"Thoughts that lie beyond the reach."

*"Build me straight, O Worthy Master,
Staunch and strong, a goodly vessel
That shall laugh at all disaster
And with the wave and whirlwind wrestle."*

So sang Henry Longfellow, and yet, does it not aptly apply to our hopes for the World in these coming years? By hard work there is great hope for the future. We have seen how by hard work the Allies survived the Axis onslaught; and we shall see, I pray, how, by hard work, the British Empire, united as firmly as ever, maintains a wholesome influence among the nations in this costly Peace.

Unlike other Empires, ours did not grow by easy conquest. It was by the toil of the many and the leadership of the few that we attained that position, which, warranted by an altruistic outlook on the rest of the world, we must retain.

Owing to the war there has been a general lowering of moral standards. The nation which can stave off that moral deterioration, and follow what it knows to be right, will win the ultimate respect and leadership among the nations of the world. We hope and pray that our Empire will, in the coming era, make itself worthy of that position.

We, the schoolchildren of today, are the Empire citizens of tomorrow. In our hands rest the destinies of that great Empire. We begin our part in this life at school. By hard work, fair play and a firm retention of our self-respect, we shall ably equip ourselves for the task ahead. Regardless of our position, whether we be rich or poor, we must show what we are by the fruit that we put forth. The standard we can attain for ourselves by following Christian Principles can aid the raising of the moral standard of all.

*"Be Hate that Fruit or Love that Fruit,
It forwards the General Deed of Man,
And each of the many helps to recruit
The life of the race by a general plan,
Each living his own to boot."*

The people to which the world will look for salvation must be strong and of good character. I believe that, weakened though it is, the British Empire can show the way to the rest of the world.

There is much in the history of the British Empire to make us proud, but there is some to shame us. But, whatever our history may be, it is a record of hard work and fair play. History shows us that the character of an Empire is not permanent. The simple, hard-working Roman became lazy and luxurious. The energetic Spaniard drifted by degrees into lethargy. Should such conditions result, neither wealth nor breadth of dominions could avail us. It may be truly said that the future of the British Empire depends upon the character of the British people, the character of the British school child, your character and mine.

SCHOOL NOTES

SECOND TERM 1945

The School returned for the second term on Tuesday, May 29th. Nothing eventful happened during the first half of the term.

When Australia's Prime Minister, Mr. John Curtin, died, Dr. Buntine told us that whether we agreed with his political views or not, he was undeniably a great man. He was denied the advantages most of us have in our early life, but by hard study and determination he finally reached the top.

He, like America's great leader, Franklin Roosevelt, must be regarded as a war casualty. So hard did they both work for their respective nations that they finally succumbed.

Mr. Curtin was a restraining influence within the Labour Party. It was through John Curtin that a spirit of co-operation was created with the Opposition. Australia has lost a great man who did so much for her in the trying times through which we have passed.

As is customary the whole school attended the confirmation of several boys of the School in St. Mary's, West Perth, on July 17th.

When the use of the atomic bomb against a Japanese city was announced, Dr. Buntine read the following, which is very applicable. It was written by Mr. H. G. Wells several years ago: "Invention and scientific knowledge have taken our hearts and

imagination by surprise. Our social and political ideas, our morals, our ambitions, our courage, have had as yet no corresponding expansion. Plenty overwhelms us and we do not know how to distribute or use the wealth we can now produce. Power — gigantic power — has come to us and we can use it only in mutual injury according to the methods of the warring past."

Expectation gave way to joy when, on August the fifteenth, Japan decided to surrender. The morning of the School Dance, August the seventeenth, Dr. Buntine announced the names of two new prefects, Melville Dale and Donald Forrest. The congratulations of the School go out to these two lads.

On August 20th, the Annual Boxing Tournament attracted the usual packed house to watch a number of bouts, some grim, some amusing, but all fought in the best of spirit, and all enjoyed by those present to the usual deafening din.

The Annual Cadet Camp began on August 24th, the first part of the holidays being devoted thereto. The Camp was the usual success, enthusiasm for training not being dampened by the surrender of Japan.

The term concluded on August 23rd.

THIRD TERM 1945

Third term commenced on Tuesday, September 18th. On Friday, September 28th, the Headmaster read to us in Assembly extracts from a letter received from an Old Haleian, Major Hugh Brockway. The Major was one of several Allied officers to whom the Japanese forces surrendered in Bougainville and the surrounding islands. He formed the impression that the Japanese Generals who transacted the surrender on behalf of the Japanese forces, were very arrogant and haughty considering the circumstances. The physique of the Japanese soldiers was good, but it was evident that they had endured many hardships. The filthy and unhygienic conditions encountered by the Major disgusted him.

On Monday, October 1st, the Headmaster welcomed into our midst a new master, Mr. Adams. We sincerely hope his stay with us will be enjoyable. On Saturday, October, 20th, detachments of the Hale School Cadet Corps, along with thousands of youths representing schools all over the State, participated in a Youth Pageant at the Perth Oval. This colourful

and spectacular pageant marked the conclusion of Youth Week, a week organised for the purpose of promoting the cause of youth.

The Hobbies Exhibition was held on Saturday, November 3rd, much later than it is usually held. Although there was a lack of material in the Science section, the wide diversity of subjects presented and the ingenuity of the donors, augur well for future displays.

The coveted honour of winning the Tobruk Trophy, provided by Brigadier J. E. Lloyd "to remember the example of Cheerful Endurance, Good Fellowship, and Fighting Spirit of all Services, 1941," was won for the first time by F. M. Cooke, closely followed by T. C. Edmondson. This order was reversed when the Champion Shot of the Cadet Corps was announced, with T. C. Edmondson the Champion Shot and F. M. Cooke the runner-up.

The School, received a beautiful wireless-gramophone combination, presented by Dr. and Mrs. Godfrey, in fond memory of their late son, David. The Headmaster expressed his deep thanks to the donors when he announced the news of its presentation. The Headmaster outlined the many ways in which the machine can be utilised and he emphasised especially its educational value.

We saw on the 26th of November the commencement of the Public Junior and Leaving Examinations, and to all those boys who participated we offer our best wishes for success.

Speech Night was held in the School grounds favoured by an ideal sky, on Monday, December 10th. His Excellency the Lieutenant-Governor Sir James Mitchell, K.C.M.G., presented the prizes. To Edmond Adler, the Dux of the School 1945, the School offers its heartiest congratulations.

FIRST TERM 1946

The first assembly for the year took place on Tuesday, February 12th.

Mr. Loton, on behalf of the Board of Governors, introduced to us Mr. Murphy, who is replacing Dr. Buntine as Headmaster. Mr. Murphy is an Old Scotch Collegian and a Rhodes Scholar. Prior to his appointment as Headmaster of Hale he was Head of Hutchins School, Hobart. The School extends a hearty welcome to Mr. Murphy and we also welcome back three of our old masters, Mr. Drake, Mr. Langley and Mr. Mill, who, for the past four years, have been serving with the forces.

The School offers its thanks to Mr. Breidahl who spent part of his university holidays taking our science classes prior to the return of Mr. Langley.

The Interschool Swimming Sports were conducted at Crawley Baths on Saturday, March 2nd, and resulted in a win for Aquinas, to whom we offer our congratulations. Scotch was second and we could only secure third position.

For the first time in many years we lost the Life Saving. Modern School won, with Wesley second. We hope to remedy this next year.

The Prefects were inducted on Tuesday, April 2nd. Mr. Loton officiated and his son, Brian, received the Captaincy of the School. David Anderson, Colin Benson, Ian Bogle, David Broadhurst, Frank Cooke, Colin Harrold, David Home, Harley Percy and Richard Sinclair are the Prefects for 1946. To all we offer our heartiest congratulations.

Mr. Hadley was also present at this assembly and his address was particularly interesting to those who had been at School whilst he was the Acting-Headmaster.

After a lapse of many years the "Boys versus Masters" cricket match was resumed this year. It resulted in a win for the Masters and a "hat trick" for Mr. Hamilton.

On the 25th April the School conducted its Anzac Day Service prior to attending the service at the Esplanade. During the service Mr. Murphy read out the following names of Old Haleians who have paid the supreme sacrifice:—

H. T. Armstrong	D. N. Gerloff	C. Nelson
A. Brazier	E. W. Grigg	L. D. Oliver
R. Buchanan	D. K. Godfrey	E. Pearse
G. Bremner	J. Gosden	S. A. Perkins
L. Birt	M. Haynes	G. Raphael
F. Butterick	J. B. Halbert	K. Roberts
G. Buhler	G. C. Harris	R. N. Rose
L. R. Brine	P. R. Jacoby	R. R. Rutherford
J. Christian	D. Johnston	D. N. Russell
J. Clifton	A. C. Kennedy-Smith	J. H. Saunders
S. Clifton	D. Kennedy-Smith	W. Stubbs
E. Connor	E. F. Kirwan	F. Shapcott
W. R. Cuthbertson	C. E. Lee Steere	D. G. Taylor
A. Dimmitt	R. Lee Steere	E. M. Tymms
P. Duce	J. C. Lee Steere	G. Turner
D. Everett	D. McDaniel	K. Vickers
B. Elliott	G. M. McLeod	C. M. White
B. M. Ferguson	H. J. Manning	E. J. Williams
G. Fox	G. Male	G. W. Ward
A. L. Forsyth	R. E. Murray-Duncan	C. Zeck
C. Garland		

Good use has been made of the gramophone and records presented to the School by Dr. and Mrs. Godfrey last year. The Reverend R. Hamilton has conducted musical appreciation classes during the Friday lunch hour of each week and for both gift and classes we are deeply grateful.

To Tony Anderson we offer congratulations on obtaining 100 per cent. in his music examination. To Colin Simpson we give our encouragement for the coming years because, although equally as good as Tony, he had measles at the time of the examination and was unable to sit.

Boat Race Day was May 4th. It seemed that we might gain the "hat trick" and win the Head of the River for the third consecutive year, but the crew was unable to fight off the brilliant finish of Aquinas and Scotch. Congratulations to Aquinas on their excellent win and to Scotch for coming such a close second.

On the last day of term, Thursday, 9th, the Head gave us the impressions he had formed of Hale during his term of Headmastership. We did not, he said, vary much from any other schools; some of our classes have a predominantly hard working set of students whilst others are lazier. He was disappointed in the appearance of some of the boys and said that greater efforts must be made to attain proper school attire and greater tidiness in the forthcoming term.

Mr. Murphy continued with a comment on our sporting activities. He said that although we had had an unsuccessful term in this respect he was quite satisfied with the spirit in the School and it was not from any lack of enthusiasm that we had been unsuccessful so far.

The prefects were congratulated on their work and the Head said that much of their success in the running of the school life was due to the co-operative spirit of the other boys.

He thanked the staff for their invaluable aid in helping him to direct the School in its traditional steps. In conclusion he wished masters and boys a very happy holiday.

Collections on behalf of the Blind Institute and the Red Cross totalled £41 during 1945 and £9/0/5 during first term of 1946.

These totals are not so good as those for the previous years, and we must dig deeper and into more pockets before the next *Cygnets* returns are sent in.

VALE — DOCTOR BUNTINE

(Contributed)

The news of Doctor Buntine's resignation was received with sincere regret, and made many of us realise just how much the School owed to him, and how much we would miss him.

We will remember him for his faith in the School, and for the many improvements he made; we will remember with pride his distinguished war service; but chiefly will we remember him when the new school is erected at Wembley, for this was the scheme dearest to his heart, and will be his greatest memorial.

