the mile under adverse circumstances was a particularly plucky and fine performance. In neither cricket nor football did our teams perform well, though credit must be given to Messrs. Langley and Rowlands for their efforts to improve the teams. In football we were last and in the Darlot Cup competition third, the team recording a fine performance against Christian Brothers' College, who made 188. That this score was passed with the loss of only three wickets shows that the team in its other matches did not display its full capabilities. In this match, W. Stubbs scored 88 and Ken Dakin 70.

The shooting match just completed provided a victory for Guildford Grammar School, who beat us by the narrow margin of 11 points.

The debating society continues its successful career and junior debates have now become a recognised part of the society's work. To Mr. Parlato our thanks are due for his frequent visits to the school to instruct the camera club.

In regard to rowing, an effort is being made to improve our future crews. Many boys have been under instruction this term and, by this means, we hope not only to improve the standard of rowing, but to make an earlier selection of the school crew so that they can go in for a more complete course of training. In the annual race our crew trained well under Mr. P. Smith, and though they came third in the race, showed plenty of grit and determination. To Scotch College we offer our congratulations on their fine win.

You will notice in front of you a beautiful honour board recording the names of those who have been dux of the school. This is the third such board, and has been presented to the school by the prefects of 1932. Last year Mr. H. S. D. Rowe presented the Rhodes Scholar Board, and the prefects of 1931 the Captains' Board. Both of these are now hung in the hall, where the dux board will also be placed shortly.

I would like here to express my appreciation of the work of the prefects this year. They have carried out their duties with courage and fidelity, and have been jealous always for the good name of Hale. I want to mention especially the fine lead which has been given by John R. Ambrose, who is a most worthy recipient of the Aubrey Hardwicke memorial prize.

Early in the last term of this year the whole school was shocked to learn of the passing of one who had been a member of the junior certificate form since the beginning of the year. The death of Morris Thomas was a severe blow, for he had in the short time with us endeared himself to us all. A charming personality, he was respected by both masters and boys.

---

### Prize List

School prizes were awarded as follows:—Preparatory forms:—I., Progress. B. Bruce and L. A. Jackson; II., special industry, A. N. Raphael; dux of form (gift of Mrs. E. Knapp), C. O. Riley; III., Special Industry, M. C. Smith; third, C. Hale; second, R. C. Godfrey; dux of form, D. H. Bromfield; next in form, S. Hales, R. B. Curlewis, E. P. Purser, R. Johnson, I. E. Fethers, S. J. McGibbon. Junior School:—Special Industry, W. D. Parkinson; third, T. A. S. Davy; second, D. H. McWhae; dux of form, H. Hale; next in form, G. S. Keys, W. J. Eggleston, L. A. P. Sadler, D. R. Burgoyne, L. C. Bashford, R. H. Ihlen. IVa:—Fourth, A. E. Parry; second, I. R. Rae; dux of form, R. L. Ewen; next in form, J. M. Newman, M. de C. Clarke, D. J. K. Tregonning, J. T. Irvine, W. Cairns-Hill, N. M. V. Duggan. Middle School:—Special Industry, M. N. Brearley; fourth, A. Cuthbertson; third, P. M. Wreford; second, H. C. Shipway; dux of form, C. C. Clarke; next in form, I. J. Beaton, R. F. L. Hammond, E. H. Burgoyne, D. B. C. Smith, W. J. Mews. V (lower):—Fourth, L. V. H. Birt; third, E. H. Wheatley; second, R. W. Pickering; dux of form, P. J. Knapp; next in form, R. J. Carr, E. S. Clarke, J. B. Craig, J. H. Durkin, B. McK. Ferguson, G. M.

Royle. Senior School:—Vb (junior certificate):—Third, H. R. Bott and W. B. Stubbs (aeq.); second, D. C. Taylor; dux of form, C. J. Treacy; next in form, G. J. Lapsley, C. H. Cornish, W. C. Wickens, J. A. Guy, R. E. Moran. Va (junior certificate): Fifth, K. M. Pescod; fourth, B. Murray; third, I. D. Hibble; dux of form (gift of Old Boys' Association), F. H. Young and C. M. White (aeq.); next in form, R. K. Pearse, F. M. Knapp, E. D. Cullen, P. W. Atkins, P. G. Clarke, P. R. Jacoby. Vlb (sub-leaving):—Third, R. H. Cuthbertson; second, R. J. Smith; dux of form (gift of J. G. A. Rae), F. R. Neale; next in form, D. Samson, R. Filmer, R. G. Elliott. VIa (leaving certificate), history (gift of Headmaster): J. P. Guilfoyle; second aeq. (gifts of E. St. Barbe More and Professor E. de C. Clarke), L. P. Gray and H. H. Neale; dux of school (gift of Old Boys' Association), D. L. Thomas. Captain of School: J. R. Ambrose.

## Sports Trophies

*Sports Trophies* were presented to the following:—Athletics: R. McWhae (1st, 75 yards' championship under 10); H. Hale (1st, 75 yards' championship under 11); E. Parrant (1st, 75 yards' championship under 12); I. Beaton (1st, 100 yards' championship under 13); J. Craig (1st, high jump under 14); P. Oliver (2nd, under 14 championship); D. Tregonning (1st, under 14 championship, 2nd under 15 championship, 1st, 100 and 220 yards under 14, interschool sports); G. Turner (1st, under 15 championship); N. Russell (1st, high jump under 16, 2nd high jump, open); D. McDaniel (1st, high jump and 120 yards hurdles, open, 2nd school championship, 1st high jump open interschool sports); E. Dunn (1st, school championship, open, 1st, 880 yards and mile, open, interschool sports); G. Harris (1st Old Boys' 880 yards handicap); T. Treacy and G. H. Gwynne (equal 1st Old Boys' Cup); I. Way (2nd, 100, 220 and 440 yards and under 16 championship); C. Treacy (1st, long jump, open, 2nd, under 16 championship); P. R. Jacoby (1st, under 16 championship, 1st, 100 yards, equal 1st, 880 yards under 16 interschool sports); L. Gray (2nd, mile, 880 and 440 yards championship, open); D. Fethers (1st, 220 yards, 2nd, 100 yards championship, open); A. E. Parry and W. Cairns Hill (junior doubles tennis handicap); G. Raphael and B. Murray (senior doubles tennis handicap); L. P. Gray (champion singles); D. Thomas (school champion gymnast); R. Neale (school champion shot); H. L. Kennedy (school champion boxer).

*Swimming*.—L. E. Fethers (1st, under 11 championship); D. T. Tregonning (2nd, under 13 championship, 2nd, under 14 championship); P. C. Oliver (1st, under 13 championship, 1st, under 14 championship); R. G. Fox (equal 2nd under 15 championship, 6 points in school championship); P. R. Jacoby (1st, under 15 championship); P. G. Clarke (3rd, school championship); W. A. Mortimer (1st, under 16 championship); D. McDaniel (2nd, under 16 championship, 2nd, school championship); W. A. Mortimer (1st, school championship); A. J. Dimmitt (1st, old boys' handicap); H. R. Honner (1st, Masters' race).

## PUBLIC EXAMINATION RESULTS

## Leaving Certificate, 1932

The following boys obtained their certificate:—

- AMBROSE J.\*—English (D), Mathematics A, Mathematics B.  
GRAY, L.—English, Mathematics A (D), Mathematics B (D),  
Applied Mathematics, Chemistry and Physics.  
NEALE, H.—English, Mathematics A (D.), Mathematics B,  
and Geography.  
RAPHAEL, G.—English, Chemistry, Applied Mathematics,  
Physics and Mathematics A.  
THOMAS, D.—English, Latin, French, Mathematics A, and  
Physics.

The following obtained one or more subjects:—

- FEILDER, C.—English, Mathematics A, Mathematics B.  
GUILFOYLE, P.—English and Latin.  
NEALE, F. R.—English, French, and Physics.

## Junior Certificate, 1932

The following obtained their certificate:—

- ARNOLD, L.\*—Chemistry.  
ATKINS, P. W.—English, History, Mathematics A, Mathematics  
B, Chemistry, Physics, and Commercial.  
BANKS, L.—English, History, Mathematics B, Physics, and Com-  
mercial.  
BOTT, C.\*—French.  
CLARKE, P.—English, History, Geography, Drawing, and Com-  
mercial.  
CULLEN, E. D.—English, Latin, Mathematics A, Mathematics  
B, and Commercial.  
CULLEN, F.—English, Geography, Mathematics A, Mathematics  
B, and Commercial.  
FETHERS, O.—English, History, Geography, Mathematics A,  
Mathematics B, Drawing, and Commercial.  
HIBBLE, I.—English, History, Geography, Mathematics A,  
Mathematics B, Drawing, and Commercial.  
KENNEDY, H.—English, French, Latin, Mathematics A, Mathe-  
matics B, Physics, and Chemistry.  
KNAPP, F.—English, History, Mathematics A, Mathematics B,  
Physics, Chemistry, and Drawing.  
MORAN, R.—English, Latin, Geography, Mathematics B, and  
Music.  
MURRAY, B. L.—English, Latin, French, Mathematics A, Mathe-  
matics B, Physics.

- NEALE, F.\*—Chemistry.  
 PESCOD, K.—English, Mathematics A, Mathematics B, Physics, and Chemistry.  
 RILEY, W. L.—English, History, Geography, Mathematics A, Mathematics B.  
 SMITH, R.\*—Chemistry.  
 STEWART, K.\*—Chemistry.  
 STUBBS, W.—English, History, Mathematics B, Drawing, and Commercial.  
 WHITE, C. M.—English, French, Latin, Physics, Chemistry, Mathematics A, Mathematics B.  
 YOUNG, F.—English, History, Mathematics A, Mathematics B, Physics, Chemistry, and Drawing.

\* Took Examination 1931.

These boys obtained one or more subjects:—

- ARMSTRONG, H.—History and Mathematics B.  
 BOTT, K.—History, Geography, and Drawing.  
 CLEMENT, D. M.—Drawing.  
 CORNISH, C.—Mathematics B, and Commercial.  
 DAKIN, K.—Woodwork.  
 GERLOFF, D.—Latin, History, and Mathematics B.  
 GUY, J.—History, Mathematics B, and Physics.  
 JACOBY, P.—Mathematics B, Physics, and Drawing.  
 KENWICK, A.—Mathematics A, Mathematics B, Physics, Chemistry, and Drawing.  
 LAPSLEY, G.—English, History, Geography, and Drawing.  
 LITTLE, R.—Mathematics B, and Commercial.  
 MOORE, F.—Mathematics B, Commercial, and Woodwork.  
 MORTIMER, W. A.—Physics, Drawing, and Commercial.  
 MACDANIEL, D.—Drawing and Woodwork.  
 PARRY, O.—Mathematics B, and Drawing.  
 PEARSE, R.—History, Geography, Mathematics A, Mathematics B.  
 PEARSE, R.—History, Geography, Mathematics A, Mathematics B, Drawing, Commercial, and Woodwork.  
 RANDALL, G.—Drawing.  
 ROGALASKY, S.—Commercial, and Woodwork.  
 TAYLOR, D.—English, Mathematics B, Drawing, and Music.  
 TREACY, C.—Mathematics B, Physics, and Chemistry.  
 WAY, I. L.—Mathematics B, and Drawing.  
 WEBSTER, P.—Mathematics B.  
 WICKENS, W.—History, Geography, and Mathematics B.

We all wish to welcome Mr. Purvis, who has taken up his duties in the house. We also welcome the new boarders, Altorfer, Roberts, E. S. Clarke, Illberry, Altham, B. Clark, M. Clarke, Mitchell, Muir, Wheatley, F. Craig, J. Foulkes-Taylor.

The "New Boys' Boxing," which was held on the 25th April, provided plenty of amusement and black-eyes for the boys.

A motion picture of the Inter-School Athletic Sports, the Cadet Camp and a few comedies, was shown by the Headmaster. This was greatly appreciated and we hope to see some more in the future.

The boarders received the greatest treat of the term in being permitted to go to the pictures on Saturday evening after the success in the rowing. We consider this a great honour, and thank Mr. Langley accordingly.

During Easter several of the boarders went camping at Dwellingup with Messrs. Langley, Drake and Purvis. Others went to Manjimup in the cricket team, under the supervision of Mr. Rowlands.

The house prefects this year are Dick Cullen, Ron Pearse, and Dan McDaniel.

One of the boys, J. Wheatley, was unfortunate enough to have an operation for appendicitis. We are pleased to say, however, that he has left the hospital, and will be able to spend the holidays at home.

Altogether this has been a remarkably pleasant term, and the time seems to have flown.

The prefects perform their duties quietly and efficiently, and the boys appreciate them, though they often grumble at them.

## SALVETE

G. N. Altorfer, W. L. Altham, J. D. Arnold, M. L. Broun, F. L. B. Craig, D. M. Cowan, G. H. Day, T. Foulkes-Taylor, V. Guy, B. Gladish, H. A. Garland, D. Goyder, A. A. Hatfield, B. L. Hancock, P. H. Harrison, J. B. Illberry, P. M. Jeffrey, O. Johns, B. A. Kenny, J. Meares, W. H. P. Mitchell, J. F. E. Mitchell, I. S. Miller, J. W. A. Meredith, E. G. Miller, L. H. Mellor, C. R. Mitchell, A. Muir, D. G. McLeod, J. E. McLarty, K. G. Northover, R. B. M. Nielson, L. E. Nathan, A. W. Pead, H. C. Robinson, G. M. Roberts, R. W. C. Roberts, J. F. Wheatley, J. W. Walker.

## VALETE

- J. R. AMBROSE (1923-32)—Prefect, 1930-31-32; Captain of School, 1932; Junior, 1929; Leaving, 1932; Athletics, 1928-29-30-31-32; 1st XVIII, 1930-31-32; Captain, 1932; Shooting, 1930-31-32; CYGNET Committee, 1930-31-32; Sports Council, 1931-32; Debating Society, 1930-31-32; Swimming, 1929.
- D. L. THOMAS (1931-32)—Prefect, 1932; 1st XVIII, 1932; Athletics, 1932; CYGNET Committee 1932; Editor, 1932; Debating Society, 1931-32; Secretary, 1932; Leaving, 1932; Dux of School, 1932.
- C. FIELDER (1930-32)—2nd XVIII, 1932; 2nd Crew, 1932; CYGNET Committee, 1932; Debating Society, 1932.
- R. G. ELLIOTT (1930-32)—1st XVIII, 1931; 2nd XI, 1931-32; Junior, 1931; 1st Crew, 1932.
- E. W. DUNN (1930-32)—Prefect, 1932; 1st XVIII, 1930-31-32; 1st Crew, 1932; Athletics, 1930-31-32; Captain, 1932; 2nd XI, 1931-32; 1st XI, 1931; Sports Council, 1932.
- R. HALL (1926-32)—Prefect, 1932; Junior, 1931; 1st XI, 1930-31-32; Captain, 1932; CYGNET Committee, 1932; Debating Society, 1932; Sports Council, 1932.
- P. W. WEBSTER (1929-32)—Prefect, 1932; Junior, 1931; 2nd Crew, 1932; CYGNET Committee, 1932.
- J. CLIFTON (1929-32)—Junior, 1931; CYGNET Committee, 1932; Debating Society, 1932.
- I. WAY (1929-32)—Athletics, 1929-30-31-32; 1st Crew, 1932; 2nd XVIII, 1932.

