SCHOOL NOTES

"The dreary intercourse of daily life"

SECOND TERM 1941

ON AUGUST 13th our 1st XVIII played Guildford Grammar School in the grand final of the Alcock Cup Competition at the Perth Oval. After a game displaying many examples of fine football Hale won with 13 goals 9 points to Guildford Grammar's 8 goals 9 points. We extend our hearty congratulations to the team on winning the premiership and especially we congratulate our fine captain, Alec Tregonning, whose inspiring leadership was most instrumental in bringing about the success of the team.

The Annual Prefects' Dance, which was held at the end of term, was a great success and justified the large amount of work and preparation expended. The school hall was strikingly decorated with streamers of light and dark blue and everyone appeared to enjoy himself. Delightful music was provided by Molly Wagner's orchestra and the evening passed with a real "swing." We wish to thank the mothers who organised the splendid supper.

The annual cadet camp, which extended from Saturday, August 16th, to Friday, 22nd, was located at Point Walter this year. It proved to be most instructive and most enjoyable in spite of adverse weather conditions. On the Wednesday afternoon the camp was open for inspection and a large number of parents visited us.

We heartily congratulate F. Bird on winning the Curthoys History Essay Prize.

Unfortunately we lost Mr. Stevens at the end of term, as he went into the Army. We wish him every success in his new position.

THIRD TERM 1941

The School recommenced on September 9th.

The Acting Headmaster announced two new prefects, namely, Trevor Wolff and Donald Burges. We warmly congratulate them on their appointment and wish them a successful period of office.

On Thursday, October 2nd, Mr. Batchelor, a missionary in Papua, visited the school and delivered an address on "The Life and Customs of the Natives of Papua." He commenced by describing the beautiful cathedral that was built by the natives. This cathedral, which is built on the old Norman style, is constructed of concrete and it took two hundred natives working continuously five and a half years to complete. The natives worked without payment and they even raised the money themselves for the material required in the construction. If this church, Mr. Batchelor continued, had been built in Australia it would have cost £50,000. Evidence showed that the site on which the cathedral was built had been the scene of native cannibal feasts of years gone by. After describing native customs Mr. Batchelor concluded by saying that the future of Papua was bound up with that of Australia and he hoped we would support the missionary work.

The athletic team was successful in winning the interschool athletics and we all join in warmly congratulating them on their magnificent effort. Hale School won by 23 points from Aquinas, who were second. A fine team effort was mainly responsible for the success and, as the team had trained conscientiously under Mr. Langley's able guidance, it was well deserved.

On Friday, December 5th, a dance arranged by VIB was held in the school hall, the proceeds being in support of the New Sydney Fund. The attendance was most satisfactory and everyone seemed to enjoy himself. Many boys had just completed the Leaving Certificate examinations and after the strain of examinations they found solace, at last, in the strains of Molly Wagner's orchestra. We wish to take this opportunity to thank the mothers that arranged the splendid supper.

An Old Boys' Memorial Service was held this term at St. Mary's Church. The Rev. Hamilton took the service and Mr. Newbery read the lesson from the Apocrypha, beginning at those well known lines, "Now let us praise famous men." A number of Old Boys attended.

The drill display, which is held every second year, was presented on Monday, December 8th, before a fairly large attendance of parents. Music was provided in order that the correct rhythm could be maintained in the various exercises. Mr. Wells is to be congratulated on the preparation and organisation of such a successful display.

We were unfortunate in losing Mr. Drake and Mr. Rowlands this term, as they have taken up military duties. Both Mr. Drake and Mr. Rowlands have been at Hale approximately ten years. We wish them the best of luck and every success in their new spheres and we look forward to the time when they will return to Hale School.

During most of his sojourn at Hale Mr. Drake was responsible for the smooth running and high pitch of efficiency maintained in the School Cadet Corps.

Mr. Rowlands has trained our first XI and first XVIII for many years and will long be remembered by the boys as a most successful and inspiring coach.

To those boys who gained the Junior and Leaving Certificates we offer our congratulations. This year we had quite good results in the public examinations.

The collections this year for the Blind and Red Cross were as follows:

FIRST TERM 1942

The new school year commenced on February 10th and although the world is locked in a deadly struggle we hope that we will be fortunate enough to be able to continue our studies unmolested until the time is ripe for us to take an active part in the fight against the enemies of Christianity and civilisation.

The new national crisis has caused us to lose a number of our masters, so that this year may be one of the most difficult years in the history of the School. However, we are confident that the School will stand together and work towards the attainment of a successful year, scholastically as well as on the sports field.

Mr. Hadley welcomed the new boys to the School and hoped they would soon become accustomed to their new school and take an active part in its activities.

Mr. Hadley also welcomed and introduced to the School three new masters, Mr. Johns, Mr. Corr, and Mr. Trotter. We sincerely hope that their stay with us will be comfortable and enjoyable as possible. Mr. Corr has taken an active interest in the School for a number of years and is, therefore, well known to most of the boys.

On Friday, February 13th, following the election which served as a guide to the masters, the Prefects for 1942 were announced. To John Clarke we extend our hearty congratulations on being appointed Captain of the School, and also to D. Craig, R. W. Farmer, R. N. Benson, P. R. Kennedy, D. I. Macgibbon, R. Wilson, and F. Bird on their appointment as prefects. May the School have a most successful year under their guidance.

The Bishop of Bendigo, the Rt. Rev. C. L. Riley, accompanied by his son, Mr. William Riley, who was formerly a master at Hale, and Mr. Brine, chairman of the board of governors, visited the School on Friday, February 20th. After Mr. Hadley had welcomed the visitors, the induction of prefects took place, at which the Bishop officiated. Bishop Riley delivered a short address and touched upon several matters of school interest. He said that while the boys had the opportunity of acquiring learning they should take advantage of it and prepare themselves with the necessary knowledge in order that they might take their place in the world when peace had been restored. Boys who had had a sound education at Hale School should endeavour to take the lead in the State and render valuable service to the community and country, as our community very acutely needed good leaders. But first, Bishop Riley continued, the boys of the School should learn to command themselves before they could possibly command other people. He said the Boer War was in progress when he was at school and many of our Old Boys fought in it, as our Roll of Honour bore testimony. He declared that it was very interesting to watch the Old Boys of the School take their place in different walks of life. The Bishop, who was till recently Chaplain-General of the A.I.F. in the Middle East, said he had met many Old Boys overseas who were doing splendid work. The Bishop concluded by telling the School to back up the prefects, who were there to "help the boys help themselves."

Finally, Mr. Brine spoke, thanking the Bishop and Mr. William Riley for their visit and also asked the Headmaster to grant a half holiday. Mr. Hadley granted us the half holiday that afternoon.

Wednesday, February 25th, was observed as Old Boys' Day. The Headmaster, Mr. Hadley, in addressing the assembly said that the Old Boys had not come for entertainment but to keep in contact with the School and to recall old memories with other Old Boys. The Head regretted that the usual number was not present, but the abnormal times was the obvious cause. The Headmaster called each Old Boy's name, while the latter stood up and stated the period in which he attended school.

On the afternoon of Old Boys' Day an event occurred which is unusual in school life, but which is a mark of the times and is worthy of record. The School spent the afternoon digging trenches in the Observatory grounds. The evacuation of the School to these trenches has been rehearsed a number of times and is now performed in a speedy yet orderly manner.

The Easter vacation commenced on April 3rd and ended April 7th.

On Friday, April 24th, at assembly the Headmaster, Mr. Hadley, spoke to the School on the significance of Anzac Day. Mr. Hadley described how our troopships left Mudros Harbour in Lemnos Island on the evening of April 24th, 1915, and on the following morning at dawn our troops landed on the barren coast of the Gallipoli Peninsula at a place afterwards known as Anzac Cove. Although the Turks were prepared for a landing on the peninsula our men fought with a tenacity born in the defenders of liberty and overcoming the almost impossible they finally established themselves on the coast, where they remained for eight months. So it is, Mr. Hadley concluded, we solemnise the 25th of April because it was the day on which Australia, in the eyes of the world, became a nation.

Unfortunately we lost Mr. Langley half-way through this term and Mr. Mill at the end of the term. Both masters have entered the Air Force. The School wishes them every success in their new careers and looks forward to their return to Hale School.

Mr. Langley has been at Hale about twelve years and through his meticulous manner of working has become known as "the systematic man." Mr. Langley has trained our athletic teams for many years along definite scientific lines and his untiring efforts have been crowned with many outstanding successes. Any boy who has taken up athletics under Mr. Langley's guidance will loudly sing praises of "P.D.'s" coaching. Mr. Langley was also responsible for the training of our swimming teams and the second XVIII.

Mr. Mill has coached out Slazenger Cup tennis teams and also the third XVIII, which had a fine record of successes last year.

Half way through the term a new master, Mr. Mitchell, who is an Old Boy, came to the School to replace Mr. Langley. We hope Mr. Mitchell's stay with us will be a happy and enjoyable one.

On May 7th the School broke up for the first term holidays and re-assembled on the 26th day of the month.

OBITUARY NOTICE

The School offers its sincere sympathy to Donald Burges, whose brother, Newton Burges, who was at school three years ago, was accidentally killed on his father's farm on October 8th last year.

The School also offers its deep sympathy to Frank Bird, who has sustained the loss of his father.

Speech Night

The School year was officially brought to a close on the night of December 9th when the Annual Speech Night was held. A large number of parents and friends were present at the function. Mr. Brine, chairman of the Board of Governors, gave a brief introductory speech, following which the Captain of the School welcomed His Excellency.

Mr. Hadley then delivered his interesting report, which was followed by the distribution of prizes by His Excellency Sir James Mitchell.

An address was delivered by Sir James, in which he advocated the backing up of the industries of this State.

The enjoyable evening was closed by Mr. Morrison, who came forward and proposed a vote of thanks to His Excellency.

WELCOME BY CAPTAIN OF SCHOOL

Your Excellency, Governors of Hale School, Mr. Hadley, Ladies and Gentlemen,—On behalf of the boys of the School I wish to extend a hearty welcome to His Excellency the Lieutenant-Governor. We all realise that in these abnormal times how many calls there are upon your time. We therefore regard your presence with us again this year as a marked favour and a great honour. We assure Your Excellency that though many of us will be leaving school this term we hope that we may be present on many future occasions to see you granting us the honour of officiating at our prize-giving.

I know you will be pleased to learn that scholastically and on the playing fields our School has been very successful. This year Hale School has won three competitions, viz., Life-Saving, Football, and Athletics; and we were second in the Head of the River Race and in the Slazenger Cup tennis competition.

The School Cadet Corps had a record enrolment of 157, of whom six have attained the rank of cadet lieutenant.

In other school activities enthusiastic support has been given. The Debating Club has been very successful. With a record number of members a number of fine in-school and inter-school debates were held. Their value was evident in the allied Sports Council, wherein many interesting discussions concerning the School and especially its sports activities were conducted. Boys expressed their opinions freely and offered many useful suggestions.

The School has given generously to local charities including the School for the Blind, the Seamen's Mission, Orphans' Christmas Cheer, the Red Cross, and the New Sydney Fund.

I wish to thank my fellow prefects for their devotion to the School's welfare and for the excellent support which they have given me.

In conclusion, Your Excellency, ladies and gentlemen, I wish to say that, in spite of the disturbed times in which we are living, the School has worked hard and played hard in a most happy atmosphere.

HEADMASTER'S REPORT

The School year (1941) closes tonight. In many respects it has been extremely interesting and at the same time has presented difficulties.

There is little doubt that the abnormal conditions prevailing in the world today have affected the senior pupils especially and changed their outlook on future prospects. This is reflected in a more serious attitude towards their studies, for they realise that they will be thrown into a maelstrom far different from that which confronted their predecessors. But I have a strong faith in modern youth. I know that they will face their problems with courage, and I feel assured that they will prove sound and be successful.

The School has been fortunate in that its staff was intact for practically half the year, except for a break of four weeks caused by the illness of Miss Green. Mr. Stephens was called up for military service in the middle of the second term—at first for thirteen weeks, but this has since been altered to the duration of the war. A further loss to the staff occurred when Mr. Drake left on November 10th for military training, and he will also be absent till the end of the war. Although there are at present two vacancies on the staff there is every likelihood that we will begin the new year with a full complement of teachers.

The health of pupils has been very good. A minor outbreak of eye trouble affected a small number during part of the second term, but by careful segregation and constant watchfulness on the part of Sister Shenton the spread of infection was checked.

This year the School has felt the benefit of the alterations made to the residence and the renovations of the School and grounds. The housing of all boarders under the one roof has simplified the problem of supervision with no addition to the number of resident masters. The alterations to the domestic

arrangements were greatly appreciated, especially during the summer months. The increased number of boarders presented no difficulty, for the added equipment and accommodation were found to be ample for all and there was no undue strain on the staff.