The Staff found him at all times courteous and helpful, ready to allow them to develop their own ideas. It was perhaps this, more than anything else, that made for such harmony and excellent co-operation in the Common Room.

No reference to the Doctor would be complete without some mention of Mrs. Buntine, whose sincere interest in the School and all it did, and whose charm and ready sympathy brought her the admiration and affection of both masters and boys.

They leave us with our sincere good wishes for their happiness and success at Geelong College.

SALVE — MR. MURPHY

Our new Headmaster, Mr. Vernon S. Murphy, M.A. Oxon., was educated at Scotch College, Claremont, and in 1917 was Dux of the school, in the same year obtaining a University Exhibition and the English Medal. Following three successful years at the University of W.A. he gained his B.A. degree in 1921. That year he gained the coveted Rhodes Scholarship and subsequently had the M.A. degree of Oxford conferred upon him in 1925. Although he obtained a further scholarship at the Westminster Hospital he resigned and returned to Australia. On his return to Australia he became a member of the staff of Newington College, and later St. Peter's College. He held the Headmastership of Trinity Grammar School and Hutchins School from whence he came to Hale. In all the States of Australia, he has undertaken active membership of various Education Boards and Councils.

In sport he has excelled in athletics, cricket and football, and we appreciate the active interest he has already shown in the latter two. Mr. Murphy takes over the Headmastership at a time when we still feel the disabilities of the war years, but we feel that, if we all show the same enthusiasm in work and play that he has already shown himself, we shall shortly recover from these war pains and make his stay with us both profitable and pleasurable. Welcome, Sir, to Hale School.

Speech Night

"Speech Night" of 1945, which was held on Monday, December 11th, was very pleasant and held under ideal conditions. The School was honoured by the presence of Sir James Mitchell, who gave an address and presented the prizes. The Chairman of the Board of Governors, Mr. W. L. Brine, concluded the evening with a vote of thanks to His Excellency.

During the evening the Captain of the School presented to Dr. Buntine an inscribed attache case, and to Mrs. Buntine a wrought iron table lamp as mementoes of their stay at Hale School.

HEADMASTER'S REPORT

On this occasion last year it was pointed out that "the generation of youth at school during the war years has had to suffer considerable handicaps." Although the war as such has ended we have not yet emerged from the period of difficulties, and this year has not brought much relief from those handicaps. The problems faced by the country at large have been reflected and, in some cases, magnified in the smaller community of the School. The war-time restrictions necessarily imposed have made the management of boarding schools especially more difficult and more expensive than ever before. We have managed to get through without serious trouble though not without anxiety. For this I am conscious of my debt to Matron, Sister and Miss Bruce, and to the members of the domestic staff who have stuck to the School through very trying times. Fortunately, we were spared the necessity of making any really large demands upon the boys themselves, so that their work has not been interfered with in any way. Fortunately, too, we have experienced a year singularly free from sickness. There has been no epidemic and, apart from the few boys with occasional colds and the usual victims of minor accidents, the sick rooms have been almost empty during the whole year.

At the end of last year, and early this year, the School bade farewell to two members of the staff who had rendered loyal and valuable service for a period of 28 years. We have missed Mr. Wells more than may be expressed in a few words.

The successes of the Swimming and Life-Saving teams for many years past have been due in large measure to his enthusiasm and energy. Mr. Newbery, who retired from active teaching at Easter, was to me a loyal and trusted friend whose sympathetic and wise counsel was never denied. With his retirement, the School has suffered a great loss. Not only did boys and masters hold him in the highest esteem and affection, but he was a link between generations of old Haleians. To him and Mr. Wells go our sincere good wishes for many years of happiness and good health in the pleasant peacefulness of their well-earned rest. To take Mr. Newbery's place in the Science laboratory Mr. Whittington joined the staff, and to him I am grateful for the tireless energy he has devoted to his work. We welcome back among us Mr. Rowlands who was released from military service in time to rejoin the staff at the beginning of the year. Finally, we welcome Mr. Adams who has recently come to the School and we wish him many years of happy service. To the staff as a whole, both teaching and office staffs, I want to express my sincere thanks for their loyal co-operation and willing support, my appreciation of their capacity, keenness and initiative, and my sense of the debt that is owed them for their devotion to the School and to the cause of education. Especially would I mention Mr. Jones and Mr. Trotter who will now retire from active teaching. They emerged from their retirement to help out during the war years, and have given faithfully and unstintingly of their experience. With the return in the coming year of Mr. Langley to take charge of the Science teaching, and Mr. Mill from war service, they will be enabled to return to the quiet enjoyment of their rest in the knowledge of a piece of war work well done. May I add here my thanks to Cliff Hamblin, the Captain of the School, and his team of Prefects, for their help in the management of the School's affairs. Their work has become more exacting and their responsibilities increasingly important with the growing size of the School.

That there has been a steady increase in the size of the School is abundantly evident. Fourteen years ago, when I first came to Hale, the complete enrolment for the year was 214, of whom 30 boys were boarders. In 1932 the figures were 223, including 34 boarders; in 1934 the numbers had risen to 228, with 40 boarders; in the next year to 252, of whom 57 were boarders. Since then the attendance has steadily increased until this year, after having been forced to refuse entrance to some hundreds of boys, we reached the unprecedented total of 356, of whom 92 were boarders. Accommodation has been taxed to the limit, despite the building of a new class room during last year. As a result of the greatly increased demand for entrance to the School, the necessity has arisen for enrolling new boys

as early as possible. No vacancies at all are available for boarders for the next two years, and only two or three for 1948. Classes for next year are already practically complete, only ten vacancies remaining for day boys.

It is again my pleasure to offer sincere thanks to the Rev. R. W. Hamilton and to Canon W. E. Jones for their help in furthering the spiritual life of the School this year. Mr. Hamilton's Divinity classes have been both a stimulus and an inspiration to those who have come under his guidance. Canon Jones undertook the preparation of Confirmation candidates, of whom 29 were presented at the special School service in July. A number of the smaller boys whose voices have not yet broken have been encouraged to join St. Mary's Choir, and it has been gratifying to see eight or nine boys helping in this way regularly on Sunday mornings.

With the staff changes due to Mr. Newbery's retirement and to Mr. Lee's illness early in the year, the work of the Senior forms was unfortunately and unavoidably set back, so that results at the Leaving stage might not be quite up to standard in consequence. However, it is felt that many of the difficulties might have been overcome more easily, and their effect diminished, had some of the senior boys shown a keener sense of responsibility and a greater interest in their own well-being. On the other hand, in the Junior Certificate classes a closer attention to the job in hand has been apparent throughout the year, with the obvious result that the number of successes at the Junior stage is expected to be increased. This is demonstrated by the fact that 30 boys have been awarded the School Junior Certificate for 1945. In the Public examinations last year, fifteen gained the Leaving Certificate, and thirty-one the Junior, while eight others passed in four subjects, requiring one more to complete.

I should like to take the opportunity here of congratulating those boys who have won the School prizes this year, especially those who have headed their class lists, and to others who have won the Honour prizes. Competition has been keen in many of the classes. Dux of Vb is R. W. Wain; of Va, S. Shub; of VIb, D. R. Anderson; and Dux of the School E. A. Adler. In congratulating Adler on this well-merited success I should like to point out that his record is outstanding. He entered the School as a very small boy in 1937 and has been Dux of his form every year but one throughout his school life. This year he completes a fine school career with the highest scholastic honour the School can confer.

In sport we have not had outstanding success this year; but, although we have not won premierships, we have had some ex-

cellent games and there are some promising younger boys coming on. Our thanks are due to all those masters who have given their help to the various teams so willingly and so faithfully. To Mr. Rogers and the Crew especially our congratulations are extended, for the Crew again covered themselves with glory. Through sheer determination a very strenuous race was won by a narrow margin. The only other win for the year was in Life-saving. The team brought back the Law Society Shield for the 19th time in the last 20 years.

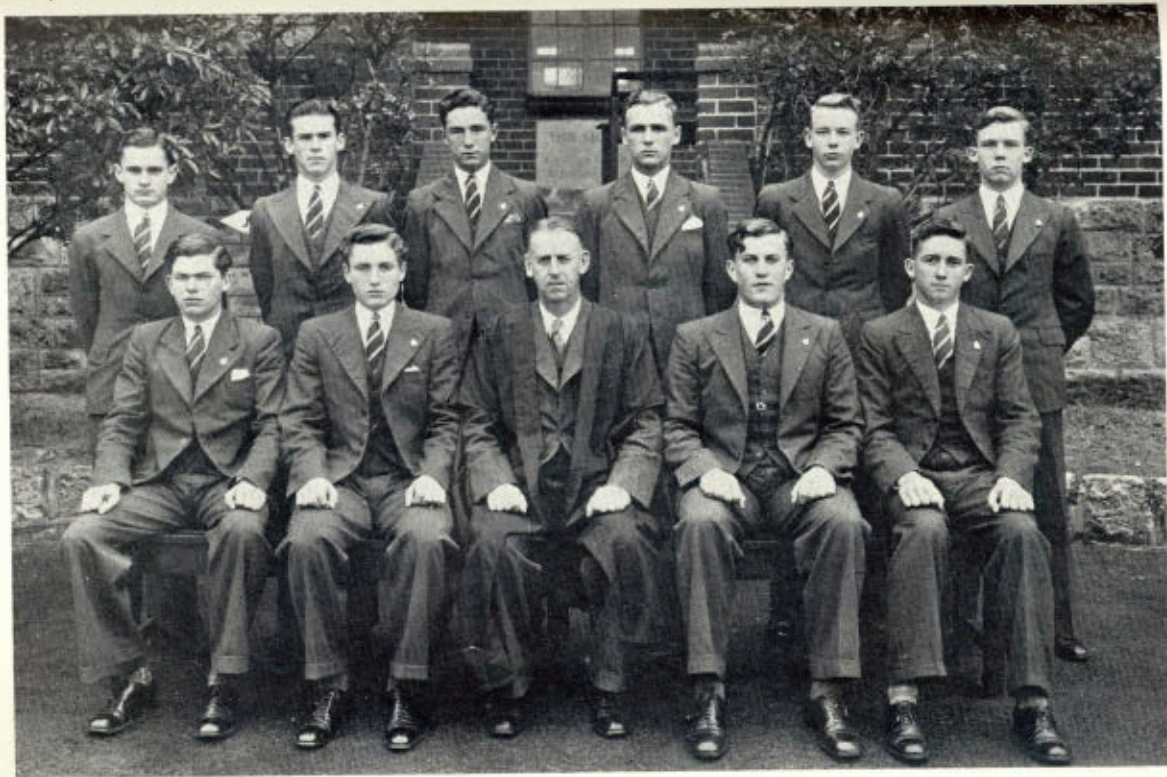

Other School activities were carried on as usual. The Debating Society functioned well during the winter term when some very good debates were held. The Cadet Corps, under Mr. Altorfer's guidance, has gone on to develop into a really first-class unit. Stimulus to training was provided by Brigadier J. E. Lloyd, to whom we are grateful for establishing in the School a fine trophy for competition among cadets. This trophy, to be known as The Tobruk Trophy, will help us "to remember the example of Cheerful Endurance, Good Fellowship and Fighting Spirit of all Services, 1941." It has been won for the first time by F. M. Cooke.

The School is proud of its roll of 600 Old Haleians and six masters who served with the Forces during the war. Thirty-four decorations for gallant action have been won and we take pride in the knowledge that the courageous young men thus decorated spent their school life at Hale. But there is a longer roll of which we are equally proud. It is a roll of 55 equally gallant young men who gave their all in the cause of freedom.