- S. ROGALASKY (1926-32)—1st XVIII, 1932; 2nd XI, 1932; Swimming Committee, 1932.
- W. MORTIMER (1928-32)—Swimming, 1932; Life Saving, 1932; 2nd XVIII, 1932; Swimming Committee, 1932.
- P. G. CLARKE (1928-1933).—Prefect, 1933; Junior, 1932; Swimming, 1931-32-33; Life Saving, 1931-32-33; Captain, 1932-33; 1st XVIII, 1932-33; 2nd XI, 1932-33; Captain, 1933; Sports Council, 1932; CYGNET Committee, 1933.
- C. GARLAND (1931-32)—1st XVIII, 1931-32.
- B. STONE (1932)—1st XVIII, 1932; Shooting, 1932.
- D. GERLOFF (1931-32)—1st XVIII, 1932; 1st XI, 1932.
- H. T. ARMSTRONG (1925-32)—Junior, 1932; Shooting, 1932.
- A. C. KENRICK (1928-32)—2nd Crew, 1932.
- K. PESCOD (1930-32)—Junior, 1932; 1st XVIII, 1931-32; 2nd XI, 1931-32.
- F. YOUNG (1930-32)—Junior, 1932; 1st XVIII, 1931-32; 2nd XI, 1931-32.
- T. HIBBLE (1931-32)—Junior, 1932; 1st XVIII, 1931-32; Shooting, 1931; Champion Shot, 1931; 2nd XI, 1932; Athletics, 1931.
- P. AYLWIN (1929-32)—Athletics, 1929-30-31.
- R. FETHERS (1925-32)—Athletics, 1927-28-29-30-31-32; 1st XVIII, 1931; Junior, 1932.
- W. STUBBS (1930-32)—Junior, 1932; 1st XVIII, 1932; 1st XI, 1931-32.
- E. O. HUMPHRIES (1929-32)—2nd Crew, 1932.
- H. NEALE (1929-32)—Junior, 1930; Leaving, 1932.
- V. F. LYNAS (1930-32)—2nd XI, 1932; 2nd XVIII, 1932.
- L. ARNOLD (1929-32)—Junior, 1931.

The following boys also left:—

D. Sampson, F. Thompson, O. Parry, B. Woods, J. Guy, Waugh, P. Mitchell, J. Simper, M. Freedman, R. Way, J. Duggan, C. Hicks, T. W. Edmonds, J. Jackson, Drake-Brockman, L. Lapsley, \*G. Nockolds, J. Rae, C. White, F. Knapp, M. James, Forrest, R. Moran, G. L. Lapsley.

\* Since returned.

## SCIENCE NOTES

The first important piece of scientific research this year was the induction of Prefects. Owing to the unskilled handling it received at the hands of the authorities the induction coil has been out of commission ever since.

The Lab. was lately infested by a plague of mice; no traces have been encountered, but we know it was a plague, for one day a mouse appeared during a lecture in chemistry. A number of scientists have endeavoured to annihilate the intruders (or intruder). Many tempting dishes of liquid glucose and arsenic have been tried without success. It is thought by many that success can only be achieved if we procure an instrument known as a "cat."

We have come to the conclusion that the modern instrument maker does not understand his job. Owing to the failure of a certain member of this trade to mend some of the balances, we have been compelled to learn the trade ourselves. After much waste of time and patience, it has been discovered, that like Rome, instrument makers are not made in a day.

The alum experiment is again showing hostilities towards the new recruits. Many have decided that the Lab. is inadequately stocked with filter papers.

This year's scientists have been supplied with a kaleidoscope, which has been the cause of much heated controversy. Some believe that it is impossible to obtain any one pattern twice, while others hold that one cannot get two patterns once. No satisfactory conclusion has yet been reached, but it is hoped that in the distant future the matter will be formally dealt with by the Debating Society.

We have been disturbed lately by a rather attenuated member of our company who has produced several pieces of rock in which are the imprints of a chain. These rocks were found in the vicinity of Cottesloe, and many super-optimists have endeavoured to trace their origin. Some say the chain was part of Captain Cook's belongings, while it is thought by some to have originated in Holland, and to have been brought here by Dutch explorers. Perhaps the most feasible suggestion is that it was the anchor line of the ark. If such is the case, it is possible that Noah ran aground on Mt. Eliza.

## Found at Cottesloe

Much interest has been aroused by a large piece of granite-like formation, in which an iron chain is imbedded. This stone has an outer crust which has a close resemblance to limestone, while that part which is near the chain seems to contain a large percentage of iron oxide.

This specimen was found on the beach near Cottesloe, near the remains of an old sailing ship, which it is reported is the wreck of an old Spanish explorer's vessel. Some Spanish doubloons have also been found in this vicinity, so it would appear that this chain has been part of an olden day craft. It has taken about three hundred years for this rock to form round the chain. It was found that the iron in the chain was quite soft and could easily be cut with a hack saw. This seems to be another clue to its age, for the use of wrought iron was known some centuries ago.

---

### THE SCHOOL LIBRARY

The School Library continues to be a source of pleasure and of education to numerous readers. Five pounds worth of new and up-to-date books have been added this year. We all thank Mr. Moran and Mr. Lloyd Allen for generous gifts of books. During the year several boys have given books which they had all read and enjoyed at home. This is a very helpful practice. Perhaps others will follow the good example. Of course, the books must be suitable and in good condition.

The Librarian wishes to thank those boys who have acted as assistant librarians, and also those boarders who have helped him in the tedious but necessary work of repairing damaged books. He cannot help thinking that much of the damage to books might be avoided if the readers would only take as much care of the borrowed books as they do of their own.

### "THE CAMP"

On Saturday, 20th October, 1932, forty-four members of our Corps marched into camp to spend a week, "roughing it." Captain A. H. Boyes, of the 11-16th Battalion, was camp commandant, assisted by Lieuts. Rowlands and Drake.

From Saturday to Wednesday we had fine weather, but on Wednesday rain fell all day. This was unfortunate, for it had been arranged to have visitors' day on that day. Despite the rain most of the parents arrived to see the work we were doing.

A motion picture was taken by Mr. Parlato, of Kodaks, Ltd., of the work of our squads. As well as the moving picture, many other pictures were taken. Newspapermen flocked to the grounds to obtain photographs to fill their pages.

Apart from the meals, beds and work, during the day everyone agreed that it was a good way of spending a week, and decided to join the campers next year.

It was surprising how much we learnt in that week; bayonet drill, rifle exercises, physical training, squad drill, Lewis gun work, and signalling. A competition was conducted between the platoons in tidiness in the sleeping hut, and smartness at the inspection parades. No. 2 Platoon carried off the honours by 2 points from No. 1, which came a good second.

It was very pleasing to be dragged from one's bed at 6.30 o'clock by reveille, after having passed a night of restlessness, trying to dig one's hip into the hard floor boards. We would not like to exaggerate by saying that the nights were cold, or that we were cold ourselves between 10.15 p.m. and 6.30 a.m., but we would like to tell you that we were cold enough to consider the shower warm.

Most of our nights were passed cleaning buttons and other equipment, but two were not. On the Tuesday a boxing tournament was held, the referee being Q.M.S. Sweeney. Some very interesting bouts were seen, especially that between Fergy the

Terrible and Micky the Mouse. The tournament resulted in swollen noses and lips, black eyes and sore fists. On the last night in camp we were given a picture show by Mr. Parlato. This certainly was one way of spending the evening apart from cleaning things.

On Friday we marched out, a tired and half-starved corps, but feeling better for our experience.

---

## SHOOTING COMPETITIONS

### Hale *v.* Camberwell

During the second term of 1932 we received a challenge from Camberwell Grammar School, Victoria, to fire a match, using .22 calibre rifles, over a range of 25 yards. At the time of the competition the team had had very little experience, but despite this the difference between the final averages of the two teams was very small.

The teams consisted of eight cadets, who fired ten rounds each. The targets were exchanged by post, and thus the scores were checked. The result was quite satisfactory and we are hopeful of great things in the future.

We were also entered in two competitions on the range at Swanbourne, one a linked teams match over the 300 and 500 yards ranges, and the other the Earl Roberts trophy shoot. In the former each team consisted of twelve men, six from a rifle club and six from a military division. Our team was linked with that of the Mines Department, and good shooting was witnessed. The weather conditions were very favourable and full advantage was taken of them.

The other match was an inter-cadet competition, which was fired on ranges from 500 yards to 100 yards. The opposing teams were 11-16th Battalion, 44th Battalion and 28th Battalion. The winners of the eliminating contest were 11-16th Battalion, with our own team a good second.

The competition embodied lying fire, advancing and rapid fire, as well as snap shooting.

Each man fired twenty rounds.

The following are the scores:—G. Raphael, 52; D. Clement, 42; R. Smith, 47; H. Armstrong, 45.

Corporal Ambrose was the N.C.O.-in-Charge.

## INTER-SCHOOL SHOOTING

On Saturday, December 3, 1933, the annual inter-school shooting competition was contested between Hale and Guildford Grammar. Our team practised regularly throughout the year and in the contest our boys shot consistently. Lack of experience and excitement were the main faults, but despite these the total scores showed a difference of only 11.

Again this year Mr. Drake has taken great interest in the team, and our standard of shooting is due entirely to him.

We offer our congratulations to Guildford, who thoroughly deserved the success they attained. R. Neale, our champion shot, also deserves congratulations.

Our team was R. Neale, 57; B. Stone, 56; R. Clement, 52; G. Raphael, 51; H. Armstrong, 51; R. Smith, 49; R. Filmer, 49; J. Ambrose, 45.

## NAVAL AND MILITARY SWIMMING CARNIVAL

For the first time this year the Caris Cup was presented for swimming, and contested by some of the military divisions. The carnival was held at the Claremont Baths, on the evening of Tuesday, February 28th, and the contestants were, Hale School Cadet Corps, 44th Battalion, 11-16th Battalion, 28th Battalion, and Signals.

The carnival resulted in a walkaway victory for the Hale School Corps, who gained 26 points out of a possible 36.

The 44th Battalion Band was in attendance, and entertained the onlookers between the events.

The results were as follow:—

### Caris Challenge Cup Cadet Swimming Competitions

Hale School	-	-	-	-	-	26	points
11-16th Battalion	-	-	-	-	-	4	"
44th Battalion	-	-	-	-	-	3	"
28th Battalion	-	-	-	-	-	2	"
Signals	-	-	-	-	-	1	"

- 50 *Yards Championship*. — Sergeant Jacoby, 1st; Corporal Clement, 2nd.
- 100 *Yards Championship*.—Cadet McDaniel, 1st; Cadet White, 44th Battalion, 2nd.
- 220 *Yards Championship*.—Cadet McDaniel, 1st; Cadet Russell, 2nd.
- 220 *Yards Relay*.—Hale School, 1st (McDaniel, Jacoby, Clement, N. Russell); 11-16th Battalion, 2nd.
- 50 *Yards Militia Breast-stroke*.—Seaman Wright, R.A.N.R., Sergeant L. Gray.
- Diving*.—Seaman Hunt, R.A.N.R., Cadet McDaniel.
- 

### Cadet Competition

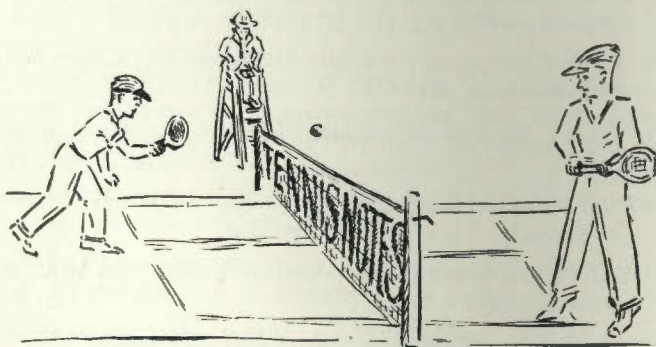

This year, for the first time, we entered a team in a Cadet Competition, conducted by the Defence Department. In this competition are included musketry, squad-drill, physical training, and signalling, and besides these, each team undergoes an inspection examination.

We take this opportunity of thanking Mr. Carlin, Mr. White, and Mr. Purvis, who so generously gave of their best to help the team. At first the other school activities interfered with our work, and it was not till the last three weeks that we were able to practise with the full team present. In these last short weeks everyone stuck to his work, and it was enthusiasm which gained for us third position.

We offer to Guildford Grammar School Corps our hearty congratulations on their splendid win.

The following are the members of our team:—Corporals Neale, Raphael, and Filmer; Cadets Tanner, Broomhall, Murray, Gordon, Robertson, McAulay, Royle, Riley, and Craig.

In the 1932 competition for the Slazenger Cup, our team, consisting of L. Gray, K. Dakin, E. R. Hall, and C. Bott had the misfortune of being eliminated in the first round. We met the University team, and to them we offer our heartiest congratulations on winning the Cup.

The following are the results:—

*Doubles.*—Don and Wilson (U.) beat Gray and Bott, 6-1, 6-2; Hoare and Geise (U.) beat Hall and Dakin, 6-2, 6-0.

*Singles.*—Gray lost to Don, 1-6, 1-6; Bott lost to Wilson, 1-6, 2-6; Hall lost to Hoare, 3-6, 2-6; Dakin drew with Geise, 6-2, 2-6.

## HEAD OF THE RIVER, 1933

Mr. G. ROGERS  
B. FERGUSON, P. GUILFOYLE, J. MEREDITH, H. KENNEDY, R. LITTLE

### INTER-SCHOOL SPORTS

The Inter-School Swimming Carnival was held on March 4th, at the Claremont Baths. The standard of swimming was high, and fast times were recorded, three records being broken.

Hale School secured two places in all events, except the 50 Yards Under 13, and finished the morning with a total of 81 points, with Scotch, 32; Christians, 16; and Guildford Grammar, 15.

D. McDaniel was the most prolific scorer of the day, winning the 100 Yards Open Free Style, and gaining second places in the 50 Yards Open Back-stroke, and 440 Yards Open Free-style.

G. Fox, P. Oliver, and P. Clarke were the winners of the other events for Hale. P. Oliver swam exceedingly well for his age, and although only thirteen years old, won the 100 yards under 15 in very fast time, and broke the 75 Yards Under 14 record.

P. Clarke swam very fast in the 50 Yards Open Breast-stroke event to gain a record for the School, and G. Fox swam with great promise to win the 440 Yards Open Free-style and the 220 Yards Under 16.

We congratulate Mr. Wells on bringing to the fore such a fine team in which all the members swam very well to win the Henn Cup for the third time in succession.

---

### SCHOOL SPORTS

Ideal conditions favoured our Annual Swimming Sports at Crawley Baths on February 24th, and six records were broken.

By winning five of the eight open events, D. McDaniel gained the title of School Champion, with G. Fox and P. Clarke runners-up. G. Fox was also Champion Under 16, with N. Russell a half point behind. P. Oliver was Champion Under 14 and 15, and D. McWhae was Champion Under 12.

The sports were very well organised, for which special praise is due to Mr. P. D. Langley.

We also wish to offer our thanks to those who very kindly donated to the Sports Fund.