The School enrolment for this year has remained steady at 280 in spite of the constant demand by business firms for the services of boys. It is very gratifying to find that the boys are determined to secure qualifications which will enable them to withstand competition on leaving school, for in the changing world into which they will enter they must be well equipped or they will be passed by.

The final term's examination has shown that the sub-junior grades of the secondary school have worked conscientiously and have made very good progress. I am also very pleased with the interest shown by boys of the junior school. A high standard in subjects has been set and the boys have responded particularly well. With such sound foundational work prospects of success in the higher forms are assured them.

Singing was introduced at the beginning of this year, although it was realised that the absence of a special music room would create difficulty. Boys at first were somewhat diffident about joining the classes, which, however, are steadily gaining in favour. The progress made is very satisfactory in spite of the prevailing conditions.

Sound work is being done in several forms of art expression. The examiners for the Junior University examination specially commended the geometrical pattern work and the rendering of plant forms. The lower forms have done very good work in free drawing. The handicraft work here affords excellent opportunities for decoration and pattern making, which are freely availed of. Next year we hope to lay special stress on colour work, painting, and the development of pattern from primitive forms.

In my report last year I stressed the lack of facilities for instruction in all forms of handicraft in the School. The modern trend is away from purely academic courses, in certain cases, to more utilitarian instruction. The rapidly increasing application of technology to all industries and the important advances therein from day to day make it imperative that boys must not leave school without a general knowledge of certain basic handicrafts.

In a large school there are always a number of boys who have neither the aptitude nor the desire to profit by a wholly classical education. An exploratory period during the first year of secondary school work will most likely reveal them. I do

not favour psychological tests which, unless applied by experts, have little significance; and, besides potentialities, temperaments and individuality are today not measurable. Rather do I consider that a wise observer, trained in the study of human beings, is often capable of discovering the future in the present characteristics of individual children.

Such exploratory period will, most likely, show that the so-called dull boys may have mechanical or other ability above the average. Recent research has shown that comparatively late starters are not necessarily early finishers. Therefore, if appropriate courses are provided, these boys, who previously had little interest in study or had gained a sense of inferiority, will soon regain confidence and enthusiasm, and many problems of disciplinary nature will then not present themselves. In fact, the very enthusiasm shown will most probably result in a carry-over to other subjects for the simple reason that a pupil who prides himself on excelling in one thing will desire to excel in others.

The introduction of simple handwork in the forms of the junior school has shown that boys are hungry for hand- and eye-training. Present accommodation and facilities for such courses are not only too limited but too inconvenient. Opinion is definitely in favour of craft centres being within the building, for craft work can be linked with art work to provide the best medium for cultivating aesthetic taste. I am fully persuaded that the school which does make the change by introducing craft work will be in full accord with modern educational development. Further, as many boys on the completion of their term at Hale School intend to return to the country areas, the instruction will be beneficial to their future careers. Yet it is a mistake to consider practical education as vocational in character, for the general experience is that scholastic attainments of pupils who receive it are apt to improve rather than to deteriorate.

I wish to record the intense interest shown by boys in the reference library. Their cards reveal that many have read extensively, and the type of books favoured gives every indication that the library is fulfilling a much-needed purpose. Contributions by donations have been generous; and the purchase of new books has prevented the library from becoming static. The room, however, needs to be equipped with suitable library furniture, particularly tables and chairs. Though funds are limited we hope to be able to provide more of these necessities in the coming year. In time, though all too slowly, the atmosphere of a good library will be achieved. Although the School library has received generous assistance by donations of books there has been too little done for the recreational or fiction

section. At present there is a dearth of up-to-date matter which is regrettable. If parents have any suitable books these would be sincerely appreciated, as it is essential to maintain interest in this type of reading.

I wish to place on record my sincere thanks to the members of the teaching staff for their fine co-operation and loyal support, which, in every phase of the School's activities, have been so willingly and capably given. The smooth working of the School and the excellent tone are due to the enthusiasm and keen interest they have shown in the individual welfare of the boys. One outstanding feature has been their willingness to give of their time to instruction in athletics and in the playing fields. The high standard shown by all grades in interschool competitions is undoubtedly due to this close collaboration of masters and pupils, and to the helpful advice given.

The School has been very fortunate in its choice of Captain of the School this year. By his personality and his capable leadership he has set an example of fine sportsmanship and manly conduct, and he has worthily upheld the best traditions of Hale School. The Captain has been ably supported by his band of prefects, who, by their ready co-operation and excellent team work, have proved of great assistance in maintaining the right tone in the School.

The pupils of Hale School did very creditably in the external examinations held in November, 1940, in spite of the difficult conditions which prevailed during that year, as noted in my report. In the Leaving Examination, out of eighteen boys who presented themselves, nine passed and six distinctions were gained. Thirty-seven sat for the Junior University, of whom twenty-four passed and four secured four subjects. This year twenty boys were awarded the School Certificate.

There are at present twenty-three former Hale School boys at the local University, -eight in engineering, seven in science, five in law, one in medicine, and two in arts. At Melbourne University ten are studying in medicine; at Adelaide University five are in medicine and one in science; at Sydney one in medicine; and at Edinburgh University one in medicine. Three former boys are at Duntroon.

The School offers heartiest congratulations to Miles Clarke, who has been awarded the Archibald Watson Prize at the Medical School, Adelaide University.

The following students have suspended their studies at the University for national service: C. Veryard (R.A.A.F.), N. Gray (A.M.F.), L. R. Brine (R.A.A.F.), G. Ward (R.A.A.F.), and G. Hammond (R.A.A.F.).

The honour of being Dux of the School falls to Ian McCullough, while Gordon Ross secured the Science Prize and Prox. Acc. The Mathematics Prize has been awarded to Barry Newman, and the English and History Prize to Brien Taylor. In VI B (Sub-Leaving) the work of B. G. Green entitles him to the award of dux of the class.

The opinion that the young sports teams had done creditably, as expressed in the last annual report, has been justified in the successes gained this year. Although only one of the crew had had previous experience in the Head of the River Race, Hale School, after rowing splendidly, finished half a canvas behind the winning Scotch College crew. This year more boys have rowed than previously—two eights and two fours being boated. For the third time a seconds race for eights was held and Hale School won comfortably from Scotch College. The third and fourth crews also raced; and thus all rowers were able to participate in competitive sport. This year a new "four" has been acquired which will enable more boys to be accommodated.

Again the School is indebted to Mr. George Rogers for his skilful and enthusiastic coaching. The kindness of the Western Australian Rowing Club in granting the boys the use of its shed and equipment is greatly appreciated.

After losing the first match against Guildford Grammar School the football team did very well to win the return match. As they were undefeated in the other four matches they earned the right to play-off with Guildford. In this our team, though rather small in size, won convincingly as the result of superior pace, good team work, and fine spirit. The Seconds again won the unofficial premiership; the Thirds did not lose a match; and the Fourths, Fifths, and Sixths were successful in their competitions.

The Interschool Athletics contest this year was very keen and interesting. At the lunch interval only a few points separated the four schools, Hale School being last. During the afternoon, owing to sound team-work rather than individual brilliance, Hale School forged ahead to record a fine victory by twenty-three points. I desire to thank Mr. Corr and C. R. Green, last year's champion athletes, for the help they gave to Mr. Langley in preparing the team. The School also wishes to thank Messrs. C. P. and A. E. Williams for the presentation of a fine cup on which the name of each year's athletic champion will be inscribed—a replica is to be received by the boy. It is also intended to similarly record the winner of the School's open 100 yards each year on a beautiful rose-bowl presented by a School's well-wisher who desires to remain anonymous.

The first cricket XI played well in the first term in defeating Scotch College and drawing with Guildford Grammar School and Aquinas College. In the return games they were defeated by Guildford after an exciting match; failed badly against Aquinas; but scored a handsome victory against Scotch College in the final game. As in football, the junior teams played splendidly—the Seconds won their competition, the Thirds were unbeaten during the season, and the other four teams were successful.

The new system of grading teams has worked well, although owing to staff shortage, a heavy burden is placed on masters in coaching and supervision.

After three successive victories in the Slazenger Cup the tennis team, after reaching the final, was soundly defeated by Wesley College. The Sports Council decided this year to grant colours for tennis, and three members of the team, all in last year's winning four, received the awards.

The swimming team did very well to finish a close second to the strong Aquinas team. A weakness in the junior representatives indicates that to achieve success a longer training period is essential. As the competitions are held early in the school year contestants should train during the long vacation.

The School retained the Law Shield for life-saving. This year the Sports Council decided that life-saving also should be placed on an equality with other sports, and colours have been awarded for the first time to members of the team. The same boys had represented the School in last year's successful team. "B" and "C" teams also competed, and gained valuable experience.

Hale School has a very fine record in this important social service as shown in this year's list of awards by the Royal Life Saving Society—five bronze medallions, three silver medals, bar to R. Isaachsen's bronze medallion, and a second bar to D. Macgibbon's medallion.

The annual boxing tournament was held before a very fine gathering of parents, old boys, and School supporters. Some very clever boxing was shown, an evidence of the progress made by the boys during the short time they have been under the instruction of Mr. Ryan. The exhibition boxing bout between the instructor and one of his best pupils was greatly appreciated, for it proved conclusively that, in boxing, size does not count against technique; nor is there any danger of serious injury when both contestants are skilful boxers.

Next year, as the tournament will be held early in the third term, I should like prospective contestants, especially the older boys, to do serious training, and to take a course of

instruction prior to the contest. The gymnasium has now been completely furnished with a new set of apparatus and excellent provision has been made for the boxing classes.

The Cadet Corps this year reached a record strength of 157, and two companies of three platoons each were able to be signals platoon had to be formed. The corps is very grateful to Mr. Lutz for the instruction of the ambulance platoon, and to Mr. Stephens, who gave lessons in signalling.

As a result of a course held at Glen Forrest in the last four days of the May vacation five N.C.Os. were promoted to the rank of Cadet-Lieutenants, and they, together with one officer appointed last year, carried out the bulk of the training. At a second course for officers and N.C.Os., held in the second term, an examination for non-commissioned rank resulted in the appointment of the full complement of N.C.Os.

The annual camp was held at Point Walter at the end of the second term, while valuable training was carried out. Mr. Lutz and Mr. Stephens both attended and their work of instruction prior to the contest. The gymnasium has now been formed. Under a new regulation both an ambulance and a struction was greatly appreciated. To Lieut.-Colonel Garner, who made available the signalling apparatus of the 44th Battalion, and to the members of the 44th Battalion band who accompanied the corps on a march, we are very grateful.

It was proposed that a combined schools cadet camp should be held at the end of this term, but, unfortunately, this could not be arranged.

The Officer Commanding (Captain Drake) has joined the 9th Anti-Tank Regiment. He goes with the best wishes of the corps and with the hope that it will not be long before he will return to carry on once again the excellent work he has done for the corps since its inception in 1931.

The School's hobbies exhibition afforded an opportunity for boys to show specimens of handicraft done in the junior school, and also simple research and experiments in the laboratory by senior boys. All appreciated the presence of so many visitors, of whom a steady stream passed through during the afternoon and evening.

The meetings of the Debating Society, both School and inter-school, have again proved very successful. Some very creditable work has been done in class debates and lecturettes in the junior school. Boys are gaining confidence in speaking, while the matter presented indicates careful preparation.

The School's Camera Club has now a record number of members. Great praise is due to the masters who have enthusiastically given of their time to the instruction and encourage-

ment of members. Unfortunately the accommodation is too limited to enable all to get the necessary practical work, but many are making excellent progress.

The School has to thank Rev. R. Hamilton for his special interest in the welfare of the boys and for the attention given to the Scripture classes. We are indebted to him for a very generous donation of books to the senior section of the School library. The confirmation class was again prepared by Canon F. Stillwell, Rector of St. Mary's, and twenty-nine boys were presented for confirmation.

Mr. Wood has again done good work in teaching music to boys desirous of taking the subject.

The School has made regular monthly contributions to local charities. The sum of £48 has been divided between the Seamen's Mission, Red Cross, Orphans' Christmas Cheer Fund, and the Blind School.

Finally, I wish to thank all parents and well-wishers of Hale School for their keen support in all our activities and also for their attendance and valuable help, always willingly given, at all School functions.

N.C.O.'s. CAMP

A SECOND N.C.O.'s. course, for the promotion of junior N.C.O.'s., was held at Glen Forrest on July 12th, 13th, 14th, 1941, and attended by five officers, one sergeant, and twenty-six cadets. Training was carried on in spite of the wet weather and no time was lost.