*"These laid the world away; poured out the red
Sweet wine of youth; gave up the years to be
Of work and joy, and that unhop'd serene
That men call age; and those who would have been,
Their sons, they gave, their immortality."*

The names of these shall live for ever in the hearts and minds of those who follow in the School they loved. For their lives and their comradeship while they were with us we are thankful. The School is deeply grateful to Dr. and Mrs. Godfrey for the provision of a beautiful wireless-gramophone combination in memory of David; to Mr. and Mrs. Brine for a fine set of books to the Library in memory of Lindesay, and to Dr. and Mrs. Ward for their splendidly conceived prize in memory of Guy.

Other memorials have also been established this year and to the donors of these gifts we are equally grateful. Miss Shenton,

of South Perth, has given a valuable set of Scott's works and other works to the Library in memory of her brother, and an anonymous donor the Honour prizes in four classes. These prizes will commemorate the name of the Piesse family, whose close connection with the School extends over many years.

Before concluding this report I should like to record here my deep sense of gratitude to the Governors of the School for their continued and whole-hearted support, their personal friendship, sympathetic understanding and good-will during the years that I have been privileged to guide, to some extent at least, the destinies of Hale School.

CAPTAIN OF SCHOOL'S REPORT

Tonight it is my great privilege to welcome in our midst the Lieutenant-Governor, Sir James Mitchell, who will distribute the School prizes. Sir James has long been an interested patron of Hale School, and to him goes the School's appreciative welcome.

I have a duty, a sad one, to perform this evening. It is that of farewelling our Headmaster, Dr. Buntine, who, after 14 years of devoted service to Hale School, is leaving to take up his new position as Headmaster of Geelong College, Victoria. He will carry with him the best wishes of all the boys of Hale School, by whom he has been held in high regard.

Thus another year has reached its termination; a year which, although not entirely successful, has nevertheless been enjoyable to all. For the senior element it has been a year full of toil but a great deal of pleasure has been interwoven, and they will soon enjoy the fruits of their labour.

During Rotary week the School featured in a Youth Pageant at Loton's Park; and in first term the Prefects accompanied by the Headmaster, attended the University Service at St. George's Cathedral.

Once again we are indebted to Mrs. Buntine and her band of co-operative mothers, for the beautifully laid out, and delicious supper, which was no mean factor in making the Prefects' annual dance an outstanding success.

As is customary, the *Cygnets* was again published during second term, and received with much enjoyment. Despite limited supplies every effort was made in forwarding copies to Old Boys.

The Institute for the Blind and established welfare institutions benefited greatly through the boys' generosity. A total amount of £41 was collected during the year.

This year's Hobbies Exhibition, though somewhat lacking in the science section, was well supported by a fine display of arts and handicrafts. Mr. Richardson and Mr. Hamilton are to be congratulated on the efficient organisation of the exhibition.

The Cadet Corps finished the year's training well with the annual combined camp at Northam. In the inter-detachment shoot, held at Swanbourne rifle range, the School team came second. The Tobruk Trophy, which was inaugurated this year, and awarded to the boy considered to be the most efficient and outstanding boy in the corps, was won by Cpl. F. Cooke.

In the field of sport we have not been as successful as last year. Successes were registered in the rowing and life-saving, while the cricket team, with latent possibilities in the process of being developed by Mr. Rowlands, was very unfortunate in gaining only third place.

In the Slazenger Cup matches our team did not reach the finals, but acquitted itself well in the semi-finals match against Modern School, being beaten only by a small margin. The football team was fortunate in having Mr. Rowlands as coach, and under his care trained keenly. The Cup matches, however, proved disappointing, considering the team's efforts. The Inter-school swimming and athletics teams lacked the all-round strength essential in a winning side. In both cases the School gained third place.

In conclusion, ladies and gentlemen, I would like to say that although some of us may not have learnt much at school, we have had the best possible masters. They taught us what was really worth knowing, and made us want to know it; they also put us in the right path of learning it. They showed us what the real spirit of School was—the spirit which has made great men in the past and has made us, if not great, yet proud of our association with it. At school we have been taught much more than Latin, French and Arithmetic. We have been taught how to play the game; we have been taught how to control our tempers; we have been taught to obey, so that later we might command. Yes, not only have we to thank our Old School for offering us a good knowledge of the "Classics" or of "Modern" subjects, according to the side we took up, but it has endeavoured to send us out into the world with the will and the training to be of some use to our country in particular, and the world in general. I only hope that we who are leaving this year, and boys who will be leaving in future years, will be worthy of being associated with the proud name of Hale School.

On the 19th June a meeting was held of the Debating Committee. Two debates were arranged for the 28th June to be held at the Boarders' common room, at 7.30 p.m.

The Junior debate, which was to start at 7.30 p.m., consisted of C. Saw (leader), Hayles and Ives for the affirmative, and Donaldson (leader), Halliday and Wain for the negative. The subject: "That moving pictures are detrimental to the community." Mr. Hamilton adjudicated the debate and in his decision he said how pleased he was to see such promise in the fifth form. The negative side won.

The Senior debate followed the Junior and by this time quite a large crowd had assembled. Subject: "That Banks should be Nationalised." Adler (leader), Buntine and Payne represented the affirmative side, whilst Luscombe (leader), Goodchild and P. Lowe represented the negative.

Dr. Buntine and Mr. Marshall adjudicated whilst C. Hamblin took the chair. Before announcing the decision, Dr. Buntine said how pleased he was at the large attendance and the capable way the debaters delivered their speeches.

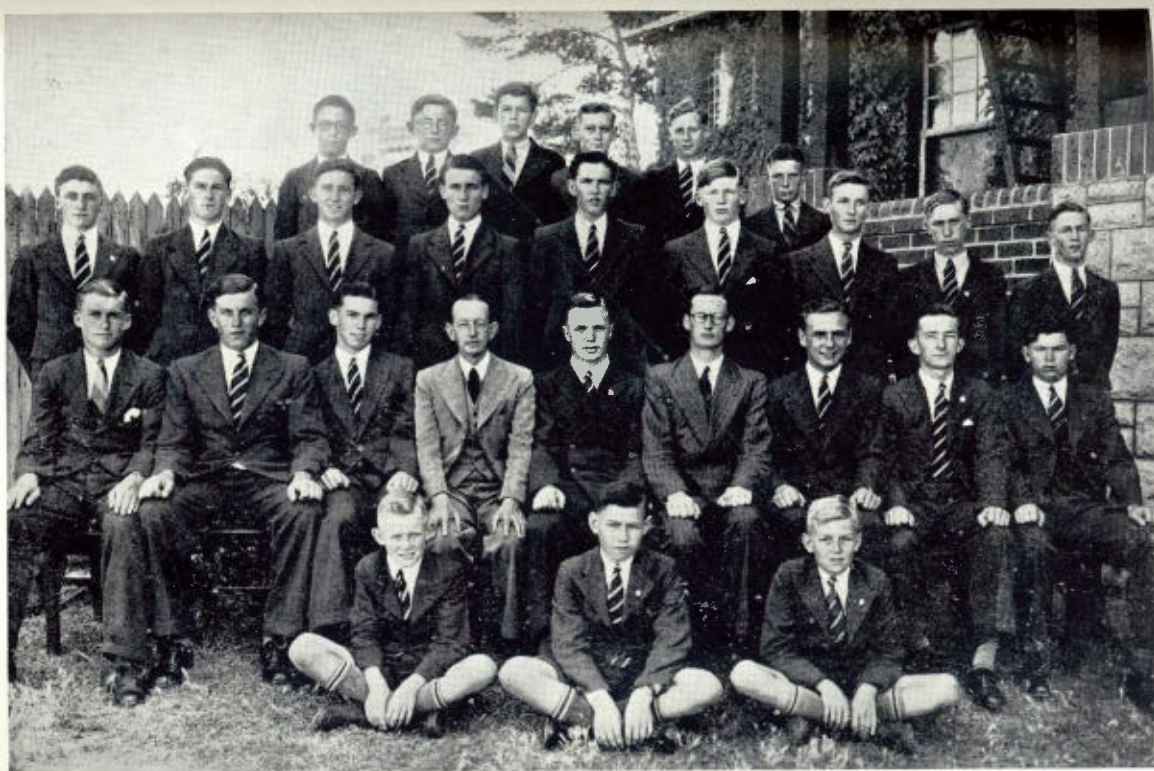

The Chairman then asked B. Loton to propose a vote of thanks to the adjudicators for coming and helping make the debates such a success.

On the 26th July, a debate was conducted in the Boarders' common room for boys who had not previously debated. The subject chosen was "That Conscription should be Abolished." The negative side was represented by R. Sinclair (leader), C. O'Connor and D. Foulkes, whilst the affirmative team was J. Cohen (leader), F. Cooke and D. Anderson.

R. Buntine kindly offered to take the chair and Mr. Hamilton adjudicated.

There was a large audience of Boarders to listen to the new speakers' first efforts. After much thought, Mr. Hamilton gave a decision in favour of the negative side.

On 3rd August, at 8 p.m., a debate was held in our School Hall between St. Louis and Hale. The debate was the result of an invitation by our committee to the St. Louis Debating Society and from a list of subjects provided by us they chose "That the Complications of Modern Life have Lessened the sum total of Happiness to Mankind." They chose the affirmative side and were represented by Tookay (leader), Heenan, Crock and Cranley. Our side was represented by B. Luscombe (leader), R. Goodchild, C. Hamblin and R. Buntine.

ATHLETIC TEAM, 1945.

Back Row : W. L. Hudson, N. I. Williamson, M. J. Monteath, J. S. Geary, K. M. Guhl, E. P. G. Brand.

Third Row : M. H. Dale, V. M. Loton, L. H. D. Pearcy, J. N. Anderson, D. McGill, H. D. B. Norman, R. C. Lough,
C. W. Thomson, R. N. Brown.

Second Row : C. J. Brown, D. Home, F. M. Cooke, Mr. W. R. Corr, C. H. Hamblin (Captain), Mr. G. N. Altorfer,
R. R. Sinclair, J. C. Anderson, I. L. Bogle.

Front Row : B. V. Lawson, G. L. Whinfield, I. G. Hislop.

P. Lowe acted as chairman whilst Dr. Buntine, Mr. Marshall and Mr. Johns acted as the adjudicators. Quite a large crowd came and we were pleased to welcome some St. Louis supporters.

The adjudicators came to an early decision and gave St. Louis the victory. As time was short, Dr. Buntine did not criticize any of the speakers, but confined himself to a decision. B. Loton thanked the adjudicators and speakers. P. Lowe closed the debate at 10.15 p.m. Supper was provided for the speakers.

1946

On 1st April, 1946, the Headmaster called a meeting of all boys interested in debating. To a full room of enthusiasts he announced his intention of starting the debates in the first term but before anything definite could be done, a committee would have to be formed. Mr. Murphy understood that the Headmaster usually acted as President, while a number of Vice-Presidents were chosen from the members of the staff.

The President called for nominations for Vice-Presidents, and received the following names: Messrs. Altorfer, Corr, Johns, Marshall, Langley, Rowlands and Hamilton. It was unanimously agreed that all should hold office.

The next business of the meeting was the appointment of a committee from the boys of the School.