#### INTER-SCHOOL SWIMMING CARNIVAL

- 440 Yards Open Free-Style.—1, G. Fox (H.S.); 2, D. McDaniel (H.S.); 3, W. Muskett (C.B.C.); 4, D. Plint (S.C.). Time, 6min. 7 3-5sec.  
 100 Yards Open Free-Style.—1, D. McDaniel (H.S.); 2, P. Jacoby (H.S.); 3, D. Plint (S.C.); 4, W. Muskett (C.B.C.). Time, 60secs.  
 100 Yards Under 15 Free-Style.—1, P. Oliver (H.S.); 2, D. Tregonning (H.S.); 3, P. Ryan (C.B.C.); 4, W. Hewby (G.G.S.). Time, 62 2-5secs.  
 50 Yards Free-Style Under 13.—1, F. Properjohn (S.C.); 2, J. Bradley (C.B.C.) and R. Allen (S.C.); 4, A. Messer (G.G.S.). Time, 33 1-5sec.  
 50 Yards Open Breaststroke.—1, P. Clarke (H.S.); 2, D. Plint (S.C.); 3, L. Gray (H.S.); 4, M. Southee (C.B.C.). Time, 33 4-5 secs. (Record)  
 220 Yards Under 16 Free-Style.—1, G. Fox (H.S.); 2, J. Curlewis (S.C.); 3, P. Jacoby (H.S.); 4, G. Royce (S.C.). Time, 2min. 46 1-5secs.  
 50 Yards Open Backstroke.—1, C. Lennox (G.G.S.); 2, D. McDaniel (H.S.); 3, M. Hunter (S.C.); 4, R. Russell (H.S.). Time, 33 2-5secs. (Record).  
 75 Yards Under 14 Free-Style.—1, P. Oliver (H.S.); 2, D. Tregonning (H.S.); 3, W. Hewby (G.G.S.); 4, J. Bradley (C.B.C.). Time, 45 3-5secs. (Record).

### School Sports Results

#### HANDICAPS

- 50 Yards Open.—B. Tanner, 1; H. Kennedy, 2.  
 100 Yards Open.—B. Tanner, 1; P. Clarke, 2.  
 50 Yards Breast-Stroke (Open).—D. Clement, 1; G. Randell, 2.  
 50 Yards Under 16.—G. Royle, 1; Filmer, 2.  
 100 Yards Under 16.—G. Tanner, 1; G. Royle, 2.  
 75 Yards Under 15.—S. Garland, 1; J. Craig, 2.  
 50 Yards Under 14.—A. Parry, 1; D. Godfrey, 2.  
 50 Yards Under 13.—Mellor, 1; J. Parker, 2.  
 50 Yards Under 12.—Hancock, 1; R. Godfrey, 2.  
 50 Yards Under 11.—J. McGibbon, 1; C. Hale, 2.

#### OTHER EVENTS

- Masters' Race, 50 Yards.—C. E. Langley, 1; F. Purvis, 2; L. Drake, 3.  
 Old Boys' Race, 50 Yards.—A. Gray, 1; J. Dimmitt, 2; D. Mills, 3.  
 Winners of Teams' Race.—G. Altorfer, J. G. Craig, P. Yates (Captain), Wheatley, A. Williamson.

#### CHAMPIONSHIPS—OPEN

- 50 Yards.—D. McDaniel, 1; P. Jacoby, 2; G. Fox, 3. Time, 25 4-5sec. (record).  
 100 Yards.—D. McDaniel, 1; M. Russell, 2; G. Randell, 3. Time, 60sec. (record).  
 50 Yards Breast-Stroke.—P. Clarke, 1; L. Gray, 2; D. Clement, 3. Time, 33 1-5sec. (record).  
 50 Yards Back-stroke.—D. McDaniel, 1; P. Clarke, 2; B. Tanner, 3. Time, 34sec. (record).  
 Neat Dive.—D. McDaniel, 1; D. Clement, 2; G. Randell, 3.  
 High Dive.—D. McDaniel, 1; R. Neal, 2; L. Gray, 3.  
 440 Yards.—G. Fox, 1; D. McDaniel, 2; M. Russell, 3. Time, 6min. 16sec. (record).  
 220 Yards.—D. McDaniel, 1; G. Fox, 2; G. Day, 3. Time, 2min. 46sec.  
 Long Dive.—L. Gray, 1; D. McDaniel, 2.

## UNDER 16

- 50 Yards.—G. Fox, 1; P. Jacoby and N. Russell, 2. Time, 29 1-5sec.  
 220 Yards.—G. Fox, 1; P. Jacoby, 2; H. Shipway, 3. Time, 2min. 46sec.  
 50 Yards Back-stroke.—N. Russell, 1; G. Fox, 2; H. Kennedy, 3. Time,  
 38 2-5sec.  
 50 Yards Breast-stroke.—N. Russell, 1; Garland, 2; P. Jacoby, 3. Time,  
 42 2-5sec.

## UNDER 15

- 50 Yards.—H. Wheatley, 1; Garland, 2; Craig, 3. Time, 29 4-5sec.  
 100 Yards.—P. Oliver, 1; D. Tregonning, 2; R. Neilson, 3. Time, 64 2-5sec.  
 (record).  
 Neat Dive.—P. Oliver, 1; H. Wheatley, 2; D. Tregonning, 3.

## UNDER 14

- 75 Yards.—P. Oliver, 1; D. Tregonning, 2; E. Ewen, 3. Time, 46sec (record).  
 50 Yards Breast-stroke.—P. Oliver, 1; D. Tregonning, 2; H. Russell, 3. Time,  
 41 4-5sec.

## UNDER 13

- 50 Yards.—D. McWhae, 1; Parker, 2; Cowan, 3. Time, 36sec.

## UNDER 11

- 50 Yards.—R. McWhae, 1; Godfrey, 2; Hale, 3. Time, 44 3-5sec.

## LAW SHIELD

## Life Saving

On March 11th, Hale School won the Law Shield for the eleventh year in succession—truly a remarkable record—for which great praise is due to Mr. Wells.

The races were swum in unpleasant conditions, and this year we had strong opposition from C.B.C., only defeating them by 18 seconds.

The "B" Team swam well for a young team to gain fourth place, and should be well to the fore next year.

The following boys represented the School:—

"A" Team.—P. Clarke (Captain), L. Gray, D. McDaniel, D. Clement.

"B" Team—(ii) B. Garland, (i) L. Nathan, D. Gordon, D. McWhae.

Results:—

Hale School "A" . . . . .	1st	Time, 501 1-5sec.
Christian Brothers' College . . . . .	2nd	„ 519 4-5sec.
Wesley College . . . . .	3rd	„ 540 1-5sec.

Fastest time was gained by D. Plint (Scotch), with  
 115 1-5sec.

## ATHLETICS

## SCHOOL SPORTS

The Annual School Sports were held on October 7th, under good weather conditions. A strong wind aided the sprinters, and made it difficult for the distance runners, but in spite of this some very good times were recorded. Several records were broken, and others equalled. P. Jacoby broke both the 220 yards and the 880 yards records under 16, and P. Oliver broke the 880 yards record under 14. D. Tregonning equalled the 220 yards record under 14. In the open events E. Dunn, who obtained the title of Champion Athlete, equalled the 100 yards record, and D. Fethers equalled the 220 yards record. E. Parrant equalled the 75 yards record under 12, and I. Beaton equalled the 100 yards under 13 record. Jacoby ran extremely well, and was Champion Athlete under 16. P. Gwynne and T. Treacy tied for the Old Boys' Cup.

The results:—

## OPEN CHAMPIONSHIP EVENTS

- 100 Yards.—Dunn, 1; Fethers, 2; Ambrose, 3. Time, 10 2-5sec. (eq. record).  
 220 Yards.—Fethers, 1; Dunn, 2; Ambrose, 3. Time, 23 4-5sec (eq. record).  
 440 Yards.—Dunn, 1; Gray, 2; Ambrose, 3. Time, 55 1-5sec.  
 880 Yards.—Dunn, 1; Gray, 2; McDaniel, 3. Time, 2min. 15sec.  
 One Mile.—Dunn, 1; Gray, 2; Stone, 3. Time, 4min. 55sec.  
 100 Yards Hurdles.—McDaniel, 1; Russell, 2; Randell and Garland, 3. Time, 18 2-5sec.  
 High Jump.—McDaniel, 1; Gerloff and Russell, 2. Height, 5ft. 1½in.  
 Long Jump.—Treacy, 1; Thomas, 2; McDaniel, 3. Distance, 18ft. 3½in.

## UNDER 16

- 100 Yards.—Jacoby, 1; Way, 2; Treacy and Pritchard, 3. Time, 10 9-10sec.  
 220 Yards.—Jacoby, 1; Way, 2; Treacy, 3. Time, 24sec. (record).  
 440 Yards.—Jacoby, 1; Way, 2; Treacy, 3. Time, 57 1-5sec.  
 880 Yards.—Jacoby, 1; Treacy, 2; Way, 3. Time, 2min. 16 4-5sec (record).  
 120 Yards Hurdles.—Treacy, 1; Russell, 2; Filmer, 3. Time, 21 4-5sec.  
 High Jump.—Russell, 1; Neale, 2; Treacy and Pritchard, 3. Height, 5ft.  
 Long Jump.—Treacy, 1; Jacoby, 2; Neale, 3. Distance, 17ft, 8in.

## UNDER 15

- 100 Yards.—Turner, 1; Tregonning, 2; Williamson, 3. Time, 11 3-5sec.  
 300 Yards.—Turner, 1; Tregonning, 2; Williamson, 3. Time, 38 3-5sec.

## UNDER 14

- 100 Yards.—Tregonning, 1; Grigg, 2; Beaton, 3. Time, 11 4-5sec.  
 220 Yards.—Tregonning, 1; Oliver, 2; Baker, 3. Time, 27 1-5sec. (eq. record).  
 880 Yards.—Oliver, 1; Tregonning, 2; Beaton, 3. Time, 2min. 40 1-5sec. (record).  
 High Jump.—Craig, 1; Grigg, 2; Tregonning, 3. Height, 4ft. 5in.  
 Long Jump.—Oliver, 1; Tregonning, 2; Rae, 3. Distance, 14ft. 10in.

## UNDER 13

- 100 Yards.—Beaton, 1; Halliday, 2; Newman, 3. Time, 12 2-5sec (eq. record).

UNDER 12

75 Yards.—Parrant, 1; L. Fethers, 2; Dermer, 3. Time, 9 9-10sec. (eq. record).

UNDER 11

75 Yards.—Hale, 1; McWhae, 2; Sadler, 3. Time, 10 4-5sec.

UNDER 10

75 Yards.—McWhae, 1; Hale, 2; Tandy and Dermer, 3. Time, 10 4-5sec.

OPEN HANDICAP EVENTS

100 Yards.—Raphael, 1; Mortimer, 2; Kenwick, 3.

440 Yards.—Kenwick, 1; Clarke, 2; Epstein, 3.

880 Yards.—Rowe, 1; Armstrong, 2; Epstein, 3.

School Mile.—Meares, 1; Smith, 2; Curlewis, 3.

OLD BOYS' HANDICAPS

100 Yards (Old Boys' Cup).—Treacy, 1; Gwynne, 2; Gerloff, 3. Time, 10 2-5sec.

220 Yards (Old Boys' Cup).—Gwynne, 1; Treacy, 2; Harris, 3. Time, 22 9-10sec.

880 Yards (Old Boys' Athletic Club).—Harris, 1; Marris, 2; Robertson, 3. Time, 2min. 11 1-5sec.

JUNIOR HANDICAP EVENTS

100 Yards (under 16).—Filmer, 1; Pritchard, 2; Cuthbertson, 3.

440 Yards (under 16).—Filmer, 1; Pritchard, 2; Gordon, 3.

880 Yards (under 16).—Burt, 1; Filmer, 2; Cornish, 3.

100 Yards (under 15).—Turner, 1; Epstein, 2; Grigg, 3.

220 Yards (under 15).—Keys, 1; Davey, 2; Epstein, 3.

100 Yards (under 14).—Craig, 1; Baker, 2; Tregonning, 3.

220 Yards (under 14).—Rae, 1; Craig, 2; Halliday, 3.

440 Yards (under 13).—Halliday, 1; Jones, 2; Miller, 3.

Sack Race (under 13).—Cairns-Hill, 1; Riley, 2; Cuthbertson, 3.

100 Yards (under 12).—Meares, 1; Dermer, 2; Parrant, 3.

75 Yards (under 11).—Bromfield, 1; Hales, 2; McWhae, 3.

75 Yards (under 10).—Jackson, 1; Tandy, 2; Bruce, 3.

50 Yards (Preparatory Form).—Bruce, 1; Dermer, 2; Jackson, 3.

The School thanks all those who, in the past, have so generously contributed towards the Sports Fund, and in particular wishes to thank Mr. McNess for the donation of several trophies for the year 1933.

## THE INTER-SCHOOL SPORTS

The Annual Athletic Sports Meeting was held on the W.A.C.A. Grounds under fine weather conditions, and before a good attendance of spectators. In publishing the following record of events, we offer our congratulations to Christian Brothers' College on their fine performance. We were runners-up for the third time in succession. Although no records were broken and only one was equalled, namely, the 100 yards under 15, the times were very fast and exciting racing was seen. Dunn, Tregonning, Jacoby and McDaniel were our best performers, McDaniel jumping very well. Dunn won the mile and half-mile after magnificent struggles over the final sprints, and

shared the title of Champion Athlete with Repacholi (C.B.C.), who won the 220 yards and 440 yards in very fast times. Jacoby (H.S.) and McLeod (G.G.S.) ran splendidly and shared the title of Champion Athlete under 16. Tregonning won both the races under 14, and Hackett (C.B.C.) performed brilliantly under 15 and 16.

The following are the results:—

#### OPEN EVENTS

- 100 Yards.—Chaney (C.B.C.), 1; Repacholi (C.B.C.), 2; Holmes (G.G.S.), 3; Fethers (H.S.), 4. Time, 10 2-5sec.  
 220 Yards.—Repacholi (C.B.C.), 1; Chaney (C.B.C.), 2; Fethers (H.S.), 3; Ambrose (H.S.), 4. Time, 23 2-5sec.  
 440 Yards.—Repacholi (C.B.C.), 1; Dunn (H.S.), 2; Chitty (C.B.C.), 3; Hamilton (G.G.S.) and Newman (S.C.), 4. Time, 53 2-5sec.  
 880 Yards.—Dunn (H.S.), 1; Chitty (C.B.C.), 2; Muskett (C.B.C.), 3; Woolcott (S.C.), 4. Time, 2min. 7sec.  
 One Mile.—Dunn (H.S.), 1; Muskett (C.B.C.), 2; Chitty (C.B.C.), 3; Newman (S.C.), 4. Time, 4min. 57 3-5sec.  
 High Jump.—McDaniel (H.S.), 1; Newman (S.C.), Neilsen (C.B.C.), and Lee (C.B.C.), tie, 2. Height, 5ft. 5½in.  
 120 Yards Hurdles.—Bolleman (C.B.C.), 1; McDaniel (H.S.), 2; Chaney (C.B.C.), 3; Burridge (G.G.S.), 4. Time, 17 3-5sec.  
 Broad Jump.—Newman (S.C.), 1; Kimpton (G.G.S.), 2; Elphick (G.G.S.), 3; Slattery (C.B.C.), 4. Distance, 19ft. 6in.  
 Old Boys' Relay Race (600 yards).—Christian Brothers' College, 1; Hale School, 2; Scotch College, 3; Guildford Grammar School, 4. Time, 1min. 10 1-5sec.

#### UNDER 16

- 100 Yards.—Jacoby (H.S.), 1; Hackett (C.B.C.), 2; McLeod (G.G.S.), 3; O'Driscoll (C.B.C.), 4. Time, 11sec.  
 880 Yards.—Jacoby (H.S.) and McLeod (G.G.S.), tie, 1; Pope (G.G.S.), 3; Thomas (S.C.), 4. Time, 2min. 13 4-5sec.  
 440 Yards.—McLeod (G.G.S.), 1; Hunter (S.C.), 2; Jacoby (H.S.), 3; Way (H.S.), 4. Time, 56 3-5sec.  
 High Jump.—Smellie (C.B.C.), and Flaherty (C.B.C.), tie, 1; Neale (H.S.), 3; Sandland (G.G.S.), 4. Height, 5ft. 3in.