Promotions were as follows—To be corporals: Cadets Chapel and Evans; to be lance-corporals: Cadets Franks, Jones, Guhl, Franklin, Candy, Donaldson, B. Vivian, Langer.

1941 ANNUAL CAMP

The annual camp was held from Saturday, 16th, to Friday, August 22nd. The camp site was again Point Walter.

Organisation was in the hands of Captain Drake, Camp Commandant, and Lieutenant Altorfer, second in charge. Instruction was carried out by Warrant Officer Stainthorpe, Corporal Stevens (signals), and Mr. Lutz (ambulance), while the six platoons were under the supervision of their respective platoon commanders, Cadet-Lieutenants K. Tregonning, C. Love, T. Wolff, F. Hamilton, A. Tregonning, and H. Lodge.

On Tuesday morning the corps went for a route march, accompanied by the 44th Battalion band, and the same night the officers and N.C.Os. visited a searchlight unit in the vicinity,

watching it as it went into action, with great interest.

Captain Drake marched out of camp on Wednesday afternoon and on Thursday afternoon Lieut. A. Tregonning went home with a severe dose of influenza.

This same night a night manoeuvre was held and, although both sides (A and B companies) did excellent work, the result was indecisive. Owing to the monotony of their watch, several cadets went to sleep. On arriving back in camp we were rewarded with lukewarm cocoa (the work of the lads on coffee fatigue).

The Platoon Cup was won by No. 6 platoon (Lieutenant Lodge).

OFFICERS' COURSE

A week-end training course for potential officers was held on the last week-end in March. One officer, sixteen N.C.Os., and eighteen other ranks attended the course. Instruction was in the capable hands of Warrant Officer Simpson.

As the second day of the course was on a national day of prayer, a church parade was held.

The most interesting part of the course was the instruction in the use of the Thompson sub-machinegun.

Promotions were as follows—To be lieutenants: Corporals Clarke, Chappel, Farmer, Roberts, Evans, Bird; to be C.S.M., Lance-Corporal Barrett.

N.C.O's. CAMP

Contrary to our usual custom, the N.C.O's. course was held at school (April 18th and 19th), Glen Forrest being unobtainable. Unfortunately Warrant Officer Simpson was absent, but instruction was carried out by Cadet-Lieutenants Clarke, Chappel, Farmer, Roberts, and Evans.

Promotions were as follows—To be sergeants: Lance-Corporal Vivian, Corporals Holtham and Kennedy, Lance-Corporals Morris and Jones, Corporal Benson; to be corporals: Cadet S. Home, Lance-Corporal R. Bell, Cadets Macgibbon, Clement, D. Craig, Glover, Surbek; to be lance-corporals: Cadets Leake, P. Payne, T. Martin, Traill-Nash, D. Payne, D. Bell, Cohen, Vincent, P. Anderson.

Library Notes

"Designed . . . to cultivate his mind"

By "Librarian"

EARLY in the first term a meeting of the sixth forms was held to elect a committee to conduct the reference library in the ensuing year. Allan Brown was elected chief librarian with R. N. Benson, F. A. Bird, B. G. Green, and P. R. Kennedy as committee. Newcomers to the committee were P. Anderson, P. Holmes, G. D. Lilburne, R. L. Tasker, and J. Vincent from 6B.

In October, 1941, the Rev. R. Hamilton presented a handsome gift to the sixth forms in the shape of some eighty books of reference. These included books on psychology, politics, and religion, and we are intensely grateful for the interest the Rev. Hamilton has shown in the library. On behalf of the sixth form boys we deliver a heartfelt acknowledgment.

Mr. W. Corr was another to show intense interest in the library and among many presentations by him were seven volumes of the "Works of William Shakespeare," by Irving and Marshall. These present a vivid and brilliant literary account of the plays and other compositions of the foremost English dramatist.

The Acting Headmaster (Mr. C. Hadley) presented several excellent books on English literature, and other masters who contributed liberally towards the increasing of the library were Messrs. J. B. Newbery, C. Hamilton, P. D. Langley, and L. Drake.

We desire also to acknowledge gifts by Messrs. R. G. Cashman, A. D. W. Farmer, J. A. Hatfield, W. I. McCullough, C. Newbery, W. B. Shaw, and Dr. Gray.

To John and Richard Vincent we are grateful for the presentation of a number of fine books on current affairs on the occasion of their being evacuated. John has since returned and re-occupies his position as a librarian.

Unfortunately, late in the first term the promoter of the library, Mr. P. D. Langley, left us to join the R.A.A.F. We express appreciation for the enthusiasm and belief in the scheme which he instilled in us by his actions.

Senior boys are reminded of their promise to present a book to the library on their leaving school. The response last year was far from being satisfactory. It is hoped that the boys of this year will be a little more conscientious.

Debating Society.

"For e'en though vanquished he could argue still"

1941

EARLY in second term a very interesting debate was held in the Boarders' Common Room. The attendance was good and we were pleased to see Mr. Newman there. The subject of the debate was "Should Europe be federated into the United States of Europe?" The negative side consisted of K. Tregonning (leader), W. McCullough and F. Bird; on the affirmative side were G. Ross (leader), C. Love and B. Newman.

This debate was marked by the lengthy speech of the leader of each side; both K. Tregonning and G. Ross spoke for approximately half an hour. The adjudicator, Mr. Newbery, in his criticism said that while the teams were of very even quality the teamwork of the negative side was more evident than that of the affirmative side, and so gave the decision in favour of the negative team.

The subject of the following debate of the season was "Is Dictatorship more desirable than Democracy?" The teams were: Affirmative, T. Wolff (leader), D. Macgibbon, R. Wilson; negative, F. Hamilton (leader), H. Lodge, N. Roberts. For some of the debaters it was their maiden debate. Consequently they did not have the necessary confidence in delivery which only experience can give.

However, some of the speeches were quite good and it was obvious that they had been well prepared. The adjudicator, Mr. Rowlands, gave the decision in favour of the negative team.

The subject of the last debate held in second term was "That the Policy of the School is beneficial to Society and the

Individual." The teams were: affirmative, F. Bird (leader), B. Taylor, R. Farmer; negative, W. I. McCullough (leader), B. Elliott, H. Jacob. The subject of the debate was quite out of the ordinary and the debating of both sides was very even. Brien Taylor spoke in a smooth-running style and his speech was probably the outstanding one of the evening. The adjudicator, Mr. Curlewis, pointed out that the arguments of the affirmative side were more impressive and gave his decision accordingly.

Two debates were held in third term, one consisting of teams from VI B, while the other was a junior debate.

The subject of the sub-leaving debate was "That Modern Civilisation is a Failure." The teams were as follows: Affirmative, F. Bird (leader), D. Macgibbon, R. Bell; negative, R. N. Benson (leader), R. Wilson, P. R. Kennedy. The affirmative combination emphasised the decline of modern home life and they stated that the increase in the divorce rate was a proof that modern civilisation is a failure. Also the affirmative side quoted the failure of the League of Nations and of most peace treaties.

The trend of the negative side's arguments was that modern civilisation is a more pleasant state of life than that of the so-called civilisation before the industrial revolution and the Reform Laws (taking England as an example). The negative side quoted the improvements in town planning and the miracles of modern science, which, the negative team asserted, were signs that modern civilisation is not a failure.

Mr. Ross, the adjudicator, in his criticism of the debate said that the speeches were generally good, but that the arguments of the negative side were much sounder than those of the affirmative and gave his decision accordingly.

The chairman, Mr. Clement, then closed the meeting.

The subject of the junior debate was "That Strikes are justifiable." The teams were: affirmative, R. Isaachsen (leader), R. Clement, G. Lilburne; negative, D. Chappell (leader), J. Langer, J. Halliday. The affirmative side asserted that arbitration courts are inefficient and by striking the trouble is brought to a climax, while the negative side tried to convince the audience that arbitration courts could settle a matter without reverting to strikes. Neither side seemed to know whether strikes are legal or not.

Mr. Rowlands, the adjudicator, commended Mr. Chappell on his speech and gave the decision in favour of the negative team.

Owing to the Public Examinations and various School functions at the end of term, it was impossible to hold the annual Debating Society's dinner.

1942

The opening general meeting of the Debating Society was held in the lecture theatre on June 2. Mr. Newbery conducted the meeting, at which a pleasing number of VIA and VIB boys were present. The principal business of the meeting was the election of officers, who were as follows:

President, the Headmaster, Mr. Hadley; Vice-Presidents, Mr. Newbery, Mr. Marshall, Mr. Wilson, Mr. Corr, Mr. Johns, and Mr. Altorfer; Secretary, D. Macgibbon; Committee, R. N. Benson, J. R. Clarke, D. Macgibbon, and F. Bird.

After announcing that a debate would be held on June 16, Mr. Newbery closed the meeting.

Science Notes

"The mystery . . . of all this unintelligible world"

Early this year the School suffered from the loss of a very efficient science master. It is rumoured that he has "taken off."

Chemists are informed that distilled water is to be used for chemical experiments only.

The washbottle is rapidly becoming obsolete as an instrument of attack. The Bunsen burner jet seems to have replaced it.

Last year the sub-leaving chemistry class visited the Western Oxygen Company at Subiaco for the purpose of seeing the processes for the manufacture of oxygen and acetylene. Most of the boys tried their hands at cutting steel bars with the oxy-acetylene blowlamp. This excursion was a great success, but someone suggested a trip to the brewery would be preferable.

Hobbies Exhibition

"Many a pastime"

The annual hobbies exhibition was held on October 4. It was an excellent one, well up to the standard of the exhibitions of previous years.

During the afternoon Wilmot conducted a picture show which reminded us of the days when we were younger. He

collected the substantial sum of £1/13/8, which was donated to the Blind and Red Cross funds. Atkins also did well to collect 25/- from his darts, which was put to a similar purpose.

There were some excellent exhibits of industrial processes. The most notable of these were the cement industry by P. Glover, the refining of sugar by G. Ross, the permutite process for softening water by W. McCullough, and the tanning of leather by J. Clarke. The shocking coil was there as usual and it did not suffer from lack of use. There were also extensive exhibits of woodwork and wickerwork by the junior boys.

It is hoped that the next exhibition will be an even greater success and boys are urged to start early. Some boys may have exhibits, but feel they are not up to standard and so do not enter them. Let us see your effort this year, no matter how "home-made" it may appear. It will be appreciated.

Athletic Notes

"Through torrid tracts with fainting steps they go"

THIS year we were privileged once again to train at Subiaco Oval, and, due to a very active committee, a large attendance was maintained throughout the training period. Although there was not a meeting between the Day-boys and the Boarders this year, a few trials were held early in third term, and they proved to be very useful guides.

We are again indebted to Mr. Langley for giving up so much time and energy to the coaching of the team which gained such a splendid victory in the interschool sports. As a result of his enthusiasm and scientific training methods, many of our athletes excelled themselves at the sports meeting, revealing the splendid condition into which they had been trained. We warmly thank Mr. Corr and Mr. Altorfer for the valuable assistance they rendered during the period of training.

We would like to congratulate Ken Tregonning on his election as Captain of Athletics for 1941.

THE JUNIOR SPORTS

This year it was decided to give the Junior School an athletic sports meeting of its own, which proved to be a great success, and we hope it will be made an annual event.

It was held on the lawn in front of the school, and quite a number of interested parents and friends witnessed many interesting running and novelty events.

We would like to sincerely thank Mr. Mill for giving up so much of his time to organise the sports, and we would also like to thank A. Tregonning, B. Taylor, T. Wolff, R. Farmer, H. Lodge, G. Ross, and J. Evans for helping Mr. Mill to run the sports so successfully.

The results are as follows:

THE SCHOOL SPORTS 1941

The annual school athletic meeting was held at the W.A. C.A. on Wednesday, October 15. There was a good attendance of parents and friends considering the unsettled times. The conditions were ideal in the morning, but the sea breeze sprang up early in the afternoon, causing a slight head wind. As is the usual custom, a number of events were held prior to the sports.

This year the honour of being Champion Athlete had to be shared, as K. Tregonning and F. Hamilton each gained nine points. They were followed by D. McGibbon, six points, and F. Bird, five points. The Under 16 title went to G. Lilburne, who showed distinct all-round ability, while B. Shipway was forced to exert himself to win the Under 15 title. Hamblin proved too strong for his opposition in the Under 14 section.

Some exceedingly good performances were put up by a member of the athletes. D. McGibbon ran extremely well in winning both the distance events. K. Tregonning showed his versatility by winning the 440 yards and the high jump and being placed in the sprint events. F. Hamilton and F. Bird ran well, winning the 220 yards and the 100 yards respectively.

