SCHOOL NOTES

"All my reports go with the modest truth."

SECOND TERM 1942

THE term commenced on Tuesday, 26th May, and Mr. Hadley introduced Mr. Jones to us, who has come to join the staff. On the morning of Wednesday, 11th June, a phenomenon occurred to disturb the morning assembly. An air raid alarm sounded, probably the first in the School's history. The Headmaster stopped the Assembly, and the boys proceeded orderly and quietly to their trenches. We were relieved to hear that it was only an alert.

On June 25th Mr. Hadley announced that five new prefects had been chosen. These were J. Evans, N. Gilchrist, P. Holmes, P. Glover, and J. Holtham. Their induction took place on the 6th July, performed by Mr. Brine, who also introduced us to two other members of the Board of Governors, Mr. Forrest and Mr. Morrison. He said that the Board was not a legendary affair whose existence was doubtful; but they were men who worked hard for the benefit of the School. Mr. Forrest presented the Life-Saving awards, and stressed the importance of life-saving to the community.

Mr. Mitchell unfortunately had to leave us on the 20th July, to commence work on explosives in an armament factory. We hope he enjoyed his rather brief stay, and welcome Mr. Tuit, who has come to take his place.

Mr. Newbery was unfortunately ill for ten days, and Mr. Parry very kindly came in the mornings to help the leaving classes.

On July 28th sixteen boys were confirmed at St. Mary's Church by Bishop Elsey of Kalgoorlie.

On 31st July Major Buntine, who has returned from Libya, visited the School and gave us a talk about his experiences. First he thanked Mr. Hadley and the Masters for carrying on so splendidly, and remarked that all those he remembered as youngsters seemed to have grown into Prefects. He then told us how his battalion went to Palestine and from there through Hellfire Pass to Tobruk. "It seemed," he said, "a nice place—blue sea, beautifully coloured rocks, but in the harbour forty ships were sunk."

Many Old Haleians were in the garrison, Eric Connor, Brian Simpson, Keith Potter, Hedley Freedman, and Harry West, still carrying on the traditions of the old School. When they left, Major Buntine continued, it was the Navy which took them off, performing this feat with amazing efficiency and silence. They went to Alexandria, then to Syria. Up in the mountains they camped where the scenery was marvellous—and snow! From the burning desert to snow! He arrived home on 29th July. Major Buntine showed us a few Italian souvenirs, including a booby trap and some 2-inch mortar bombs.

Mr. Hadley thanked Major Buntine and remarked on the sense of humour characteristic of all Australians, and how they would always win through.

The Annual Prefects' Dance was held on August 14th. This year the hall had to be blacked out, and the sombre decoration was made exceedingly attractive by sketches done in chalk by a few potential Angelos. The orchestra was the 6AM Orchestra led by Chris Gosper, and the dance was a great success.

The term ended on Thursday, 23rd August.

THIRD TERM 1942

This term began on the 8th September. Peter Grigg and Newton Roberts decided to go into the Navy. They left on the 12th September, and we wish them the greatest success in their new career.

The Headmaster suggested that when boys left the School they should donate a book to the Library. We hope all boys will take notice of this scheme and when they revisit the School they will see how each section of the library has grown.

The Hobbies Exhibition was held in mid-term and was, as usual, a great success. It is hoped that next year will see an even greater display of pupils' hobbies.

The athletic team was unfortunate in being beaten by Aquinas after an exciting tussle, but came a close second. We feel sure of our impending victory next year.

On Armistice Day, Wednesday, November 11th, Mr. Hadley recalled the cause for which our fathers so valiantly fought, and for which we now must strive again. He also pointed out that Australia is a nation united and taking its place among the leading democracies of the world. A service was held at St. Mary's Church to commemorate the Old Boys who have given their lives in this war. Canon Stillwell conducted the service and the lessons were read by Mr. Newbery, Mr. Chipper and Gordon Ross.

The 23rd of November saw the commencement of the public examinations, and all boys who participated have our best wishes for success.

Once again the boys of sub-leaving organised a dance on Friday, December 4th. This year it was an even greater success than before and it is hoped that this will become an annual event on the School's calendar. Our thanks are due to the mothers who organised such a splendid supper and to Chris Gosper and his orchestra who provided the hot rhythm.

Speech Day was held in the School Hall on the afternoon of December 7th. The Hon. Leslie Craig, M.L.C., presented the prizes. Bruce Green is congratulated on attaining the position of Dux of the School for 1942.

The School year ended on Tuesday, 8th December.

FIRST TERM 1943

Tuesday, February 9th, marked the commencement of another year in the annals of Hale School.

Mr. Hadley welcomed a new master in Mr. "Taffy" Jones, who has joined the staff as resident master. We all hope that Mr. Jones will enjoy his stay with us and in later life cherish pleasant memories of it.

On Friday, 12th, Mr. Newbery addressed the School and informed us of the deaths of two old boys, namely, Peter Duce and Charlie White. He pointed out how very real tradition is and how well Old Boys of our School carrying it out. These, he said, were but examples of many who loved their honour and died upholding it.

This same day the new prefects were announced, and we offer our congratulations to Doug Craig on his appointment as Captain of the School, Peter Holmes as Senior Prefect, and to P. Anderson, C. Barrett, D. Chappell, T. Clarke, R. Clement,

G. Cohen, G. Lilburne, C. McWhae, and B. Vivian as School Prefects.

The induction ceremony was conducted on Monday, February 22nd, by Mr. S. J. Macgibbon, a member of the Board of Governors. Mr. Macgibbon, though he protested strongly that he was an unpractised speaker, rewarded us with a very fine address.

A good attendance of Old Boys was observed on Monday, March 1st, when the Annual Old Boys' Day was conducted at the school. Due to the obvious wartime obligations of many, no sporting fixtures were conducted on that day.

We welcome Mr. Blyth, who has taken up a position in the Junior School, and who has already done much in forwarding the sporting activities of the juniors.

On Thursday, March 4th, we were visited by Mr. Loton, a member of the Board of Governors, who, in a short speech, wished the School a successful year.

The following Thursday brought the induction of C. McWhae, who had been absent through illness from the first ceremony. The induction ceremony was carried out by Mr. Hadley.

The cricket team has had a most successful season, winning all matches except the one against Guildford Grammar, and we hope the end of the year will see them victorious.

On Sunday, May 2nd, the Prefects and several members of the staff and VIA attended the University service held at St. George's Cathedral.

The following day an Old Boys' Memorial Service was held in the School Hall. Lt.-Col. Moseley addressed the boys.

Tuesday, May 4th, the School adjourned for the May vacation.

Speech Night

"Report is changeable."

DUE to lighting restrictions our customary Speech Night had to be forgone and, instead, a Speech Afternoon was held in the School Hall on Monday, December 7th. Accommodation proved to be rather inadequate, but matters proceeded smoothly. The prizes were presented by the Hon. Leslie Craig, M.L.C., while Mr. Brine presided. Major Buntine was also in attendance.

Mr. Craig was welcomed by the Captain of the School, following which came the Headmaster's report and the distribution of prizes.

A short speech of thanks by the Head concluded the function.

WELCOME BY THE CAPTAIN OF THE SCHOOL

The Hon. Leslie Craig, Governors of the School, Mr. Hadley, Members of the Staff, Ladies and Gentlemen,—

It is with great pleasure that, on behalf of the School, I welcome here this afternoon the Hon. Leslie Craig, who has, for a long time, been a Governor of the School, and has kindly consented to present the prizes.

Today is the end of a most eventful year for the School. Unfortunately every member of the leaving form of 1941 left at the end of that year, thus affecting many of the teams this year.

However, sport in the School this year has not been unsatisfactory. The swimming team trained well and filled second place in the Interschool Sports. The life-saving competition was not held, but this did not affect the training; a greater number than usual took certificate examinations, and several boys qualified as instructors in life-saving. The first rowing crew had their boat badly damaged by rough weather on the way to the start of the Head of the River Race, but despite this they rowed excellently in the leaking boat. The second and third crews filled first places in their events.

In football, athletics and cricket we were runners-up, and the Second XVIII were champions for the season.

The Debating Society had a very successful season, there being a large number of debates both in the senior and the junior schools. The most pleasing aspect of the debating season

was the institution of an interschool debate with Presbyterian Ladies' College; the result was a draw.

The School's contribution, as a body, to the war effort, apart from the digging of our own 70 slit trenches, was the digging of shelters at two other schools and at a hospital, and also monthly contributions to Red Cross.

Half way through second term we had a red-letter day in an unexpected visit from Major (now Lieut.-Col.) Buntine, who addressed us on his war experiences and inspected the cadet corps.

In conclusion I wish to thank the Prefects for the way in which they worked to secure the smooth running of the School throughout a rather difficult year.

HEADMASTER'S REPORT

The School year just closing has been memorable for, at its beginning, there was the ever-present shadow of invasion, but now we look with confidence to approaching victory. This changed aspect of the war situation has been responsible for the return of children evacuated to safety areas. Although the School has contributed its quota to the Fighting Forces, and a number of boarders have been recalled to farms and stations owing to shortage of manpower, still the enrolment, though slightly lower than last year, has been maintained and even increased during the second and third terms.

The health of the pupils has been particularly good. Prompt action by Sister Shenton arrested a sporadic outbreak of measles. Beyond this there has been nothing but minor ailments.

During the first term provision had to be made for replacement of four members of the teaching staff who had joined the military forces. Once again the School was fortunate in securing the services of competent masters from the ranks of retired teachers. Mr. Johns and Mr. Corr also came forward at personal sacrifice to assist the School in its need. Thanks to their conscientious help the work of instruction has progressed steadily and sound efficiency has been attained throughout.

The masters have striven during this year particularly to give pupils their normal school life. With this object in view all the usual school activities were carried on and boys were encouraged to take their full share in them. The response was distinctly pleasing, especially in sports and athletic teams. In these the boys were entrusted more this year than ever before with the preparatory training. The splendid results achieved in life-saving and rowing and the prominent position gained in

the Interschool Sports were due to the enthusiasm and co-operation of the boys.

In both my former reports I laid stress on the benefits of the training of boys in certain forms of basic handicrafts. I wish now to amend this statement and say that in any scheme of education all boys should be efficiently trained in some particular profession or craft. The Commonwealth authorities at the outbreak of war were forced to realise what dire peril our country was in owing to the dearth of skilled tool-workers and the woeful lack of up-to-date precision tools and machines. While they laboured to procure supplies of machines and to train men in the operation of them our country lay wide open to the attack of a hostile nation. Even now the supply of men and machines is not adequate to our requirements.

We can recognise clearly one fact that this disclosed, and that is the distance that Australia has lagged behind other parts of the British Empire in technical education. This is the case also in other forms of education, and the sole reason is lack of finances. The Federal Government has always disclaimed any responsibility for education because it was not mentioned in the Constitution and threw the onus of providing the money on the States.

We hear a great deal of the excellent education provided in the United States, but it is only a few years ago since an amendment of their Constitution was forced upon them, requiring the subsidising of all States' education systems because owing to the lack of funds the schools in the poorer States were in a deplorable state of poverty and inefficiency. Our Commonwealth Constitution is modelled on theirs and can be altered by the same means.