#### UNDER 15

- 100 Yards.—Hackett (C.B.C.), 1; Kenneally (C.B.C.), 2; Turner (H.S.), 3; Monger (G.G.S.), 4. Time, 10 4-5sec. (equal record).  
 300 Yards.—Kenneally (C.B.C.), 1; Hackett (C.B.C.), 2; Turner (H.S.), 3; Monger (G.G.S.), 4. Time, 36 3-5sec.

#### UNDER 14

- 100 Yards.—Tregonning (H.S.), 1; St. John (C.B.C.), 2; Barrie (S.C.), 3; Burt (G.G.S.), 4. Time, 11 4-5sec.  
 220 Yards.—Tregonning (H.S.), 1; Barrie (S.C.), 2; Burt (G.G.S.), 3; Oliver (H.S.), 4. Time, 26 4-5sec.

#### UNDER 13

- 100 Yards.—Curlewis (G.G.S.), 1; Beaton (H.S.), 2; Cocks (C.B.C.), 3; Lawton (C.B.C.), 4. Time, 12 2-5sec.

#### UNDER 12

- 75 Yards.—Lawton (C.B.C.), 1; Warren (G.G.S.), 2; Anderson (S.C.), 3; Fontaine (C.B.C.), 4. Time, 10sec.

## ROWING

## NOTES

On returning to School for the first term this year, it was found that, from last year, Guilfoyle, Captain of Boats, and Little, the stroke of the Second Crew, were available. The School was fortunate in having the valuable services of Mr. G. E. Rogers, and the crews take this opportunity of thanking him for the time and attention he so generously gave them.

From the enthusiastic attendance, Mr. Rogers soon had two crews and a tub pair afloat every evening. Guilfoyle was placed in the stroke seat once again, and Meredith, who had done some rowing before, supported him in "No. 3" position. There was some shuffling for the bow and "No. 2" positions, but finally Kennedy filled the latter position, and Little changed sides in order to fill the bow seat, for which he was suited by his experience. Ferguson, who had coxed the Second Crew for two years, became coxswain of the Firsts.

Once settled as a crew, training proceeded apace, and there followed a strenuous preparation. Both crews took part, individually, in regattas, in which they performed well, either reaching finals or semi-finals. Filmer succeeded in winning a cup. At Easter the only hitch occurred when "3" was out of the boat for two days with influenza, but Mr. Rogers took advantage of his absence to give the crew some valuable coaching in the racing boat, which at that time we had been in for a week. When the crew rowed together again there was an appreciable improvement.

The Second Crew consisted of Grigg, Filmer, Weston, and Raphael, with Arnold as coxswain. They were handicapped in training through illness, but they persevered, and with great determination developed into a good combination.

We were grateful to Mr. Newbery, who took a keen interest in the Crew and followed us in a speed boat on two occasions when we were doing trials.

### THE RACE

At the time of starting for the race there was a slight head wind, but the water was calm and "dead." Although there was little difference, C.B.C. was the fastest off the mark, and, striking a fast rate, took the lead from Hale and Scotch, with Guildford following closely. At the quarter mile C.B.C. had a lead of over a length from Hale, who now began to assert themselves and to overtake the leaders, whom they had caught before the half-mile. Swinging well together they passed C.B.C., and at the Brewery were a good two lengths in the lead. Passing the Brewery, Hale increased this lead with every stroke, and went on to win easily by five lengths from Scotch, who had beaten C.B.C. for second place by one and a half lengths, while Guildford were only three feet behind them.

The time, 5 minutes 52 seconds would have been good under any conditions, but considering the head wind it was excellent.

The Second Crew rowed pluckily to finish a length behind the winners, C.B.C., with Guildford third and Scotch last.

Hearty congratulations to the Old Boys, who won their race in convincing style for the third time in succession.

### *Congratulations*

Telegrams of congratulations to the crew were received from the following friends of the School:—Dr. Buntine, Mr. Le Couteur, Mr. Cooper of Geraldton, Mrs. McKay of Manjimup, Old Hale Boys at Ormonde College, Dr. Corr and Mr. Sear, Inman Way.

We take this opportunity of thanking these people for their kind thoughts.

---

### HALE SCHOOL CREW, 1933

R. LITTLE (Bow) is the right type of oarsman to fill the bow seat, having a nice clean catch at the first part of the stroke, and also a good rake home at the finish of the stroke. To fault his rowing in the bow seat would be very hard; he is also the right type to make a good stroke.

H. L. KENNEDY (No. 2).—This oarsman has some faults. He is inclined to meet his work with his body before finishing the stroke home to the chest. The hand work was very clean, and the legs well applied right through the stroke. For the time he has given to the rowing, he is the most improved member of the crew.

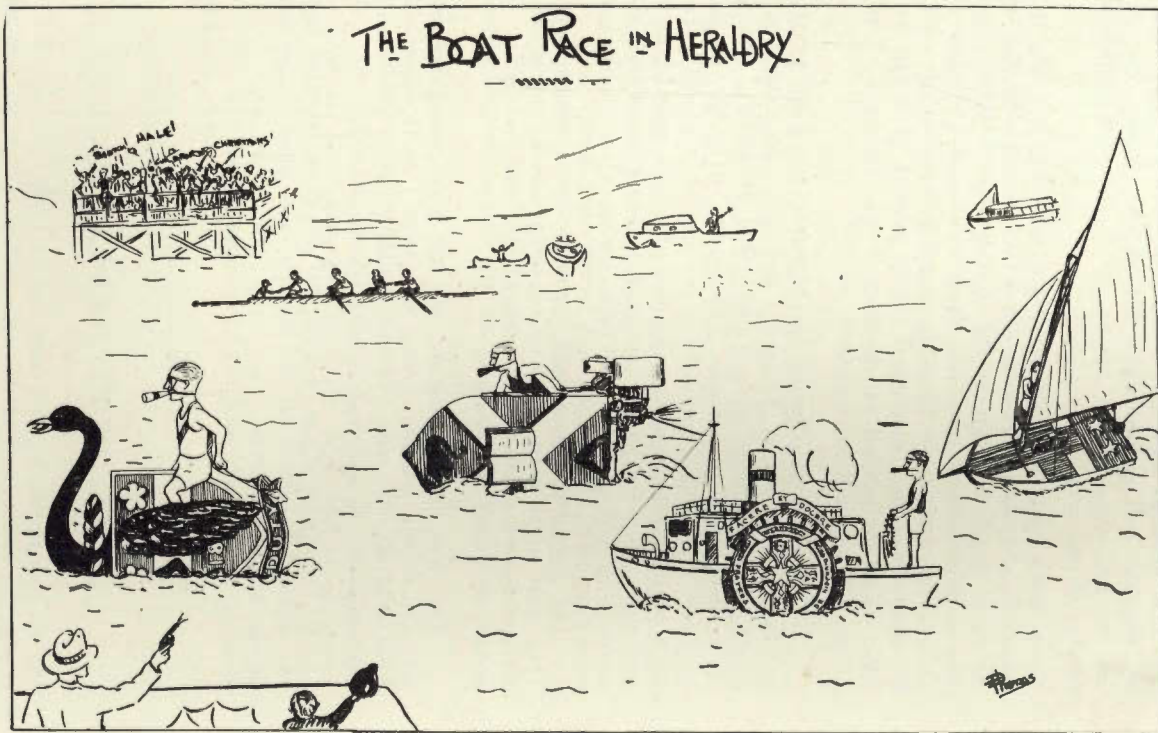

J. W. A. MEREDITH (No. 3), who filled this seat, was the hardest member of the crew to blend into the crew because of the extra length he required for the leg work. Such a tall man in that position in a four-oared crew makes it hard to get the best results of blending together. His blade work, like that of bow, was very clean, with a good leg drive and well raked home at the first of the stroke. His timing with the stroke man was well carried out.

J. P. GUILFOYLE (Stroke).—The stroke seat filled by this member gave the rest of the crew a very even and nicely timed stroke. His judgment was all that could be desired, making the combination as of one man. The stroke set by him was always very even, and never rushed in any way, with a good length and a smart rake home, and clean finish. He has a good leg drive and steady recovery, giving the boat a good run between the strokes, and keeping a very even balance when in the racing boat.

The crew was of a high standard for a school crew. Their work in the boat was all that could be desired. Some little defects were easily rectified, which soon brought about the making of a good combination.

The most marked feature was the good discipline that prevailed during training, giving the coach a much easier task when selecting the crew. If this tradition can be maintained, the School will be well represented in the future.

B. FERGUSON (Cox) did all that could be asked of him. He studied the crew well in practice, and gave of his best on the day of the race.

## SECOND ROUND, 1932

### Hale School v. Scotch College

The second round of 1932 Cup Matches began with a match against Scotch College, at the W.A.C.A., on November 10th. Scotch won by 73 runs on the 1st innings. Randell batted well for the School, making 51 not out.

## THE EASTER CRICKET TOUR

During the Easter vacation Mr. Rowlands very kindly accompanied the Cricket XI to Manjimup, where they played against some of the local teams.

Upon arrival the team was met by the local team, and was made thoroughly comfortable. The kind hospitality afforded members of the team by the local residents is very much appreciated.

The first match was played at the Manjimup Show Ground against the Warren District Team, and resulted in a loss for the visitors. The best of Hale's batsmen were G. Randell, Mr. Rowlands, and C. Bott.

The scores were as follows:—

### Warren District v. Hale School

#### HALE SCHOOL

##### 1ST INNINGS

*Played on the 16th April, 1933*

Nathan, lbw, b Rigby . . . . .	2
Pritchard, c Florence, b Lawrence . . . . .	7
C. Bott, c Stokes, b Doust . . . . .	25

T. Rowlands, st Florence, b Doust	29
F. Moore, c Florence, b Lawrence	12
G. Randell, c Florence, b Gordon	29
K. Bott, c Florence, b Lawrence	12
O. Burges, lbw, b Stokes	18
D. Clement, c Rigby, b Gordon	2
L. Gray, b Gordon	1
G. Burges, not out	2

Total ..... 146

*Bowling Averages.*—Gordon, 3 for 9; Lawrence, 3 for 30; Doust, 2 for 21; Rigby, 1 for 20; Hutchinson, nil for 4; Edwards, nil for 3; Wheatley, nil for 25; Stokes, 1 for 10.

## WARREN DISTRICT

## 1ST INNINGS

D. Gordon, st Randell, b Moore	27
W. Wheatley, c Gray, b K. Bott	0
R. Hutchinson, retired	51
W. Rigby, c Nathan, b Pritchard	38
Stokes, lbw, b K. Bott	41
Bouine, c K. Bott, b Rowlands	12

The bowling averages are as follows:—K. Bott, 1 for 40; O. Burges, 3 for 22; Moore, nil for 13; Clement, 1 for 15; Pritchard, nil for 21; Mr. Rowlands, 7 for 27.

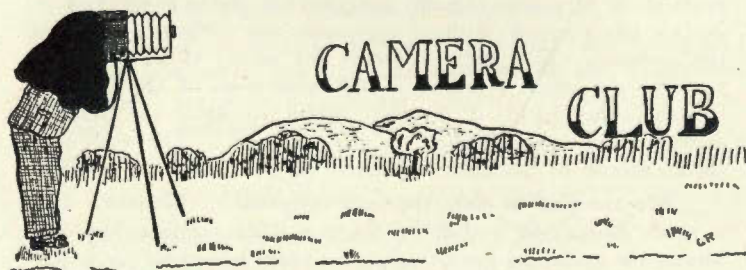

---

 CRICKET CRITIQUE

- R. HALL, Captain.—He handled the team well, and carried out his duties capably and enthusiastically. On occasions he bowled effectively, but his batting did not fulfil expectations.
- K. DAKIN, Vice-Captain.—A most reliable opening batsman; his stroke making improved greatly as the season progressed, fielded excellently, and was a useful change bowler.
- W. STUBBS.—A cool and steady opening bat—failure to get over the ball on the off was often his undoing—a safe field.
- D. CLEMENT.—A most promising bowler with a useful off-spin. He must realise the value of keeping the ball well up to the batsman. Has batting ability, but lacks judgment in picking the ball to hit.
- G. RANDELL.—Made great strides as wicket-keeper. A good bat, he often threw his innings away.
- G. BURGESS.—A useful bowler, with nip and a disconcerting swing with the new ball. Lack of confidence cramped his batting.

- F. MOORE.—Shows considerable promise as a slow bowler; needs a little more pace through the air to be really effective. Batting, he must play with the bat nearer to his body.
- O. BURGESS.—Sound left-hand batsman, would do much better if he batted more freely; a keen field and useful bowler.
- D. GERLOFF.—A flighty left-hand bowler; would be very effective if he spun the ball more. In the latter part of the season he fielded brilliantly.
- D. TAYLOR.—Is building up his batting on sound lines, but lacks confidence; fielding needs to be improved.
- L. GRAY.—Brilliant and untiring in the field, batting unorthodox, but liable at any time to demoralise the opponents.
- C. BOTT.—A most promising batsman with strokes all round the wicket; the pull-shot often proved costly; excellent field.
- K. BOTT.—A natural bowler, but must learn to bowl within himself; a forceful batsman, he should not allow himself to become cramped.

Towards the end of 1932 the Club was re-formed, Mr. Allan was made President, and G. Raphael Secretary.

Mr. Parlato has attended each meeting. These meetings are held on alternate Tuesdays, from 1.15 to 1.45. The members are keen and very interested, but there should be more boys in the School sufficiently interested in photography to give up half an hour once a fortnight for the benefit of Mr. Parlato's most interesting and helpful talks.

We have been able, through the help of members, to equip a complete darkroom for the development and enlargement of photographs. Improvement in the work of the members is very noticeable; some very artistic work was shown in a competition held during the third term of 1932, when Noel Gray won the prize.

The Debating Society has done good work this year. In a short review it is impossible to criticise the work of individuals, but a few records of improvement made, and a few suggestions for further improvement may be welcome.

All the speakers speak with much more ease. There is very little hesitation or feeling round for a word. The subjects are well prepared, good notes are made, and usually the speaker knows when to stop. The practice of writing out the whole speech is not to be commended. Generally, the speaker either reads it—a very objectionable practice—or learns it off and repeats it like a parrot, without expression and without convincing the audience. It is better to note the points to be made and to leave the actual wording to the inspiration of the moment. On the other hand, it is often useful to write out striking expressions for an opening or a peroration. The end of a speech should be the most impressive part.

We are glad to note the increasing use of humour. Like a pinch of salt in a dish of food, a little humour not only pleases the audience, but often makes them remember an important point. One of the speakers in the last debate made all his points by his use of humour. Again, excess is a fault. A funny speech may become silly and fail to convince. And the art of speaking is to convince. It is useless to state facts or to express opinions unless these facts and opinions are impressed upon the hearers.

It is a pleasure to see boys stand up and discuss or debate as they do here. It is good for the hearers and better for the speakers. The training here received may help many a man to make a good speech, even at his own wedding breakfast.

## DEBATING NOTES

Since our last publication the Debating Society has successfully carried on the good work of training our public speakers. Interest in the Society is growing very rapidly. We now have

the honour of having five masters interested in our work, which has greatly improved under their keen and able coaching.

It will be impossible, through lack of space, to give a detailed description of each debate, but the following results may be of interest.

#### *Senior Debate*

On Friday, May 17, 1932, a debate was conducted on the subject: "Are Australia's Prospects better than those of America."

*Affirmative.*—Ambrose, Gray, Bott.

*Negative.*—Thomas, Raphael, Fielder.

Mr. Rowlands very kindly consented to act as adjudicator, and gave his decision to the negative side on the grounds of superior teamwork.

#### *Middle School Debate, Friday, July 15th, 1932*

*Subject.*—"That Trams in Cities are Obsolete."

*Affirmative.*—Clifton, Atkins, Pritchard, Thomas.

*Negative.*—Filmer, Murray, Jacoby, Moore.