G. Lilburne, B. Shipway, D. Farrington, P. Payne, and Hamblin were the most prominent in the under age events. G. Lilburne, running under 16, won the 220 and the 440 yards, the hurdles, and the long jump. Shipway won the under 15 hurdles and was placed in the 100 and 220 yards, while Farrington and Payne won the 100 and 220 yards respectively in the same division.

We would like to take this opportunity of thanking Mr. Rowlands, to whose capable organising much of the success of the sports was due.

INTERSCHOOL ATHLETIC MEETING 1941

The 37th Annual Athletic Sports Meeting was held on Saturday, October 25, at the W.A.C.A. Ground under fair weather conditions and in the presence of the usual large number of spectators.

Our team gained a splendid victory, and every member is to be congratulated upon the way he performed. We also take this opportunity of congratulating the teams of the other three schools, each of which performed well and lost in a very sporting manner. Aquinas College finished in second place, with Scotch College third, and Guildford Grammar School fourth.

Our team was perfectly trained and there were some good individual performances. In the open events D. McGibbon ran exceedingly well in winning the mile and filling second place in the 880 yards. K. Tregonning, with a determined sprint, just managed to win the 440 yards. P. Grigg and B. Tuckey

are to be congratulated upon their fine effort in the hurdles. F. Hamilton and F. Bird both ran well in the 100 and 220 yards. J. Clarke surpassed any of his previous performances in the high jump, in which he was second. The performance of J. Bourke of Aquinas College is most worthy of mention. He earned for himself the title of champion athlete by winning the 100 and 220 and being third in the 440 yards.

Outstanding in the under age events were F. Cooke and H. Norman, who won the 100 yards under 13 and 75 yards under 12 respectively. G. Lilburne and E. Kershaw also did well in the under 16 division in the 440 yards and high jump respectively.

We would especially like to thank Mr. Langley for training the team so well and to congratulate him on the victory he so richly deserved.

The final points were:

Hale School	187 points
Aquinas College	136½ points
Scotch College	153 points
Guildford Grammar School	122½ points

The Annual **Prefects' Dance**

WILL BE HELD IN
 THE SCHOOL HALL
 ON
 FRIDAY, 14th AUGUST
 Commencing at 8 p.m.

"That fatal and perfidious bark"

ROWING was as popular this year as ever. More than twenty boys were training, of whom eight had rowed and raced last year. Mr. Johns was the master in charge of rowing this year and P. Kennedy was Captain of the Boats. The training began somewhat late, as several boys were required to train for the swimming. Our coach, Mr. Rogers, soon placed the crew and it remained almost unchanged throughout the two and a half months of training. Each night of the week and on Saturday mornings the crews were out on Perth Water training hard for the race.

The crews that trained this year were as follows—First Eight: P. R. Kennedy (stroke), R. N. Benson, P. Grigg, J. Gray, C. McWhae, D. Payne, D. Craig, B. Surbek (bow), P. V. Lowe (cox). First Four: N. Roberts (stroke), T. Bennison, G. Geneff, P. Glover (bow). Second Eight: N. Roberts (stroke), T. Bennison, G. Geneff, P. Glover, D. B. Forrest, S. A. Home, D. Bell, B. Wheeler (bow), P. Lowe (cox). Second Four: D. B. Forrest (stroke), S. Home, D. Bell, B. Wheeler (bow), C. Fox (cox). Third Four: M. Crossley (stroke), C. Mitchell, F. Slee, K. Anderson (bow), C. Fox (cox).

Gordon Ross, who stroked last year's crew, took part in training the second eight, which was successful on the day of the race.

THE DAY OF THE RACE

Owing to the river and its foreshore being under military control, the Head of the River race was abandoned this year. However, an unofficial regatta between Scotch, Aquinas, and Hale was held near Canning Bridge. Guildford was unfortunately not represented owing to the school's transference to Fairbridge.

As the race was to be held at Canning Bridge our boats had to be towed to the start from our sheds. The police launch carried the crews up to the start, whilst another launch towed the eights and four. In very rough weather off Point Heathcote the eights and the four were swamped while in tow. The crews had to swim the boats to a small beach, where the boats were emptied. Damage was found to be done to the racing eight. The buffeting of the boats, which were tied together, had caused

a severe hole in the shell of the racing eight. In addition, the canvas covering on the stern and bow had been completely torn off. Mr. Rogers made temporary repairs as soon as possible and the crew rowed up to the start.

The race started several hours after schedule and was rowed over three quarters of a mile up to the bridge from the south.

Aquinas had a remarkably good start, with Hale and Scotch rowing strongly about a length behind Aquinas. The positions changed only slightly during the race and Aquinas held the lead all the way. Hale and Scotch fought each other over the last half mile, each trying to gain second place. Scotch finally drew ahead and won by a canvas, Hale finishing third.

Aquinas must be congratulated on their success and it is regretted that Guildford Grammar School was unable to compete owing to the taking over of their school buildings for war purposes.

The first four won a splendid race by three lengths from Scotch College. The second eight, the second four, and third four each won their respective races against Scotch College.

Boxing Notes

SCHOOL COMPETITIONS

THE boxing was held in the School Hall on the evening of November 5. There were many interesting fights during the evening. The main fight was between A. Swinbourne and P. Kennedy, and was won on points by P. Kennedy. Considering that the three rounds were $1\frac{1}{2}$ minutes each, the pace was rather slow. Nevertheless, there were some rapid phases. In the third round Kennedy put Swinbourne on the canvas, but had himself received a severe punch to the jaw. When the bell went both were fighting vigorously.

Battling vigorously, N. Roberts won his fight against Langer. These two boys of almost similar build and strength fought a sensational fight. There was no lack of courage, determination, or blood, but the boxing itself was not very scientific.

Instructor Mr. D. Ryan and L. Downey, a former pupil of Mr. Ryan, gave an excellent demonstration of scientific boxing and speed.

The contestants in the boxing this year received great encouragement from the large crowd in attendance. Much promise was shown by the fighters of the lighter weights.

The School was fortunate in having B. Gosden, a former school boxing champion, to referee the fights.

The results of the fights are as follows: P. Kennedy defeated A. Swinbourne; N. Roberts defeated J. Langer; A. Barrett defeated Franklin; H. Dempster defeated Mold; Pitman defeated B. Wheeler; Landor defeated Pearce; F. Slee defeated K. Johnson; P. Atkins defeated P. Lowe; Gregson defeated Matheson; Birley defeated Saw (I); Mitchell defeated Davis; P. Payne defeated Fountain; Irvine defeated Foulkes; Morris defeated Loton; Mayhew defeated Edmonson; Moseley defeated Parsons; Birley defeated Saw (II); Scott defeated R. Williams; Lloyd defeated Flower.

Tennis Notes

"Toss'd and retoss'd, aloft"

HALE entered two teams for the Slazenger Cup of 1941. We were unfortunate in losing our No. 1 player, B. Bruce, early in the year, and the School extends its best wishes to him in his new surroundings. The "A" team comprised R. D. Munro, D. I. Burges, H. S. Jacob, B. Newman; and the "B" team J. Holtham, P. Holmes, B. Burnham, J. Skinner.

The first round of the competition was played on Saturday, September 27. The "A" team drew Wesley No. 2, while the "B" team, which usually draws an "A" team to start with, had a change in Aquinas No. 2. The individual scores were:

Hale No. 1 v. Wesley No. 2—Munro beat Hughes 6-3 6-4; Burges beat Taylor 4-6 6-1 6-3; Jacob beat Thurston 6-3 6-1; Newman lost to Finch 3-6 6-4 4-6; Munro and Burges beat Hughes and Taylor 6-0 6-3; Jacob and Newman beat Thurston and Finch 6-5 6-3. Total: Hale No. 1, 11 sets 72 games, defeated Wesley No. 2, 3 sets 48 games.

John Skinner was unable to play in the "B" team's match owing to illness, and his place was taken by John Evans. The result of this match was a narrow win for our team, the individual scores being as follows:

Hale No. 2 v. Aquinas No. 2—Holtham beat Rigg 6-5 5-6 6-2; Holmes beat Lawrence 6-0 6-1; Burnham lost to Cullity 5-6 6-2 4-6; Evans lost to Hanrahan 2-6 3-6; Holtham and Holmes beat Rigg and Lawrence 6-4 4-6 6-4; Burnham and Evans lost to Cullity and Hanrahan 5-6 6-3 4-6. Total: Hale No. 2, 8 sets 74 games, defeated Aquinas No. 2, 8 sets 69 games.

Owing to wet weather the matches which were to have been played on the next Saturday were postponed until the week following, when our "B" team was beaten by a superior team in Modern School No. 1. Here are the scores for this match: Worley defeated Holtham 6-0 6-1; R. Smith lost to Holmes 6-2 4-6 3-6; G. Smith beat Burnham 6-5 5-6 6-4; Arnold beat Skinner 6-2 6-3; Worley and G. Smith beat Holtham and Holmes 6-2 6-3; R. Smith and Arnold beat Burnham and Skinner 6-1 6-2. Total: Perth Modern School No. 1, 11 sets 78 games, defeated Hale No. 2, 3 sets 43 games.

During the same week our No. 1 team, 11 sets 78 games, had an easy win over Aquinas No. 1, 3 sets 46 games, while Wesley also qualified for the final by a comfortable win over P.M.S.

On Saturday morning, October 18, Hale and Wesley met to contest the final of the competition. Good as our team was Wesley proved themselves stronger and succeeded in defeating Hale by 12 sets 77 games to 1 set 28 games, the individual scores being as follows: Munro lost to Ladyman 0-6 6-5 4-6; Burges lost to Muir 1-6 1-6; Jacob lost to Ethel 3-6 5-6; Newman lost to Nicol 1-6 3-6; Munro and Burges lost to Ladyman and Ethel 2-6 1-6; Jacob and Newman lost to Muir and Nicol 0-6 1-6.

Wesley gave a fine display of tennis and are to be doubly congratulated, as this is the first time that they have been successful in this event.

Once again the School wishes to extend thanks to Mr. Mill and Mr. Marshal for their coaching of the teams, and to wish Mr. Mill the best during his stay in the Air Force. We all hope for his safe return after the war. Thanks are also due to King's Park Tennis Club for the use of their courts for practise.

It was decided by the 1941 Sports Council to award colours for tennis, and the 1941 team is the first to benefit by this decision. Ross Munro, Don Burges, and Harry Jacob are to be congratulated on being awarded their colours, and Barry Newman on being awarded his sports blazer.

We heartily congratulate Peter Holmes and Frank Hamilton on being awarded the scholarships offered for membership of the King's Park Tennis Club.

Heartly congratulations are also due to R. Munro on his being elected Captain of Tennis for the year 1941.

"His bed uneasy and unblest'd his meal"

SECOND TERM 1941

A NEW and very enjoyable event in the house was inaugurated in the middle of the term, when a dance was held by the prefects in the boarders' common-room. The evening proved so successful that it is sure to become an annual event.

Fewer boarders gained a place in the First XVIII this year, but we are able to congratulate Harry Lodge, Frank Dempster, Frank Hamilton, Bryne Tuckey, and Don Burges on their excellent performance, the two former gaining their colours.

The annual N.C.Os. camp was held as usual during the long week-end and as a result several boarders rose from the ranks. Cadet Langer became corporal, Cadets Candy, Donaldson, and B. Vivian lance-corporals, and during the term Cadets Paterson and Bremner were appointed company clerk and stores corporal respectively.

It was with regret that we learnt that Mr. Stevens was leaving us "for the duration." We wish him the best of luck and trust that he will be soon back with us. Mr. Ilbery, an Old Boy, kindly consented to act as a housemaster till the end of the year, when he was due to join the Navy.

We congratulate Don Burges on being appointed a school prefect.

THIRD TERM 1941

The personnel of the house has altered slightly this term, Timewell having left and Bell and Synnott becoming day boys, whilst four former day boys, Glover, Pitman, R. Saw, and Wyatt, have joined us.

In the Slazenger Cup Don Burges and Harry Jacob again represented the house in the "A" team, while Peter Holmes played well in the "B" team.

Shortly after the term commenced Don Burges was forced to return home to help on the farm.

Twelve boarders gained a place in this year's successful athletic team and especially to be congratulated is Peter Grigg on winning his event, the open hurdle. Frank Hamilton and Burt Elliot also scored successes in the schoolboy championship events held on November 8.

As the result of a suggestion by the Rev. R. Hamilton, senior boys were allowed to visit the Repertory Theatre to see the play, "Robert's Wife," and spent a most enjoyable evening.

For the first time for a number of years the school champion boxer could not be found amongst us, but eight boarders were successful in their respective bouts.