In South Africa the financing of education is the joint responsibility of the Union and the Provinces, the former granting inalienable taxes which provide ample funds. Canada also subsidises education in all provinces. In Britain just prior to the war legislation had been passed to subsidise all kinds of education from the kindergarten to the university and all kinds receive annual grants to enable the erection of suitable buildings and the supply of adequate equipment for various forms of education (academic, technical, science, etc.) and to pay a definite scale of salaries to competent teachers. As Hale School is modelled on British public schools and comes under the category of "non-provided" because it has no rich endowments, I can realise what a great difference such a scheme as that now to operate in Britain would have if it existed here.

That the Federal Government is uneasy is shown by their proposal to subsidise university students. This I consider a

paltry way of dealing with a vital question and further it is beginning at the wrong end. Nor do I think such palliatives as raising the school age to 15 or even to 18 years are satisfactory. There *must* be provision of the right types of schools, properly equipped for the varied forms of education. Besides there must be employment for every boy so educated. Nor must education cease with employment, for with the changing technology as applied to industries an employee must keep abreast of improvements or be content to be passed by. And now is the time to make a strong demand for subsidising education of all kinds in all the States before the Federal Government sinks once more into its former inertia. Education is not and cannot be a State concern alone. All students on completing their courses naturally gravitate to where the better opportunities are provided and that is generally in the most populous States. There are no longer any State barriers nor do we wish them in regard to education.

In all schools there are pupils of varying aptitudes and Hale School has lads from all parts of the State, not all of whom desire nor may be able to take the full academic course. It is definitely wrong to try to force all of these along the same path, and the aim of this School is to provide number of alternative courses; but necessarily limited in scope. Boys keenly appreciate all forms of handcraft, and great use can be made of their enthusiasm and training not only in improving other subjects of study, but also in securing stability and seriousness by which disciplinary problems are frequently solved.

The necessity for extra accommodation is becoming more urgent. The disposition of classes even now with the minimum enrolment, shows that one class is always roving; then also the accommodation of boys during free periods in which individual study is essential; and the housing of the Reference Library in a true atmosphere, are phases of the School's organisation which may be tolerated as a wartime economy, but there is certainly an urgent necessity now for a room to accommodate boys at handcraft.

My thanks are due to the members of the teaching staff who again this year have given loyal co-operation and support so willingly and capably both in school and on the playing fields. The excellent tone of the School and the steady improvement of the work in all branches, are due to their keenness and enthusiasm. The School has been very fortunate in its selection of Captain. Although at first he was somewhat callow on account of age, he matured very rapidly and now shows keenness, capacity, and good commonsense. For his ever ready

assistance in which he has given of his own time unsparingly and for the way he has striven to lighten my burden of responsibility, I wish to thank him and his band of co-prefects.

The work of the house prefects has also been very commendable. They assumed responsibility readily and gave the House Masters valuable assistance in the maintenance of discipline.

The results obtained by boys of Hale School in external examinations show an improvement on those of the preceding year. In the Leaving Examination, out of nineteen boys presented, ten passed and five distinctions were gained. In the Junior University Examination there were forty candidates, of whom 31 passed and seven secured four subjects. This year the number of School certificates awarded to the Junior University group is nineteen.

The Reference Library has been extremely well managed and has proved very useful and popular. In spite of the great difficulty in securing special books, though ordered, there have been many additions of suitable books, of which a good proportion were given by parents. Our sincere thanks are due to these well-wishers and also in a special degree to Mr. Corr for a valuable contribution of early editions of classical works. These we have been unable to house owing to the impossibility of obtaining book cases. The library is now wholly managed by boys to whom my thanks are due for their very efficient and unselfish work.

Good use was made of the fiction section during the warm weather and also in inclement periods in winter, although suitable furniture *would* be a great improvement.

Bruce Green has the honour of being Dux of the School, and N. Gilchrist secured the Science Prize. The Mathematics prize was won by N. Lapsley, the History prize by A. Brown, the English prize by J. Holtham, and the History and Economics prize by D. Macgibbon. The Dux of VI B was T. Clarke.

In sport the year's activities have been carried out with considerable success under abnormal conditions. By agreement among the schools the official competitions had been suspended for the duration of the war; and then came the compulsory withdrawal of Guildford Grammar School, which caused a curtailment in the list of school matches. Material for all sports has been difficult to get, but the supplying firms have treated us generously. A word of thanks is due to the boys who have looked after cricket and football material, for the excellent way in which they have done the job.

Another fine feature of this year's sport is the splendid manner in which the senior boys have assisted in the control and

in the coaching in various games. Skilful and unselfish service has been given by them, especially in life-saving and athletics, by which the burden on the masters has been greatly reduced.

The absence of Guildford Grammar School robbed the cricket competition of some interest, but the games were marked by keenness and a very fine spirit among the teams. Our representatives in the First XI did not disclose any outstanding players in any department. Sound batting and fielding, with brilliance now and again, were shown, but our bowling lacked hostility and sting, and was not handled to the best advantage at times.

The Second XI displayed keenness which assisted them to win all their matches. There should be spirited competition for positions in the First XI next year.

The junior teams also have many good players. Coaching in these teams is difficult, but a scheme has been devised which should lead to rapid improvement.

A very good season's football was enjoyed. Teams were evenly matched, and the games were fought in a splendid spirit. An unfortunate incident in the disagreement of the umpires concerning the scores turned a victory for Hale School against Aquinas into a draw. As a result Hale finished the season behind Aquinas instead of leaving both teams equal.

Mr. Ryan's coaching helped the members to reach a high standard of play. I do not view favourably members of the First XVIII playing League football on Saturday. The necessary hard training for these and the School matches causes staleness and lack of initiative, besides interfering with school studies.

The second team, in contrast, improved very considerably as the year progressed, and now gives excellent promise for next season. The lower teams also possess some very fine material and were most attentive to practice.

I wish to thank the masters for the splendid work they did in supervising sports matches and practice, and especially Mr. Hamilton and Mr. Corr for their efforts to see the full programmes were carried out.

In the interschool athletics competition Hale School finished second to Aquinas College, the winners. In the blue-ribbon events our boys proved very successful, but Aquinas College with very fine representatives in the under age and junior events ran out winners after a very interesting competition. D. Macgibbon of this School was the athletic champion.

The Head of the River was also won by Aquinas. Hale School had looked forward confidently to winning, for our First Eight were particularly good. The day was very squally

and the location of the race was shifted to Canning River. In getting there, both the eights and the four were swamped, the crew of the First Eight spending more than three hours in the water trying to get their boats to the bridge. Although the eight boat was badly damaged the crew took part in the race. The three boats were bunched at the finish, with Hale School a close third to Scotch and Aquinas, the winner by a canvas.

Hale School won with comparative ease the Second Eight, and both four races.

Once again sincere thanks are due to Mr. George Rogers for giving his time and his very capable coaching to our boys. In this he was ably assisted by Gordon Ross, an immediate Old Boy. The success of the team was also greatly due to the enthusiastic supervision of Mr. Johns. I wish also to place on record the School's appreciation of the kindness of the Western Australian Rowing Club in granting us once more free use of their facilities.

The rowing crews extend their sympathy to the family of the late Mr. W. Goland, who for so many years gave unselfish service to Scotch College rowers in particular and to Western Australian rowing in general.

Our boys made a record number of passes in the various life-saving examinations with high percentages, especially in the advanced grades. As in these most of the instruction and training was done by the boys concerned, I offer them my thanks and heartiest congratulations on their success.

In the interschool swimming our team finished a very creditable second to Aquinas College. Our evident weakness in junior representatives can be overcome, I feel sure, if consistent training practice is kept up during the coming vacation.

This year the School entered two teams, complete novices, in the Slazenger Cup Tennis Competition, for all members of the previous team had left the School. The "A" team reached the semi-final and were defeated in spirited well-contested games by the ultimate winners, Wesley College. Our prospects are very bright for next year. The Sports Council decided to award colours to three members of the team.

The School extends hearty congratulations for success to the following ex-pupils now in attendance at the University: W. A. McCullough, Gordon Ross, engineering first year; F. Blakey, Trail-Nash, engineering second year; F. Edmondson, D. Jacob, J. McLeery, engineering third year; A. T. Wolff, C. Love, C. R. Green, science first year.

At Melbourne University: J. Craig, K. Stewart, J. Irvine, completion of medical course; D. Gordon, now in his final year;

M. Deane, K. Cullen, E. Griffiths, medicine fourth year; and H. Cohen, medicine second year.

The following military distinctions have been conferred on Old Haleians: Major H. Norman, Military Cross; Lieutenant-Commander E. M. Tymms (missing in H.M.A.S. Perth), Distinguished Service Cross; Flight Lieutenant Hugo Throssel Armstrong, D.F.C. with bar; Lieutenant N. H. Russell, D.C.M. at Tobruk; Lieutenant Colonel Gibb Maitland, D.S.O.; Dr. Douglas Wilson, M.B.E.; Wing Commander V. E. Hancock, Assistant Director of Plans on staff of Lieutenant General Brett; W. R. Cuthbertson, war work on textiles at Leeds, the degree Ph.D. (Leeds).

This year the boxing tournament was held at the end of the second term before a very large gathering. The many clever bouts were a tribute to the capable instruction given by Mr. Ryan. A very interesting exhibition of boxing between the instructor and one of his clever pupils was very well received. After a spirited contest the championship of the School was retained by P. Kennedy against the strong challenge of G. Geneff.

The Cadet Corps, which this year has been under the control of Lieut. Altorfer, reached a strength of 146. Although it was not possible to hold a camp the full training period was made up by holding parades weekly throughout the year instead of during the winter months only, as in the past.

At the week-end course held in Marach six N.C.O.'s. obtained their commissions; and to fill a vacancy during the year a seventh has been recommended for commissioned rank. At a later course, at which all instruction was carried out by cadet officers, an examination was held for promotion to non-commissioned rank.

The corps is indebted to Mr. Lutz for instruction of the ambulance platoon, and to Mr. Johns, who has trained the drummers and buglers.

The School's hobbies exhibition, owing to the strenuous and skilful efforts of Mr. Jones and the senior boys, was very successful. The meetings of the Debating Society were held regularly despite the handicap of blackout conditions. It was interesting to note the development of the participants who gave very creditable and well delivered contributions, although the support given by the day boys was disappointing.

The Rev. R. Hamilton has again earned the thanks and appreciation of the senior boys for his special interest in their welfare, and for the attention given to the Scripture classes, even though he is now situated in the Swan district. The con-

firmation class was prepared by Canon F. Stillwell, Rector of St. Mary's.

Mr. Wood has again done good work in teaching of music, and Mr. Wells has ably conducted both the swimming classes and the gymnastic work of the School.

Contribution to charitable funds to the extent of approximately £40 have been made monthly and distributed between the Seamen's Mission, Red Cross, the Blind School, and Orphans' Christmas Cheer Fund.

Finally I wish to thank all parents and well wishers for their keen support and valuable help, so readily given to all Hale School activities and functions.

"Thy outside looks so fair and warlike."

LAST year we were most unfortunate in not being able to hold our annual camp owing to difficulties in obtaining a camping area and the necessary equipment. However, to offset this, a number of interesting demonstrations were arranged, from which great benefit was derived.

The first of these was at Wembley, when we were shown over a Bren gun carrier, had it explained to us, and saw several at work. This year the corps has been twice to Swanbourne for range practice. At the first of these, on November 28th, we were given demonstrations of mortar and rifle grenade firing. We were also shown some most interesting films which dealt directly with the work the corps was doing. For this we would like to thank the Vacuum Oil Co., who kindly presented them to us.