The speakers brought forward some very interesting and amusing arguments, and were congratulated by Mr. Allan, who filled the position of adjudicator. After an interesting questionnaire, G. Raphael, the Chairman, declared the meeting closed.

#### *Senior Debate, Friday March 24th, 1933*

*Subject.*—"That Nationalism is not Desirable."

*Affirmative.*—Gray, Raphael, Treacy, McDaniel.

*Negative.*—Guilfoyle, Kennedy, Murray, Neale.

Several of the speakers were extremely amusing, and we feel sure that the audience was quite contented.

Mr. Newbery gave his decision as a draw. He remarked that this was an unsatisfactory decision, but that as the points that he had allotted were equal, he would not separate the teams.

#### *Senior Debate*

After this an impromptu debate was held.

*Subject.*—"That Body-line Bowling is not Desirable."

*Affirmative.*—Gray, Raphael.

*Negative.*—Guilfoyle, Murray.

This debate was decided by popular vote, and resulted in a win for the exponents of leg-theory. The speeches were most amusing and caused not a little discussion among the masters.

*Junior Debate, Friday, April 28th.*

The subject for this debate was "That Explosives have been Beneficial to Mankind."

Teams:—

*Affirmative.*—Smith, Burgoyne, Pritchard.

*Negative.*—Clark, Hewitt, Murray.

Every speaker excelled, and special praise is due to Murray and Pritchard, who, at the last moment, filled the places of two members who were unable to attend.

After this debate a new form of speech was introduced. Mr. Newbery, who occupied the chair, asked that those in the audience should use their imagination; he very vividly presented a picture of a dinner table, which had just been relieved of its load. The time had arrived for toasts. The first toast was proposed by L. Gray, that of the Camera Club, and was answered by G. Raphael, the Secretary. Next was a toast, proposed by Altorfer, the Swimming Team. The Captain of that team replied to the toast. These speeches were impromptu, and in closing the meeting, Mr. Newbery assured the speakers that they need never be afraid to speak in public again.

---

## DRAMATIC SOCIETY NOTES

In the first term the Dramatic Society was inaugurated with Mr. Purvis as producer. The Society intend playing "The Middle Watch" early this term. Several readings of the play and a few rehearsals have been held, so that the chief members of the cast are decided.

## FOOTBALL NOTES

Inaccurate kicking was the main cause of the succession of defeats suffered by the First XVIII in 1932. The team played dogged football throughout the season, but poor passing and shooting for goal made much of the play ineffective. This serious fault in the School football can be remedied if each boy concentrates on each kick until he has formed a habit of holding and dropping the ball correctly.

Ambrose controlled his team well, and set a good example of tenacity. Hibble's marking and Garland's strenuous work in defence were always evident. Dunn seldom reached as high a standard of play as he did the previous season, but Clarke showed a great improvement as a half-forward. Clement and Jacoby obviously lacked experience, but their play was particularly promising. They went through hard and learnt to handle the ball more cleanly before the season was over. Cornish, on the wing, was always battling pluckily, and took more punishment than anyone else in the team. In spite of his slight build, he showed that he could give bump for bump. Treacy and McDaniel failed to do all that was hoped of them. They both have the ability, and with a little more confidence, will yet cause the opposition a lot of trouble.

Gray, Randell, Thomas, Stone, Filmer, Stubbs, and Young played splendidly in some matches, but failed in others. Randell lacked condition for part of the season, and Gray, who handled the ball more than anyone else, seldom got rid of it to advantage. Pescod and Rogalasky had not sufficient speed to enable them to play consistently well.

The forwards were inexperienced, and frequently lacked decision. The backs played well in the first match against C.B.C., but later showed a tendency to let their men wander.

## Results:—

Wednesday, 22nd June, at Leederville.—C.B.C., 9 goals 9 behinds; Hale, 3 goals 11 behinds.

Wednesday, 29th June, at Perth Oval.—G.G.S., 14 goals 13 behinds; Hale, 2 goals 17 behinds.

Wednesday, 6th July, at Leederville.—S.C., 13 goals 9 behinds; Hale, 3 goals 6 behinds.

Wednesday, 27th July, at W.A.C.A.—C.B.C., 15 goals 23 behinds; Hale, 2 goals 4 behinds.

Wednesday, 3rd August, at Leederville.—G.G.S., 14 goals 10 behinds; Hale, 4 goals 9 behinds.

Wednesday, 10th August, at Claremont.—S.C., 12 goals 13 behinds; Hale, 8 goals 5 behinds.

## Original Column

### THE FLEA

Hunted unceasingly,  
 Ever increasingly,  
     Over the hills and the dales of a sheet;  
 Insect unfortunate,  
 Fellow importunate,  
     Ever unwillingly death do you meet:  
 Feeding so tenderly,  
 Fashioned most slenderly,  
     Black is your body, and springy your leg;  
 Amiable lingerer,  
 Strongly you cling to her  
     As through this life a poor living you beg.  
 Heedless of royalty,  
 Lacking in loyalty,  
     Human position, what matter to you?  
 Nipping so pluckily,  
 Usually luckily,  
     Death is thy punishment ever in view.  
 Life almost measureless,  
 Equally pleasureless,  
     Foe of all creatures both little and great;  
 Spite of your meagreness,  
 Truly with eagerness,  
     For all fresh victims you greedily wait.  
 Hidden quite pleasantly,  
 Waiting till presently,  
     To its repose some poor creature will go;  
 Then from the pillow-slip,  
 Silently will you slip,  
     Bringing discomfort and anger and woe.  
 Merciless plunderer,  
 Seldom a blunderer,  
     Joys of your life very tiny must be;  
 Though you're emphatical,  
 Often erratical,  
     No-one could wish to become a poor flea.

—“GIRAFFE.”

## CLOUDS

The trees above are stripped of all their green,  
And, hidden midst the rushes, softly flows  
The idly babbling, gurgling, happy brook,  
Which, from the mountain tops, flows down their sides,  
And bears its joyful message to the sea.  
Across the crystal surface of the stream  
The sound of tinkling elfin bells is borne  
By Nature's faithful carrier, the wind,  
Who, in his daily coursing o'er the world,  
Comes as the shepherd of his fleecy flock  
To hasten on those masses in the sky,  
Those shapeless, fluffy carriers of rain  
Which flee before him, ever on their way  
Across the broad expanses of their field,  
And ne'er can stop, or loiter on their path.  
On must they fly, nor ever look behind,  
But sometimes cast a kindly eye below,  
And as they pass let fall their substance lightly  
Upon all living creatures, man and beast,  
And on the emerald pastures, steeped in dew,  
On snowy mountain tops, and to the stream.  
And down through murmuring reeds to quiet peace.

—Ed.

## STUDY

The horse and mule live thirty years,  
They never study nor shed tears;  
Sheep and goats are dead at twenty,  
No school—but holidays in plenty;  
The dog at fifteen's mostly dead,  
No English ever fills his head;  
At ten the cat's lost its nine lives,  
Far from restraint, no wild beast thrives.  
Most birds at five years pass away,  
Far, far from physics they all stay;  
The moths but few days stay on earth,  
Of schoolwork they know not the worth;  
But brilliant scholars, learned men,  
Survive for three score years and ten.

—"DRAWDE."

## THE HERITAGE OF YOUTH

Be guided, O thou changeful youth,  
By old experience dearly bought;  
Accept advice as solemn truth,  
And learn a lesson easily taught.  
Thy road is long and will be set  
With tiresome objects, hidden snares;  
Give wary eye to captor's net,  
Beware of robbers in their lairs.  
When chance appears be quick to seize  
Its every aspect, great or small,  
For want of effort never lose  
One atom; put thy best in all.  
With hardy and determined tread,  
Be set to meet thy greatest foe;  
A leader be, and yet, be led,  
Have courage! Ever onward go.  
Be not too solemn through thy life,  
A place for joy must needs be there;  
To combat sorrow, gloom and strife,  
Be joyous, faint not, nor despair.  
Forget not any kindness done—  
Obtain from life the most you can;  
Deafen thine ear to glory won,  
Be honest, loyal—be a man.

—S.O.S.

## THE FAMOUS FISHING ADVENTURE

It was in the fishing season, and Stoke had invited "Squidger" Teynton down to his father's bungalow in Bremer Bay. Both boys went to a good school, and after two months hard grind, Teynton was only too glad to accept Stoke's invitation to stay with him at the greatest fishing place in Australia.

When they arrived at their destination, Stoke suggested fishing for the next day. It was rather late, and they were tired, so they went to bed. They got up early in the morning, and after having breakfasted, and had a swim, they prepared the lines, which Stoke's father had given them. After that they went down to find the boat, and soon were about two miles out to sea.

Bremer Bay lies about 100 miles along the coast North-east of Albany. It is sheltered from the North-west and Westerly gales that sweep over the South-West of W.A., but it is exposed to the full fury of the southern storms that rush up occasionally from the Antarctic.

As they sat, Stoke said, between intervals of baiting a line, "The weather man says that a storm might be coming up from the south to-day."

"I hope it doesn't catch us, anyway," said Teynton, as he hauled in a fish, "but there, the weather prophet is always wrong."

As Teynton said this, Stoke glanced at the horizon.

"Listen," he said.

Teynton listened, and heard a shrieking moan gradually increasing in volume.

"The storm, by jingo, and it's coming quickly. Pull over to that island," yelled Stoke.

Just before they reached the island, the storm overtook them and overturned the boat, and the boys had to swim the remaining 50 yards by themselves. At last they dragged themselves up the beach.

"I suppose we'll have to stay here for the night, and maybe all tomorrow if they don't send out a search party," yelled Teynton above the storm.

They spent the night in a cave, and in the morning were rowed ashore by a fisherman.

"I'll believe everything that weather man says for the rest of my life," said Stoke, when they reached home.

So ended the famous fishing adventure.

—R. B. CURLEWIS, IV<sup>B</sup>.

## A PAGE FROM MY LIFE'S DIARY

(By J. W. A. MEREDITH)

I was sitting there with about ten others. We sat transfixed, our hearts beating frantically against our ribs, waiting for one of those white-robed devils to stand there at that fateful door and beckon one of us to his "doom." We went at the beckoning of this white-robed devil, because we knew that escape was impossible. Each of us prayed within his heart that he would be the next to be released from his ghastly sufferings.

The door opened. Ten pairs of eyes became rivetted on the grim figure that filled the aperture. "Whr-r-r-r!" came the sound of the fiendish machine that was in the end to put us out of our pain. "God! What a scream!" Another, and another, and then—silence.

We sat there with a cold perspiration breaking out on our brows. The white-robed figure turned its sinister eyes in my direction, slowly raised one hand, and, to my horror, beckoned me. I rose, as if some mechanical force was compelling me, and went with unsteady step towards the door. I passed through, and there, before my eyes, stood that ghastly machine which had shattered my sleep for the past few nights. I made my way to it—in a dream. My dream was broken by a "Good afternoon, Mr. Smith! It is a long time since I have seen you here." So saying, he swung the dentist's chair towards the light.

---

## A KNIGHT OF OLD, OR DONNING A DINNER SUIT

I am just beginning to realise why men loathe wearing dinner dress, and why women love to see it. It must be instinct in woman to delight in seeing her men folk in distress.

It was my misfortune some little time ago to have cause to wear a dinner suit, and to make matters far worse, it wasn't my suit. This perhaps accounts for the ill-fit. My first consideration after that detestable business, known as washing, was the shirt. This had one of the latest bullet proof breast-plates, largely used by gangsters in Chicago.

With the aid of shoe-horns, tin-openers, bottle openers, etc., I succeeded in making my chest fill the shirt, but now to find the armholes. This took a considerable time, but I was eventually successful.

I thought that by now my troubles must surely be nearly over, but to my surprise and dismay, I found they had not really yet begun.

I experienced seemingly endless difficulty in making large cuff-links go through small holes, but after numerous contortions, I emerged triumphant. Next came the collar. So strong was its resistance, that I felt inclined to give up in despair. My hair was ruffled, to say nothing of my temper. Suddenly, without any further provocation, the collar slipped into position, and around it I hastily fastened the tie. Despite the efforts of

the collar to become dislodged, I felt that now victory was within easy reach.

There was no difficulty with the trousers, and the coat and waist-coat went on with comparative ease. The task was completed, but though it was, my tortures were by no means over.

I felt as though I was in a straight-jacket; when I sat down my breast-plate bounced up and almost dislocated my neck. The collar had rough edges, which felt like the teeth of a cross-cut saw, and the waist-coat had a most disconcerting habit of creeping up round my neck. My tie was crooked, and my collar out of place, and certainly I felt out of place myself.

—"TETE-A-TETE."

## TWO ESSAYS

(By H.R.C.)

---

### Going to the Theatre

It is a wet night. The drowsy monotone of sleet, as a soothing background, which, although not noticed, would yet be missed, has permeated all. The streets, gleaming-wet, with lights of all colours reflected on them from windows and sky-signs, like the jewel-dotted slough of some fabled serpent, wind in intricate coils about the city. The lamps, as if placed by fairy hands, swim mist-rimmed in never-ending chain. Such a night should be reserved for one of the greatest of all pleasures—that of going to the theatre.

The reason for the selection of a particular type of weather for serious play-going is that certain emotions are aroused by the sights on the way. The dim lighting suggests the mystical, transforming the concrete to the ethereal, making the tinsel and canvass seem real in comparison. The mind is softened to a negative credulity.

To magnify the pleasure of being safely at one's destination there must be some excitement experienced in transit. Be it only the feverish rush from footboard to pavement through the rain, it is sufficient. Once in the theatre there is the suspense of waiting. As I have slipped into the habit of attending early, especially do I undergo this suspense. In stately manner the first intermittent parties are conducted to their

seats. The flow of humanity increases. Hurrying with short, quick steps, the ushers lose some of their stateliness. At length, with wild hair and fumbling hands the last crowds of stragglers are directed.

There is another type of theatre-goer—the latecomer. Apart from strangling at birth, there seems to be no remedy for this particular pest. A possible suggestion is that with the first note of the overture the doors should be closed until the end of the first act. With feet that kick a hat from one end of a row of seats to the other, dropping coats and falling into elderly matrons' laps, the latecomer struggles into his seat, which is invariably right in the middle. There he strikes matches in the attempt to read the programme, and in the middle of the contralto's top notes, with an excruciating crinkling sound, unwraps chocolates. Sometimes he brings George, an intimate friend—or fiend—who, having seen the play, insists on revealing the murderer, in a strident tenor voice.

Another curse of the theatre is the couple. With heads together, entirely obscuring the view for people behind, they exchange kisses of succulent intensity at any dramatic moment. On a par with these are the persons who incessantly chatter concerning such devastatingly thrilling topics as Aunt Agatha's rheumatism.

The orchestra enters and commences to tune its instruments—an invariable preceding rite. Next the overture, during which the audience sinks into a half torpor only to awaken with a burst of clapping as the conductor bows and bows again. A few bars of music, then the curtain moves up to a slight swishing sound, and a wealth of light and colour bursts on the darkened auditorium.

The play has begun.

### Solitude

When the wind sighs and moans through holes or crannies with the uncertain wailing of a child wakening, afraid, in the night, when leaves drag on a sodden roof with the desolate mournfulness of despair, and there is no cheerful noise of traffic, no grinding of gears or squeal of flaccid tyres on slippery road (a type of unending accompaniment, which, though sinking into an unheeded monotone, works on the subconscious mind and induces repose), and one is utterly, completely alone; then one can be said to have enjoyed the simple joys or horrors of solitude.

The country is, to my mind, the only environment in which a recluse can find complete mental and physical solitude.