The annual supper was held after the drill display and was the quietest for several years, though we feel sure that Mr. Hadley was wondering what it was all about.

Again a large proportion of senior boys left us at the end of the year, and we will miss Harry Lodge, Frank Hamilton, Harry Jacob, Bryne Tuckey, Burt Elliot, Peter Candy, Tony Paterson, John Phillips, Peter Bremner, John Langer, Bill Sutton, Peter Donaldson, Reg Cousins, Bevin Barnesly, Michael Fry, Bruce West, Herbert Woodly, Bill Vowler, and Robert Money; whilst Tom Lodge, Ralph Pitman, Robin Coates, Ian Stephens, John Lamb, and Reggie and Jackie Greeuw became day-boys.

Once again Sister, Matron and Miss Bruce have worked unselfishly in our interests and we offer them all our thanks.

FIRST TERM 1942

Upon returning we realised that only three masters remained and to assist these hard working members of the staff, Mr. Altorfer appointed Doug Craig as Captain of the House after his appointment as a school prefect, and Peter Grigg and Peter Holmes as House Prefects, Harley Vivian being in his second year as a house prefect.

A slight decrease in numbers was noticed this year, but nineteen new boys, Breedon, P. Burges, Cowcher, Edmonds, Haig, Hall, Henning, James, Knight, Layman, McIlwraith, W. McLarty, J. Payne, B. Saw, D. Saw, A. Saw, Weaver, Basil, and Ben Woods, entered the house. Later came Birley, A. Brand, P. Brand, Kiela, C. Wright, D. Wright, R. Buntine, J. Buntine, and Vincent.

In the new boys' boxing, held early in the term, the bouts were mainly between small boys, extra amusement being afforded by two blindfold bouts. Mr. Mill acted as referee.

Harley Vivian left us during the term to enter camp. We often see him, and he will always be welcome at the house. Peter Glover was appointed a house prefect in his place, and we offer him our congratulations.

Again this year there were only a few boarders in the swimming team, namely Hester, Roberts, P. Payne, and Broadhurst, who all swam strongly but did not succeed in winning their events.

P. Holmes and H. Hall were our only representatives in the First XI, while N. Burges was on the practise list, but unfortunately had to leave before any interschool matches were played.

We were all very pleased to welcome Mr. Corr into the house, after Easter, as he has always taken a keen interest in all our activities.

Instead of the N.C.Os. camp two courses were held at the School. As a result of the first Corporal Roberts became a cadet-lieutenant, and of the second Lance-Corporal Vivian was promoted senior sergeant, Corporal Dempster senior corporal, Cadets Craig, Glover, Home and Surbek corporals, and Cadets P. Anderson, D. Payne, P. Payne, and Vincent lance-corporals. Corporal Holmes became C.Q.M.S. and Cadets Brown and Smith became corporals, company clerk and stores corporal respectively. Mr. Altorfer is now in command of the Cadet Corps.

There were four boarders in the first eight: Grigg (6), D. Payne (3), D. Craig (2), Surbek (bow), as well as the cox, P. Lowe. We were represented in the second eight by Roberts (stroke), Glover (5), D. B. Forrest (4), Homes (3). We express our admiration of the first crew for their magnificent performance in spite of the damage done to their boat.

We were all very sorry to learn at the end of the term that Mr. Mill would be leaving us to join the R.A.A.F. and we wish him every success and a safe and speedy return.

By the end of the term the following boys had left: N. Burges, Hassell, Hester, Henning, Johnston, Scott, Williams, Winsley, while Drysdale became a day-boy.

Three former day-boys, Cumming, Mekie, and Angus McLarty, and one new boy, Thompson, joined our ranks this term. Reg Cox and Charlie O'Connor returned after over a term's absence. Haig, Edmonds, Forrest ii, and Craig ii have returned again after temporary absences.

The vegetable gardens started last term by a number of enthusiasts have, in the main, yielded excellent results despite the intervention of the holidays. We look forward to the time when we will be eating the fruits (vegetables) of our labours.

As a result of the enterprising ideas of one of our prefects, a meeting was called to suggest what improvements could be made for our benefit and has achieved its first success. At last, after many years, we have a shed in which to keep our bicycles.

At an auction sale of unclaimed clothes conducted one night by Mr. Altorfer, bids were brisk and plentiful. Much amusement was afforded by Mr. Newbery's accidental purchase of a singlet that would have done justice to his younger days. Needless to say, everything was sold and the Blind Fund will benefit by 35/-.

THE SCHOOL SPORTS

THE School sports were held at Crawley Baths on Thursday, February 26, 1942. Weather conditions were favourable and three records were broken. Congratulations are extended to these successful swimmers. R. Farmer was the School champion and R. Wilson was runner-up. Dyas was champion swimmer in the under 16 section, R. Pitman in the under 15 and under 14 sections, with D. Anderson and S. Parker the champions in the under 13 and under 12 sections respectively.

Mr. Langley and his committee are to be congratulated for the excellent running of the sports.

The results were:

THE INTERSCHOOL SPORTS

Despite public opinion, the Interschool Swimming Sports were held at Crawley Baths on Saturday, March 7, 1942. Aquinas College was successful in again winning the competition with the School filling second place. The final points were:

Aquinas College	107
Hale School	84
Scotch College	64
Guildford Grammar School	41

Some excellent swimming was witnessed in the various age groups. R. Trend of Aquinas College is to be heartily congratulated on his being champion swimmer. His breaking of two records and winning of five events is a very creditable performance.

Robin Farmer is to be congratulated for the way in which he led his team and also for his excellent effort in his events.

J. Stewart and D. Macgibbon are to be congratulated for their performances in the open 50-metre breaststroke. Although filling but third and fourth places respectively, when it is considered that the first four swimmers all broke the previous record it is obvious that their performance is creditable.

The whole team is to be congratulated for its whole-hearted effort and attention to training.

Praise is due to Mr. Wells and Mr. Langley for their efforts in coaching the team. Mr. Langley was unfortunately unable to attend the baths regularly, owing to war-time conditions. His advice to the Swimming Committee was appreciated very much.

Open 100 metres Freestyle—R. Trend (AC), 1; R. Farmer (HS), 2; R. Wilson (HS), 3; A. Mayger (AC), 4; R. Sandover (GGS), 5; J. Davies (GGS), 6; B. Glaskin (SC), 7; time, 65 seconds (record).

Open 50 metres Breaststroke—R. Trend (AC), 1; R. Reilly (AC), 2; J. Stewart (HS), 3; D. Macgibbon (HS), 4; R. Stam (SC), 5; R. Page (GGS), 6; A. Campbell (SC), 7; time, 38 2-5 seconds (record).

Open 50 metres Backstroke—R. Trend (AC), 1; R. Sandover (GGS), 2; R. Reilly (AC), 3; R. Farmer (HS), 4; Wilson (HS), 5; Paton (SC), 6; Glaskin (SC), 7; time, 36.9 seconds.

- Open 400 metres Freestyle—R. Trend (AS), 1; R. Wilson (HS), 2; R. Farmer (HS), 3; J. Davies (GGS), 4; Mayger (AC), 5; Mickle (SC), 6; R. Sandover (GGS), 7; time, 5 minutes 31 3-10 seconds.
- Under 16 200 metres Freestyle—R. Trend (AC), 1; J. Dyas (HS), 2; C. Dyas (HS), 3; Davies (GGS), 4; Woolcock (SC), 5; P. Firkins (GGS), 6; Frayne (SC), 7; time, 2 minutes 38 2-5 seconds.
- Under 15 100 metres Freestyle—Woolcock (SC), 1; Hester (HS), 2; R. Pitman (HS), 3; Frayne (SC), 4; W. Dobson (GGS), 5; T. Bourke (AC), 6; Carlisle (AC), 7; time, 80.1 seconds.
- Under 14 100 metres Freestyle—Morrison (SC), 1; Church (GGS), 2; Luscombe (HS), 3; Evans (AC), 4; Paton (SC), 5; Erickson (GGS), 6; Mackenzie (HS), 7; time, 81 3-10 seconds.
- Under 13 50 metres Freestyle—B. Raymond (SC), 1; B. Sweetser (SC), 2; G. Evans (AC), 3; N. Tunstill (AC), 4; C. Barrett (HS), 5; D. Anderson (HS), 6; Ferrier (GGS), 7; time, 39 1-5 seconds.
- Under 12 50 metres Freestyle—Evans (AC), 1; Tunstill (AC), 2; Parker (HS), 3; Ferrier (GGS), 4; Moffat (GGS), 5; Burns (SC), 6; Lough (HS), 7; time, 41½ seconds.
- 250 metres Relay Race—Scotch College, 1; Aquinas College, 2; Hale School, 3; Guildford Grammar School, 4; time, 3 minutes 2.5 seconds.
- Old Boys Relay Race—Hale School, 1; Aquinas College, 2; time, 2 minutes 5 9-10 seconds.

Lifesaving Notes

"And while he sinks without an arm to save"

OWING to war conditions, the Law Shield competition was not held this year. However, teams were picked as usual, the purpose of so doing being to encourage boys, particularly in the lower school, to attend life-saving. This would enable the School to maintain its high standard in life-saving. The "A" team for 1942 consisted of D. Macgibbon (captain), J. R. Clarke, R. Bell, D. Chappell. In addition to this team, four other teams were picked.

Praise is due to Mr. Wells, who once more trained the teams, and despite the rather disencouraging factor that no competition was being held this year, he showed his usual enthusiasm.

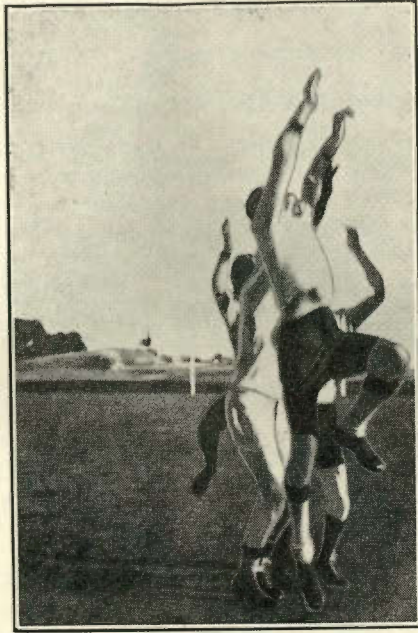

Quite a large number of boys attended classes for life-saving awards in 1942.

This year four boys—D. Macgibbon, J. R. Clarke, R. Bell and G. Leake—took the examination for the Instructors' Certificate. The results of the examination are not known, but it is thought that all the boys passed.

A team of boys also took examinations for either their silver medallion or bar to the silver awards. All entrants passed the examination and the whole team was congratulated for its high standard of life-saving.

The results were: D. Macgibbon, bar to silver; J. R. Clarke, bar to silver; D. Chappell, R. Bell, G. Leake, H. Sadler, silver medallions.

About twenty boys also took elementary, intermediate, and bronze medallion examinations. The results are not yet known, but it is thought that a large number of the candidates passed.

Football Notes

"Boots it with incessant care"

This year's football season was unique in that each team won its respective competition.

THE PLAY-OFF

HALE SCHOOL v. GUILDFORD GRAMMAR SCHOOL

Played at Perth Oval, Wednesday, August 13, 1941.

Excellent weather conditions prevailed on the day of the deciding match and the attendance at the oval was large. Guildford, well served by tall ruck men, went quickly into attack and a goal resulted. Hale soon struck form and, by the end

of the quarter, held a two-goal lead. In the second quarter Guildford showed improvement and superiority in high marking but kicked poorly. Half-time found the scores at: Hale School, 5 goals 2 behinds; Guildford Grammar School, 4 goals 5 behinds.

Throughout the remainder of the game our team maintained their lead and by good team work and remarkable speed outplayed their opponents, who nevertheless put up a stiff opposition. Final scores: Hale School, 13 goals 9 behinds (87 points); Guildford Grammar School, 8 goals 9 behinds (57 points).

By this well-deserved win our team attained the premier-ship for the season 1941 and great credit is due to them and also to Mr. Rowlands for his fine assistance as trainer.

Goal kickers: K. Tregonning 5, Gilchrist 4, Munro, Farmer, Wilson, and Dempster. Best players: K. Tregonning, Dempster, Hamilton, A. Tregonning, Love, Wolff, and Gilchrist.

The second team, under trainer Mr. Langley, played a most successful season and won their competition. Congratulations, team!

AUSTRALIA'S PRAYER

Land of contrasts and of dreams,
Land of droughts and flowing streams,
When we do fight and make the strife,
We waste not ours, but yours, the life
So freely given.