During third term 1942, Lieutenant N. Roberts resigned his commission to join the Navy. C.S.M. Barratt obtained his commission and filled the vacancy. Sergeant Vivian became C.S.M. and Corporal Dempster was promoted to the rank of sergeant.

This year we were also unfortunate in not being able to hold week-end camps for N.C.O.'s. However, the need for them was not so great, as three of last year's officers, Lieutenants Chappell, Evans, and Barratt, returned to school, and gave, with W.O. Simpson's help, valuable instruction at the two week-end officers' courses which were organised at school. During the term C.S.M. Vivian gained his commission and at the officers' exam on April 14th Lance-Corporal Anderson and Corporal

Craig were successful in gaining their commissions, whilst Lance-Corporal Vincent was made C.S.M. Other promotions were: To be sergeants, C.Q.M.S. Holmes, Corporals Home, Clement, Surbek, and Lance-Corporal Cohen. To be corporals: Lance-Corporal Payne, Corporal Smith (confirmed).

The N.C.O.'s. exam was held later in the team, the promotions being: Cadet Clarke to lance-sergeant; to be corporals, Cadets Lilburne, Geneff, Senior, Goodchild, Sadler, Luscombe; to be lance-corporals, Cadets Dyas, Cox, Weaver, Haig, Brine, J. K. Anderson, Neerhut.

Soon after Major Buntine's return from overseas, he kindly consented to inspect the corps. After the inspection and march past, he gave a short address in which he complimented the corps on the excellent work they were doing.

At the beginning of the year we had two most interesting lectures from well-known Old Boys. Captain Collin Newbery, recently returned from the Middle East, told us a few of his experiences at Alamein, while Lieutenant Bruce Bogle, a graduate of Duntroon, spoke on the administration of the Australian Army.

During the Christmas holidays, the O.C., Lieutenant Altorfer, was allowed to attend a week's course at an army camp, where, through the courtesy of the army authorities, he gained much valuable experience.

This year great difficulty is being experienced in obtaining uniforms, and it would be greatly appreciated if Old Boys who have any part of a uniform, would make it available.

"WE WILL REMEMBER THEM"

On November 11th an In Memoriam Service for those who have fallen in this war was held at St. Mary's Church, Colin Street. The address was given by Canon F. Stillwell to a very representative congregation. The names of Old Boys who have made the supreme sacrifice were read by Rev. W. Riley, an Old Boy and a previous master at the School.

This year it has been decided to hold a Remembrance Day in the School Assembly Hall each term. A short ceremony was held on March 12th, when Mr. J. B. Newbery, in a cultured and very impressive address, reminded the boys that the ideal of "Service" for which our Old Boys have laid down their lives, expressed in the very highest sense the traditions and ideals of Hale School. Their names are added to the long list of Hale boys whose memory will always be preserved in the records of the School.

On May 3rd the first of the regular Remembrance Days was held. The Headmaster officiated, and the address was given by Colonel H. D. Moseley, an Old Boy of the School; his address centred round the motto of the School, "Duty." He referred very feelingly to the regrettable necessity for war, to the part Hale School boys had played in the war of 1914-18 and in the present arms of the Service; he reminded the boys of their privilege in inheriting the sound traditions built up by Hale School and expressed confidence in Hale School boys of today maintaining both at school and in after life the honour of the School, and holding in reverence those of their Alma Mater who gave their all to maintain the best things in life.

The Captain of the School read the names of Old Boys who have lost their lives in this war and, after observing two minutes silence, the service was concluded by the singing of the National Anthem.

OBITUARY

THE LATE W. A. THOMPSON

The School takes this opportunity of extending to the parents of the late W. A. Thompson its sincerest sympathy in their recent bereavement.

All who knew Bill Thompson will realise that in him the School has lost a valuable member.

He was captain of his form and showed great promise in sport. He represented the School in swimming and took an active part in boxing and rowing.

His sudden passing came as a great shock to us all, particularly to those in the house who knew him so intimately.

«»

To Richard Marmion, who has sustained the loss of his father, the School offers its deepest sympathy.

Library Notes

"Let us alone."

WE WOULD like first to congratulate A. R. Brown, who is again head librarian, and J. Vincent on being appointed staff librarian. B. Haig, B. Senior, B. Rosier, B. Luscombe, C. Smith, J. C. Anderson, J. K. Anderson, and W. Fountain join P. Anderson, P. Holmes, and G. Lilburne as the library committee.

This year the work of the library has been entirely in the hands of the committee, and it is due to their enthusiasm that it has been such a success.

On behalf of the School we would like to thank Mr. Jacoby for the presentation of "Seven Pillars of Wisdom," won by his son Peter, then Captain of the School, who was killed on active service. Although many present boys do not remember him, his name is honoured in the School, and we were all deeply grieved at his death.

We would like to thank John Clarke, Peter Glover, Bob Martin, and Frank Bird for the presentation of books on their leaving school.

Although comparatively few books have been added to the library, the English section has been modernised and a number of recognised reference books have been purchased. Among books of topical interest are *A Study of Churchill*, *Australia at War*, *Fighter Pilot*, *Active Service*, *Carry On London*, and autobiographies of Hitler and Mussolini. It is to be regretted that there are not more of this type of book in the library, as there is a great demand on the few available.

The library is badly in need of shelf space, and many books have to be stowed away and, as a result, are not made use of.

It was found that works of well-known poets were not included in the library, and we would like to thank Mr. Corr and Mr. Hadley, who, by their kind donations, have provided these volumes.

In conclusion we would again like to thank the librarians for the interest and assistance which they maintained throughout the year, and to take the opportunity of thanking those parents and boys who contributed books.

Prefects Notse

"I will maintain my truth and honour firmly."

Towards the end of last year meetings were held with varied success. Most were very tame to start off with, but with people like Glover and Bird in the room many heated discussions took place.

John, "our prefect," did a very good job as School Captain and also made a fine speech at the break-up.

"Bobbie" is just learning how to play cricket and made twenty runs last term. Very good for you, Bobbie!

Last year's dance was a great success and all those who assisted in the supper rooms are sincerely thanked for their untiring efforts to provide a "bust up" for the boys—especially boarders.

This year only three of last year's prefects came back again, namely, Holmes, Evans, and Craig.

Doug Craig was elected School Captain, while Peter Holmes was made Senior Prefect. Great difficulty was experienced in finding a new title for John Evans, so he has to be content with the old title of Prefect Evans, though recently he has been elected Captain of Football, which makes a definite rise in his social position.

So far this year all prefects' meetings have been very successful and at one of them it was suggested that the assembly in the mornings could be improved on. Consequently we now have a new system of marching into school, and it seems to be much more effectively carried out.

Debating Society.

"The glib and oily art."

1942

TWO entertaining debates were held in the Boarders' Common Room on the 23rd of June. The first debate was on the subject, "Are we too fond of sport and games?" Affirmative: N. Roberts (leader), P. Kennedy, R. Farmer. Negative: R. Clement (leader), G. Lilburne, J. Evans. Mr. Altorfer, the adjudicator, gave his decision in favour of the negative by a slight margin.

The second debate was on the much discussed subject, "Ought we to grant self-government to India now?" Affirmative: F. Bird (leader), P. Glover, D. Macgibbon. Negative: N. Benson (leader), J. Clarke, R. Wilson.

Mr. Newbery, the adjudicator, said that the debate was the finest he had ever heard at the School, and particularly complimented F. Bird and N. Benson for their excellent speeches. Mr. Newbery then said that rather than call it a draw he would give the verdict to the negative side by a narrow margin. The chairman, R. Clement, then brought the debate to a close.

On Tuesday, July 7th, two debates were held in the Boarders' Common Room. The first debate was "That complete prohibition of intoxicating liquor be introduced." Affirmative: D. Macgibbon (leader), N. Benson, N. Roberts; Negative: J. Clarke (leader), F. Bird, R. Wilson.

The debate was not quite of the same category as the previous debate, but nevertheless it was of a high standard. The debate was not lacking in humour, D. Macgibbon and R. Wilson

supplying a great deal of it. Mr. Newbery was particularly impressed by N. Roberts' speech, and gave his decision in favour of the affirmative side by a considerable margin.

The second debate was "Are the Churches on the down-grade?" Affirmative: P. Glover (leader), N. Gilchrist, D. Bell; Negative: R. Bell (leader), R. Clement, D. Chappell. The latter made a good speech and the adjudicator, Mr. Altorfer, gave his decision definitely in favour of the negative side. The affirmative side lacked team work and in addition they did not link up their points sufficiently. R. Farmer, the chairman, closed the debate after P. Anderson had thanked those present for coming along.

In the Boarders' Common Room on July 22nd before a large gathering of boys and parents a junior and senior debate was held. The subject for the junior debate was "That the loss of Australia would be more disastrous to the British Empire than the loss of the Suez Canal and Egypt." Affirmative: E. Adler (leader), R. Buntine, M. Clarke; Negative: R. Garner (leader), R. Goodchild, K. Neerhut. D. Macgibbon, on behalf of the adjudicators, J. Clarke and himself, said he was agreeably surprised by the latent debating qualities displayed by these boys which gave great promise for the future. He then gave his decision in favour of the affirmative side.

The senior debate was held on the subject, "That free trade is more desirable than protection." Affirmative: R. Farmer (leader), T. Martin, M. Crossley; Negative: R. Clement (leader), B. Vivian, H. Dempster. T. Martin, B. Vivian, and H. Dempster, making their maiden speeches, spoke admirably; H. Dempster proved a very forceful speaker. Mr. Ross, the adjudicator, gave useful constructive criticism and complimented T. Martin and R. Clement on their speeches. The decision was given in favour of the negative side partly on their good team work. P. Holmes, the chairman, closed the meeting after J. Clarke had thanked the adjudicator and parents for coming along.

On Monday, August 17th, a debate was held with the Presbyterian Ladies' College at their school. The debate commenced at four o'clock, having been preceded by afternoon tea. The debate was on the old subject of the "White Australia Policy." The School was represented by N. Benson (leader), J. Clarke, D. Macgibbon, F. Bird; and Presbyterian Ladies' College by N. Barnden (leader), B. Turnbull, L. Luscombe, V. Black.

At the beginning of their speeches the boys were inclined to be nervous, but they soon gained confidence and spoke very well. Though the boys displayed better ability and made the

best of their points, the girls showed a greater knowledge of the subject and it was evident that they had prepared the speeches more carefully. Because of this the adjudicator found it impossible to decide one way or the other, and so declared the debate a draw. Macgibbon was able to bring in some intentional and at other times unintentional humour, even though the subject tended at times to be rather dull.

DEBATING DINNER

A Debating Dinner was arranged for the end of the year, but unfortunately, owing to the little time left, it had to be cancelled. It is hoped that in the future this annual dinner will be held.

The debating season as a whole was most successful and a record number of debates held. It is regretted that there are still a number of senior boys who do not avail themselves of this opportunity of gaining valuable experience in public speaking.

1943

At the opening general meeting of the Debating Society a pleasing number of VIA, VIB and V form boys were present. Mr. Newbery conducted the meeting and the principal business was the election of officers who were as follows:

President, Mr. Hadley; Vice-Presidents, Mr. Newbery, Mr. Johns, Mr. Marshall, Mr. Corr, and Mr. Altorfer; Secretary, R. Goodchild; Committee, J. Evans, G. Lilburne (leaders), C. Barrett, R. Goodchild, and R. Clement.

After announcing that a debate would be held on June 15th, Mr. Newbery closed the meeting.