In a crowded tram-car one can be in mental solitude. The mind, by concentration, can obliterate all physical difficulties, such as the obtrusive elbow of a red-faced, parcel-laden washer-woman, in elastic-sided boots, and allow the heart to be "in the highlands a-chasing the deer."

Suppose everyone left a city, all traffic stopped; suppose not a live thing save the weary, sooty flowers and trees remained, even then one could not find solitude. The very atmosphere, leaden and silent, would weigh on the mind. Every sound would awaken memories. Every corridor, every room, every inch of the street would be crowded with the ego of the unhappy inhabitants who had left. For it is strange how inanimate objects take on the characteristics of their owners. I know a very charming woman whose discarded clothes even are steeped in her personality. Her wardrobes are not so full of her robes as of her moods. Thus a city is much too charged with character ever to give physical solitude.

Our drama could scarcely exist without its convenient solitude. Had Ophelia kept pestering Hamlet whether she should wear the green or the red, while Rosencrantz was bubbling over with the one about the Archbishop and the mousetrap, his latest and longest story, the Danish Prince would never have been able to decide whether to be or not to be. Could Jasper Steele inform the petrified audience of his intention to poison his rival's "Eno's," if the chorus continually sang, with appropriate gestures, "God Save the King?" A thousand times, no! the conventional stage solitude must be observed.

From a little house on the cliff top I can see the sun set. Slowly, gracefully, it sinks behind a dark ridge of cloud which rims the horizon. The red-gold clouds fade to amber—to pink—to mauve—to amethyst, and the first star shines feebly in a velvet arch. A cold wind springs up, driving the sea mist in eddying gusts. The faint gurgle and lapping of the returning tide seems a fitting accompaniment to my reflections in solitude.

---

## CORRESPONDENCE

Dear Mr. Editor:

I am writing to make public a grievance which is keenly felt by all senior scholars, and also by some junior scholars of our School. It is a fault in the School which only the far-seeing can fully comprehend, and ultimately is certain to bring about the downfall of certain members of the community.

The reason why I write this is, that, being a senior scholar, I have intimate knowledge of the doings of the seniors, and I know that I have their whole-hearted support in this matter, and it is only by bringing serious matters to the notice of those in authority that they can be cleared up or remedied. This complaint, namely that "The beakers and test-tubes in the laboratory are not supplied with handles," has been troubling the seniors for the past few decades, and we think that something might be done to relieve the strain.

Yours, etc.,

UNONIMUS.

---

Perth,

10th May, 1933.

Dear Mr. Editor.

I have just read a new book written by a celebrated English author, on a subject that must be of absorbing interest to all boys of Hale School: "The Evolution of the Crease." Any ordinary male will understand this as referring to the crease in his pants.

The writer says that fifty years ago, pants had no crease. They were worn so tight that the wearer had to get into them with a shoe-horn. He tells an anecdote to illustrate this. A certain nobleman ordered a new pair from a celebrated tailor in the West End (London). After the first wearing he discovered, to his horror, a wrinkle in the knees. He sent them back and demanded an apology. The tailor was indignant. He said, "You must have sat down in these pants." "Yes! of course I did." "Ah! that accounts for it. These pants were made to stand up in."

It appears that the adoption of the crease was due to an accident. A certain king's valet ironed his master's pants flat instead of round. All the courtiers naturally followed the king's example, and the fashion soon became universal. As the pants became wider, the crease became more important. Now it is the mark of civilisation and the badge of culture. But I must not tell you all the interesting details the book contains. Buy it and read it.

Yours truly,

A LOVER OF PANTS.

---

3rd June, 1933.

Dear Mr. Editor:

If Miss Green's boys search in this letter they will find all their names buried in it.

Jack, son of Mr. Mac., began to wander merrily along the road. He stopped to look at the shaft of a cart. "Stand yourself out of the way!" shouted the carter.

SWIMMING TEAM, 1933—Winners

D. J. TREGONNING, MR. J. WELLS, L. GRAY, D. McWHAE  
G. FOX, P. CLARKE, D. McDANIEL, P. JACOBY, N. RUSSELL  
J. PARKER

Lloyd came up and said, "Mac, Leo died last night." "Oh!" said Jack Mac, "Whae is me!" (For he is Scotchman, descended from Robert Bruce.) "Does it not rile you when your dog dies and you have no photograph? Ae! Leo is dead."

I wonder how they came there.

Yours faithfully,

THE GARDENER.

---

(To the Editor of THE CYGNET)

Dear Sir:

I wish to draw attention to the east end of the grounds. There exists a descent to Harvest Terrace, euphemistically known as "the stairs." These, in summer, consist of a series of loose pools of sand, which shoot heavenwards a cloud of dust to envelop the unwary pedestrian at every step. They contrive to exist owing to the retaining powers of divers pieces of plank in descending order at distances of about four feet. These also keep in position the winter condition of "the stairs," that is, a succession of bogs which squelch unspeakable looking mud over the shoes of the sufferer. There are two ways of avoiding these death traps: (a) descending in a series of chamois-like leaps from plank edge to plank edge, or (b) catching a tram at Havelock Street. A puzzling feature is that surrounding this mess on both sides is a fence of barbed wire. This, for a long time, puzzled me, but at length I thought I had an explanation, namely, that the slope had been terraced for the purpose of growing rice for the boarders, but it soon became apparent that nothing could hope to grow for all the spiky encouragement of wire. Hoping that an escalator or at least a subway will rapidly replace this state of the stairs.

Yours, etc.,

STAIRGAZER.

---

(To the Editor)

June 1st, 1933.

Dear Mr. Editor:

Being by nature a keen business man, I should like to draw to your attention a little scheme of mine for making money for the School.

There is at the present day some grass on the front lawn. This is a contradiction in terms, so perhaps I should say there is some grass on the area of land in front of the School. It is hardly visible to the naked eye, but nevertheless it is there.

But, alas, what little there is of it is rapidly being converted into sand and mud by our budding footballers. This is a great pity, as the grass will go to waste. My first idea was to let the land to sheepowners at so much per sheep per hour until the grass was eaten, but now I have a better suggestion. Being myself a golfer, I know how annoying it is for one to have to hunt for the piece of turf one excavated at one's last shot, and replace it. The official term for such pieces is, I believe, "divots."

Why not sell the aforementioned grass to golfers to serve as divots? When the golfer does a particularly fine bit of excavating (a frequent occurrence), all he has to do is to take from his pocket a piece of grass, bought from the School, and replace the divot, or rather fill in the quarry.

In this way the School would make some money. Enough perhaps to be able to fence around the given area—but let me not in my enthusiasm exaggerate.

Yours sincerely,

GRASSHOPPER.

---

Dear Mr. Editor:

I lodge this complaint with the assurance that I have many in the School who hold the same opinion as I am about to express.

It seems to me that in spite of the many speeches delivered to us on the subject of "Vandalism," a certain member of our community has lightly cast aside all care for our property, and has put to the axe that noble creation which marked the line beyond which boarders may not dare to stray. I refer, of course, to the School boundary wall.

At the time of its destruction we had vivid visions of a beautiful stone structure to replace our picket fence, but years have passed away, as also have our dreams. We have lived for many years on the last faint hope that one day a wall would appear. I say we have lived on this hope, we have cherished it. Must we now lose all hope and die in despair?

May I close by begging the authorities that, in the near future, our dreams may be realised!

Yours, etc.,

"DREAMER."

## THEY SAY—

That Al. is a Glaxo baby.  
That Danny wears skin tights.  
That Meredith should be in shorts.  
That Dixie and George are love-birds.  
That Peter was born awake.  
That the cricketers slept well at Manjy.  
That some debaters aren't nervous.

---

## WE PILLORY—

Smith for devastating explosions.  
The footballers for merciless behaviour.  
Raff for intoxicating liquors.  
The rowers for training.  
The prefects for punctuality.  
The signallers for wagging it.  
Grax for care (?) in the lab.  
Cuthie for slacking.  
The stroke for heartless slave-driving.  
Buck for logic.  
An English Master for ceaseless sarcasm.

## OBITUARY

The late Mr. T. A. L. Davy

To the many tributes paid to the late Mr. T. A. L. Davy, the School desires to add its contribution. We all realise very fully what Mr. Davy's death means to the community and State, and we feel, too, that we have suffered a personal loss.

Mr. Davy did much for the School he loved so well, but perhaps his best work lies in the example he set us in the giving of service, the service which brings no reward, other than the honour which such service confers on the giver. This we should feel is the greatest reward of all, and it behoves the present boys of the School to endeavour to follow in his footsteps.

---

The late Morris Thomas

Towards the end of the year the School was shocked to learn of the passing, at the age of 15 years, of a member of the Junior Certificate Form. Morris Ivan Thomas had been with us only a few short months, but in that time his sunny nature and cheery personality had endeared him to all with whom he came in contact. He came to Perth from Melbourne with his parents early in the year, and had been a member of Hale until his untimely death. We extend to Mr. and Mrs. Thomas and Allan our sincere sympathy in their bereavement.

## OFFICE-BEARERS, 1933

*President:* H. PARKER

*Vice-Presidents:* G. JAMES, H. STONE, T. LOTON, S. CHIPPER, W.  
BRINE, C. L. RILEY, J. M. JENKINS, and W. G. BURGES

*Hon. Secretary:* E. S. SAW

*Hon. Auditors:* J. MORRISON and D. EVERETT

*Hon. Treasurer:* C. R. B. SAW

*Committee:*

THE HEADMASTER, A. CHRISTIAN, H. SUMMERS, L. ALLEN, T.  
HANTKE, W. SAW, C. NEWBERY, J. ROWE, D. CHIPPER,  
J. VIRTUE, and K. McDOUGALL

*Editor of Old Boys' "Cygnet" Notes:*  
G. BURGOYNE

## BUSINESS NOTICES

The annual subscriptions to the Hale School Old Boys' Association is 10s. 6d., or £1 10s. for three years, and dates from January 1 in advance.

Members are entitled to admission to every entertainment of the Association, and to each issue of the CYGNET. They are entitled to wear the Old Boys' blazer, badges, and colours.

Subscriptions should be paid to the Honorary Secretary, Third Floor, Atlas Buildings, Esplanade.

The Editor of these notes would be glad to hear from Old Boys of their own or other Old Boys' doings.

## EMPLOYMENT OF BOYS

To consider the unemployment of boys leaving secondary schools, the Association has invited two representatives from the Old Boys' Associations of Hale, Guildford, Scotch, Christians, Christ Church, Wesley, and Modern School, and one representative from each school to a meeting to be held on June 21.

## PERSONAL NOTES

## Marriages

Jim Macartney to Miss Violet Flanagan.

Con Chase to Miss Vera Saw.

Douglas Campbell-Wilson to Miss Lois Bateman.

## New Arrivals

To Mr. and Mrs. Archie Burt—a son.

To Mr. and Mrs. Clayton Mitchell—twin daughters.

To Mr. and Mrs. Evan Saw—a son.

To Mr. and Mrs. C. J. B. Veryard—a daughter.

To Mr. and Mrs. Noel Drummond—a daughter.

To Teddy Blackman, "Boog" Summers, and Frank Downing, and to the family of Harry Denny, we offer our sincere sympathy in their losses.

Henry Moseley has been appointed by the Lieutenant-Governor (Sir John Northmore) to the Board of Governors, for which he was nominated by the Old Boys' Association. Lloyd Allen has been re-appointed for a further term.

We must congratulate Hubert Parker on his elevation to Cabinet. When he accepted the presidency of the Association, he apologised for the time he would have to give to his governmental duties. But he spoke too confidently.

Tommy Riley must be congratulated on his election by the Synod of the Diocese of Perth, as Canon of the Cathedral. To non-ecclesiastics this may not seem very clear, but the fact transpires that Tom is now a big gun.

From the Ashburton District, Gordon Parker writes that he is working on a Geraldton station as book-keeper. He mentions having met Bully Shotter, Colin Clarke, and his brother, Neville Smith, and Maurice Parks, commonly known as Bombi.

George Campbell, son of the late Dr. Campbell, is a fully qualified dentist, and has won a dental scholarship at the North Western University, Chicago.

Last March, when G. T. Wood, an Old Boy, retired from the Local Court Bench, he was replaced by John McMillan. About a month later K. J. Dougall was appointed stipendiary magistrate for Geraldton. We congratulate them.

Brian Simpson has discovered a number of Old Boys among the forty million or so population of England. He writes:—

“Marcus Lotz is getting experience in an estate agency business, and will most probably start on his own soon. Lex Watson has just passed the first half of his F.R.C.S. (England), and hopes to go to Vienna for further study before returning to pass his final examination. Brian Seed is doing wool-classing work in Bradford. I had a letter from him, suggesting that I should take a trip with him in a second-hand car he has purchased. I most likely will do so later on. William (Bouter) Irwin, brother of Dick Irwin, is, in conjunction with Ivan Goff (Modern School), writing a book of their experiences since they left Perth. They are being paid by a publisher to do so, and it depends on what he thinks of it as to whether it will ever see the light of day.”

Brian himself is reading for the Law in Chambers, and when we heard from him in February, was preparing to go on circuit as Marshal with Mr. Justice Goddard. Besides such trifles as legal experience, he should receive a princely salary and live like a fighting cock with the judge.

After years of knocking about on various goldfields, “Butte” Barnett is confined to the Home of Peace, at Subiaco, but, judging by his letter to the Association, remains as cheerful as ever. He has reminiscences of his old headmaster, Mr. Bentler, “a tall, fair, Germanic looking man with a very fine long brown moustache. Mrs. Bentler was a pretty lady, and seemed to adore her ‘Billy Bottles.’ I remember Mr. Bentler was going to teach Thad Lefroy a few boxing hits, but a little later on Thad seemed to have become the tutor.”

Denis Keall, who has been studying medicine at Trinity Hall, Cambridge, spent a restless long vacation in Perth.

Charles Lee Steere, from Oxford, was also back in Perth for a short time last year.

“Katie” Lee Steere has gone bush on the family station, out from Carnarvon.

Alan Saw, who joined the Royal Air Force about two years ago, was awarded a "distinguished pass" in his examination for a flying officer. When we last heard of him he had been transferred to a bombing squadron at Upper Heyford, Oxford.

G. Johnstone Campbell is in America doing a post-graduate course at the Dental School of the North Western University, Chicago. We expect him back about the end of the year.

Frank Wittenoom earned notoriety by covering twelve hundred miles in two days on a visit to his Roebourne property some months ago. The act was committed by aeroplane and motor car. One generation back, when Sir Edward Wittenoom was first elected to the Legislative Council, he had to travel three hundred miles from his electorate to Perth on horse back. The journey took him a week.

Pat Keenan, who has been soldiering on the Indian North-West Frontier, turned up in Perth on furlough last July. At the end of his freedom he left for London.

*Mr. H. Parker*

Clem Dyer is finishing his electrical engineering course at the Power Station, Kalgoorlie. In his spare time, of which he appears to have great quantities, he drives three cars in competitions, and has already collected a number of trophies. Last October he was unlucky enough to meet with a minor accident in a hill climb, but it is difficult to believe that this has decreased his enthusiasm.

Toby James is back in Perth, broking stocks and shares.

Strange as it may seem, Geoff. Hewitt is now the analytical chemist at Mills and Ware's factory. Dil's instruction is also bearing fruit in the case of Bob Becher, who is doing chemical work at Plaimar's new tannin extract plant.

Owing to ill health, Steve Chipper has had to relinquish temporarily the position of starter to the West Australian Turf Club, to which he was appointed in 1897. Except for the period when he was at the South African War, he held the post continuously.

Tom Riley has been appointed Acting President of the local Returned Soldiers' League. He will hold the appointment during the absence of Colonel Collett at Canberra.