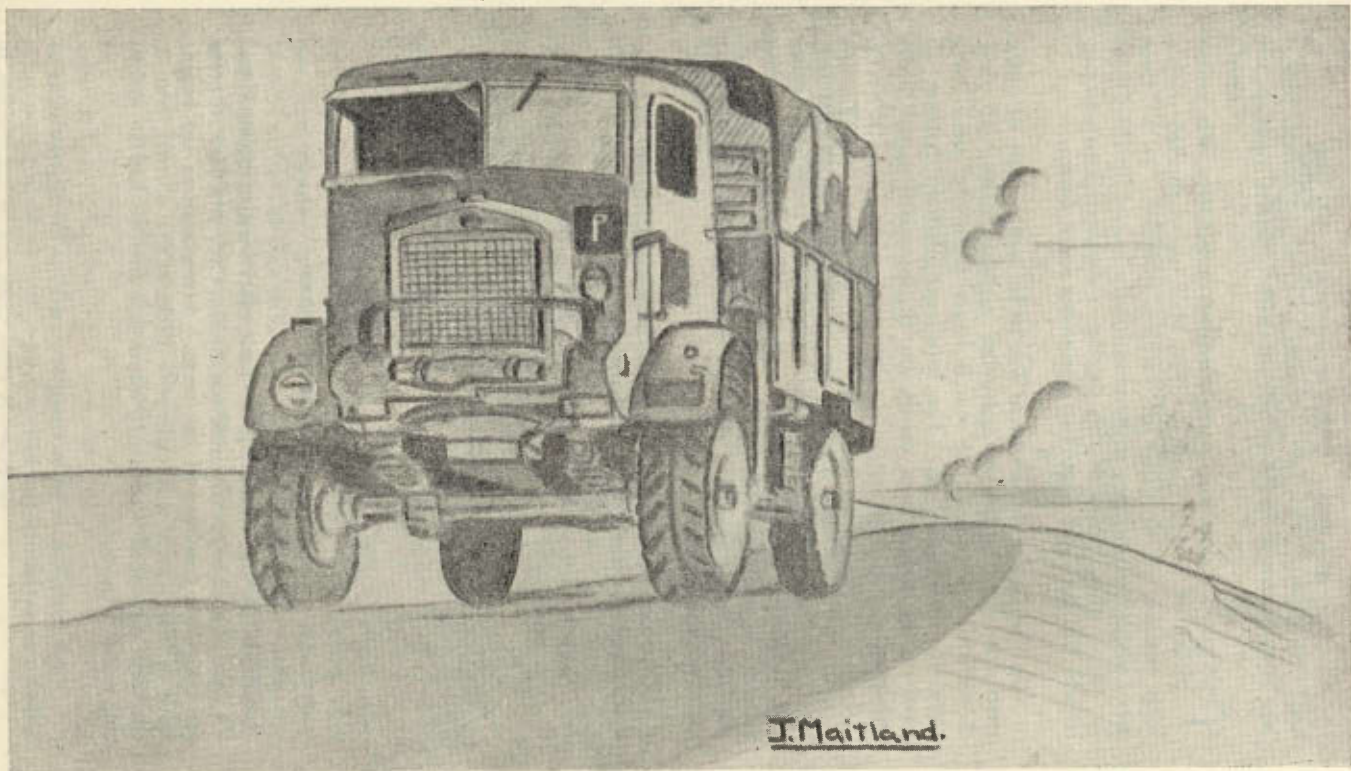

Nominations received were: Loton, Percy, Skipper, Ives, O'Connor, Benson, Broadhurst, Sinclair and Home.

It was decided that from these, six be elected of which two be from 6b. Ballot papers were handed round and the results were to be published as soon as finalised.

In conclusion, the Headmaster pointed out some of the benefits of debating at an early age and wished the new committee every success for the coming season.

On Thursday, 5th June, a meeting was held of the new committee. This consists of: Loton, Percy, Benson, Broadhurst, Skipper and O'Connor. Skipper was unanimously elected Secretary.

Mr. Hamilton urged the necessity for an early start in the year's debating. Two debates were arranged for Tuesday 10th June; one comprising a 6b team who are to debate on "Should the Medical Profession in Australia be Nationalised," and a 6a team consisting, in the negative side, of R. Sinclair (leader), C. Benson and R. Pell, and W. Goodlet (leader), C. Harrold,

SCHOOL SPORTS 1945

The Annual School Athletic Sports were held on Wednesday, October 17th, at the W.A.C.A. Ground.

We were fortunate in having a fine day with a slight tail wind in the morning, and a moderate sea breeze in the afternoon.

The title of School Champion Athlete for 1945 was divided equally between C. Hamblin and R. Sinclair, both of whom finished with eleven points.

The Under 16 title went to L. Percy, the Under 15 to R. Lough, and the Under 14 to Monteath.

INTER-SCHOOL SPORTS 1945

The 41st Annual Interschool Athletic Meeting was held on October 27th at the W.A.C.A. ground. The day was warm with a very light breeze and conditions were favourable for the meeting.

Guildford obtained the lead in the first race, and this lead they held throughout the day. We offer our congratulations to them for the very good win which they established from the other schools.

Although Hamblin was beaten for the title of Champion Athlete of the Day, we must congratulate him on winning three of the events: the mile, the 880 yds. and the 440 yds. open.

"And still they row'd."

• THIRD TERM 1945

A number of boys attended the sheds for the first time this term and under the guidance and supervision of Mr. Johns and some of the more experienced rowers of the school, they made good progress.

FIRST TERM 1946

On the first Wednesday of the term, serious training began, but some of the seating in the 1st and 2nd VIII's proved to be only temporary. As the result of a medical examination, held about two weeks after the commencement of training, two very strong bow-side rowers were advised to discontinue training for the season. We look forward to next season, when C. Broad, who was considered too young will again be able to take his place in the first VIII. The crew was unfortunate in the loss of T. Poutsma, who was at the time in bow's seat, and shaping very well.

Changes continued on the bow side until within ten days of the race, when L. Smith (bow) changed places with D. Devenish (3).

To Mr. Rogers, all the rowers extend their thanks for the training and enthusiasm he gave them and for the personal assistance which he was only too willing to offer. Throughout the season Mr. Rogers did all the repair work necessary and devoted every afternoon, as well as Saturday mornings, to the training and preparation of the crews.

Mr. Johns, this term, did very valuable work in preparing the second VIII and assisting Mr. Rogers and the School. The School is also much indebted to Col. H. Norman, who helped Mr. Johns in the training of the Second VIII. We are delighted to learn that Colonel Norman is to undertake the training of our Second Eight next year.

We would like to offer our congratulations to Aquinas College on their fine win from Scotch College and on their gaining the title of "Head of the River."

The crews which raced for the School were as follows:—

First VIII: B. T. Loton (stroke), P. F. Evans (7), N. H. Mitchell (6), D. Norman (5), J. N. Anderson (4), D. Devenish (3), W. Irvine (2), L. F. Smith (bow), J. Olden (cox).

Second VIII: J. Skipper (stroke), G. B. Farnham (7), R. Williams (6), C. Benson (5), J. Lange (4), W. I. Leslie (3), L. Bower (2), I. L. Bogle (bow), R. Gregson (cox).

First IV: V. Williams (stroke), D. Reitze (3), I. Durston (2), N. Nielson (bow), W. Hartley (cox).

The Second VIII got a poor start, but against an exceptionally strong crew from Scotch, they did very well. The result of this race was a win for Scotch College, with Hale School second and Aquinas third.

Although our First IV entered the competition too late for official recognition they were allowed to start, and finished in third position from Scotch and Aquinas. Illness prevented regular training for our first four, and only at the last minute was it possible to obtain a crew; hence the result of the third place was very creditable.

This year, after a lapse of several years, an Old Boys' Crew raced on the day of the Head of the River. In very keen competition with Aquinas, Scotch and Guildford, the crew rowed a good race and finished in second place from Scotch College.

Our Old Boys' Crew composed: F. E. C. Slee (stroke), N. Benson (7), G. Ross (6), P. Payne (5), C. McWhae (4), A. Kingsbury (3), P. Kennedy (2), B. Surbek (bow), P. Lowe (cox).

This year telegrams and best wishes for the race were received from many Old Boys and supporters of the School. We gratefully acknowledge messages received from: Dr. Buntine, Mr. Newbery, Mr. Slee, Lloyd Fethers, Bob Clement and Don Chappell, H. Tanner, Newton Roberts, Ted and Bill McLarty, Don Forrest, Frank Slee, Peter Payne, John Clarke, Peter Lowe, Colin Fox, Peter Atkins, John Cohen and Gres. Cohen.

On Wednesday, 6th March, Mr. Rogers (the coach) visited the School and took part in our morning assembly. Mr. Murphy introduced him to the School and he spoke a few words on the value of physical training and regular practice. We would like to thank Mr. Rogers for sparing the time to attend this School function.

THE HEAD OF THE RIVER

By "Stroke"

For the first time in many years, the day of the race proved to be almost perfect for both the rowers and spectators. Not a breath of air disturbed the mirror-like surface of the river as the four crews rowed up to the starting line.

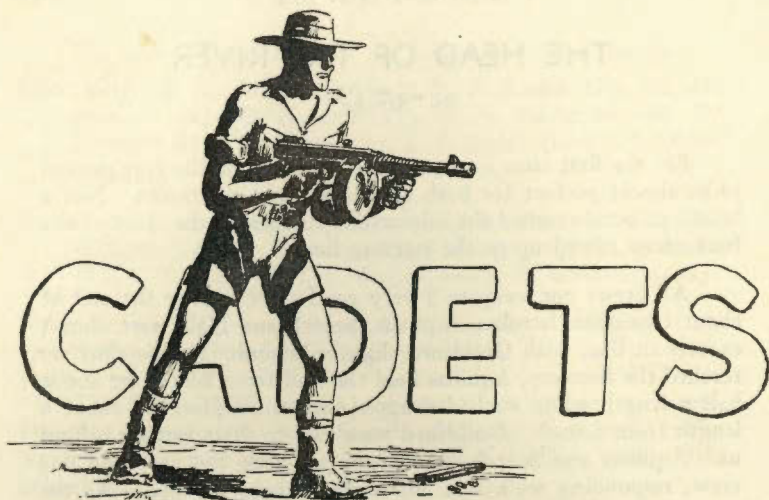

All crews got away to a very good start and by the end of about two dozen strokes, Aquinas, Scotch and Hale were almost exactly in line, with Guildford slightly behind. By the time we reached the Brewery, Aquinas held the lead from Scotch by about half a length while we had dropped into third place by about a length from Scotch. Guildford were two to three lengths behind us. Aquinas and Scotch then began to force the pace and our crew, responding well, was able only to hold the gap. As the crews approached the South Perth Jetty, Aquinas and Scotch, who were almost level, forged further ahead and Aquinas crossed the line two feet in front of Scotch. Hale succeeded in gaining a few feet in the last two dozen strokes and finished just over a length and a half behind Aquinas.

The crew would like to congratulate the Aquinas crew on their hard-won victory.

THE ROWERS' DANCE

This year the Rowers followed a practice, begun last year by Mr. Plunkett, and held a dance in the Rowing Sheds on the night of the race. Most of those who rowed in the morning, as well as a number of senior boys from the School, were present. During the evening, B. Loton presented Mr. Rogers (the coach) with a gift of appreciation from the crew and thanked him for his untiring work for the School.

We should like to thank Mrs. Home and Mrs. Loton for their very valuable assistance with the supper and to say that their efficient arrangements were much appreciated. We also thank Mr. Irvine and Colonel H. Norman for their contributions towards the supper.