Science Notes

"Let me talk with this philosopher."

A CERTAIN lab. cadet, nicknamed "Joe," has been distributing P.K.s. and telling everyone to chew it. Nevertheless the lab. is under full control and is as clean as a new berry. A group of boys under the supervision and instruction of Tough Egg and Sewer Biscuit have been concocting a mysterious liquid (expected to be highly explosive) obsequiously called "tea." With the addition of a few grains of sugar to a beakerful of this liquid an evil-smelling solution is produced which these lads drink at their leisure. The rest of VIB is seriously thinking of burning them at the stake.

A very helpful amount of cash has been collected from poor innocents who have broken pieces of apparatus recently. This will be a great help for the lab. cadets' spree at the end of the term.

Hobbies Exhibition

THE standard of the 1942 exhibition quite equalled that of previous years. The hum of activity which issued from the laboratory was a just criterion of the enthusiasm of the numerous exhibitors. Before dealing in detail with the various models it might be of interest to readers to learn that "one who should know" recently advanced a novel reason for the adoption of at least one hobby. He claimed that a failure to spread one's interests might lead to insanity in later years. This may be a psychological fact, but we are thankful that when a boy adopts a hobby he does so out of an interest he has in that particular subject and not as a remedy for senile insanity. The principal mystery of all hobby exhibitions, the fact that unreliable exhibits which operate spasmodically draw the largest crowds, still remains unsolved.

Of course, the usual detachment of crystal sets and Telsa coils were present in force. Some of the more novel exhibits included a plant for the production of superphosphate, a wide range of colours, and a tobacco manufacturing process. The product of the latter plant, an abnormally large cigarette, mysteriously disappeared from its glass case. Glover also gave an interesting and informative talk on light.

Once again patriotic funds benefited considerably as a result of various contests. Marksmen had ample opportunity to show their talent at an air rifle range, and it is considered a success, as relatively few competitors complained of crooked barrels. Michael Clarke promoted this venture. Atkins organised a gentler sport for the more timid. The object was to drop a penny on to a two-shilling piece placed at the bottom of a water-filled tub, and it wasn't so easy as it sounds because even the baffled scientists failed to allow correctly for the current, eddies, and whatnots. An outstanding feature was the manner in which the boys of the senior school applied their scientific knowledge to make a wide range of models. The committee which was responsible for the organisation is to be congratulated on the smooth running of the show.

Although the exhibition was of a high standard, there was room for improvement in the way of an increased number of exhibits. So, you boys who have hobbies, and that should include the whole School, we ask you to keep this popular item of School life going and no matter how unique or rough your hobby might be, see that your name appears under at least one model at the 1943 Exhibition of Hobbies.

Athletics Notes

"Half breathless panting forth."

ALTHOUGH the absence of Mr. Langley as coach was greatly felt, training was carried out by Mr. Corr and Mr. Altorfer, ably assisted by the committee. Attendance at Subiaco throughout the season was satisfactory and the enthusiasm shown by the boys most encouraging. Dudley Macgibbon and Frank Bird are to be congratulated on their appointment as joint Captains of Athletics for 1942. Several boys participated in the State Schoolboy Championships and performed well, which may be accredited to the fine training received.

JUNIOR SPORTS

The second annual Junior School sports were held in November on the lawn in front of the School. Many parents and friends witnessed a successful afternoon's sport. Afternoon tea was provided. The juniors displayed an abundance of talent which gives promise of great accomplishments in the future.

Thanks are due to Mr. Hamilton for his fine organising and to the senior boys who assisted him.

SCHOOL SPORTS 1942

As is customary the W.A.C.A. Ground was the scene of the annual School athletic meeting held on Wednesday, October 14th. The weather was far from ideal, with a moderate head wind, which proved to be too much for potential record-breakers.

D. Macgibbon won the title of Champion Athlete with ten points, closely followed by F. Bird with nine points.

The under 16 title was gained by P. Payne, while Hamblin was the under 15 champion.

Macgibbon won the 440, 880, and mile in brilliant style, with Bird taking the laurels in the sprint events and long jump. P. Payne showed great all-round ability in his age group by being placed in almost every event. Great promise was shown by Hamblin, who in addition to his under 15 victories, was also placed in the under 16 events.

We extend our thanks to Mr. Hamilton and the other members of the staff whose interest and organising ability ensured the smooth running of the sports.

INTERSCHOOL SPORTS 1942

The 38th annual meeting of the Combined schools athletic teams took place at the W.A.C.A. Ground on Saturday, October 24th. The day was warm, with a fairly stiff westerly breeze which rather slowed down times for events, especially the sprints.

Hale was well represented in the onlookers, many wearing the familiar light and dark blue.

Hale gained a good lead in points by lunch time and held it for a time afterwards, but Aquinas, with a very strong under-age team, overhauled us and won by thirty points.

Congratulations are offered to Aquinas on their fine victory and hopes are expressed here that this year the results will be more favourable to us.

Results:—

- 100 Yards Open: F. Bird (HS), 1; K. Deane (AC), 2; R. Page (GGS), 3; T. Hales (AC), 4; B. Green (HS), 5; R. Ritchie (SC), 6; D. Maiklem (SC), 7; time, 10.7 seconds.

"The boat hath a leak."

IT IS pleasing to note that a greater interest was shown in rowing during the third term of last year than in previous years. During that term Aquinas College kindly asked the School crew of 1942 to participate in a regatta held on the Canning River. There were two vacancies in the original Head of the River crew; T. Bennison and S. Home rowed in the seats of N. Benson and P. Grigg. A Hale four also competed. Other participants were a University crew and an eight consisting of club rowers stroked by our trainer, Mr. Rogers.

Results of the races were—Senior Eights: 1st heat, Aquinas defeated University; second heat, Hale defeated Mr. Rogers' crew; final, Hale defeated Aquinas. Junior Fours: Hale defeated Aquinas. We would like to express our sincere thanks to Aquinas College for arranging such an enjoyable programme.

1943

The purchase of two practice fours from Bunbury provided more accommodation for younger boys; and the interest maintained throughout the season was most gratifying. Doug Craig was elected Captain of the Boats and C. McWhae vice-captain. The crews were soon chosen and serious training began under the able coaching of Mr. G. Rogers. We would like to thank Mr. Johns, our rowing master, for his help and support at all times, and for the work he has done in forwarding the sport of rowing in the School.

The crews were—First Eight: D. Craig (stroke), T. Bennison (7), C. McWhae (6), W. McLarty (5), R. Murray-Duncan (4), S. Home (3), G. Geneff (2), B. Surbek (bow), P. Lowe (cox). Second Eight: F. Slee (stroke), C. A. Mitchell (7), M. Crossley (6), K. Anderson (5), H. Layman (4), P. Payne (3), M. McCullough (2), B. Browning (bow), P. Lowe (cox). First Four: F. Slee (stroke), C. A. Mitchell (3), M. Crossley (2), K. Anderson (bow), C. Fox (cox). Second Four: H. Layman (stroke), P. Payne (3), M. McCullough (2), P. Browning (bow), C. Fox (cox). Third Four: P. Burges (stroke), J. Cohen (3), E. Hester (2), J. C. Anderson (bow), J. Skipper (cox).

The rowers were fortunate in having the help of G. Ross and P. Kennedy, strokes of the Hale eight in the past two years. They were a great help to the boys and their interest was greatly appreciated.

THE RACES

This year races were scheduled to be held on April 30th and May 1st, over a course along the foreshore from the Causeway towards the boatsheds. On Friday, the 30th, the second and third fours raced. The second four rowed a strong stroke throughout with good length, and after putting in a hard finish won from Scotch by half a length, with Aquinas a canvas behind Scotch. In the third four race Hale led to about 200 yards from the finish, where they had trouble with the boat and lost way. Scotch won by two lengths, and Hale made up a lot of ground, beating Aquinas into second place by half a length.

Saturday turned out to be a very rough and windy day. However, the first fours were rowed. Racing over half a mile Hale held the lead for most of the race, but were just beaten by Aquinas by three feet. Scotch, a length behind Hale, came third.

At the starting line before the commencement of the main event the Hale first eight swamped because of very rough water and heavy rain. Luckily no damage was done to the racing eight. The first and second eight races were therefore postponed till the following Monday.

Monday was a fine day and a great crowd of people came to see the events. Hale got away to a good start, but Aquinas, rating very high, soon took the lead from Scotch and Hale by a length. Throughout the race positions changed slightly, Hale dropped back a little from Scotch, who were still a length behind Aquinas. About 300 yards from the finish all crews began to put in a final effort. Hale increased the rating a little and drew up on Scotch, who were challenging Aquinas. Both Scotch and Hale began to gain, Hale pulling away to a slight lead from Scotch. The three crews crossed the finishing line within a length of each other. Positions were: Aquinas first, Hale second, Scotch third.

We would like to congratulate Aquinas College on their win.

In the second eight race Hale got away to a good start and lengthened their lead by powerful strokes and good length. The rating throughout the race was good. Putting in an excellent finish, Hale drew away and beat Scotch by a length, with Aquinas in the rear.

Boxing Notes

"Thy arm may do thee justice, here is mine."

ON MONDAY, the 17th of August, the annual School boxing championships were held in the School Hall. Throughout the evening the boxing was most exciting, and some gruelling bouts were witnessed by the large crowd of spectators. P. Kennedy was challenged by G. Geneff for the School heavy-weight championship. After a very hard and scientific fight Kennedy retained the title.

Another excellent fight was that between N. Roberts and L. Brown. Although the fight was not scientific, heavy blows were exchanged, and the fight resulted in a victory for Roberts on points.

Mr. Ryan, the School's boxing instructor, very kindly refereed the majority of the bouts, and gave an excellent exhibition of boxing with Ben Jefferies, a Christ Church champion.

We take this opportunity of extending our thanks to Mr. Thompson, an ex-heavyweight champion of Australia, for his fine refereeing of several bouts. Thanks are also due to the boys who took part in the boxing for such excellent performances.

Results of the bouts were:—

D. Law defeated B. Gregson
 T. Brand defeated R. Wilson
 B. Woods defeated B. Saw
 N. T. Irvine defeated M. Pallister
 J. Gregson defeated B. Steere
 R. Williams defeated R. Wyatt
 O'Connor defeated W. Thompson
 J. Foulkes defeated R. Coates

Tennis Notes

"Exhausts the energy."

IN THIS year's Slazenger Cup competition played at Kitchener Park, Hale School entered two teams. The teams were as follows—No. 1 Team: C. Barrett, P. Holmes, J. Holtham (captain), R. Farmer; No. 2 Team: J. Evans (captain), B. Northam, T. Martin, K. Neerhut.

The first round was played on the 26th September, when No. 1 team played C.B.C., and the No. 2 team played Aquinas College No. 1.

Barrett, playing good tennis, won his singles and, with Holmes, won the doubles. Holtham had an easy victory in his singles, while Farmer won the deciding game. The result was a win for us by one game. The individual scores were:—Barrett defeated Elliot 6-5 6-1; Holmes lost to Johnson 0-6 3-6; Holtham defeated Greenwood 6-0 6-1; Farmer lost to Miles 2-6 2-6; Barrett and Holmes defeated Elliot and Greenwood 6-2 6-3; Holtham and Farmer lost to Johnson and Miles 1-6 5-6. Hale No. 1, 6 sets 49 games; C.B.C., 6 sets 48 games.