---

## UNIVERSITY NOTES

Only three new arrivals this year came from Hale. Gordon Burgoyne, of the *West Australian*, is taking the Dip. J. Course, and has gravitated to the staff of the *Pelican*. John Ambrose is doing first-year Medicine, while Don Thomas has started on an Arts Course.

Aubyn Dimmitt, Hepple Brown, Laurie Ellis, and Matt. Utting are all in their second year of Engineering. Dimmitt is taking up rugby, Laurie Ellis plays football, while Matt. tries everything, and writes for the *Pelican* between whiles.

Second year Science claims Ray Cooke, Ross Weatherburn, and Bill Cuthbertson. The latter two play rugby.

Everyone knows the part John Burnett, Frank Le Souef, and Alan Hill, three lusty engineers, took in the Old Boys' Race, and they help to furnish the backbone to University rowing.

A. K. and D. C. Weatherburn have vanished in a cloud of engineering formulae. Separated for once, they are gaining practical experience far afield.

Norman Mitchell, however, still coruscates, and is now flooding the 'Varsity with propaganda for the new Boxing and Wrestling Club. He also does engineering, and plays lacrosse.

Doug. Mills, fourth year engineer, swims still with as much vim as ever.

Don Morrison is also in his fourth year of engineering.

"Bill" Keall is taking third year Law. He says he is much too busy to do anything.

Geoff. Jones cleaned up some Law subjects last year, and is squaring up to more this year.

Malcolm Levinson is doing a third year Commercial Course, and is seen, and, if we are fortunate, heard at Music Society meetings.

Ken. Van Raalte, B.A., Dip. Ed., added a B.Sc. to his other trophies on last Grad. day. Outside employment prevents his pursuing an honours course as he would wish. He was elected President of the Music Society this year.

Russell Allen is immersed in fourth-year Science. He bobs up now and then to play lacrosse, and act on the Guild Council.

Bill Orr, engineer, is also among those in jobs which keep them away from our confines.

Keith Stone pursues an Arts Course, and turns out to rugby practice.

"Twink" Wickens has also left us to carry on practical engineering in fresh woods and pastures new.

Brian Williams is also afield with his Agricultural Science course.

---

## ORMOND COLLEGE

1933 sees Old Hale more strongly represented, there being five men from the School on the Hill in residence. The three new representatives just managed to live through the initiations, but are now able to look back on those weeks as of the most memorable periods in their lives.

Gerald Davies and Cyrus Jones are now among the strange mysteries of the Anatomy School. Geoff. Leyland is doing First Year Medicine, and has as one of his demonstrators another Old Boy in Bill Drummond. Leyland, in company with some

Guildford Old Boys, is, during the first term vacation, setting out on a walking tour along the coast to Apollo Bay. Mick Wilson and Alan Gray are progressing towards their M.B., B.S. Wilson again represented the College in the Intercollegiate athletics, which Ormond won by a comfortable margin for the eighteenth year in succession.

Dr. Bessell-Browne has a nice practice in Caulfield, and is often seen round the College. Bowie Allen is in practice in Brunswick, and is Clinical Out-patient Assistant at the Children's Hospital, where he is noted for his punctuality in attending clinics? Mort Tymms, now M.D., M.S., is still gaining further experience at the Public Hospitals. Bob Officer left his duties as Registrar at the Alfred Hospital to see Ormond defeated by two feet in the boat race.

Old Hale boys in Melbourne received with great pleasure the news of the School's fine win in the boat race, and heartiest congratulations are sent to the crew. It is to be hoped the School carries on during the rest of the year the good work carried out to date.

[*Editor's Note.*—We record with pleasure the receipt of a telegram of congratulation from Old Hale Boys at Ormond.]

---

## OLD BOYS' FOOTBALL

As a result of one or two football matches being arranged last season between Old Boys of the Schools, this season a list of fixtures was drawn up and a handsome trophy was presented for perpetual competition amongst the Old Boys. Each team played three matches, and Christian Brothers' College must be congratulated on being undefeated. Although pressed hard at times, they always had that little bit of reserve that has more than once given them victory in the old school days.

Although played on week days, many spectators witnessed some patches of excellent football, and some very humorous incidents. All the fixtures were marked by the very fine spirit of the game, and the experiment has so far proved a great success.

Our team did not win a match, but they fought hard each time, and by no means disgraced the old School. We have some very promising footballers in the three Olivers, Stan Duncan, Jack Veryard, and Mick Driver. Edgar Sanders and Ted Hantke, of our old victorious 1921 team, turned out to show us that

they have not yet forgotten how to kick a ball, while Dick Kelly and Snow Perkins, two other old timers, proved to be full of dash. Young Blue Duncan and Jack King had a game when they were down from the country, and proved that they could give a bump as well as they can take one.. Dramatic Dreamy Lyall and Gerry Kemp, of Rugby fame, were usually there to give the necessary touch of humour to the game.

We had a lot of fun, and are all looking forward to next season, when we hope to meet with more success.

---

## ATHLETIC CLUB NOTES

Last season, 1932, proved the most successful experienced by the Club. Not only did it win the "B" Premiership conducted by the West Australian Amateur Athletic Association, but it also attracted many promising young athletes with Inter-school experience, who, with a little training, proved their worth in open company.

During the season the Club's teams won the half mile relay race at Subiaco Oval, the Fremantle-Perth relay race, the three-quarter mile medley relay race at Subiaco Oval, and ran second in the two miles teams' race at Ascot Race Course. Lindsay Gray and Edgar Dunn, for the School, rendered great service. In the series of inter-club meetings, the Club was undefeated.

The Club held eighteen meetings, mostly at the School grounds, in King's Park, on Sunday afternoons, and several paper chases were held at South Perth. The attendances were splendid compared with the previous season's. Handicap events were contested for the points competition cup. By consistent effort and general improvement, L. Robertson finished first with 105 points, followed by Gwynne Harris (100), C. Gerloff (89), P. Goff (86 2-3), K. Marris, who won the trophy for the most improved athlete, and T. Treacy (77) and L. Gray, who retired early when leading (65). Interspersed were held championship events to decide the champion athlete. The title was gained by T. Treacy, mainly through his sprinting ability, with 29½ points, followed closely by A. Pierce and E. Burnett, with 24 points each.

A number of the Club athletes competed in the State Amateur Athletic Championships, and A. Pierce won the half-mile State Championship, while V. Veryard was second in the high jump. Others who were not placed should be heard of in the near future.

At the conclusion of the season the trophies were presented by "Dil" Newbery at a dinner, held at the R.S.L. dining rooms.

Those who wish to join up for this season should get in touch with the Secretary, Gwynne Harris, c/o W.A. Trustees, who will be pleased to supply any information.

---

## ANNUAL DANCE

Overflowing with vicarious pride, the Old Boys turned up in good numbers to a dance at the School Hall, on Boat Race night, May 6. The first crew was present as guest of the Association. During the evenings messages of congratulations from the Old Boys of the other schools were read, and "Dil" Newbery, who was acting Headmaster, and Pat Guilfoyle, stroke of the School Crew, responded.

We must thank the Committee—D. Chipper, E. Mills, P. Gwynne, C. Newbery, and J. Rowe—for their work in organising the dance.

---

## OLD BOYS' ROWING

For the third successive year the Hale School Eight won the Old Boys' Race on Head of the River Day. The crew, who were in excellent condition, won by two lengths from Guildford. Christians were a bare foot further back, and Scotch only a quarter of a length behind them. The crew consisted of J. T. Burnett (Stroke), F. Le Souef, A. Reay, D. Gray, A. Hill, C. Warnock, R. Hill, N. Hollingsworth (Bow), E. Arney (Cox).

---

## LETTER FROM MRS. FAULKNER

My Dear Old Boys:

Just after I posted my letter of thanks for your Xmas greetings last mail, a notice came, saying an Australian lamb would be delivered that day, and sure enough, at two o'clock, a beautiful lamb was handed in, and I soon discovered who the kind donors were. What a wonderful, kind thought of you all, and I just feel any words are inadequate to express my thanks to you all.

It arrived in beautiful condition, and as the weather is particularly mild for this season, my butcher has put it into cold storage, and will let me have it as I want it. Yesterday we had a shoulder for dinner, and, without any humbug, it was the nicest meat we have tasted since we left W.A.

I do thank you all very sincerely for this lovely Xmas gift, and with love to you all, and every good wish for 1933.

Yours affectionately,

LOUIE FAULKNER.

---

## OLD BOYS' DAY

A large number of Old Boys of every age and description tasted once again for a short time the discipline of school, when a special assembly was held at the School on Old Boys' Day, February 27.

Steve Chipper marshalled his motley brigade on the lawn, and, getting them away in the usual orderly start, marched them into the hall. A roll was called, and each Old Boy answered with the years that he was at the School. Old Boys and present boys joined in singing "Forty Years On," including that tactless verse about "Feeble of wind and rheumatic of shoulder."

---

## OLD BOYS' CRICKET MATCHES

Town v. School

(By "SWIPER")

Although there had been no rain for weeks prior to Old Boys' Day, the curator of the W.A.C.A. Ground served us up the usual sticky wicket, and the first few batsmen, amongst whom was the narrator, didn't have much fun, although Charlie Ammon, who top-scored with 28, smote to some purpose, and with much vigour. Harry Guy, one of the evergreens, was next with a fairly sound 20, and "Buzz" Farmer astonished all present by making 19 in the very best hockey style—a very remarkable performance. Jock Mackenzie, who always gets a few in this event, collected 15, and the only other double-figure scorers were Tom Scaddan and L. Ellis. The remaining nine batsmen, most of whom experienced varying degrees of hard luck, also ran. Some, indeed, were lucky to score at all, as a very poor idea, which originated with our President, Punch

James, decreed that no player could score the dreaded "duck," and should he do so, he had to be dismissed again. This worked out most satisfactorily to the aforementioned President, who was outed three times before he increased the score. The idea was a scurrilous one, and it is pleasing to note that the James has since been deposed. In the bad old days he would probably have had his head chopped off. The best bowler for the School was Dixie Clement, a well set-up boy with plenty of pace and a nice delivery; he took 5 for 23.

The gentle reader will have noticed that fifteen batsmen took the crease for the Town Old Boys. This is altogether too many, and something will have to be done about it next year. I would suggest that a committee of the smaller fry be formed in future years to organise popular games, such as "fat," "ring," and "eyedrops" to absorb the overflow, and that only eleven players participate in each match. As a matter of fact, most of us should know better, as the spectacle of a lot of comic old coves, who, even in their palmy days, hardly knew a cricket bat from a golf club, wasting time and being boys again is apt to be rather trying from the younger generation's point of view, and some of us will have to stand down in future years.

The School made only a fair beginning, and until the advent of cricket coach, Trevor Rowlands, it looked like a victory for the Old 'Uns. Rowlands became associated with L. Nathan, and collected 60 in slashing style before being bowled by Ellis. L. Nathan, who played stodgily for 75 not out, was actually dismissed before scoring, but our President's splendid decree about "ducks" saved his life, and the youngster indulged in barndoor tactics to a very wearisome extent. This kind of thing is not appreciated in these games. The remainder of the School batsmen were not very impressive, although Randell, Bott, and Gray shaped confidently enough. The Old Boys were just starting to pat themselves on the backs when Bill Cuthbertson came in (he was on loan to the School XI). Bill was never really regarded as a potential Bradman. His style is by no means convincing, and bowlers were all anxious to collect his scalp and improve their averages. Bill soon dispelled these hopes, however, and proceeded to hit the ball in all sorts of unexpected directions, as well as over the fence a couple of times at the writer's expense. At the welcome call of time he remained unconquered with a gallant 41 to his credit.

The Old Boys' bowling (particularly the writer's) was feeble, although the deliveries of Ammon and L. Ellis deserved better results. The fielding of the Ancients was, of course, frightful. In future, let our motto be: "Out with the Oldsters and in with the Youngsters."

## Town v. Country

(By "SWIPER'S OFFSIDER")

"Sport":—

- (i) "Pleasant pastime, amusement, diversion."
- (ii) "Amorous dalliance."
- (iii) "Jest, jesting, mirth, or merriment."
- (iv) "A matter affording entertainment."

(Shorter Oxford English Dictionary, vol. 2, page 1980.)

## FOOTBALL TEAM, 1932

*First Row*—P. CLARKE, PESCOD, C. GARLAND, I. HIBBLE, R. FILMER, D. THOMAS

*Second Row*—MR. ROWLANDS, S. ROGALASKY, C. CORNISH, B. STUBBS, D. CLEMENT, G. RANDALL, F. YOUNG, D. GERLOFF, MR. LANGLEY

*Third Row*—C. TREACY, L. P. GRAY, E. DUNN, J. AMB ROSE (Captain), P. JACOBY, — STONE, D. MCDANIEL

Until the last series of Test Matches the game of cricket came within the above definition, but for some six months the ruling bodies of England and Australia have been casting about for an addition to the dictionary's notes. As a result, we now find added "to indulge in sport, fun or ridicule at, over, or upon a person or thing." This is considered more appropriate than the terms "amusement," "amorous dalliance," or "merri-ment."

By a fortunate chance our Town and Country Match was played before the recent amendment came into force, and as a result, 25 batsmen were enabled to make some 500 runs without even a broken nose to show for them. The day's game was further improved by the new rule under which no batsman could be dismissed before making at least one run.

The writer is not permitted to divulge the full story behind this rule, but a perusal of the 1931 and 1932 CYGNETS will reveal that a certain ex-captain of the School cricket team had been feeling the effects of his 32 years when batting in the Old Boys' matches of those dates. As it happens, he was not in need of assistance this year—in fact, was four runs on the other side, but the retiring President fully appreciated the rule, being stumped three times before going on to reach double figures—for the first time in many years.

The Town won the toss, and after a slow start, finished with the useful score of 247, of which Harold Rowe made an unfinished 50 in perfect style; Dudley Everett (34), Nelson (29), Leo Harwood (27), and Phil Roberts (26) were the other successes.

Full of confidence and luncheon, the Town took the field, Reg. Sewell and Stan Duncan being the opening batsmen for the Country. Within half an hour confidence was wearing thin, and the luncheon proving a most discomforting handicap. Sewell placed his shots to every unoccupied part of the ground, and his dismissal for 59 was gratefully welcomed by the outfield. Thorley Loton hit out for 18, as did Jack Money and Harry Russell.

The Town was still in a comparatively safe position, but from 2,000 miles north came Harold Farrington, and with Noel Drummond as partner, he lifted the ball over the boundary with such heart-breaking frequency during his innings of 20 minutes, this his 65 not out, coupled with Drummond's 21, gave victory to the Country team by nine runs and one wicket.

The scores:—

### The Film

That these stirring deeds should not be lost to history, Mr. Parlato, of Kodaks (to whom we are very grateful), took a cine-kodak film of the matches. The film was shown at the first of a series of monthly luncheons on May 3. Old Boys were shocked to see themselves as others saw them, and to discover that the strokes they had developed by a careful study of Bradman seemed to have been learnt down on the farm.

### HOCKEY CLUB NOTES

During the past few years hockey in Perth has become increasingly popular. The winning of the Australian Hockey Carnival in 1929, which was held in Perth, was an added incentive for more players and new teams. The number of teams affiliated with the Association this season is 32, split up into seven A1 grade, seven A2 grade, nine reserve grade,

nine B grade teams, of which the Old Boys have a team in the A1, Reserve, and B grades.

Last year was probably the best year the Old Boys have experienced. We had only two teams in the Association. The A Grade team had a very good run in the initial round, but owing to injuries and the loss of our Captain, Don Pilmer, who went to the country, we lost many games in the second round, and finished up for the season fifth.