"All furnished, all in arms."

ON 16th June, an Officers' Training Course was held at School and conducted by Army instructors. On the Saturday afternoon the Examination for Commissioned Rank was held, and, as a result, seven of the candidates succeeded in passing and may assume their rank as vacancies occur. Those successful were: Sergeants J. C. Anderson, B. T. Loton and D. Home, Corporals I. L. Bogle, F. M. Cooke, J. Monks and T. Edmondson.

As a vacancy now existed, this was filled by J. C. Anderson, thus allowing Cpl. Bogle to become a Sergeant.

As in the previous year, a section of the Corps took part in the Youth Pageant at Loton Park on Saturday, October 20th. The Corps assembled in two platoons and marched very well. After Sir James Mitchell had taken the salute he addressed a few words to the assembled representatives of almost every youth organisation in the State.

During the second and third terms, numerous range practices were held at Swanbourne Rifle Range and these resulted in a greatly increased efficiency throughout the Corps.

The Platoon Cup, judged on the work and efficiency throughout the whole year, was awarded to No. 6 Platoon which was commanded by Cadet-Lieutenant J. C. Anderson and Sergeant Chappell.

Towards the end of the third term Captain Simms, the new Staff Officer, Senior Cadets, announced that a camp for officers and senior N.C.O.'s was being held at Bonegilla, near Albury in

New South Wales, and that the School could send eight representatives. This was changed to four during the Christmas Holidays with the result that Corporals Benson and Pearcy attended the first camp, from January 3rd, 1946, to January 17th. Sergeants Bogle and Cooke attended from January 18th to February 2nd.

These four boys enjoyed their trip to the Eastern States and particularly the week of leave in Melbourne, which was granted at completion of the two weeks' training. During their brief military careers in one of the most modern and important camps in Australia, the cadets were instructed in almost every phase of practical training. Both ways, they travelled on troop trains and although they complained of the flies and length of the journey, they now feel that it was worth while.

The experience they gained has been put to good use in the Detachment and has been found particularly useful in preparing cadets for N.C.O's examinations.

At the beginning of the year, with the return of Mr. Drake, Mr. Altorfer resigned his position of O.C. of the Detachment and the command has again been taken over by Mr. Drake. During the difficult years of war when Mr. Drake was serving in the Forces, Mr. Altorfer very successfully carried on the work of the Corps. Although the times were very difficult, the Detachment made great improvement under the command of Mr. Altorfer, and we wish to thank him very much for his able and willing assistance which we much appreciate.

We welcome back to the Corps, Mr. Drake, who for some years has served as a Captain in the Army. Although the activities of the Detachment during the first term were seriously restricted, we wish Mr. Drake every success in his old job as O.C. of the Detachment.

One of the most noticeable changes is that of the reduction in size of the Corps and by this means it is hoped to have a more efficient and better trained body of cadets. Instead of six platoons there are now four.

At the beginning of the year, the four boys who had passed their exam for Commissioned Rank, assumed the rank of Cadet-Lieutenant. The four officers for the present year are Lieutenants B. T. Loton, I. L. Bogle, D. Home and F. M. Cooke.

As the result of these promotions, Corporals C. Benson and H. Pearcy have been promoted to the rank of Sergeant.

At the end of the first term, Captain Drake recommended Sergeant Benson for Commissioned Rank and promoted Sergeant Pearcy to Company Sergeant-Major.

Four cadets from the School were sent to a training camp for Officers and Senior N.C.O's which was held at Swanbourne from 10th May to 25th May. Cadets Lloyd, Skipper, Turrell and Wain attended and thoroughly enjoyed the period of strict training. An exam was held at the end of the course and although 40 cadets attended, the four from School did not come below twelfth position in the final exam. A marching-out ceremony was conducted on Saturday, 25th, and the G.O.C., Major-General Whitelaw, took the salute.

RECENT PROMOTIONS

As the result of delayed activities in the Cadet Corps during the first term an N.C.O's Course and Examination was held on the first week-end of term. The following promotions were posted on June 4th:—

To be Sergeants: Corporals O'Connor and Flower, Cadets Wain and Evans.

To be Corporals: Cadets Skipper, Turrell, Lloyd and D. Anderson.

To be Lance/Corporals: Cadets Broadhurst, Rowe, Harrold and Tuckey.

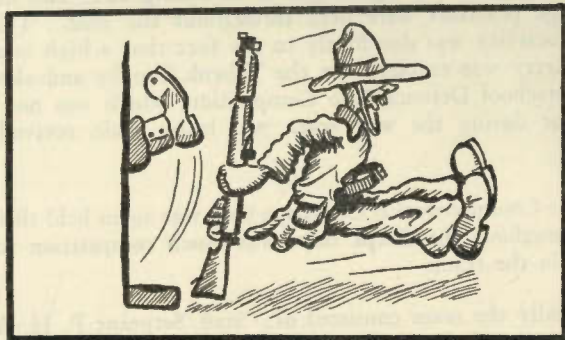

Among the successful competitors for an entrance to Duntrone, were three of the School's Cadet Officers: B. Luscombe, J. Monks and T. Edmondson. The School would like to congratulate them on their inclusion among the candidates who were sent from the State this year.

CAMP

During the first week of the August Vacation, an Annual Cadet Camp was held at Northam Military Camp from August 24th to September 1st. At 9.30 on Friday morning we assembled at the Perth Railway Station to catch the train which would convey us to Northam. We were not disappointed, for by 10.30 the train was ready to leave Perth. Progress was, however, very slow, and by the time we reached Swan View it was realised that the engine could not pull the train any further. After numerous delays another engine was sent and the train proceeded in two sections.

The train arrived at Northam at 4.0 p.m., having covered the 66 miles from Perth in five and a half hours. The cadets arrived at camp in the late afternoon and had soon settled down. Mr. Altorfer again acted as O.C. of the Hale Detachment while Captain Meecham was O.C. of the Combined Senior Cadets.

This year the camp was practically deserted, the only men stationed there being a few guards. However, the Canteen was opened to the cadets and the Lower Y.M.C.A. Hut placed at their convenience. On three of the nights pictures were held, on military topics, in the Upper Y.M.C.A. Hut and these particularly were enjoyed by all who were present.

SALVE — ET VALE

On Wednesday, range practice was held at the excellent range attached to the camp and time was allowed for all cadets to fire many rounds.

A Lantern Stalk was held on Thursday night and proved to be quite enjoyable as well as instructive. On the same night

the sergeants held their formal mess which was said to be a great success. The Officers held their formal mess on Friday.

A Marching-Out Ceremony was to be held on Saturday morning, but due to adverse weather conditions we were forced to assemble in the Y.M.C.A. Hut to hear Major-General Boase say a few words about the value of cadet training.

At the end of the camp period all agreed that the past week had been enjoyable and had been well worth the while.

On Saturday afternoon we arrived at the Northam Station only to learn that the train which was supposed to leave at 1.30 p.m., had left Spencer's Brook some time in the morning and that, since then, railway officials had not heard of its progress. The train arrived at Northam at 4.0 p.m., and by 4.15 p.m. we were heading for Perth. However, we had numerous unexplained delays and the train reached Perth at 9.30 p.m., having accomplished the downhill run in just over five hours. So ended a very enjoyable camp.

SHOOTING

Shooting has been greatly revived during 1945 and numerous range practices were held throughout the year. This increased activity was due firstly to the fact that a high standard in musketry was required for the Tobruk Trophy and also that the Interschool Defence Cup Competition, which was not competed for during the war years, was being again revived that year.

The Commonwealth Challenge Cup was again held this year, and throughout the Corps there was much competition for inclusion in the team.

Finally the team consisted of: Staff/Sergeant P. H. Atkins (Captain), Cpl. F. M. Cooke, Cpl. T. Edmondson, L/Cpl. F. Slee, Cdt. M. Dale, Cdt. R. Payne, Cdt. D. Foulkes, Cdt. Halliday and Cdt. M. Henning (reserve).

The Commonwealth Challenge Cup was contested on November 10th, and we were fortunate in having a fine day with almost no wind. The outcome of the shoot hung in the balance until the last detail and the final scores showed that Guildford Grammar School was first, Hale School second, with Wesley College third.

At the conclusion of the shoot the Cup was presented to the Guildford team by the G.O.C., Major-General Boase, who congratulated them on their fine performance.

The Interschool Defence Cup was held on December 7th at Swanbourne Rifle Range. The conditions for the competition were rather unfavourable, since a strong wind sprang up during the morning and as the day wore on it increased in velocity. The outcome was uncertain until shooting began at the 500-yard mark, when Aquinas put up some very good scores, and that team ultimately proved to be the victor and is to be congratulated on putting up such a fine performance. The Headmaster of Scotch College, Mr. P. C. Anderson, presented the Cup to Aquinas at the conclusion of the shoot.

We congratulate Tom Edmondson on being Champion Shot for the year, and F. Cooke who was runner-up.

We would also like to take this opportunity of thanking Mr. Altorfer for the many services that he did for the team, both in the form of encouragement and in the difficult task of arranging range practices, which he did so well.

Boxing

"I was ever a fighter."

ON the evening of Monday, August 20th, a large number of parents and friends assembled in the School Hall to witness the Annual Boxing Competition.

The main bout for the evening, that for the School Championship, was contested by J. Monks and R. Sinclair, and resulted in a fast, furious battle with honours finally going to J. Monks.

Comic relief was provided by six boys, J. Anderson, P. Atkins, G. Craig, D. Foulkes, R. Goodchild and P. Lowe, who entered the ring together and were blindfolded. In the ensuing confusion, lasting two rounds, only a small percentage of punches made contact, but R. Buntine, with a glove on a stick, kept the scene moving. No injuries were sustained and the boys quite enjoyed the novelty.

Mr. G. Thompson, former Heavyweight Champion, again kindly consented to act as referee and we would like to thank him for his very valuable assistance. We would also like to thank the seconds, timekeepers and all who helped in the evening's entertainment, particularly the contestants, who displayed fine fighting ability and genuine enthusiasm throughout.

The results of the bouts were:—

B. Morrell defeated J. O'Meehan	J. Monks defeated R. Sinclair
I. Robinson defeated R. J. Lowe	Morrison defeated Ednie-Brown
R. Reid defeated W. R. Lowe	C. Wright defeated P. Mold
R. Lloyd defeated J. Hurst	R. Birley defeated Cox
A. Green defeated L. Durston	Henderson defeated Cumpston
B. Woods defeated D. Barrett	Thompson defeated A. Willmott
Kirkby defeated B. Lawson

THIRD TERM, 1945

AS in previous years Hale School entered two teams in the 1945 Slazenger Cup Competition played at Kitchener Park. The teams were as follows: No. 1 Team, D. Mackenzie (captain), J. C. Anderson, C. Harrold, B. O'Halloran and M. Clarke (reserve); No. 2 Team, B. Luscombe (captain), D. Finkelstein, D. Foulkes, F. Cooke and D. Broadhurst (reserve).

The first round of these matches commenced on Saturday, 29th September, in the morning. In this round our No. 1 Team played C.B.C. (Perth) and had an easy win of 10 sets 62 games to 2 sets 29 games.

The Hale No. 2 Team played well up to form and defeated Perth Boys' School, 9 sets 67 games to 4 sets 39 games. The scores were:—

HALE SCHOOL No. 1 v. C.B.C. (Perth)

Mackenzie and Anderson beat George and Nelligan, 6-3, 6-1; Harrold and O'Halloran beat Oldfield and Cavanagh, 6-0, 6-3; Mackenzie beat George, 6-3, 6-4; Anderson lost to Nelligan, 1-6, 1-6; Harrold beat Oldfield, 6-0, 6-2; O'Halloran beat Cavanagh, 6-0, 6-1.