Northam was the only player to win a set in the No. 2 team, although many of the sets were fairly close. The individual scores were: Hinkley defeated Northam 4-6 6-1 6-2; Dease defeated Evans 6-1 6-5; Molony defeated Martin 6-1 6-4; Hanrahan defeated Neerhut 6-1 6-5; Dease and Hinkley defeated Evans and Northam 6-1 6-4; Molony and Hanrahan defeated Martin and Neerhut 6-1 6-0. Aquinas No. 1, 11 sets 76 games; Hale No. 2, 1 set 32 games.

The matches which were to have been played on the following Saturday were postponed owing to rain. The next round was therefore played on 10th October when Hale No. 1 played Wesley No. 1.

Holtham had an easy victory in his singles, and Barrett played well to be beaten by only a few games by Ladyman. Holmes and Barrett played well in the doubles. The results were: Ladyman beat Barrett 6-4 6-5; Hughes beat Holmes 4-6 6-0 6-0; Taylor lost to Holtham 5-6 2-6; Lynn beat Farmer 6-2 6-0; Ladyman and Hughes beat Barrett and Holmes 3-6 6-2 6-2; Taylor and Lynn beat Holtham and Farmer 6-0 6-3. Wesley College No. 1, 10 sets 74 games; Hale School No. 1, 4 sets 42 games.

As a result of this match, we were eliminated from the Slazenger Cup competition. Wesley were the ultimate winners of the Slazenger Cup after defeating Modern School in the final, this being their second consecutive victory in the Slazenger Cup competition. They are to be congratulated on their fine display of tennis.

Hale School players were again prominent in the Junior Tennis Tournaments held in October, 1942. Barrett was runner-up to Smith (Modern School) in the under 17 boys' singles; Northam won the under 15 boys' singles; and Neerhut and MacKenzie won the under 16 doubles.

F. Cooke and D. Broadhurst are to be congratulated on having been awarded Tennis Scholarships for 1942 by the King's Park Tennis Club.

We take this opportunity of thanking Mr. Marshall for his keen interest and help in the tennis, and the King's Park Tennis Club for the use of their courts for practice.

A match which was to have been played against Christ Church on March 27th was cancelled owing to rain.

Barrett and Holmes were outstanding in a tennis tournament held during first term, 1943. Barrett won the final of the boys' singles championship from Hughes of Wesley College, thus winning for himself the title of State Schoolboy Champion. Barrett and Holmes were also successful in the Doubles Championship.

"The most terrible and nimble stroke."

"In a walled prison, packs and sects of great ones."

SECOND TERM 1942

We came back this term to find Bill Thompson amongst us, together with two former day-boys, Angus McLarty and Ken Mekie, and also John Hutchings, who came later.

Football soon came into full swing and our representatives in the first team were P. Holmes, H. Dempster, B. Vivian, C. Smith, and D. Payne. P. Payne, J. Vincent, P. Glover and J. Martin were in the seconds.

We congratulate Peter Holmes and Peter Glover on being made School Prefects.

The house prefects conducted a tea dance on the Friday night of the long week-end, that being the second ever held in the house, and thanks to Matron and Sister it was unanimously pronounced a "good show."

Later on the first home-grown vegetables were eaten and since then we have had them periodically. David Home and David Broadhurst each won a war savings certificate, presented by Mr. Altorfer, for having the most successful gardens.

At the instigation of Peter Glover, the house prefects introduced the "Pound." By the end of the year this institution had produced thirty shillings for the Prisoner of War Fund.

Mr. R. Hamilton very kindly invited some of the senior members of the house, each Saturday night, to dinner, followed by the pictures or other entertainment. Those who were fortunate enough to go thank him very much.

D. B. Forrest left at the end of the term. We wish him all the best.

THIRD TERM 1942

Vernon Williams joined us again this term, together with Barry Morrell and Brian Burns, previously a day-boy. Ray Goodchild left to be a day-boy.

Later on in the term Newt Roberts and Peter Grigg left us to join the Navy. We have heard since that Peter has become a midshipman. Congratulations!

Brian Vivian took his place among the house prefects.

Peter Holmes receives our congratulations on being the only boarder in the tennis team.

Our Inters representatives were G. Cowcher, J. Martin, D. Broadhurst, and F. Cooke.

We were sorry to hear that Mr. Wilson was leaving. We all felt grieved as we liked him very much and all, or at any rate he, enjoyed his air raids!

Others to leave were Don and Peter Payne, Peter Glover, Guy Abbotts, Dick Maidment, Henry Dempster, Ron Walker, Tony Hall, Athol Edmonds, and Tony and Peter Brand.

Once again we thank the matrons and sister for their valuable assistance to us at any time, and consideration towards us if we were ever sick.

FIRST TERM 1943

The new boys in the house were John Anderson, Ross Anderson, John Bailey, David Barrett, Dean Barnsley, Ian Bogle, Brian Browning, Colin and Murray Broad, Lindsay Bower, Melville and Max Dale, Morgan D'Arcy, Trevor Flavel, Brian Gordon, Ian Johnston, Harold Loton, Bill and Robert Lowe, Bert Pelham, and Fred Williams.

Ted Hester and Kevin Johnson also came back after some absence.

We all welcome Mr. J. R. Jones as our new master; he has taken Mr. Wilson's place in the house.

Doug Craig, again our captain, was made captain of the school and Peter Holmes senior prefect. Congratulations, Doug and Peter. Brian Vivian and Peter Anderson became school prefects.

The new boys' boxing tournament was held with great gusto this year, there being something like eighteen bouts. It was decided this year to give no decisions on the bouts.

Those who gained entry into the swimming team were Jon Vincent, David Saw, Ted Hester, and Bill Thompson. Jon Vincent was also in the life-saving team.

Our only firsts cricketer this year was Peter Holmes.

The results of the officers' exam brought many boarders to the fore: Brian Vivian, Peter Anderson, and Doug Craig gained commissions; Jon Vincent became the C.S.M.; and Peter Holmes, Stuart Home, and Bernie Surbek sergeants; Cedric Smith was confirmed in the rank of corporal and promoted to a rifle platoon. Reg Cox and Brian Haig later became lance-corporals.

In the eight we had Doug Craig, Bill McLarty, Stuart Home, Bernie Surbek, and Peter Lowe (cox).

Two pounds were taken out of the pound tin at the end of term and sent to the P.O.W. Fund.

This year we had only Easter Friday holiday and this was included into a long leave week-end.

Michael Crossley and Robert James left at the end of term.

SECOND TERM 1943

The boarders of Hale School wish to convey their deepest sympathy to the parents of Bill Thompson, who passed away suddenly during the holidays.

"He struggles 'gainst the deep."

SCHOOL SPORTS 1943

THE School Swimming Sports for 1943 were held at Crawley Baths on Wednesday, February 24th. Weather conditions were very favourable, the water being calm and suitable for racing, with a result that two records were broken. Congratulations are extended to W. Halliday and D. Saw, who succeeded in creating new records in the 50 metres under 13 championship and 50 metres under 12 championship respectively.

The Dyas twins swam very strongly this year in the open championship events, and were very successful. Vincent swam well in the 50 metres backstroke, while Chappell came a good second to C. Dyas in the breaststroke event.

Hester and Pitman alternately came first and second in the under 16 200 metres and 100 metres freestyle respectively.

P. Payne won both the breaststroke and backstroke events in fine style in the under 16 division.

In the under 14 section D. Anderson distinguished himself by winning both the freestyle and breaststroke 50 metre events.

Our under age swimmers were promising this year and we are looking to these boys for future successes.

 Under 14 50 metres Freestyle: Woods 1, Sinclair 2, Farnham 3.
 Under 13 50 metres Freestyle: Lough 1, Loton 2, Wain 3.

As usual the relay teams presented some excitement. VB's team was successful in the senior teams race, while IIIA won in the junior teams race.

INTERSCHOOL SPORTS

Saturday, March 6th, was the day on which the Inter-school Swimming Sports were held. It was a perfect day for the sports, as was shown by the records created.

Once again competition was very keen and at the end of the first race Hale and Aquinas were even. However, from the beginning Aquinas gradually gained the lead in points, with Hale close behind. With a champion swimmer like Trend, Aquinas could not be held and went away to final victory with Hale School filling second place. The final points were:

Aquinas College	111 points
Hale School	82 points
Scotch College	69 points
Guildford Grammar School	44 points

Some excellent swimming was witnessed in the various age groups. R. Trend of Aquinas College was undoubtedly the champion of the day and he must be congratulated on his performance of winning four events, two of which were records.

The Dyas twins swam particularly well for Hale and they are to be praised for the many valuable points they gained. C. P. Dyas was placed with two seconds and a fourth, while J. P. Dyas was placed with three thirds.

D. R. Chappell also swam a good race in the breaststroke, gaining third place. The wholehearted spirit and attention to training of these boys and J. Vincent and G. Cohen, who also swam well, left nothing to be desired.

D. Anderson once again distinguished himself by coming first in his particular event, while R. Greeuw gave him adequate support in third place.

Congratulations must be offered to W. Halliday, a new boy, who is the interschool champion of the under 13 division. With concentration on training this boy should have even greater success in the future.

D. Saw also swam well into the under 12 50 metres.

To Mr. Wells, Mr. Altorfer and his committee, we offer our sincere thanks for their untiring efforts towards the coaching and organisation of the team.

Open 100 metres Freestyle: R. Trend (AC), 1; C. P. Dyas (HS), 2; J. P. Dyas (HS), 3; J. Davies (GGS), 4; G. Bayley (GGS), 5; R. Kelly (AC), 6; G. Gomme (SC), 7; time, 64.4 seconds (record).

Open 50 metres Breaststroke: R. Trend (AC), 1; C. P. Dyas (HS), 2; D. R. Chappell (HS), 3; T. Banting (AC), 4; A. Scott (SC), 5; R. Stam (SC), 6; Miller (GGS), 7; time, 37.9 seconds (record).

Open 50 metres Backstroke: R. Trend (AC), 1; J. Davies (GGS), 2; J. P. Dyas (HS), 3; R. Paton (SC), 4; T. Bourke (AC), 5; J. Vincent (HS), 6; D. Morris (SC), 7; time, 37.4 seconds.

Open 440 metres Freestyle: R. Trend (AC), 1; D. Morrison (SC), 2; J. P. Dyas (HS), 3; C. P. Dyas (HS), 4; D. Davies (GGS), 5; R. Kelly (AC), 6; G. Gomme (SC), 7; time, 5 minutes 26.6 seconds.

Under 16 200 metres Freestyle: J. Woolcock (SC), 1; D. Morrison (SC), 2; T. Prior (AC), 3; R. Forkin (AC), 4; J. Mackie (GGS), 5; E. Hester (HS), 6; J. Riviere (GGS), 7; time, 2 minutes 41.3 seconds.

Under 15 100 metres Freestyle: D. Morrison (SC), 1; D. H. Tydeman (GGS), 2; F. Handley (AC), 3; B. Luscombe (HS), 4; W. Melvin (AC), 5; R. Williams (HS), 6; J. Mackie (GGS), 7; time, 75.3 sec.

Under 14 100 metres Freestyle: D. Anderson (HS), 1; B. Brearley (AC), 2; R. Greeuw (HS), 3; G. Evans (AC), 4; W. Raymond (SC), 6; M. Timperley (GGS), 7; time, 83.5 seconds.