And so I say to you, O land,
Even as yet so young you stand,
Pray not for a state of always night,
Of men who seek no further light,
Of men who do not lend to you
The help you need to see you through.
But rather pray for a race of men
Who firstly think of you; and then
Themselves.

A race of sungods, thinkers all,
A race of men which, strong and tall,
Wrings from your bosom by the plough
The soil's fruit with sweat of brow.
For it is seen that you and I
Desire a race who see in sky,
The trees, the flowers, and the grass
The work of God Who did not pass
But stayed therewith to shower gifts
On a land that Him exalts and lifts.
And so, O land, do not despair,
For even though it is unfair
To load you with unwanted care,
We ne'er forget you, land so fair.

—R. Bell.

UPON BEAUFORT STREET BRIDGE, 1942

(With due apologies to Wordsworth)
Perth has not anything to show more fair
Than was this bridge when bathed in light
But since the Council cut the glare
We grope about like flies at night—
Stumbling, falling and bruising knees,
Now forms loom up like mighty trees:
An inky darkness clothes the sight
This bridge that once was always bright.

—Inutile.

ASSEMBLY

THE DREAM—

Every morn at five to nine
 The boys assemble in a line,
 Not a murmur, not a sound,
 Even when they're turning round.
 They march so nicely, step in step,
 All of them (except the Prep.).
 When they get inside the hall,
 The smaller boys before the tall,
 They never rush or grab for books.
 So polite, with pleasant looks,
 Their shoes are brushed,
 Their faces flushed.
 With trousers creased
 And lots of squeaks,
 The masters up the aisle all walk
 And on the dais do not talk
 Till it is found with much despair
 That Mr. Lutz has lost his chair.
 Then they all sit round like silly saps
 A marvellous assembly—per'aps.

THE REAL THING—

Every morn at five to nine
 The boys rush up and into line,
 All with yap and lots of sound,
 Even more in turning round,
 And so they scamper up the step,
 All of them (including Prep.!)
 When they get inside the hall
 The smaller boys behind the tall,
 They all rush in and grab for books,
 So impolite, with dirty looks.
 The masters up the aisle all walk
 And on the dais start to talk
 Till it is known with much good cheer
 That Mr. Lutz has found his chair!

THOUGHTS IN AN AIR RAID

The football notes were being announced
 When the sirens began to wail.
 All of us sat with our hearts in our mouths,
 Now was the test for Hale.
 Most of us had a feeling

THE CYGNET

That's impossible for me to describe,
 And as we stood in our tiny trench
 We showed our invincible pride.
 We did not crouch for cover,
 For we're the type that wins.
 When the plane wheeled above, like a plover,
 The boys wore cheerful grins.
 When the "all clear" signal came
 We knew that it was over,
 So we're waiting for them again,
 But we will never waver.

—"El Yot," 3A

ATKINS IS IN THE A.R.P.

ON A.R.P.

This business of A.R.P. is both annoying and gratifying. We are sitting half asleep at our desks, listening to the monotonous drone of the master, when suddenly there comes a terrible row. It sounds like fifty tortured cats and the honking of as many car horns. These weird and wonderful sounds come from the battered remnants of a bugle. They are supposed to form the air raid alarm.

Then follows a series of bangs as the doors are thrown back, regardless of their glass panes, and the mob pours forth. Streams of boys issue from every aperture. If the keyholes in the doors were bigger, they would even squeeze through them! Somehow you reach your trench. While standing on the edge, wondering when the "other chap" will arrive, somebody gives you a vigorous push in the back. You land on top of your partner, and you both get a mouthful of moist earth. Your partner scrambles up and demands to know what you're doing.

A free fight starts, only to be stopped by the combined glares of the masters. Suddenly the terrible discordant noise comes again, which announces the "all clear," and back you go to the monotonous grind of school.

—"Professor"

OH FOR SOMETHING NEW!

Again the date of the publication of the "Cygnet" approaches and again comes the ordeal of thinking of something new for the "Original Column."

After settling down in a quiet room and thinking industriously for some time you are blessed with an inspiration. Then, through the still air, wafts an only too well known soprano voice in the form of, "Darling, come and chop some wood, please!"

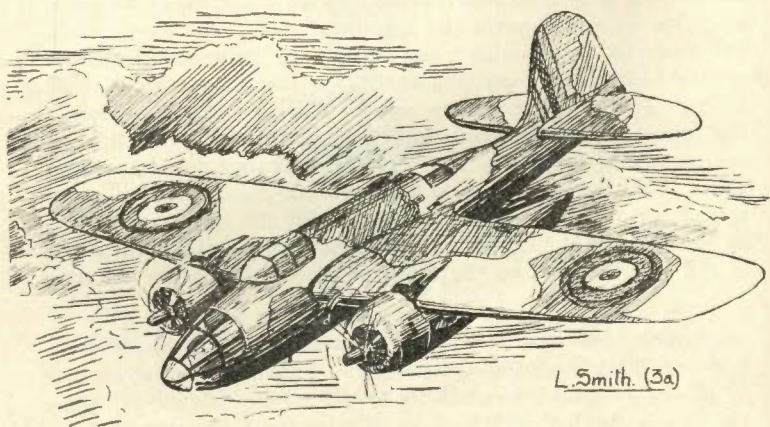

With a martyr-like sigh you rise and do the bidden. On returning, you are, as before, "looking for something new." Some hours later after much perusing over various encyclopedias, etc., you are again smitten by a brilliant idea. Then, c-r-r-rash, you rush to the window, and outside to your amusement it appears to be raining oranges, apples, tomatoes, and various other fruits. The mystery is soon solved when by closer inspection the source of the unusual display is found to be a truck of ancient vintage which is seen gracefully draped around a lamp pole. This exciting attraction proved too much and all other things are forgotten in the rush to join the gathering crowd of spectators and help collect the fruit (for its rightful owner, of course!). After this the work on hand is shelved for the day.

On resuming, some days later, you find your sources of originality have been drained and, with time growing scarce, you can think of nothing to write. A humorous skit on one of the many school personalities would be appreciated by most, but the possibility of the hero of the piece also reading the "Cygnet" renders it inadvisable to publish this type of effort. After much hair-pulling and pencil-chewing you decide that perhaps it will be better to try to draw something, but in seeing the effect of your drawings on a few trusted friends, you realise you are far too good an artist to waste your talent on the "Cygnet."

After so many setbacks you decide it is about time you gave up and let others fill the "Original Column," for it seems as if there is nothing new left to write on. After all, I think it would be easier to dodge the "Cygnet's" "talent scout" for a while than to write something for him.

THE CYGNET

HARD WORK DURING THE VACATION

QUIZ

1. A motorist says that 5 gallons of petrol will get him to Bunbury. Where will 10 gallons get him, given:

Distance to Bunbury, 110 miles.

Price of Petrol, $2\frac{1}{4}$ per gal.

Type of Car, Ford.

2. In an electrical circuit, "Mike" had 4 cells in series, a 100 ohm resistance, a galvanometer of 6 ohm resistance and a switch. If each cell has a P.D. of 5 volts and an internal resistance of 0.03 ohms, why is it that the galvanometer did not register?

3. What are the following areas noted for:—

1. The Gym.
2. The Tuckshop.
3. The Q.M.

4. What is a "litre"?

5. What is the "calculus"?

6. How tall is Coose?

7. What is a "compensating error"?

8. 600 ml. of "distilled" were placed in a 500 ml. flask and the latter had a black rubber stopper put in it. A large notice reading "Distilled water" was placed on the flask which was placed on the 4th bench on the west side of the lab. A week passed and the "distilled" was still there. Account for this.

ANSWERS.

1. Into trouble. Where did he obtain the petrol?

2. The switch was not closed.

3. (1) Its wells.

(2) Its free chew.

(3) Efficiency.

4. The mess left in the grounds at lunch time.

5. Masters use it to overcome a difficulty.

6. Well it is stated that an observer 20ft. from Cooses base observed that the angle of elevation to the latter's head was about 22 deg. In other words, he is taller than you'll ever be!

7. A desirable thing.

8. "Bruck" was away.

"THE OLD ORDER CHANGETH —"

The old system was much better than the new! Let the headmaster read the lesson in the morning! No doubt the revised order in Assembly gives rise to amusement in the listener, but the "plebs" of the school is not aware of that hell on earth

a prefect endures during the week-end preceding that fatal Monday.

The first signs of degeneration in the afflicted person are shown on Friday afternoon, when a puny person hands to the prefect some slips of paper. To the common herd these are merely slips of paper—but to the doomed prefect these are a preface to hell, for written thereon are hieroglyphics indicating the sequence of the Bible reading for the next week.

On Friday eve the prefect, retaining a little *sang-froid*, returns to his home. However, on Saturday he becomes degenerate, his condition gradually deteriorating throughout the day, and Saturday culminates in an evening spent reading prose passages to friends and relations.

Sunday morning spells church and Sunday afternoon work in a garden. On Sunday evening the prefect, if not closely watched, may take to drugs! Yes—a prefect may take to opium!

Then comes the climax—Monday morning. The prefect first begins his doomed day by designing to drown himself while showering, or, failing this, he may attempt a throat-slashing;

(It is reported that one prefect deliberately misjudged his boarding of a ferry in order to drown himself. A boat-hook saved him.)

After such attempts of suicide, the prefect arrives at school in time to see the mustering of the boys under the iron hand of a bearded man.

Thus he has but 60 seconds in which to find the place in the Bible and have one last look at his passage. This undue hurry creates a complex, for when the last lines of "Nearer and Nearer Draws the Time" are sung and the masters have sat down the prefect makes no move towards the lectern. It is only the incessant "Go on, it's your turn te-smorning" of little cads that makes him move.

The lesson is one succession of stumbling-blocks. People with odd names (Shadrach, Meshack and Abednego) rush around the place putting out fiery furnaces with stirrup pumps and in the end the prefect marches off the dais leaving the lesson unfinished and the school amused.

And so, gentle reader, chew over this article, for some day when you are in long pants you may be able to spit it out again.

Longissimus.

A SCIENCE PERIOD

The bell has gone as we mount the stairs,
 Some in groups and some in pairs;
 We reach the door and enter in,
 While the master gives an evil grin.
 We settle down as work begins,
 The skull on the chart above us grins;
 The master starts to lecture much
 In terms of granules, electrons and such.
 He rambles on 'bout "electromags,"
 A compass needle twists and wags,
 Dusty jars and parchment scrolls
 Line the shelves in many rolls.
 We sprawl on forms in reveries
 As we think of fun and miseries;
 The master twiddles with wires and dials
 And potters round with thin glass phials.
 He next produces with magical hand
 Some acid stuff, which rests on a stand,
 He pours it into a large glass bowl,
 It goes down a pipe and out of a hole.
 Then as we sit, the bell it goes:
 We are out of the room in joy's mad throes,
 We are down the stairs and on our way,
 Happy—until next Science day. *W. Goodlet, IIIA.*

GETTING UP IN D DORM.

Ding, ding, ding! goes the dreaded bell
 At that early hour we know so well.
 Then up gets Mitch, like a bag of flour,
 Cursing the bell at this dreaded cold hour.
 Soon after Mitch has gone out the door,
 The others all try to stand on the floor;
 Then each one moves off with a frown on his brow,
 With the exception of Broggy and tired Chou.
 Ding, ding, ding! goes the second warning,
 And in Mr. A. bursts, fuming and storming.
 He sees his mark when he sees young Brog—
 Snuggled in bed like a fallen log.
 With a leap and a bound he's beside the bed,
 And he springs on Broggy like a ton of lead;
 On to the floor the victim is rolled,
 And is kicked out the door to the shower-room cold.
 The same thing happens to unlucky China:
 Here's no second chance for such an old-timer.
 And so ends this tale of getting to the shower
 On a winter's morning at that dreaded cold hour.
F. Cooke, IIIA.

THE SCHOOL BRIGADE

1. Half a yard, half a yard,
Half a yard forward,
In the heart of the tuckshop
Swarmed the two hundred.
Forward the School Brigade,
"Charge for the eats!" they said;
Into the shop they charged,
Charged the two hundred.
2. Cakes to the right of them,
Drinks to the left of them,
Swarms behind them
Ordered and blundered;
Stormed at with howl and yell,
Gamely they fought and well—
When will their hunger cease?
Hungry two hundred.
3. When can their stomachs fill,
For drinks down their throats they spill,
All the world wondered.
Remember the charge they made,
Wonder the School Brigade—
Boisterous two hundred.

L. Smith, IIIA.

DO YOU KNOW?