HALE SCHOOL No. 2 v. PERTH BOYS SCHOOL No. 1
Luscombe and Finkelstein lost to Hunter and Marshall, 6-3, 0-6, 6-8; Foulkes and Cooke beat Christiansen and Thomas, 6-0, 6-4; Luscombe lost to Hunter, 5-6, 2-6; Finkelstein beat Marshall, 6-4, 6-4; Foulkes beat Christiansen, 6-0, 6-0; Cooke beat Thomas, 6-0, 6-1.

In the afternoon of the same day the second round commenced. Hale No. 1 again had an easy victory, this time over the Aquinas No. 2 team. This win enabled our No. 1 team to play in the semi-finals.

Our No. 2 team in this round suffered a severe defeat at the hands of the Wesley College No. 1 team, which played a very good game and proved far too strong for us. Following are the details:—

HALE SCHOOL No. 1 v. AQUINAS COLLEGE No. 2

Mackenzie and Anderson beat Lingard and Bahen, 6-0, 6-1;
Harrold and O'Halloran beat Aikenhead and Bertola, 6-2, 6-4;
Mackenzie beat Lingard, 6-0, 6-0; Anderson beat Bahen, 6-2,
6-2; Harrold beat Aikenhead, 6-2, 6-2; O'Halloran beat
Bertola, 6-5, 6-3.

Totals: Hale No. 1, 12 sets 72 games; Aquinas No. 2, 0 sets 23 games.

HALE SCHOOL No. 2 v. WESLEY COLLEGE No. 1

Luscombe and Finkelstein lost to Hamilton and Wilderspin,
0-6, 2-6; Foulkes and Cooke lost to Forsaith and Genge, 3-6,
1-6; Luscombe lost to Hamilton, 2-6, 1-6; Finkelstein lost to
Wilderspin, 2-6, 1-6; Foulkes lost to Forsaith, 3-6, 5-6; Cooke
lost to Genge, 3-6, 3-6.

Totals: Wesley, No. 1, 12 sets 72 games; Hale No. 2, 0 sets 26 games.

On the following Saturday the semi-finals were contested, in which the Hale No. 1 played Perth Modern School. After a very strenuous and evenly contested number of games Perth Modern School proved the victor. Mackenzie, although he won his singles, was slightly indisposed and could not keep up his usual good performance throughout his doubles. The rest of the team played a very steady game and all their matches were evenly contested although their opponents proved too good in the long run.

Final results were:—

HALE SCHOOL No. 1 v. PERTH MODERN SCHOOL

Mackenzie and Anderson lost to Gibbons and White, 1-6, 6-3,
4-6; Harrold and O'Halloran lost to Loukes and Greenway,
6-3, 5-6, 7-9; Mackenzie beat Gibbons, 6-1, 6-3; Anderson lost
to White, 2-6, 6-4, 4-6; Harrold lost to Loukes, 2-6, 4-6;
O'Halloran lost to Greenway, 4-6, 3-6.

Totals: Perth Modern School, 10 sets 77 games; Hale No. 1, 5 sets 66 games.

As a result of this match, we were eliminated from the Slazenger Cup competition. Wesley College were the ultimate winners, after defeating Perth Modern School in the finals. This was Wesley's fifth consecutive victory in the Slazenger Cup competition and they are to be congratulated on entering such an outstanding series of teams.

We wish to thank the King's Park Tennis Club for again giving us the use of their courts, thus enabling the teams to get in some useful and solid practice on good courts.

FIRST TERM 1946

The enthusiasm for tennis has been greatly revived this term, mainly due to the efforts of Mr. Mill who has recently been put in charge of this sport. The King's Park Tennis Club have again kindly permitted us the use of their courts this year and an encouraging number of boys have turned up to practice during this term.

Towards the end of the term the first team, which consisted of C. Harrold, D. Foulkes, F. Cooke and D. Broadhurst, played the Christ Church No. 1 team and succeeded in defeating them by five matches to one.

The following boys are to be congratulated on winning scholarships for entry into the King's Park Tennis Club: R. Rowe, K. Guhl, N. Worthington and P. F. Anderson.

The Autumn Tournament was again held at Kitchener Park this year, but there was a disappointing number of entries from the School. P. Anderson, Ben Woods, D. Foulkes and C. Harrold were the only ones that met with success. They managed to reach the semi-finals before being eliminated.

During the term a Junior School tournament was conducted on our courts and the following were the winners of each grade: Under 13, A. Lodge; Under 12, R. Slee; Under 11, P. Thompson and A. O'Meehan (yet to be played off).

A Senior School tournament was contemplated, but the Under 13 grade was the only one played out, the winner being D. Watts.

On Tuesday, 19th February, an exhibition match was played for the School's benefit between J. Bromwich (Australian Champion) and Brown (N.S.W. Hard-courts Champion). The boys were treated to a fine exhibition of tennis by these players with whom were associated two of the State's leading juniors, and the School is indebted to them as well as the W.A.L.T.A. and the King's Park Tennis Club who very kindly arranged the fixture.

THIRD TERM, 1945

SCOTCH COLLEGE v. HALE SCHOOL

PLAYED AT FREMANTLE OVAL—NOVEMBER 7th, 1945

This match did not begin until 11.30 a.m. as the wicket was too soft. Hale lost the toss and were put in first. The School started badly by losing three wickets for five runs and later four for ten. Home and Mackenzie then joined in a bright partnership just before lunch, eventually making 35 and 25 runs respectively. The following batsmen could not keep up the good work, however, and we were all out for 87.

When Scotch went in they began well, the first wicket falling for 50 runs. The School both bowled and fielded well up to standard. Gilchrist was noted for his consistent well-pitched bowling throughout, for although he succeeded in capturing only two wickets, only 33 runs were scored off his 17 overs. The conclusion of this match proved to be very exciting. Scotch ninth wicket went down for 82, which left them with six runs to win and the last man in. Unfortunately for us, their last man batted splendidly and wrested the match away from us. Scotch made 103, making them the victors by 16 runs. Following were the scores:—

HALE SCHOOL

FIRST INNINGS

Munro, c and b Lushey	1
Gilchrist, c and b McNeil	0

Cooke, b Thompson	4
Finkelstein, b Thompson	0

tively. Peckovich and Phillips then carried on an aggressive partnership until Phillips had a stroke of bad luck in playing the ball on to his wicket. The remainder of the team were dismissed without much trouble, mainly due to the well-pitched, accurate bowling of Luscombe, who captured five wickets.

Hale went in after lunch and had an early set-back when Gilchrist was dismissed for none. The majority of the team from then on batted very unsteadily and were soon dismissed. Munro batted faultlessly for a while but got out on one of his unfortunate leg shots after making twelve runs. Luscombe went in towards the end and batted very aggressively. He made 17 runs including two fours and a spectacular six.

In Aquinas' second innings, Hearne batted attractively for 31 not out. Luscombe kept up his accurate bowling and succeeded in capturing another five wickets. Thus the last match for 1945 resulted in a win for Aquinas.

FIRST TERM, 1946

HALE SCHOOL v. SCOTCH COLLEGE

PLAYED AT W.A.C.A.—MARCH 27th.

The opening rounds of the Darlot Cup commenced on March 27th, and resulted in a disaster for the School team. Scotch won by an innings and 108 runs through superior batting and fielding.

Home won the toss and put the School in first on a comparatively fast wicket. After the dismissal of our opening batsmen for none, Home and Mussared made a brief stand and showed what could be done against the bowling. The less said about the team after their dismissal the better, as four ducks in a row were recorded. After the ninth wicket had fallen the match was declared. A feature of the day's game was Scotch's excellent fielding and their bowlers' bowling to that field.

Scotch's batting was very sound against the strong attack of our opening bowlers, and from the beginning they played careful, well-placed shots which soon brought up their tally. After the dismissal of Carter, Brown went in and began an excellent innings which resulted in his making a score of 65 runs. Scotch were eventually dismissed for 188 soon after afternoon tea, thus dashing our earlier hopes of repeating last year's performance of playing two complete innings. Home, who was responsible for the dismissal of four batsmen, was the most successful bowler for the School. Following were the scores:—

HALE SCHOOL FIRST INNINGS

AQUINAS COLLEGE v. HALE SCHOOL

PLAYED AT W.A.C.A.—APRIL 3rd.

Rigg won the toss and sent Hale in to bat on a moderately fast wicket. With the early dismissal of our opening batsmen, our prospects for a sound score looked rather grim. Cooke and Home were the next to go in and between them made 70

runs, showing what could be done against the slow swing bowling of Aquinas. The team, however, broke down again in its batting after the dismissal of Home and never recovered, the final score being only 90 runs.

Aquinas went in immediately after lunch. Their opening batsmen put up the best performance, meeting our attack with careful shots and then opening out as play went on. Frazer was dismissed by a good ball from Payne after making 19 and Rigg went on to make 65 runs. After that the remainder of the team were dismissed cheaply, mainly due to the excellent bowling by Broadhurst, who succeeded in capturing seven wickets. Aquinas finished with a score of 126, thus defeating the School by 36 runs.

Details of the match were as follows:—

THE CYGNET

GUILDFORD GRAMMAR SCHOOL v. HALE SCHOOL
PLAYED AT GUILDFORD GRAMMAR SCHOOL—APRIL 10th.

Beigel won the toss and sent us in on a flawless wicket.

O'Connor and Cooke opened for the School side and were not troubled with Guildford's attack. Lockyer was bowling very well with his "in" swerve and was considered the most dangerous of Guildford's bowlers. Half an hour after play commenced O'Connor hit a catch to Clark and was dismissed. Cooke batted steadily until he opened out, and after hitting two fours was clean bowled by Hocking for 28 runs. This was the first match where the batting scores were fairly well distributed throughout the team, thus showing a marked improvement in our batting performances. Mussared and Home together made an aggressive partnership, making 17 quick runs each. Broadhurst, who was ill at the beginning of the match, could not open the batting, but went in further down on the list and batted well to make 11 runs. Percy, who was only lately included in the team, put up a very good innings and showed a considerable improvement in his batting. He executed the best forward drives of the day which were one of the features of the game.

Guildford went in half an hour after lunch, their opening batsmen being Wood and Beigel. Wood was soon dismissed after showing unsteady form, but Beigel, who gave many chances at the beginning, went on and batted attractively for 80 runs. The scoring for Guildford's team was also evenly distributed: Hopkins (50), Hocking (34), and Clark (21), batted very confidently and succeeded in hitting many fours with the help of a very fast ground and our below-average bowling. The School team lost by 127 runs.

This was the last match of the first round for 1946, and Guildford are to be congratulated on having won the most matches to date.

Following are the scores:—

FIRST ELEVEN v. MR. LOTON'S TEAM

On Monday, March 18th, the annual cricket match between the School team and Mr. Loton's team was revived. This eagerly awaited event was suspended during the war years, but at its revival this year there appeared to be no lack of its pre-war good-fellowship nor good food. The match was keenly played and resulted in a comfortable win for Mr. Loton's team.