Under 13 50 metres Freestyle: W. Halliday (HS), 1; G. Evans (AC), 2; N. Turnstill (AC), 3; G. Evans (AC), 4; C. Murdock (GGS), 5; Lough (HS), 6; A. Black (SC), 7; time, 35.8 seconds.

Under 12 50 metres Freestyle: G. Evans (AC), 1; E. Ferrier (GGS), 2; M. Rielly (AC), 3; D. Saw (HS), 4; G. Thompson (SC), 5; S. Barker (SC), 6; S. Padbury (GGS), 7; time, 39.9 seconds.

250 metres Relay Race: Scotch (Cross, Humble, Paton, Sweetser, Foreman), 1; Aquinas (Paget, Melvin, Meagher, Carlile, Golding), 2; Hale (Cohen, Fryer, Thompson, Percy, Parker), 3; Guildford (Plunkett, Hodge, Harper, Cornish, Padbury), 4; time, 5 minutes 26.6 seconds.

THE LAW SHIELD

THE competition for the Law Society Life-Saving Shield was held at Crawley Baths on the afternoon of Saturday, 13th March. Competition was very keen owing to the various teams being well trained, and the prevailing weather conditions being favourable.

The team, which consisted of No. 1 D. R. Chappell (captain), No. 2 C. P. Dyas, No. 3 J. B. Vincent, No. 4 J. P. Dyas, swam particularly well on the day because of the hard training done by the team during the week after the Inter-school Swimming. Each member of the team swam to the best of his ability on the day, with the result that we once again won the Law Shield.

Congratulations must also be given to the team for creating a new record of 7 minutes 41 4-5 seconds.

"B" team, which consisted of P. Fryer, H. Sadler, D. Anderson, and P. Atkins, although unplaced, showed considerable promise for next year.

The fastest time of 108 seconds for the afternoon was recorded by R. Trend of Aquinas College.

Due praise must be given to Mr. Wells for his untiring efforts and splendid way in which he trained the boys.

LIFE - SAVING AWARDS

A number of boys attended the Crawley Baths this year to take awards. It is regrettable, however, that more boys do not attend the life-saving classes, as much valuable knowledge can be gained from them.

It is encouraging to know that all boys who took awards this year passed their examinations.

The results of the examinations were as follows:

Bar to Silver Medal: D. R. Chappell, H. Sadler.

Silver Medal: P. Fryer, J. Parish, A. Olden, P. Atkins, W. Gardiner, R. Millikin.

Instructors' Certificates, 1st and 2nd Class: D. R. Chappell.

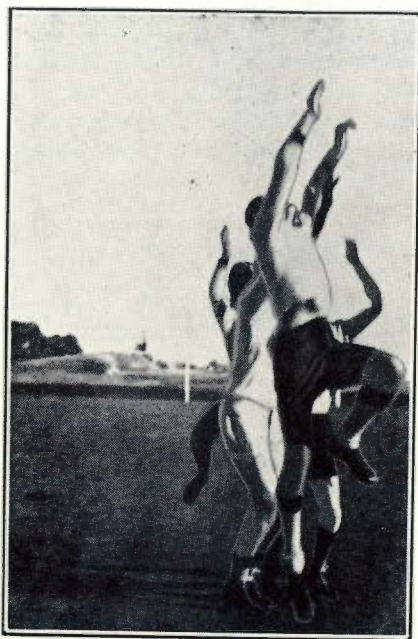

Second Bar to Bronze: D. R. Chappell.

Bar to Bronze: P. B. Fryer, J. Parish, A. Olden, B. Rosier, P. Atkins, D. Northover.

Bronze: J. B. Vincent, R. E. Cox, D. Anderson, R. Millikin, W. Gardiner, T. Turner.

Intermediate: R. Cox, J. Vincent, T. Turner.

Elementary: R. Cox, J. Vincent, T. Turner.

FIRST ROUND

HALE SCHOOL v. AQUINAS COLLEGE

Played at Subiaco on Wednesday, June 17th.

Final scores: Hale, 11 goals 25 points (91); Aquinas, 13 goals 13 points (91). Goal-kickers: Gilchrist 4, Lodge 3, Lilburne 2, Farmer. Best players: Farmer, Lilburne, Dempster, Evans, Macgibbon.

HALE SCHOOL v. SCOTCH COLLEGE

Played at Subiaco on Wednesday, July 1st.

Final scores: Hale, 12 goals 12 points (84); Scotch, 10 goals 10 points (70). Goal-kickers: Gilchrist 3, Lodge 2, Wilson 2, Dempster 2, Lilburne, Vivian, Macgibbon. Best players: Dempster, Farmer, Bird, Gilchrist.

SECOND ROUND

HALE SCHOOL v. AQUINAS COLLEGE

Played at W.A.C.A. on Wednesday, July 22nd.

Final scores: Aquinas 11 goals 8 points (74); Hale, 7 goals 9 points (51). Goal-kickers: Dempster 3, Farmer 2, Vivian, Gilchrist. Best players: Dempster, Kennedy, Farmer, Evans, Lilburne.

HALE SCHOOL v. SCOTCH COLLEGE

Played at Claremont on Wednesday, August 5th.

Final scores: Hale, 6 goals 16 points (52); Scotch, 4 goals 14 points (38). Goal-kickers: Gilchrist 2, Dempster 2, Vivian, Lodge. Best players: Dempster, Farmer, Lodge, Evans, Roberts, Gilchrist, Vivian, Holmes, Smith.

In the return match against Aquinas when a victory would have won us the competition, we were unfortunate in that several of our leading players did not show their previous good form. Although the team was not successful, a high standard of play was maintained, much credit being due to Mr. Ryan, who so ably coached the team during the season, and to Mr. C. Hamilton for his valuable advice and great interest that he took in the team's activities.

FIRESIDE REFLECTIONS

FAITH! Five little letters, but oh! how much can depend on them. As at our evening fireside we lounge cushioned before a sleepy fire whose radiant flames lick slowly upwards, striving, it would appear, to climb for ever; casting grotesque reflections over cosy walls, ruddying our complexions, filling our souls with tepid satisfaction, our little world seems complete. Today we won our set and Dad, his bowls. Yes, about this house is a snug little world, but incomplete. John is away—that's his photo on the wall. Doesn't he look young in his khaki? It seems but yesterday that his bathroom voice deafened us. Nineteen he was last birthday, but look at those light blue eyes. He has seen men die—not happy, serene passings-away of reverend souls, but cruel, hard, torturous deaths. Nevertheless his letters conjure up to us at home that pleasant cheery grin so often rippling his freckled cheeks. Of the mud, the mosquitoes, the flies, snipers, land mines, ambuscades, we hear very little. Who shall die next? Should he fall, victim under the withering fire of a machine gun or be crushed by a charging tank, God forgive us if he should be heard to gasp, "Food! ammunition!"

Oh valiant our soldiers,

Ne'er forgot shall be.

You gave your all for our sake

And Christianity.

Faintly, softly as incandescent light in the still quiet of country dusk comes the ever-stirring hymn—symbolic of trust in our lads away from home, heralding an undying faith—"Onward, Christian Soldiers!"

—Emmo.

9.10 A.M.

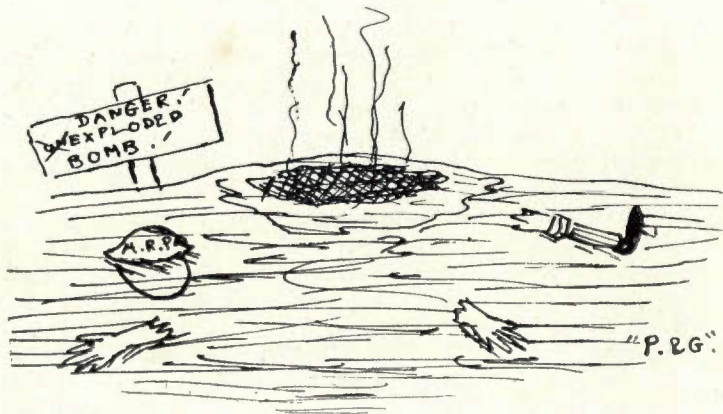

As I was sneaking from pillar to post, furtively glancing to left and right, I noticed other poor unfortunates who, like myself, crouched behind corners, rubbish bins, gooseberry bushes, and, in fact, anything which would provide some cover.

After crawling on my stomach, pushing my case in front of me (best Red Indian style), for some time, I began to feel conscious of being watched (which is generally heralded by a tickling sensation at the back of the neck) I stood up and, crouching low, raced forward, but alas! too late.

A spectral figure of huge dimensions grasped me by the scruff of the neck, "Name?" I was late again.

ELEGY WRITTEN IN A
COUNTRY CHURCHYARD

I sit in spooky silence in the graveyard by the church,
 My car has stopped its working and left me in the lurch,
 The old owl hoots in the tower with a sort of warning shriek,
 The church door suddenly opens with a terrifying squeak.
 The legendary ghost clanks out and strides towards the oak,
 I shiver and shake within my shoes and feel as if I'd choke.
 Behind the ghost a skeleton comes clanking all the more,
 And I wonder if more spectres will issue from that door.
 I run and run and run; I've decided not to stay.
 The ghost with ever growing speed is chasing me all the way.
 A hole appears before me, and into it I jump,
 And with a sickening thud I fall out of bed with a bump.

—*Prof and Pin.*

NAUGHTY BOYS

When little boys are very naughty
 They're taken to the master, stern and haughty.
 The next thing you do is to touch your toes,
 And he picks up the cane and down it goes.
 Once, twice, thrice, the cane swishes through the air
 Though the unlucky boy says he doesn't care.
 Then the master gives lines, one hundred or more,
 And away walks the boy, feeling terribly sore.
 And so ends the tale of interviewing the master,
 That dreaded five minutes of cruel disaster.

—*John Slee, II Remove.*

THE MODERN MARINER

Have you ever tried crawling, native fashion, up a tall straight trunk? It's not too easy for the beginner! Yet I had not had the benefit of this experience when I was told to shin up the mast of a small dinghy lying on the slips of a well-known yacht club by a certain plump friend of mine. Nevertheless, by a series of weird and unorthodox wriggles, I managed to reach that masthead and slip down again with a rope between my teeth.

After performing this successful feat, I was quite confident about mounting the mast a second time; the mast of a dinghy now gently bobbing at the end of the landing. Eagerly I placed my hands half way up the mast and once more began to wriggle skywards. I reached my destination (it wasn't the sky) and was so engrossed in my job there I forgot all about my balance. A shout of "Hop off, you silly ass!" awoke me from my tangle of ropes and pulleys. Glancing downwards I saw my companion's horrified stare concentrated on the boat's side. I looked sideways too, and my heart fluttered. There, an inch and a half below the top of the bulwark, steadily crept the rising water. We were overbalancing!

I thought to myself, "Don't let go the mast, or you will get wet." Of course, it did not occur to me that unless I did release my hold, and in a hurry, everything, me included, would get really wet. Still I hung on and I was stuck to that mast even when it was two feet below the water. Eventually the boat and I (I didn't know where Mac was) rose to the surface. The first-mentioned shook its sails indignantly and swayed unevenly on its side, while I spouted water, dirty river water, like a fountain. A great peal of laughter from the landing greeting us and I retreated ignominiously under the water while the boat, being able to do nothing else, remained self-consciously on the surface in defiance of the mirth.

Instead of a day of yachting we had the doubtful pleasure of wearily dragging the boat, like a couple of sea-horses, shorewards and repairing the damage wrought by the combined efforts of the river and me.