The B Grade had an exceptional season. They were runners-up in both cups, being beaten by Christian Brothers' team in each final match. Bert Kelly, Captain, and Bob Becher, centre forward, were mainly responsible for the goals. Becher scored the most goals in the grade, and Kelly gave him a good run for second. This season the Reserve grade team comprises the members of last years B grade team. Being an improved team, they should go far.

The A grade team has lost one member, our last season's Captain, Don Pilmer, who will be missed very much, not only because he is a first class player, but because, as captain, he had the power to get the best out of the team.

This season's B grade team consists of new players, and, judging by the way the members are taking to the game, should finish the year near the top of the list.

If any Old Boys wish to take up hockey, the Secretary (H. I. Trenaman) will be glad if they would get in touch with him at the Bank of New South Wales, Perth.

---

## BUNBURY DINNER

Ian Anderson has given us the following account of the Combined Old Public School Boys' dinner, held at Bunbury, on January, 30:—

There were 67 present, twenty-five from Hale, twenty-four from Guildford, and the balance from Scotch and C.B.C. Captain Leslie Craig, who was at Hale from 1900 to 1908, was in the chair, and proposed the toast of the four public schools, which was responded to by F. D. Slee, for Hale; G. M. Bunning, for Scotch; J. J. Prendergast, for C.B.C., and Herbert Davies, for Guildford. Every man present stood in turn and gave his name and the years he was at school. The names of the old Hale chaps there, as far as I can remember, are:—Leslie

Craig, C. J. B. Davy, Bernard and Neville Joel, J. K. Duce, Forrest Rose, W. A. Rose, H. C. A. Dungey, F. D. Slee, R. A. Clifton, Jim Mitchell, J. A. Keall, W. S. Bagshaw, J. G. Money, Don Smith, I. W. Anderson, Ian McIntosh, Max Noble, Dick and Arthur Brazier, Henry and Otto Fry, E. C. Eastman, Henry Reynolds, and J. H. Cox.

In spite of the heat (or perhaps because of it), the dinner went off well, and we hope to make it an annual function.

I hope you keep well, and that this will be a good year for the School, and for the Association.

With kind regards.

Yours sincerely,

IAN ANDERSON.

---

## ANNUAL MEETING

The Association's Annual Meeting was held at the School Hall, on the evening of Old Boys' Day, February 27. The President (Mr. Gordon James) was in the chair, and 58 Old Boys were present.

Delving into the past, the Honorary Secretary read the minutes of the last Annual General Meeting, and of the Special meeting in June, 1932. The Honorary Treasurer satisfied the meeting on the subject of finance. Emboldened by their good reception, the President put his lengthy report over with equal success.

These formalities completed, the meeting elected its officers for the coming year, and, before the new Committee thoroughly realised its position, recommendations were demanded from the meeting. The meeting's sole concern appeared to be with the boat race. Gra Rosser, with remarkable staying power, urged that the race be held on Saturday afternoon, so that those who could not leave their work on Saturday morning could see it. It seems, however, that the water is often rough in the afternoon, but if so, Gra claimed that the race could be rowed on the following Monday, which is a holiday. (It isn't.)

Dr. Buntine asked Old Boys to help in finding employment for boys leaving school. He informed the meeting that the satisfactory financial position of the School was entirely due to the work of Mr. H. W. A. Tanner, its Honorary Treasurer. With the satisfaction of a man who has done well, he explained

that every member of the teaching staff was a trained man. Greatly daring, he suggested a picture night on Boat Race night instead of the traditional dance, but the meeting would not part with its dance willingly. When the matter had been debated at length, it was left necessarily in the hands of the Committee.

Then to supper and toasts.

---

### Chairman's Annual Report, 1932-1933

Gentlemen:

It gives me pleasure to present for your perusal the Annual Report of the Association for the year ending 27th February, 1933.

Notwithstanding the continued economic depression, your Committee is able to report favourably on the year's operations, which show a slight increase on 1931-32 figures. This we consider is satisfactory.

*Committee.*—From the 29th February, 1932, to 28th February, 1933, eleven (11) committee meetings were held.

B. Simpson was granted leave of absence from July, and G. G. Burgoyne was elected in September.

As well as the ordinary meetings of the Committee, three special general meetings and numerous sub-committee meetings were held.

*Financial.*—It will be seen from the balance sheet that the Association has a small credit, which is satisfactory, considering the greater expenses necessary in carrying on the work of the Association.

There are 568 financial members, made up as follows:—Financial members owing one and two year's subscriptions, 437; Life members, 19; Honorary life members, 4; Members whose subscriptions are three years in arrears, 108.

The total cash receipts for the year were £231 15s. 3d., as against £279 7s. 7d. for the previous year. Last year £74 7s. 1d. of the total contributions were donations to Boat Fund. Subscriptions and contributions to the CYGNET were £145 9d., as against £123 3d. 6d. last year.

*New Members.*—During the year 44 new members were enrolled.

"*Cygnets*."—The amount paid by the Association to the School for the 1932 CYGNET was £26. Mr. Burgoyne has consented to look after the Old Boys' Notes in the CYGNET.

*Social Functions*.—Annual Dinner: The annual dinner was held this year at the R.S.L. Dining Rooms on Inter-school sports night, Saturday, 15th October, and proved to be one of the outstanding social successes of the Association. It was very pleasing to note the number of country members present.

Annual Dance.—The Social Committee was responsible for a very successful dance, which was held, as usual, on "Head of the River" night, in the School Hall. The Old Boys' Committee invited, as its guests of the evening, the Headmaster and his wife, and the members of the School crew. A large number of Old Boys and their friends were present, and spent a most enjoyable evening.

Monthly Luncheons.—There were six luncheons held during the cooler weather, at which various gentlemen addressed the members present. During the summer months the luncheons have lapsed.

Moora Dinner.—The combined Old Boys from the secondary schools held a dinner at Moora on Saturday, 24th September, at which Messrs. Walker, Brine, and Dr. Buntine were guests. The dinner was a great success.

Bunbury Dinner.—The combined Old Public School Boys' dinner, which was held in Bunbury, on January 30th, was a great success. There were 67 present, 25 from Hale, and the balance from the other public schools.

*Sport*.—Old Boys' Golf Match.—Old Boys had a chance to test their "-divot cutting" ability when the Old Boys' Associations of Hale and Scotch arranged a golf match at Mt. Yokine, on 9th October last. A very enjoyable day was spent. The best scores were returned by Mr. C. R. B. Saw (Hale School), and Mr. H. Jones (Scotch College). Trophies were also presented for a hidden hole competition, an eclectic competition, and for the worst score of the day. We take this opportunity of thanking the Committee and members of the Yokine Golf Club for their hospitality. We hope that this year the other two schools will be represented.

Old Boys' Crew.—On Head of the River day the race for Old Boys' crews was held as usual. It will be remembered that some time ago the Old Boys' Associations of the four public schools presented a cup for annual competition for this race. Last year our crew won, and the name of our Association was

the first to be inscribed. This year our crew, consisting of J. Burnett (stroke), Frank Le Souef (7), Aubrey Reay (6), Ron Hill (5), J. W. Hall (4), S. Warnock (3), Noel Humphries (2), and Norman Hollingsworth (bow) was a fine combination, and proved too strong for the other crews. Earle Arney, that old stalwart who coxed the School crew for so many years, steered the crew to victory. We desire to thank the rowing men of our Association for the enthusiasm which they have shown. It has enabled us to hold the cup for its second term of twelve months. We all hope that our Association may act as its custodians for many years to come.

**Old Boys' Football Match.**—This year Mr. de Pedro kindly gave a cup for annual competition, which was won by C.B.C. Old Boys' Association.

**Old Boys' Relay Race.**—Held on combined school sports day, was also won by the C.B.C. Old Boys' Association.

**Old Boys' Day, 1932.**—The most important function in the Old Boys' calendar was held at the W.A.C.A. Grounds, on 29th February, 1932, at the conclusion of Country Cricket week, when two cricket matches were played, Present v. Past, and Town v. Country. Before luncheon a group photograph was taken as a record of the gathering, and by courtesy of the *Western Mail*, was produced in the last CYGNET.

**Combined Public Schools Old Boys' Association.**—A suggestion has been made that during the coming year the above Association should be formed with the object of securing club rooms, and controlling and conducting various activities, such as combined social events and sporting competitions. The latter is already firmly established, having rowing, football, hockey, and relay race events, and requiring cricket, athletics, swimming, and golf to complete the necessary competitions.

**Kindred Associations.**—During the year invitations were received from Christians, Scotch, Guildford, and the New Norcia Old Boys' Associations to their annual dances, etc. Invitations were issued by this Association to the kindred associations.

**Country Centres.**—It is pleasing to note that several of the country centres have already conducted combined functions, in the form of dinners and dances. Geraldton C.P.S.O.B.'s Association has the honour of being the first to accomplish this, while Moora and Wagin have also formed Combined Public Schools Old Boys' Associations, and Bunbury has conducted Combined Public Schools' Dinners, etc.

**Trophies.**—The following trophies awarded by the Association to the School for 1932, were won by:—Dux of School,

D. Thomas; Junior Dux, F. Young and C. White; School Champion Athlete, E. Dunn; School Champion Swimmer, W. Mortimer.

*Country Old Boys.*—The support given by country members is indeed very gratifying to the Association, and every effort is made to arrange suitable functions for their meeting with town Old Boys during such times as Country Cricket Week, Boat Race Day, Inter-School Sports Day, etc. It is to be admitted that the advantages of the Association are more in favour of the city than country, but, unfortunately, this cannot always be avoided.

*Endowment Scheme.*—As the School has no financial backing, nor any Church to support it, it must look to the Old Boys' Association for all the assistance required to carry it on successfully. A scheme has been drawn up in order to help the School. The object of the scheme is to provide a fund, the interest on which will be devoted towards furthering the interests of the School. The fund will be controlled by five trustees, three of these trustees to be members of the Association, and two nominated by the Board of Governors.

## FORMS OF LEGACY

The following forms of legacy for inclusion in wills or as a codicil have been drawn up by Mr. Quinton Stowe for those wishing to make a legacy to the new Hale School Endowment Fund:—

### 1. *Form of legacy for inclusion in Wills:—*

"I give and bequeath unto The Hale School Endowment Fund Association Incorporated the sum of \_\_\_\_\_ and I declare that the receipt of the Treasurer or other proper officer of the Association therefor shall be a complete discharge to my Executor."

### 2. *Form of Codicil:—*

"I \_\_\_\_\_ of \_\_\_\_\_  
in the State of Western Australia  
declare this to be a (first) codicil to my Will which  
will bears date the \_\_\_\_\_ day of \_\_\_\_\_  
19\_\_\_\_"

## ATHLETIC TEAM, 1932—Runners-Up

*First Row*—L. HALLIDAY, H. WILLIAMSON, I. BEATON, P. OLIVER

*Second Row*—MR. RYAN, R. NEALE, D. THOMAS, T. TREACY, G. TURNER, D. TREGONNING, P. JACOBY, N. RUSSELL, MR. LANGLEY

*Third Row*—I. WAY, L. P. GRAY, D. FETHERS, E. DUNN (Captain), J. AMBROSE, D. CLEMENT, D. McDANIEL

*Fourth Row*—L. FETHERS, E. PARRANT

"I give and bequeath unto The Hale School Endowment Fund Association Incorporated the sum of \_\_\_\_\_ and I declare that the receipt of the Treasurer or other proper officer of the Association therefor shall be a complete discharge to my Executors AND in all other respects I confirm my said Will.

"In witness whereof I have hereunto set my hand this \_\_\_\_\_ day of \_\_\_\_\_ 19\_\_\_\_

"Signed by the said \_\_\_\_\_ as a (first) codicil to his Will which bears date the \_\_\_\_\_ day of \_\_\_\_\_ 19\_\_\_\_ in the presence of us both present at the same time who at his request in his presence and in the presence of each other have hereunto subscribed our names as witnesses."

At the special general meeting Messrs. A. L. B. Lefroy, C. A. Saw, and H. D. Moseley were nominated as the first trustees under the Deed, together with Messrs. L. Walker and H. W. A. Tanner, nominated by the Board of Governors.

The President has forwarded four circulars to members; one to country Old Boys, enclosing a copy of a codicil and legacy, another to certain of the younger Old Boys, asking whether they would be agreeable to take out Endowment Policies in the name of the Trustees of the Endowment Scheme, a third to certain Old Boys, asking them to finance these policies, and a fourth to town Old Boys, asking for a small weekly contribution. Answers and cheques are already coming in, and provided that every member will do his share of the organisation work, the scheme must succeed.

*Blazers.*—During the past year a large number of blazers were issued to financial members of the Association. The wearing of sporting honours on the Association blazer is forbidden as contrary to the spirit of the Association. All blazers, colours, etc., are obtainable at either Bon Marche or Foy & Gibson, but can only be obtained on a written order from the Association.

*Headmasters' Gallery.*—Mr. Le Couteur's photograph has been written for, but has not yet been added to the Headmasters' Gallery.

*School's Headmaster.*—Your Committee is again deeply indebted to the Headmaster, Dr. Buntine, for his practical support in making the hall available for dances, meetings, etc., and also for his keen interest in all Old Boys' activities. Congratulations are extended to the Headmaster and his staff on the continued successful results of the School's scholars at the recent University examinations, also for the successes gained in the sporting sphere.

*Mrs. Faulkner.*—The Old Boys' Association forwarded a Xmas lamb to Mrs. Faulkner, which was very much appreciated by her.

*Thanks.*—In conclusion, I desire to express my appreciation of the help extended to me during my term of office by all members of the retiring committee, and especially do I tender my sincere thanks to your Honorary Secretary, Mr. Evan Saw, for the valuable assistance he has rendered the Association during the last twelve months.

(Sgd.) G. JAMES,

*President.*

---

## THE LATE T. A. L. DAVY

Taddy Davy was the head of the School in both work and sport, attaining this position by intensely hard work. When he was appointed Rhodes Scholar there was general acclamation, not only at his own school, but amongst the boys from other schools who had met him or played against him in the Inter-School competitions.

We are proud to acclaim him as one of the very few Australian Rhodes Scholars who have attempted to follow the high ideal of Cecil Rhodes, and he is one of the even more select band who have achieved their goal. At Oxford he had a brilliant scholastic and sporting career, and when he returned to Australia, he was marked as a coming man. In his profession he very soon attained a high reputation. His clear thinking and his critical intellect, combined with his capacity for work, earned for him his appointment as King's Counsel last year. His services to the School as President of this Association and Chairman of the Board of Directors were of immense value. His political career was outstanding, and an example to every young citizen.

In 1924 he was elected to the House as representative for West Perth. Those who fought for him on that occasion felt that they were supporting one whose ability and capacity for work would very soon raise him to Ministerial rank, and at the last elections, when the National Party was returned, their faith was vindicated. Taddy was made Attorney-General, and later Minister for Education and Minister for North-West. He carried out his duties with unflagging zeal and with full success. His splendid loyalty to his leader and his inherent spirit of fairness and honesty of purpose were recognised and appreciated not only by the members of his own party, but by the man in the street and by his political opponents. His good looks and his charm of manner added the finishing touches to a personality which was well loved by all classes and creeds.

It is safe to say that had he lived another few years, he would have obtained the highest political honours which his country could offer him, and his country would have received payment in full.

It is some consolation to us to know that our feelings for Taddy are shared by the State as a whole. At his funeral there were representatives of every class of the community—leaders of the State in political, professional, and mercantile life, and many unemployed, who, not having the fare to Karrakatta, tramped down the whole way and joined their more distinguished brethren at the graveside in order to pay their last respects. It was a magnificent tribute to the man.

His death is a tragic loss, but his life is an inspiration. Even though we can never produce another Taddy Davy, let us follow his steps along the same splendid path.