Mr. Loton won the toss and sent his team in to bat. His team compiled 189 runs. Ross Payne, our 12th man, was included in his team, and batted attractively for 42 runs. Mr. R. Switch made second top score of 39 runs after a very aggressive innings. Mr. Loton retired at 29. After lunch Hale commenced to bat and due to keen fielding and accurate bowling they were dismissed for 80 runs. The School team started badly, our opening batsmen not being able to stand up to their initial attack. Cooke and Mussared then combined in a bright partnership and brought our score to 50. The remainder were quickly dismissed.

At afternoon tea Mr. Rowlands thanked Mr. and Mrs. Loton for their hospitality and their kindness in making the match possible. David Home seconded his remarks on behalf of the School team and said how much the outing was looked forward to by members of the team. Mr. Loton replied on behalf of himself and his wife and said how pleased he was that the match was able to be revived this year and expressed the hope that there would be many more to come.

Thus ended a most pleasant outing. We again take this opportunity of thanking Mr. and Mrs. Loton and hope that this has been but the forerunner of many such matches in the future.

SCHOOL v. MASTERS

On Wednesday, April 17th, as a Lenten penance, the Masters met the School at cricket. Prayers for rain by at least one of them having failed, the Staff did what they could with lunch and duly donned a varied assortment of comparatively white garments. Several Masters brought a note to say that they could not play. One excuse of "Doctor's Orders" was accepted with regret though we had wished to drain our cricket to the "lees." Another could not "foot it fealty"—the story goes that he deliberately cut his big toe off at the School woodheap, but it lacks verification. Anyway, he was probably "keeping a book" on the result. The other excuses we do not regard as satisfactory and are thinking of retaliating by not playing in the next School test.

The School was present en masse except for two or three who—believe it or not—did not wish to participate in this Saturnalian festival. Boys won't be boys!

However, to the main theme. The Boys batted first. We shall briefly dismiss *their* batting; it can be seen at any time by those who want to wallow in the wielding of the willow. Suffice it to say that Chas. made 42, Muss 28 and Cookie 18, the fourth wicket falling at four for 107. It seemed easy money. But the right perspective had not been got on Mr. Hamilton's bowling—why do such mild-mannered men have such concealed depths of cunning?—or for Mr. Mill's devastating 'keeping. Everything was grist to him. And so all out for 134, not a for-

midable total considering how age wearied some of the Staff in the field. One Master, not highly regarded in the sporting world, ran all over the place, chasing would-be fours, probably muttering something in some foreign lingo about preferring French cricket.

The Masters went in to bat with confidence. They know what up-hill work means. The impossible is nothing to them; they attempt it all day long. Mr. Rowlands opened with Mr. Loton, who, by virtue of his associations with the School, past and present, was honoured with the title of Master for the day. That partnership made 37, Mr. Loton generously letting his partner make most of the runs. Mr. Mill followed and by poetic justice, was for once stumped for an answer. He made nine before his star "wain"ed. Then followed the Headmaster to make his debut as such on the field. Naturally his fame had come before him, and with Mr. Rowlands scoring profitably, the situation, three for 114, seemed irre"trev"able. He went on to make 28 and the score was five for 138 when he went. Mr. Hamilton, always a good "draw," followed with nine and as the match was now won and the recognised batsmen all gone, the School—or what was left of it in these non-union hours—settled down to enjoy the circus. Mr. Adams followed—he looked aggressive—but put only one to his "account" before being caught. That bookroom . . . ! Then Mr. Johns made his bow and a stroke or two, but caught a crab from Home, who found him abstractedly fretting over the law of diminishing returns. Next came Mr. Marshall and as a special favour Chas. sent up some gentle, slow—oh! so slow—ones, so slow that the batsman never knew whether it was the one before or the one after. However, by running down the pitch as the bowler turned for his delivery, saying the principal parts of *s'asseoir en meme temps*, he managed to get there before anything odd occurred and hit a couple. For one he left home too early, or too late, it was the same—eight for 151. Followed Mr. Richardson, who made some furious jabs before, during, or after delivery—but he lifted one that was a "Payne" proposition. Brown and Donaldson made one each—anyway, the fun was over—but the latter has not yet lived down his temporary Mastership and because of it, or in spite of it, talks more than ever in and out of School.

So it was over. The players all enjoyed it. The spectators enjoyed it. Even the august Board, in the person of Mr. Forrest, added gubernatorial gusto to the game, while it was worth even Mr. Hadley's coming to watch—and we were glad to see him. The Masters appreciated the kindly consideration of the boys

for their increasing years; and the boys, we hope, saw that Masters, too, if they get the chance, can really be boys.

— *Our Special Despondent.*

CRITIQUE

D. HOME (Captain)—He has handled a young and inexperienced team capably and has gained their confidence; his defence has improved but his driving has not developed as expected. He needs to move his left foot further across to the pitch of the ball; when, later in the season, he slowed his bowling, he was effective; fielding always good.

D. BROADHURST (Vice-Captain)—Length and direction of his off-spin bowling is good but his attack is too mechanical—he should study flight; he flicks too much at the off ball and does not make enough use of his driving ability; a good close in-field.

F. COOKE—Determination and concentration have brought good batting results—defence is solid, but by now he should be using his attacking strokes more freely; a keen field at point.

B. DYMOCK—His bowling this season showed more sting but he relies too much on the out-swing; has an off-spin which is worth cultivating; batting has disappointed—he must correct his grip of the bat; fielding always good.

R. WAIN—Has done well in his first season as 'keeper—a sound catch, but as yet rather slow and uncertain in stumping; has some good forward shots on the off, but lacks judgment when to use them.

R. MUSSARD—Has made a good start in the team—is naturally an off-side player and should play his square-cut and off-drive freely; is weak to the ball coming in from his leg side; his slow bowling has been well flighted and controlled, but he should now try more spin; fields well.

P. JAGO—A promising medium pace bowler with a natural in-swing—should correct his run to the wicket; batting has improved, but is too negative; fielding very good.

W. HALLIDAY—Has possibilities as a left-arm spin bowler but at present has little control; a sure catch in field; would make runs if he used the long handle.

L. PEARCY—Has good shots in front of the wicket, his straight drive being well executed, but back play is uncertain; fielding is not up to standard.

R. PAYNE—When aggressive he bats well—has driving ability but does not use it enough; a useful medium pace bowler; fielding improved, but as yet only fair.

C. O'CONNOR—An opening bat with a good defence, but inclined to nibble at the off ball; has good shots which he does not attempt enough; could be a very useful bowler if he persevered with his off-spin.

L. MARTIN—A left-hander of promise—he has the action and the hand and should have success when control is gained; rather slow in the field.

"Splashing and paddling."

SCHOOL SPORTS 1946

ON WEDNESDAY, February 20th, 1946, the School Swimming Sports were held at Crawley Baths. Except for a slight breeze which sprang up towards the latter part of the morning the weather was favourable. Congratulations are extended to V. Murphy and D. M. Williams who succeeded in creating new records in the 100 metres under 14 championship and 50 metres under 12 championship respectively.

W. G. Halliday was School Champion while B. C. Turrell was runner-up. Both swam exceedingly well.

Halliday and Turrell alternately gained first and second in the under 16 division also.

Murphy was outstanding in both the under 15 and under 14 sections, but unfortunately, due to his age, he was compelled in the Inter-School Sports to swim in the under 15 division.

Neat Dive, Under 12—Mitchell, 1; Morrison, 2; Blackman, 3.

THE INTER-SCHOOL SPORTS

The Annual Inter-School Swimming Sports for 1946 were held on March 2nd. The weather was ideal with the result that individual performances were well up to standard.

The competition was keen and even after the first three events it was difficult to tell who were the stronger team. Towards the latter part of the morning, however, it was clearly evident that the final struggle would be between Scotch and Aquinas. Hale, lacking a balanced team were a considerable way back in third position and Guildford further back, fourth. Scotch and Aquinas were still neck and neck at the commencement of the last two events, but Aquinas managed to draw away from Scotch and win the honours of the day.

The final points were:—

Aquinas College	118 points
Scotch College	103 points
Hale School	66 points
Guildford Grammar School	19 points

W. G. Halliday is to be congratulated on winning the open 50 metres Backstroke and gaining third place in the open 100 metres Freestyle.

D. R. Anderson swam well in the breaststroke, gaining second place.

In the under 13 50 metres Freestyle, J. St. C. Brockway swam well and gained second place.

D. Morrison of Scotch College, who swam exceedingly well throughout the day, is to be heartily congratulated on his being Champion Swimmer.

Our sincere thanks are offered to both Mr. Altorfer and Mr. Percy Oliver for their untiring efforts in the training and organising of the team.

Life Saving

"Fear ye not the waves that roll."

The competition for the Law Society Life Saving Shield was held on Saturday, March 9th, 1946, at Claremont Baths. The weather conditions were far from ideal, the water being very rough and cold. Poor organisation in the running and supervision of the events led to congestion at the finish of each rescue.

The team swam well considering the conditions under which they had to compete, but Modern School, with a stronger team, were victorious with Wesley second and Hale third.

The "A" team consisted of I. L. Bogle (Captain), D. R. Anderson, W. G. Halliday and R. C. Lough.

W. G. Halliday is to be congratulated on again recording the fastest time, with 115 seconds.

The "B" team which gained fifth position, consisted of R. R. Williams, B. C. Turrell, L. B. Walker, R. Wilson.

Training of the two teams was in the capable hands of both Mr. Altorfer and Mr. Percy Oliver and due praise is extended to both for their valuable work.

ALCOCK CUP MATCHES (1st XVIII)

HALE SCHOOL v. GUILDFORD GRAMMAR SCHOOL

PLAYED ON THE SUBIACO OVAL, WEDNESDAY, JUNE 27th.

Final scores:—

G.G.S.	5 goals	4 behinds	(34)
Hale	4 goals	9 behinds	(33)

Played under rather adverse weather conditions, this game was one in which good football was played. Despite a fine effort made by our team in the final quarter we failed to catch our opponents.

HALE SCHOOL v. SCOTCH COLLEGE

PLAYED ON THE SUBIACO OVAL, WEDNESDAY, JULY 4th.

Final scores:—

Hale	14 goals	14 behinds	(98)
Scotch	4 goals	6 behinds	(30)

Although the scores indicate it as rather one-sided, this was an interesting game, in which team-work was outstanding.

HALE SCHOOL v. AQUINAS COLLEGE

PLAYED ON THE W.A.C.A. GROUNDS, WEDNESDAY, JULY 11th.

Final scores:—

Aquinas	3 goals	13 behinds	(31)
Hale	3 goals	7 behinds	(25)

The low scores indicate that the game was a hard one, fought out from start to finish. Don Mackenzie played an outstanding game as goalkeeper.

HALE SCHOOL v. GUILDFORD GRAMMAR SCHOOL

PLAYED ON THE BASSENDEAN OVAL, WEDNESDAY, AUGUST 1st.

Final scores:—

Hale	10 goals	15 behinds	(75)
G.G.S.	3 goals	13 behinds	(31)

Another "team" effort with marking and shepherding much improved. Everyone earned his place.

HALE SCHOOL v. SCOTCH COLLEGE

PLAYED ON THE SOUTH FREMANTLE OVAL, WED., AUGUST 8th.

Final scores:—

Hale	5 goals 11 behinds	(41)
Scotch	3 goals 3 behinds	(21)

This match proved to be a very scrambling one in which very little good football was played. However, in patches of good play, Payne, Munro and Luscombe were outstanding.

HALE SCHOOL v. AQUINAS COLLEGE

PLAYED ON THE SUBIACO OVAL, WEDNESDAY, AUGUST 15th.