Let the king ask me to mount the mizzen-top of his royal barge or the poorest fisherman the mast of his yawl, both would be greeted with the same unyielding reply:

"Birds were made to fly, fish to swim, and monkeys to climb. I am no monkey!"

—Tuns, VIb.

SUPPER TIME

Prep. is o'er
 And eyes are sore.
 A stranger knows not why.
 He hears a sound,
 "Come, rally round
 And send the smoke up high!"
 Seen in the room
 Amid the gloom
 Are figures gay and crazy.
 One does not dare
 To sniff the air
 For fear of getting hazy.
 The host, he turns
 The toast. It burns.
 One keeling over—nearly.
 One meets the host,
 One eats the toast,
 The butter running freely.
 The spring is gone
 From the gramophone.
 Of jam we have run out.
 Can Benny play his clarinet
 Or Woody toot his trumpet yet—
 It's very much in doubt.
 The smoke is high,
 Hard on the eye,
 There's a spinning in the head.
 There is a push
 And then a rush;
 It's time to go to bed.

ODE TO AN ENGLISH MASTER

O man of might and countenance austere,
 Look down from thine exalted heights and hear
 My humble supplications.
 Your lowliest pun I yet must rise to meet,
 Anaemic witticisms perforce I greet
 With ostentatious laughter loud and long.
 So though my answers doubtless may be wrong,
 Let greater marks in languages be mine.
 Of my "good fellow" act be it a sign.
 "The pen," 'tis said, "is mightier than the sword,"
 Yet that is vanquished by the spoken word.
 I cringe, I crawl, explode with forced mirth.
 For your devastating humour I've a dearth
 Of mild sardonic laughter for your pleasure,
 So contemplate my actions at your leisure;
 And when my fellows, ravaged by exams,
 Fall victims to a multitude of qualms,
 Let me not fear the outcome of each test.
 O noble sire, give ear to my behest!

—Dedicate to Little Sir Echo.

A MOONLIGHT NIGHT

Captain Deering led his patrol into a deep wadi and glanced at his watch. His men moved silently behind him with respirators at the alert, helmets low, and tommy guns ready.

Heavy clouds covered the moon, making the night pitch-black, and not a sound came from either the British or Italian lines—the calm before the storm—and in ten minutes that storm was due to start. Five minutes later came the whine of our twenty-five pounder shells overhead, laying a barrage half a mile from the enemy lines.

With a movement of his hand Deering motioned to his men to follow him and moved cautiously out of the wadi across the desert towards the distant barrage. When they were some 200 yards from it they halted and once more hid in a wadi.

Suddenly a green Verrey light soared upwards into the night, and the patrol doubled forward as the barrage lifted, leaving a heavy cloud of smoke on the ground. The artillery forward observation officer who was accompanying them slipped and fell, the noise of his reel of telephone wire making the men whirl round, their nerves keyed up to such a pitch that the slightest sound made them start. A searchlight sprang up

just ahead, dazzling the patrol with its brilliancy. Simultaneously a machine gun opened fire, sending bullets into the ground in front of the men. They replied with tommy guns, silencing the machine gun and dousing the searchlight. From all sides came a fusillade of shots, as the other patrols advanced against the enemy.

The patrol moved forward once more, a small section entering the Italian post and destroying the guns there.

Another searchlight caught them in its glare, and tracer bullets from two sides converged on the British like golden darts. In a small depression the captain made his headquarters, with the artillery officer beside him and a two-inch mortar behind them, sending shell after shell into the Italian lines.

From a small hummock to his right the captain saw bullets darting into his advancing men. He motioned to an N.C.O. and section near him to silence the gun.

The party crept round to the rear of the gun and mounted slowly and silently up the hill. The N.C.O. paused for a moment just below the machine gun nest and then charged, yelling to his men to follow. Before the surprised Italians could swing the gun round, he sent a burst from the Bren gun at his hip straight into them, felling all but one, who fled down the hill. A well-directed grenade destroyed the machine gun and the party descended. When half-way down the hill, a terrific explosion hurled the N.C.O. and his comrades to the bottom where they lay, bruised and breathless.

The captain heard the explosion and stood up, that he might see what it was. At that moment the moon appeared through a rift in the clouds, making his figure a silhouette against the hills behind him.

Reaching the bottom of the hill, the Italian machine gunner paused and recovered his breath. Then, at the sound of the explosion, he rose and saw Deering's figure plainly in the moonlight. He drew his revolver, cocked it, aimed it carefully at the captain's head and squeezed the trigger.

The captain fell

In her South Perth home Mrs. Deering leaned over the rail of the verandah, gazed at the golden crescent in the west, and sighed, "What a beautiful moon."

AMOR VINCIT OMNIA

Cupid plays a maddening part,
 With golden shaft and skilful art,
 And with a shining little dart
 He shoots his victim through the heart.
 If Jack should cease to love his Jill,
 And Cupid fail to make his kill,
 What then of our friend Cupid's skill?
 Will he fire more arrows still?
 As Cupid must have work in view;
 It may be me, it may be you.
 Whate'er he say, whate'er he do,
 If I know Cupid, you'll go too.

 SOME OLD BUILDINGS AROUND
 BUSSELTON

Around Busselton are a number of old buildings which were built by the early settlers about 1825. As you can see by the dates (1825-1943) some buildings are over a hundred years old.

First of all, amongst the first settlers to the south-west of this State were the Bussel family. One day the Bussels found that some of their cattle had escaped. After searching for them for several days, they found them on the banks of the Vasse River. As there was good pasture and land around, the Bussels decided to stay at this new spot. The town was later called Busselton after the Bussels.

The first house was called "Cattle Chosen," because the escaped cattle had chosen this place to stay. The house was built of stone, wood, and tin. The stones were dug out of the ground and cut to size and shape. In one of Miss Princep's paddocks may be seen quarries where the stones were dug up and cut to build the house. "Cattle Chosen" was built about 120 years ago.

Some time later another house was built. This was called "Fairlawn." This house was built like "Cattle Chosen," but it is on the other side of the river.

The old post office was built, I think, about 1870. It has been fixed up and is now used as part of a house.

The "Little Holland House," although built early in this century, has a descendant of the Bussel family living there. It is a double-storeyed house, built of brick and wood, and the roof is of tin. In one of the paddocks belonging to Miss Princep (who owns the "Little Holland House") may be seen the remains of an old slaughter yard which was built about the time of "Cattle Chosen."

St. Mary's Church (at Busselton) has its 100th anniversary in August of this year. The church is made of stones and the roof of shingles. At the back of the church are the graves of the Bussel family and their descendants.

At Wonnerup (which is about seven miles from Busselton) are three old buildings.

One belongs to the Laymans. The house was built about 1840. The front gate is of iron and two large stone posts support the gate. This gate was built in the memory of George Layman, who was speared by a native at his home.

By the estuary is another old building. I think this house was built about the time of the Laymans' house. Both houses are built of large stones.

The last old building of which I know is an old flour mill. This old mill was built about 90 or 100 years ago. It is three storeys high. It is built of stones and the second and third floors of wood, the roof of shingles. When the mill was used it was wind-driven, but now the sails or blades are missing. The wooden floors are rotting and most of the roof has fallen in. There is a large shaft from the ground floor to the roof. On this shaft are the remains of grinders and other driving wheels. The sails were also attached to this.

—Robert Breeden, IVB.

GETTING UP IN THE BOARDING HOUSE

Very few day-boys know what it is like to be roused at 7 a.m. by a wide-awake housemaster with a bell, so for the benefit of these I will do my best to describe "what it's like."

At 6.55 the first bell rings. This is generally ignored by all, as it is only a warning bell. But—at 7 a.m. the case is ever so much different.

The bell begins its fiendish clanging, and all those that have heard the first bell leap out of bed as quickly as possible, while those who have not, raise their sleepy and tousled heads and enquire, "What bell's that?" They are told in no uncertain manner, "Second, you mug—get out."

The second-bell experts then crawl out and drift over to the window to examine the weather. This is what we usually hear:—

"What rotten weather," "The showers will be freezing," "It's only about 6 o'clock," "Bill's clock's gone wrong."

About this time the master on duty appears at the door, and the sleepy mob wends its way slowly to the "tog rooms."

A MEMORY

From where I stood I could see the hill stretching some four thousand feet down, blanketed with green foliage of a thousand different shades—all still—but breathing the mist that crept slowly up the steep-sided slopes in the early morning.

The green plain below, dotted with lakes like pools of silver in the morning sun, stretched hazily in the mist far away, till it stopped in a rugged line, on the other side of which was a blue which expanded far to the pink horizon, just as on a map the green stops at a shaky line to turn to a blue.

At the foot of the hill lay the red-tiled roofs of the town of Taiping, around which the grey dredges worked in their brown muddy pools in search of tin.

On the other side was another drop of some two thousand feet into a green steep-sided valley, from which rose the muffled roar of a well-fed torrent, above which drifted a lazy mist.

As I stood there I could hear the monkeys rejoicing, in their high-pitched voices, at the dawning of another day. It was a scene I shall never forget.

SPECIAL NOTICE

As was done last year, the Cygnet will be sent to all financial members of both the Old Boys' and Junior Old Boys' Associations, also to all Old Boys in the Fighting Forces whose addresses are available. Again we request any Old Boy who receives a Cygnet to pass it on to his less fortunate companions who may have been missed owing to the difficulty of addresses. Members in the Forces will note that their Cygnet was originally sent to their private addresses. This, your committee has decided, is the only reliable medium by which we can get your Cygnets to you, as army addresses are notoriously changeable.

During the year most Old Boys will have received a circular letter, of which two have been sent out. They consist of personal information regarding the whereabouts and activities of Old Boys. They have been well received and any Old Boy irrespective as to whether he be a member of the Association or not, may receive copies on application to the Secretary.

Owing to shortage of paper the Cygnet notes are considerably curtailed, and as the circular letter contains most of the personal items, that column will not be as large as usual. The following is mainly for record purposes.

PRESIDENT'S REPORT

Presented at the Annual General Meeting
of Members on Monday, 1st March, 1943.

Gentlemen,

It is with very great pleasure that I present to you the annual report of the Association for the year ended 31st January, 1943.

During the year the many difficulties of keeping the Association together were again very numerous, naturally due to the war conditions existing. It is sufficient to state that we have been quite a happy band, and the work of the Association has been carried on to the best of our ability. It was felt earlier in the year, when so many of the Old Boys answered the call, that the junior members of our Association would be able to carry on, but the terrific manpower drain and the call-up of the various age groups, has now left the Association affairs still in the hands of a few Old Boys to try to keep the home fires burning.

Committee

During the year your committee have met on ten occasions, and the meetings were well attended by all committee members.

Financial

The total subscriptions this year amounted to £116/14/-, compared with £38 last year, and £140 the year before. The financial position of the Association has improved, and this is entirely due to the very excellent efforts of our treasurer, Mr. Alf Curlewis. During the year eight Life Members were elected.

Honorary Members

During the year your committee agreed that all members serving in the Fighting Forces overseas, or who had fought overseas and had returned to Australia, were to be made honorary members of the Association for the duration of the war. Members joining the R.A.A.F. and Royal Australian Navy, like-

wise, and members of the A.M.F. may be made honorary members on application to the Secretary. It has been said that wherever an Australian unit is stationed, you will find an Old Boy of the School. We are proud of all our Old Boys who are serving in this great cause, those who have given their life we honour them, and those who are prisoners of war our heart goes out to them.