1. That a certain prefect swings hymns in assembly?
2. George wears suspenders?

A PIRATE

1. I am a pirate, a bold-looking fellow,
I give out my orders with a thunderous bellow.
I own a big ship which is full up with gold,
And no one dares touch it, except when they're told.
2. I've sailed all the seas in my wonderful ship,
And I've held up some boats on each wonderful trip,
Everyone fears me, throughout all the seas,
So I still carry on with my wonderful wheeze.

TOO TRUE

(A reply to "Tommy Rot," by N. G. Thomas, which appeared in "The Cygnet," 1940.)

Loquacious driveller! I'm afraid
I dinna ken why you were made.
Your voice for five long years we've heard,
And now we're sure you are a bird.
To school you ride upon your bike,
You both do look and sound alike.
Masters, boys, and everyone—
Even the bloke that loves the pun—
Will find it hard, I must regret,
Your drivell ever to forget.

A TRIBUTE TO ANZAC

This is a land of sunny skies,
A land of Liberty,
And come what will, and come who may,
We mean to keep it free.
Our diggers soon were fighting
In Libya, Greece and Crete;
Your foes you soon had running
And Vichy knew defeat.
Battles were fought victorious,
Men died of wounds and pain,
But Australia's men were courageous,
And they fought in freedom's name.
We admire you, gallant Anzacs,
And soon we'll meet again;
For by these bloody battles
You've renewed the Anzacs' fame.

A BOATING BALLAD

(The following is based on a minor collision between the first and second eights at the Causeway in the Easter vacation.)

Down from the upper reaches of the Swan,

Where land is most pleasant to gaze upon,

Where vineyards are laid out in fine array

Like some great army on a battle-day,

We rowed. Softly and swiftly did we glide

Past the rushes near the waterside,

Till we approached a Causeway o'er the flood,

On whose right bank a noble city stood.

On one side of the bridge our crew did wait

And there we lay all ignorant of our fate.

Then, quick as lightning, there came to view

Underneath the bridge, our second crew,

Who bore down on us in a mad career
Like some torpedoed ship that could not steer,
And, though we lay athwart the stream,
They saw us not, but smashed our starboard beam.
Thus in a watery whirlpool all were wrapp'd
And mutterings rent the air from those entrapp'd
Inside the mangled wreckage on the wave.
Woe to the gods that caused mishap so grave!
But suddenly the sky became o'ercast,
Whilst also there sprang up an icy blast
That swiftly lashed the water into foam
And through the neighbouring trees made mournful moan.
But while the tempest thus was raging round,
The struggling crews uttered a ghastly sound
And for a second poised above the waves
Then slid beneath the surface to their graves.
At length the sun cast off its shroud and shone,
While soon the icy blast itself was gone:
Peace once more reigned o'er that fearsome scene
And the Swan renewed once more its sluggish stream.

GOING BUSH

A short time before the conclusion of third term a number of boys from the School, myself included, desired to put our Christmas holidays to profitable use. We decided to "go bush" to earn a few shillings on a siding far from city worries and city conveniences.

Duly designated to our destinations, we considered that we had acquired new personalities and that in the eyes of the School we had become persons to be admired for our boldness and fearlessness. This happy feeling pervaded our sublime souls for a few weeks until gradually we awoke to the stark truth. Our characters were surrounded by a "bumpkin" atmosphere which grew in intensity with the departure of each successive trekker.

We took on this new and sadder view of life as a result of one of our number leaving us to take up his position. Never was Gilly's Christian name mentioned without a prefix being added in the shape of the name of his siding and he became not Gilly or Gilchrist but "Bowgada" Norm. To say the least of it, the title was revolting, but we became really worried when a second bid a sad adieu not before receiving the bitter farewell of "Solong Moora." Nev. took a philosophical view of the critical situation. "Wait until I come back and show you my earnings," he ventured, only to receive the crushing reply of "If

you come back!" The next day he quietly took his departure—very quietly.

So the position remained when my friends "Moonijin" Morris, "Kondut" Kennedy and "Aldersyde" Mac hit the trail. And as each took his departure I came to realise more and more that the time was drawing nigh when I, too, must follow their example, my heart missing a few beats every time a co-mate withdrew to exile.

I pictured an existence—a sort of missionary survival in which I, the central figure, sat in the weighbridge amidst a crowd of admiring blacks who, as they gazed in awe at the rows of figures on my books, would say among themselves how "'twas certain he could write and cypher, too." As I conjured up these startling pictures of bush life I must admit I felt a sneaking regard for myself and my "fearlessness."

My pseudo-bravery became weaker as the time arrived, and when finally the day did eventuate I thought that perhaps I really did not need the money, my time being better occupied with a nerve specialist.

Pushed aboard the train, I experienced a strange sense of loneliness—ahead lay, if not fame, a certain amount of fortune, and I fortified my failing soul with these warming thoughts.

After a journey that was a nightmare of hideous thoughts and distorted images I finally arrived at my destination. "Glad to meet you," said an antiquated being. "Where you from?" I told him. "Never heard of it," he said. "Is it good sheep country?"

It was too much. I staggered off, leaving his question unanswered. I had abandoned civilization.

"Quairading."

EDITOR'S NOTE

The Editor wishes to thank all those boys who have handed in original matter and at the same time regrets that all contributions cannot be published. This applies particularly to the lower forms, where there is evidence of an enthusiastic desire to help. To those who are disappointed he would say "Try again."

SPECIAL NOTICE

A Cygnet is being sent to all financial members of the Old Haleians' Association and Junior Old Haleians' Association and members of the three Fighting Forces whose addresses are available. We sincerely hope that those Old Boys who receive Cygnets in camp will make every endeavour to see that they are passed round to the less fortunate chaps who may not have received a copy.

Owing to the shortage of paper and expense it has been found necessary to cut a considerable amount out of the Cygnet, so we have concentrated on the "Personal" and more interesting parts to fill our limited space. Also the Junior and Senior Associations are amalgamating their notes this year.

PRESIDENT'S REPORT

Presented to the Annual General Meeting of Members
on Wednesday, 25th February, 1942.

Gentlemen,

It gives me very great pleasure to present to you the Annual Report of the Association for the year ended 31st January, 1942.

There is little need for me to state that the past year has been one of the most difficult from the Association point of view.

Owing to military call-ups the Committee as elected by you last year has had to be changed and my thanks are due to those members who have come on to the Committee so that the affairs of the Association could be carried on.

During the year your Committee met on eleven occasions. The financial position of the Association has not improved, due mainly to the number of Old Boys having gone overseas and whose names have been placed on the Supernumerary List.

Membership

There are 782 members this year, a reduction in last year's figure owing to 129 being transferred to the Junior Association. It is expected a number of members of the J.O.H.A. will automatically become senior members this year.

All members serving in the fighting forces, the Navy, A.I.F. or R.A.A.F. have been granted honorary membership for the duration of the war. There was one new member elected during the year. There are five deaths to record.

Bereavements

It is with deep regret that I have to record the death of several Old Haleians: Charles A. Saw, a former president of the Association, Danny McDaniel, J. I. Clifton, Newton Burges, and Tom Seed.

A number of telegrams and letters were sent to members who have suffered bereavements in their families.

Annual Dinner

The annual dinner was not held during the year, but in place of same a smoke social was held and musical items arranged. The evening was quite a success, but unfortunately the support of the Old Boys in running this function was lacking.

Combined Public Schools Ball

This function was again held last year at Government House Ballroom on October 10 and resulted in a profit of £131/8/- (£185 last year) being handed over to the Citizens

Reception Committee for the furnishing of the Naval, Army, and Air Force Hostel. Once again Mr. Phon Scott of Aquinas Old Boys Association was responsible for the success of the ball. Our Association again supported the ball, and the official guests who included Sir James and Lady Mitchell and heads of the Naval, Military, and Air Forces, the Premier, Mr. J. C. Willcock, were met by the four presidents of our kindred associations.

My thanks are due to the sterling efforts of Mr. Roy Saw and our secretary, Mr. Cyril Peet.

Financial

Subscriptions this year were £38 compared with £140/18/- last year. The loss for the twelve months was £27/1/9, compared with 16/5 profit for last year. Owing to the large number of members serving in the Navy, A.I.F., and R.A.A.F. being made honorary members our revenue has suffered appreciably.

Cygnets

Once again the School produced a very excellent copy of the Cygnet. Our thanks this year are due to Mr. R. N. Walker, who compiled the Old Boys' notes for the year. Mr. Walker unfortunately has since resigned from the committee owing to military duties.

It is to be anticipated that for the duration of the war at least that the "Cygnet" in all probability could not be produced on the same scale as in the past.

I appeal to the Old Boys to supply any information they can concerning the movement of Old Boys, so that same can be reported in the "Cygnet."

Honorary Members in Fighting Forces

Your Committee decided that honorary membership be granted to all those members serving in the fighting forces overseas or permanently outside the State for the duration of the war.

Memorial Service

On November 11 a combined memorial service was held at St. Mary's Church, Colin Street, West Perth, where, together with the boys of the School, a number of Old Haleians and parents attended. A most impressive service was conducted by the Rev. Hamilton.

Board of Governors

Mr. G. S. James, one of the Association's three representatives, automatically retired and consented to be re-appointed

for a further term of three years. The other members are Messrs. J. F. McMillan and J. W. Morrison.

Old Haleians Day, 1941

This was held on Monday, February 24. The Assembly and Roll Call was held at the School, resulted in a fair attendance and those present were addressed by the Headmaster.

The annual cricket match with the School was held at the W.A.C.A. The luncheon was attended by approximately sixty members and guests and the School team.

The annual meeting was held as usual in the School hall with an attendance of sixty.

Annual Ball

The ball was held as usual on Boat Race Night, May 5, 1941. It was a huge success and although the attendance was far below that of 1940 a profit of £16/8/9 (£36/18/2 in 1940) was made.

Junior Old Haleians' Association

The past year has been a most difficult one for the Association, as the great majority of our members have either been called up for service in the militia, or are serving in either the Navy, Army, or Air Force.

Considering that the Junior Old Boys took over the management of their own affairs in wartime, when conditions were not favourable, it may be said that the small amount of success the new Association has had is very commendable. Much of this success is due to the first secretary, Mr. Lloyd Fethers, who gave a great deal of his time to the organisation and efficient running of the Association and, more recently, since Mr. Fethers' resignation, to Mr. B. N. Gosden.

During the year several most enjoyable dances were conducted, and the Junior Old Boys have already a reputation for providing really good entertainment. It was hoped by the committee that the Association would have been able to make a greater contribution to the war effort by arranging social functions, but as the year progressed it became increasingly difficult even to obtain a quorum for monthly committee meetings. It became necessary to discuss the advisability of abandoning the Association for the duration of the war, or alternatively of making an effort to carry on for the sake of those who are serving in the forces. The second alternative was decided upon, and the new committee, when it meets, will discuss ways and means of carrying on the Association until more favourable times.

The membership of the Association is now 187, of whom 25 are known to be in the R.A.A.F., sixteen in the A.I.F., and eight in the R.A.N. In addition to these, there are a number in the militia forces. Our record of serving members is by no means complete, and the committee would be glad to hear news of the Junior Old Boys in the forces.

Endowment Fund

Most of the annual donations have been paid, but owing to the absence on military service of some of the contributors the receipts this year are less than last. Since the system of weekly collections from Old Boys in business in the city block fell through last year, the revenue has considerably fallen.

The annual commitment for premiums is £64/2/9 and receipts from annual contributors are approximately £40, leaving approximately £25 to be found from weekly collections to keep the existing seventeen policies on foot.

The present position is as follows: Premiums outstanding £70/4/11, plus interest £3/0/2, £73/5/1, less the balance in the bank £43/4/10, leaving a balance of £30/0/3 still owing for premiums.

Athletic Association

The athletic season conducted by the W.A.A.A.A. was officially opened on Saturday, November 22. Owing to lack of numerical strength caused by military obligations, the Old Haleians Athletic Club and the Mt. Hawthorn Athletic Club combined for the track and field event competitions throughout a successful and thoroughly enjoyable season. Prevailing conditions, however, made it difficult to field full teams after the school break-up.

The club finished off the season well by winning, for the first time, after a very even and exciting competition in which all of our athletes excelled themselves, the coveted Douglas Memorial Shield for the season 1941-42.

In conclusion I would like to once more express my appreciation of the splendid work done by our secretary, Mr. C. Peet, in carrying out his onerous duties. If it had not been for the efforts of Cyril Peet and the keen enthusiasm of our treasurer, Mr. Alf Curlewis, in the affairs of the Association I am quite confident that the Association today would not be in the position it is.

I would also like to thank Evan Saw for the use of his board room, where committee meetings are held, and to the members of the committee for their loyal support during the year.

D. J. CHIPPER, President.

GENERAL NOTES

During the year V. O. Fabricius was appointed Consul for Sweden in Perth.