The School and Headmaster

Your committee, during the year, has been advised from time to time through their representatives on the Board of Governors of the efficient manner in which the School is being carried on. The School, like many others of its kind, has had many difficulties particularly with regard to teaching staff, but these have been overcome and no doubt the School has been fortunate in having such a capable acting headmaster as Mr. Hadley, who is doing a grand job. It is a pleasure to know that Lieut.-Colonel Arnold Buntine, our headmaster, has returned from overseas looking very well—and, we believe, doing a big job very efficiently. The School results, both scholastic and sporting, were very good last year. Your Association during the year sent congratulations to the School on its various successes.

Endowment Fund

The Endowment Fund, which, owing to present-day conditions, has given your committee some concern over the past three years, particularly as to the management and administration of the fund. During the year Messrs. H. Mosley, J. S. James, and H. B. Summers resigned as trustees, and Messrs. W. L. Brine and J. T. Walker were elected as trustees representing this Association on the Endowment Fund, and, further, that the secretarial duties in connection with the fund were taken over by the School office.

Memorial Service

On the 11th of November a combined Memorial Service was held at St. Mary's Church, Colin Street, West Perth, where together with the boys of the School, a large number of Old Haleians and parents attended a most impressive service conducted by Canon Stillwell, who was assisted by the Rev. Bill Riley, Mr. J. B. Newbery, Gordon Ross (President of the J.O.B.A.), and myself.

Board of Governors

Mr. J. F. McMillan, one of the Association's three representatives, automatically retired and consented to be re-appointed for a further term of three years. The other members of the Board are Mr. J. W. Morrison and Mr. G. S. James.

Old Haleians' Day

This was held on Monday, the 23rd of February, the assembly and roll call was held at the School and resulted in a good attendance. The annual meeting was held on the 25th of February at the Palace Hotel; there was an attendance of thirty.

Cygnets

Once again the School produced a very excellent copy of the Cygnet which was distributed amongst Old Boys, both here and overseas. A new idea was created last December in the form of a circular letter with doings of Old Boys and news of the School. This letter was prepared by our acting secretary, David Jenkins, and was sent to all financial members, and all members whose addresses were known in the three Forces. The committee has received many letters of congratulation for introducing a "newsy" letter for Old Boys. It is proposed to circulate these letters three or four times a year.

Bereavements

It is with deep regret that I have to record the death of several Old Haleians: Sir Walter James, a former president of the Association, a past Governor, and one who has given and devoted so much in his lifetime to the School and the Association; W. Burgess, J. H. W. Saunders, Peter Jacoby, Eric Pearse, Bill Grigg, Ross Buchanan, George Bremner, S. Perkins, and others. A number of letters and telegrams were sent to members who had suffered bereavement in their families.

Junior Old Haleians

Greater difficulties were experienced this year by the J.O.B.A. than ever before, due to military call-ups. Despite this, however, the Association has been able to function. A dinner was held during the year, committee meetings were held, and their president, Mr. Gordon Ross, is to be congratulated on his efforts in keeping the Association alive. Our Association is fully aware that it is the Junior Old Haleians who will have to carry on the Association as the years roll on.

Secretary

It was with regret that our old friend, Cyril Peet, who has so successfully carried out the secretarial duties of the Association for several years past, resigned last November to enter the R.A.A.F. An opportunity was taken prior to Cyril's departure of making a small presentation to him on behalf of the Association and wishing him the best of luck. The committee was able to persuade David Jenkins to carry on the secretarial work.

In conclusion, I would like to once again express my appreciation of the splendid work done by our former secretary, Mr. Cyril Peet, in carrying out his duties, and also to our

treasurer, Mr. Alf Curlewis, and the members of the committee for their attendance and their concern in the Association, School, and Old Boys. I would also like to thank Mr. Evan Saw for the use of his board room, where committee meetings were held.

PRESIDENTIAL ADDRESS

March, 1943.

Gentlemen,

It gives me pleasure to present to you my presidential address at the close of this current year's activities. In many respects it has been a particularly successful year, both from a financial and social point of view. The financial aspect may be largely attributed to the fact that the founders of the Association worked very hard and were able to build up a substantial reserve. Consequently we have been able to continue with little worry of financial restriction.

Naturally, due to wartime conditions, the social activities have been severely curtailed. We have, however, held a very successful dinner which was attended by nearly every Junior Old Haleian available, including one or two serving in the Forces.

To this dinner the committee of the J.O.B.A. invited the committee of the senior association, as well as the Headmaster, Mr. Newbery, Mr. Altorfer, and Mr. Corr. The attendance of these gentlemen proved valuable, as it helps to bind the senior association and the School more closely to our own association. Apart from this dinner, there has been no other social function held, although it has been decided to hold a dance in aid of patriotic funds at the Karrakatta Club during the next month. To make this function a success the committee urges every member of the Association and his friends to attend.

Once again, as is the custom, the School magazine, "The Cygnet," was distributed to all Junior Old Haleians who are members of the Association, as well as to those boys who are serving with the Forces. For the duration of the war it was decided by the committee that every Old Boy serving with the Forces should receive a copy of the "Cygnet" irrespective of whether he was previously a member of the Association or not. Due to the difficulties of postage, many of these "Cygnetts" may go astray, but we sincerely hope that as many Old Boys as possible will receive their copy.

As a committee we have had a reasonably successful year, but unfortunately, due to unavoidable circumstances, many members of the committee were forced to resign due to military call-up, or that their duties were transferred from Perth.

At this stage I must pay tribute to Mr. D. M. Jenkins and Mr. W. I. McCullough, who were both unstinting in their efforts to promote the well-being of the Association. Thanks are also due to Mr. W. Corr, who acted for us in the capacity of honorary auditor.

This year the School held another of its memorial services at St. Mary's Church to commemorate those Old Boys who have given their lives for our country. The president of the Senior and Junior Associations read lessons during the service, which was attended by a good representative body of Old Boys.

No organised sporting activities have been held during the year owing to the fact that there are very few junior Old Haleians remaining to make up the required teams. It is to be hoped, however, that if an Old Boys' race is held at the Head of the River Regatta, that we shall be able to field a crew.

I wish to tend my personal thanks to the retiring committee for their assistance during the year, and also to Mr. Altorfer, our immediate past president, who managed the affairs of the Association before this committee took over. It is to be hoped that even under the adverse conditions from which we are suffering that this Association will continue to flourish during the period of this war. After the great deal of enthusiasm that has been put into its organisation it would be a pity if J.O.B.A. did collapse, so necessitating another start after the war.

To every Old Boy in the Fighting Forces the committee and I wish the best of good fortune and hope that you will have a speedy and safe return.

GORDON E. ROSS,

President, J.O.B.A.

1942.

MEMORIAL SERVICE

On Armistice Day the annual memorial service was held as usual in St. Mary's Church, West Perth. It was well attended by both the School and Old Boys and twenty names of Old Boys who have lost their lives were read out by Bill Riley.

The three lessons were read by Gordon Ross, Donald Chipper, and Mr. Newbery, and Canon Stillwell delivered an excellent sermon.

“PRESENTATION OARS” AN APPEAL TO OLD HALEIANS

Owing to the impossibility of obtaining oars (and our present stock is low), a special offer is made to boys who have oars presented to them in past years, and who are willing to return such to the School.

It is proposed to mount a six-inch section of a racing oar on a polished stand; on one face of the section will be the School crest, the racing event, the name of the boy, and the number of his seat in the boat. On the other face will be the names of his crew.

Old Boys who have oars and are willing to return them to the School are requested to notify the Editor as soon as possible.

The souvenir we have designed will be far more suitable in a home or in an office than the original oar.

Now, Old Boys, with one of your School oars will you help us out in these strenuous days, to help the crew of your old School on the river?

OLD HALEIANS AT MELBOURNE UNIVERSITY

"Speed" Gordon passed his finals recently and has now returned to Perth and the Public Hospital. Kevin Cullen and Maurice Deane are still sailing along together at Ormond and are standing by to clear fourth year med.

Ed Griffiths is doing final year while at Trinity College. Harry Cohen, third year, and Hal Briedahl and Trevor Wolfe, second year, are inter alia defending Ormond on the football field.

Charlie Green, second year, has been doing well in athletics with a 5ft. 6½in. jump and hurdles in 15 1-5 seconds.

Incidentally at Adelaide University the two best swimmers are Doug McWhae and Bob Godfrey, both fourth year meds, while Don Bromfield is also fourth year and Clem Love second year.

Kevin Cullen has had a letter from Geoff Hammond (R.A.A.F., England) who complains of the cold, but says he has bumped into Guy Ward and Bill Paterson at Australia House.

OLD HALEIANS THROUGH OR NEAR MELBOURNE

Lieut. Dick Farmer; Pilot Officer John Homewood; Midshipman Peter Grigg; Frank Skevington, aboard the "Nepal"; Sub-Lieut. Doug Clifton, seen in Brisbane; Lieut Doug Greene, now navigator of his ship; Phil Ailwyn is in a medical unit in New Guinea; Steve Clifton came to Melbourne with a dose of malaria, but is now back on the job; John Newman, who is in the Army, was through at Christmas. Sub-Lieut. Bill Wreford has been described as a mad something or other by a fellow officer aboard the "Hobart." John Wreford, by the way, is at Melbourne Grammar.

Maurice Brearley, B.E., has been doing research work on aeroplane propeller design and has been making many flights in planes full of most delicate stress-recording instruments—this mainly in Sydney.

Ian Beaton is a Pilot Officer training tomorrow's pilots and is engaged.

Bishop C. L. Riley, Chaplain General of the Australian Military Forces, has been all over Australia and Tasmania since his return from the Middle East and is now in Sydney on military duty.

Trooper Owen Riley came home to Bendigo on 21 days leave and developed an infected jaw-bone as a result of being stood on by a horse. Now recovering at Heidelberg Hospital.

Stuart Clarke, who recently flew home for a fortnight's leave, continues to heat-treat guns and gun parts "somewhere in Victoria." His mode of transport these days is a bike painted Hale colours, called "George."

Ken Clark has been seen, wings aloft, with his wife and child on the Bendigo-Melbourne train and he was longing for some action.

May I also remind you that—

Captain Miles Clarke, M.O. of an ack-ack regiment, is in Western Australia.

John Clarke is doing first year science at University of Western Australia.

Captain P. C. (Tim) Yates is at the 109th A.G.H., Northfield, South Australia.

Dr. John Craig could give you news of several Haleians, his fellow medicos, at the P.P.H.

Bill Riley was wedded to Miss Peggy Jose on what was to have been Boat Race Day (May 1).

There were many Haleians who graduated in April at the University of W.A., e.g., Edmondson, Farrant, etc.

Ken Dakin may or may not be still the sporting and general announcer at the Hobart National Stations. (This was so in September, 1940.)

Ross Little's son and distinction.

GENERAL NOTES

Dennis Cummins joined the R.A.A.F. at the outbreak of the war and served in the Middle East. Last year he crashed near Tobruk and since August has held the honoured position of A.D.C. to Mr. R. G. Casey, the British Minister of State in the Middle East since that date.

Charles Lee Steere was one of the members of the 601 Squadron and has been missing since Dunkirk.

During the year our valuable late secretary, Cyril Peet, decided to join the Air Force. He is now a pilot officer at "X" and sends his best wishes.

Alf Curlewis, our long honoured and capable treasurer, took the vital step and was married to Miss Sheila Cotterill recently. We wish him every happiness.