Phil Atkins, now a full-blown doctor at the Perth Public, is expecting to go into the Army soon.

Tim Yates and Miles Clark both graduated in medicine in Adelaide. Miles is at the Royal Adelaide Hospital.

Peter Wreford recently received a diploma of mining at Kalgoorlie School of Mines.

Bill Riley was ordained at Christ Church, Claremont, in February and is now a curate at St. Andrew's, Subiaco. He marked the occasion further by announcing his engagement to Miss Peggy Jose of Adelaide.

Lieut. Ron Moran, R.A.N., had an unfortunate accident recently, and is now in Hollywood Military Hospital.

Trev Rowlands is no longer in the rank and file. He's had promotion. Corporal T. Rowlands, A.I.F.

W. R. Ellis, last heard of in Flinders in the R.A.N.R., informs us that his brother Alan is in the R.A.A.F. and his other brother, Laurie, who was Captain of the School in 1930, is now working on aerodrome construction somewhere in Australia.

W. S. Ellis is in the A.A.S.C. somewhere in W.A.

Lloyd Bateman is in the A.M.F. in the Eastern States.

Squadron Leader Alan C. Mills was reported missing, having been forced down during operations in the Middle East, but turned up after an exciting hard journey across the desert.

Charles W. Edmonds, who started his army career in the cadet corps and then the Light Horse, is a bugler in Egypt.

E. E. Chapple, from the Bank of New South Wales, London, sends best wishes to all Old Boys.

Owen Riley is in the 10th Light Horse.

Collin Newbery, Bill Keall, Brian Simpson, and Dr. Buntine are all holding their ends up in the 2/28 in the Middle East.

Major H. L. Fowler was recently in Melbourne in connection with army education and was unhappily a patient in the Caulfield Military Hospital suffering from an attack of asthma.

Bill (F. H.) Drummond, B.Sc.(Hons.) degree in Perth, was for some time demonstrating zoology at Melbourne University. He then went to England and at London University received a Ph.D. degree, and returned to Melbourne in 1939. Dr. Drummond is now married and has, since his return, been lecturer in zoology at the University.

Arthur Hatfield is a sergeant wireless air gunner instructing wireless operators at Ballarat.

Ian Beaton is a sergeant pilot at Point Cook.

Arthur Parry is also a sergeant pilot somewhere in Australia. He was recently seen in Melbourne.

L. Fethers and Harry Cohen are both studying medicine at Melbourne University.

Bob Godrey at Adelaide University is doing medicine.

The following Old Boys are at the University of W.A.: F. Blakey, R. Traill-Nash, Trev Wolffe, G. Ross, I. McCullough, Brien Taylor.

Frank Hamilton, Ken Tregonning, Ginge Milward, Ian Stephenson, Hooks Olifent, Charlie Hale, Bruce Bryant, Ken Mellor, Bob Walker, Dick Farmer, Greg Roe, Dave Watkins, Burt Elliot, Hendo, Bill Ellis, Flossie Burgoyne, and Harley Vivian are all learning to be soldiers.

Ron Cecil is now assistant chemist at Hoskins Foundry.

Malcolm Smith is doing medicine at Sydney University.

Bugs Carey, after doing three months in camp learning a fighting job, has returned to White Peak to muster and shear sheep.

Bruce Bogle, Vern Marshall, and L. Wood are at Duntroon.

Peter Jeffery is in Sydney studying radio location in connection with the R.A.A.F.

Bill Wreford is an sub-lieutenant in the R.A.N.

Bill Shipway and Ron Filmer are both sub-lieutenants on H.M.A.S. Westralia.

Joe Ilbery is completing an officers' training course at Flinders. He was recently seen in Perth on a scrap of leave, looking very well.

David Godfrey has had a thrilling experience. Taking the place of a sick wireless air gunner he played his part in sinking the first Japanese submarine in Australian waters. Well done, Bob!

It has been reported that Surgeon Commander Eric Mortimer Tymms, R.A.N., was in the thick of the Mediterranean sea battles, including the withdrawal from Greece and Crete. He was also in the Battle of Matapan and it was for his outstanding devotion to duty in the Crete affair, when he was left single-handed on his ship, that he received his decoration, the D.S.C.

A LETTER TO HIS PARENTS

2/4 M.G.B., A.I.F., Abroad,
Malaya, 24/1/42.

Again I pen—but nothing new,
The Censor will not let it through.
Abroad at last, but even now
The only slant-eye seen's a Chow.
Disembarkation came today,
The 2/4th is on its way:
To battle glories, new excitement,
We've known now what raids at night meant.
On reaching shore I saw a van
Owned by a firm that my old man
Once worked for, in '01 or 2.
Kalgoorlie town of famous brew.
A voyage across the mighty deep
With never loss of any sleep,
While dark-skinned boys with suave black hair

Plied us with victuals rich and rare:
 Foods of Holland, oil of Ambon,
 Fruit of Java, sauce of Canton,
 Served with such civility—
 Such is life abroad at sea.
 So long upon the ocean swell,
 Such an existence suited well,
 A mariner, as you or me,
 With such a longing for the sea.
 Transshipment came to smaller craft
 A hundred yards from fore to aft,
 A smaller crew, more happy life
 Far from the crowd's ignoble strife.
 A few of the Army nursing service—
 Some were pretty, some were nervous;
 Orchids blue, and seamen bold—
 But the Army knocked them cold.
 There upon the upper deck
 Lass and soldier oft would neck,
 But faith, i' faith, my second name,
 I yet am pure and without shame;
 For thoughts of my dear ones abroad
 Kept me aloof, and quite 'bove board—
 Battling with a foreign lingo,
 Far from land of 'roo and dingo;
 Sometimes being understood
 Sometimes, well—some not so good:
 But somehow always getting through
 This "Bahusu Milayu."
 Little more is left to tell,
 Except I'm safe and feeling well.
 The mails I know are most uncertain
 So needs I must let down the curtain
 On those who I do love the most,
 And hurry off to catch the post:
 Your son 'longside the B.E.F.
 Fond love, my dears, forever.—Geoff.

P.S.—Since signing off we've been advised
 Our new address is not disguised,
 So look above and, would it slay yer,
 A. I. (bloody) F. Malaya.

—Lieutenant G. A. Raphael.

BEREAVEMENTS

On going to press the name of J. W. McGilvray has been noticed in a recent plane crash in Victoria. Bill, as he was affectionately known to us all at Hale School, was a member of the staff during 1936-37. A man in every sense of the word he will be affectionately remembered by all who knew him and our sympathy is tendered to all his relatives.

It is with great regret that we record the passing of the following Old Boys: Lieut. R. N. Rose, on active service; B. N. Gerloff, killed in Greece, 1941; Archie F. G. Burt; N. P. Burges; Sub-Lieut. A. C. Kennedy Smith, killed on active service; Henry John Lotz, surgeon; Dr. Thomas Blake Seed; C. A. Saw; Jimmy Clifton, H.M.A.S. Sydney; Sergeant Pilot Rinian R. Rutherford, killed in an aircraft accident in England. Rinian may be remembered by his stirring efforts in the hockey club. After thirteen months active service Flight Lieut. J. H. K. Saunders is reported killed due to enemy action. Surgeon Commander Eric Mortimer Tymms, D.S.C., missing H.M.A.S. Perth.

HONOURS

Surgeon Lieutenant Commander Eric Mortimer Tymms, of the R.A.N., awarded the Distinguished Service Cross.

Flight Lieutenant Hugo Throssell Armstrong, D.F.C. with bar.

Lieutenant N. H. Russell, D.C.M. at Tobruk.

Captain C. H. B. Norman, a Military Cross at Tobruk.

Rt. Rev. C. L. Riley, now Chaplain-General for Australia, awarded C.B.E.

Lieutenant Colonel George Gibb-Maitland, the D.S.O.

Wing Commander V. E. Hancock, appointed to staff of Lieut. General G. H. Brett as Assistant Director of Plans.

Dr. Bunny Wilson, M.B.E. for distinguished service in Syria.

OLD HALEIANS IN AND AROUND
MELBOURNE

NOTES FROM THE MELBOURNE CORRESPONDENT, E. S. CLARKE

At Melbourne University many Old Haleians are sailing through medicine. John Craig, Jock Irvine, Chas Harper, Keith Stewart, and Leigh Fitzpatrick all graduated on June 1 and are now to be addressed as "Doctor." It seems that all of them will shortly be returning to Perth to various hospitals. Chas Harper wishes to extend salutations to the old School for foundations of learning so well and truly laid. Dr. Phil Atkins graduated last year and, we believe, is at the Perth Public Hospital.

Doug Gordon is saving lives at St. Vincent's Hospital and is rapidly greying under the strain of anticipation of finals shortly to come.

Edgar Griffiths is at Trinity Colloge, enmeshed in the dragnet of fourth year med. and is interested in the Royal Melbourne Hospital and contents.

Maurice Deane and Kevin Cullen, both at Ormond College, are working cheek by jowl in third year. Both are looking forward to a glimpse of the sun!

Harry Cohen, also at Ormond, is struggling with second year.

Stuart Clarke graduated with a B.Mech.E. degree recently—possibly the first Haleian Melbourne University 'geer. He has been appointed as engineer in charge of a shop at a new munitions factory "somewhere in Victoria."

So much for those at the seat of learning. Also we hear that—

Dick Neale is happily toiling in the chemical defence sec-

tion of Munitions Supply Laboratories, Maribyrnong, and reports that he occasionally "disturbs the worms" on the golf courses round Melbourne.

Frank Le Souef, having returned from B.T.H., Rugby, after same time there, was for a year at A.G.E., Brisbane, and has since been transferred to Melbourne where he became quite used to the weather and, in fact, is married.

In the Forces a long list of Haleians has been seen and heard in this fair city.

Ron Filmer, "Peanut" Smith, Bill Shipway, Howard Kennedy, Gordon Smith, Bill Wreford, and Doug Clifton are all sub-lieutenants in the Navy—be it R.A.N.R. or R.A.N.V.R. Most of them have attended officers' training schools at Flinders Naval Depot and have been seen at some time or other at "The Australia" on Saturday mornings at 11.30, and have since migrated to their respective ships. Howard Kennedy is now somewhere in the United Kingdom.

Incidentally Bill Wreford's young brother John now wears a Melbourne Grammar tie.

Geoff Kennedy-Smith, after about a year afloat, has been for the last year based at Plymouth on some hush-hush navy job. His brother Athol was attached to the Fleet Air Arm and was the victim of a fatal accident.

Colin Clarke is a signaller in the Navy after a course at Flinders. Colin Hewett is an ordinary seaman; also Phil Weston, seen in Collins Street and looking in the pink. Bill Brine is doing a seaman's course at Flinders. Frank Skevington, after a course there, is now an A.B. on the "X."

Barney Hancock, his brother Bruce, "Buzz" Cuthbertson, and "Shiek" Vetter are all in the R.A.A.F.—the former a flying officer, the latter straining every nerve to get into an air crew.

Campbell McAulay, heard of recently in Melbourne, is in the A.S.C. and allegedly spent some time at Geelong learning to master a motor bike. Bill Grigg, after a couple of years in the Middle East, was recently sighted in Brisbane.

"Boy" Parker and one Watt (Christian or nickname unknown, at "High" School about 1930) were seen together in khaki in Melbourne recently, the former adorned with a very smooth little "toothbrush."

Joe Ilbery is sandwiching a break in Perth between completion of an officers' training course at Flinders and going to sea. Being used to college life, he "urges" in at Ormond at week-ends quite frequently.

Imagine the rare pleasure of seeing a Hale School boy, complete with cap, tie, socks, and crest on his coat, as one mounted a tram in Melbourne some months ago. You could have knocked one down with a feather or less. Did we get talking? I happened to have on my O.S.T. and so was acceptable. The fellow turned out to be young Ted Lacey, who introduced me to his father, also an Old Haleian, who has just come over here for the duration and so Ted had not yet shed his Hale uniform. Mr. Lacey was a contemporary of Bishop Riley at school.

THE AMATEUR ATHLETIC CLUB

Owing to limited space, the Athletic Association report is included in the President's report.

OLD HALEIANS MEMORIAL SERVICE

On November 11, 1941, a memorial service was held at St. Mary's Church, West Perth. A most impressive service was conducted by the Rev. R. Hamilton and it was well attended by both Present Boys and Old Boys.

ENLISTMENTS IN THE FIGHTING FORCES

OLD HALEIANS IN THE FORCES

The following Old Boys are in the three fighting services. Apologies are made to those whose names do not appear. Once again we request Old Boys and parents to inform us of their whereabouts and we extend best wishes to all those in uniform overseas and at home.