Final scores:—

Aquinas	7 goals 16 behinds	(58)
Hale	8 goals 9 behinds	(57)

Played on V.P. day, this was easily the best game of the season. At "lemons," our team was well behind, but in a fine effort in the final quarter, in which our opponents did not score, the margin was reduced to one point. Unfortunately, Payne was injured during the third quarter and had to retire; prior to his withdrawal he had played an excellent game. Mackenzie, first as goalkeeper, and then as sneak, showed again his ability to play good football.

The School tenders its congratulations to Aquinas College's team, which won the Alcock Shield.

Although our team was unsuccessful, a high standard of play was maintained.

We wish to thank Mr. T. Rowlands for the energy and time he spent in training the team and the School was very glad to see him back at training after an absence of several years spent in the Services. Credit is also due to all those masters who gave up a lot of their time in coaching the other teams. But for them a good season's football would not be possible.

We would remind the 1946 teams of the old maxim that:
"It counts not how you win or lose, but how you play the game."

"Sick for Home"

SECOND TERM 1945

WE arrived back at School on Tuesday, May 29th, to find that John Parker, Don Wilson and John Illingworth had joined our ranks.

The football season began almost immediately on our return and, as usual, the House was well represented in all teams. Those from the House in the first XVIII were David Home, John Munro, Frank Cooke, David Broadhurst, David Clarke, Ian Bogle and Ross Payne.

The Boarders' Dance was held as usual towards the middle of term, this year on Friday the 13th of July. Although rather small, the dance was a great success and enjoyed by all.

During this term two more School Prefects were announced, both of whom were boarders. We take this opportunity of congratulating Don Forrest and Melville Dale.

A surprise visit was made to the House by Mr. Norman Uren whom many of us knew through his associations with carpentry classes. He gave us an evening's excellent entertainment with his pictures which were thoroughly enjoyed by all.

Early in the term an N.C.O's week-end was held and those boarders who participated did remarkably well.

Corporal, Lowe, Lance/Corporal Home and Cadet Loton were promoted to Sergeants; Cadets Bogle and Cooke to Corporals; and Cadet R. Saw to Lance/Corporal.

During the last week of term three new House Prefects were announced. The House congratulates Brian Loton, Ian Bogle and David Home upon their new positions.

The pound managed very well this term under Donald Forrest, whose efficiency enabled a large sum to be donated to the Prisoner of War Fund.

THIRD TERM 1945

On our return for the final term of the year we found that our captain, Ray Goodchild, as well as Peter Lowe, had left us to become day boys. Ron Saw, after many years' association with the House, also left to become a day boy.

Keith Wishart, Henry Trundle and Lance Hudson were the only new boys to enter the House.

We congratulate Don Forrest on his appointment as House Captain.

Athletics began soon after our return and, as usual, the House was well represented in the Inters. Those from the house who participated were Frank Cooke, David Home, Ian Bogle, Neil Williamson, Donald McGill, John Anderson and Chris. Wright.

The photographing of the House was again introduced this year the last occasion being 1940.

John Cohen left the House during the term, after a serious illness, and is continuing for the rest of the term as a day boy.

The second round of cricket began soon after the Inters. and our first XI representatives were David Home, John Munro, Frank Cooke and David Broadhurst.

Towards the end of term an epidemic of gastric 'flu broke out, but was kept well in hand by the unselfish services of Sister, Matron and Miss Bruce.

The Interscholar Shooting was held on Saturday, December 7th, and we were well represented in Ross Payne, Frank Cooke, Melville Dale, Frank Slee, with Malcolm Henning as reserve.

Chris and David Wright left us at the end of term to rejoin their parents in England.

As the war was now over it was the wish of Mr. Altorfer to purchase a wireless out of House funds for the use of all boys.

A gramophone, pick-up and a loudspeaker were also to be purchased. This would overcome a great deal of trouble regard-

ing the Boarders' Dance, as well as provide some recreation for boys after school and during the week-ends.

We wish to extend our congratulations to Frank Cooke on winning the 1945 Tobruk Trophy.

On the last Sunday of term many boarders, and a few day boys, joined Dr. Buntine at St. Mary's, as it was the last celebration of Holy Communion at which we would be together.

The pound managed rather too well this term under David Home, who collected in the vicinity of £9, all of which went to our wireless fund.

The Annual Feast was held on the last night of term. As usual, this was enjoyed by all and we owe a great deal to Sister, Matron, Miss Bruce and the Staff for making this night possible. The customary toasts were made to those leaving and to those returning.

FIRST TERM 1946

Immediately on our return to School, six new Prefects were announced, four of whom were boarders. Our congratulations are extended to David Home, Ian Bogle, Brian Loton and Frank Cooke. Brian is Captain of the House and also Captain of the School. He is the third boarder in the last four years to become School Captain.

A large number of new boys entered the House this term, the majority being young chaps. We welcome Douglas Reitze, Lister Robinson, John Duperouzel, John Love, Colin Simpson, Cecil Bethell, John Blake, Robert Chester, Bob Clapin, Ken Curlewis, Robert Draper, Barry Johnston, David Lewis, Trevor Loton, Harry Mitchell, Jack Morrison, Rod O'Connor, Des Reid, Peter Roberts, Richard Smalpage, Charles Smith, John Thomson, Douglas Wilson, Ron Hicks, Bryan Smith and Peter Blackman. Richard Birley, Tony and Peter Brand left the day school to become boarders once again.

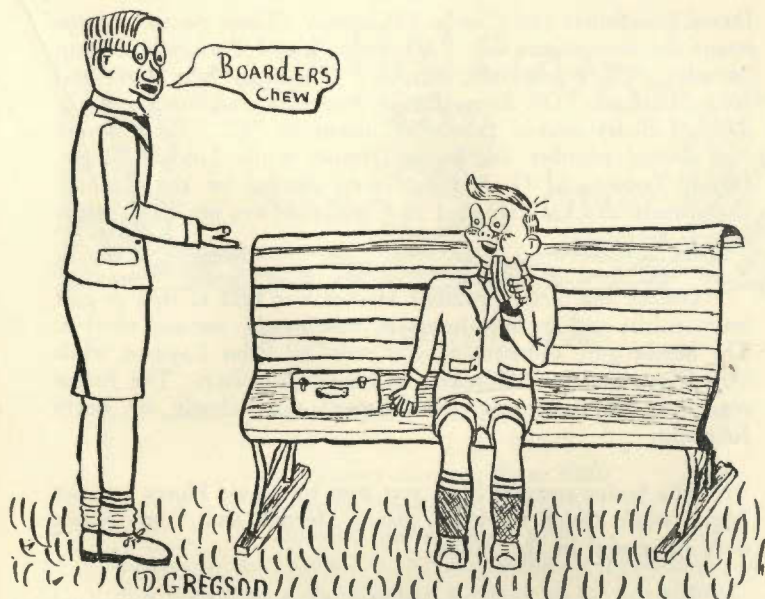

Swimming began soon after our return and we were represented in the Inters. by the following boarders: Ian Bogle (captain), David Saw, Tony and Peter Brand. The only member from the House in the "A" Life Saving team was the captain, Ian Bogle.

The new boys boxing this term provided much amusement for both spectators and contestants. The evening was conducted in a splendid spirit due largely to the capable services of Brian Loton who acted as referee.

—BY A DAY BOY.

Two new House Prefects were appointed towards the middle of term. We congratulate Charles O'Connor and David Broadhurst on their appointments and the latter on being chosen a School Prefect.

Cricket began immediately after the Interscholar Swimming. The team, which is comprised mainly of boarders, did not meet with much success this term, but will probably improve in the second round.

The boarders in the team are David Home (captain), David Broadhurst (vice-captain), Frank Cooke, Charles O'Connor, Ross Payne and Peter Anderson (twelfth man), with "Jackie" Spate as scorer.

This year we found quite a number of boarders participating in the boat races. Although Brian Loton (stroke) and John Anderson (4) were the only representatives from the House in the First VIII, we were well represented in other crews.

The House Council was again formed this term and the permanent members are Messrs. Altorfer, Corr and Richardson, and Prefects Brian Loton, David Home, Ian Bogle, Frank Cooke,

David Broadhurst and Charles O'Connor. Those elected to represent the dormitories are: "A" dorm., Lloyd Tuckey and Dean Barnsley; "B" dorm, John Clapin; "C" dorm, John Love and John Maitland; "D" dorm, David Anderson and Freddie Kiela. Richard Birley moved from "D" dorm to "C". Peter Brand was elected member for Junior House, while Lindsay Bower, Harold Loton and Geoff Fisher were elected by the Council. Congratulations are extended to Lindsay Bower on his appointment as Secretary.

During the term a Paddy's Market was held as well as golf tournaments and treasure hunts to raise money for our wireless. The Senior golf tournament was won by Peter Layman while Don Evans and Jack Skipper tied for second place. The Junior was won by Barry Morrell, followed very closely by Barry Johnston.

The Senior treasure hunt was won by David Home and Ian Bogle, while Geoff Curlewis, Barry Morrell and Tony House were successful in the Junior.

£9 was raised from the Paddy's Market, while the pound contributed £2/3/- towards our fund.

After much delay our wireless finally arrived on the 5th May. We are very indebted to Don Northover who was able to make the set for us, and I am sure we all appreciate his services.

A wireless has also been purchased for the sickroom.

Towards the end of term a serious outbreak of measles occurred, but once again was kept well in check by the capable services of Sister, Matron and Miss Bruce.

Now that we have a complete set, table tennis has revived once again, and provides a great deal of entertainment for boys during the week-end.

PRESIDENT'S REPORT

Presented to the Annual General Meeting of
Members of the Old Haleians' Association
on Monday, 18th February, 1946.

Gentlemen,

I have the honour of presenting for your information and approval the Annual Report of the Association for the year ending 31st January, 1946.

At the time of the presentation of the last Annual Report the most optimistic had not the temerity to expect that the War would end, even in the European sphere, by the end of 1945. However, after six years of War, the guns are silent and peace reigns in the air. We welcome our members returned from the four corners of the World.

The Committee

Your Committee has held regular monthly meetings which, I regret to report, have at times been poorly attended. It should be a matter for consideration by the incoming Committee,

whether, with the encouragement and support of the new Headmaster, meetings could not be held at night and in the precincts of the School.

Financial

It is doubtful whether the financial position of the Association was ever so sound, but this is largely attributable to the fact that customary social expenses were not incurred during the War years. However, other large commitments have had to be met, such as contributions to the cost of printing *The Cygnet* and the School Athletic and Scholastic prizes, and members, who for some years past have enjoyed the privileges of membership without payment of subscriptions, are urged to return to financial membership.

Life Members

During the year thirty-six Old Boys were elected Life Members of the Association. In accordance with the policy adopted last year, Life Membership Subscriptions have been invested in Commonwealth Loan Bonds.

Junior Old Haleians' Association

During the War years many boys left school and failed to become members of this Association. It is earnestly desired that the Junior Old Haleians' Association, which was forced to go into recess owing to the majority of its members becoming liable for military service, will be revived at an early date in order to retain ex-scholars' interest in the School until they become members of this Association.

Circular Letters

The mantle of David Jenkins, the first editor of the circular letters, fell on the shoulders of Mr. F. A. Bird. As you will all agree, the new editor has maintained the high standard set by his predecessor and the circular letters have continued to be warmly received and appreciatively acknowledged by Old Haleians from all parts of the Globe.

"The Cygnet"

Once again *The Cygnet* reflected great credit upon those responsible for its publication. It is hoped that the lifting of war-time restrictions upon the use of paper will enable the Association to procure more copies for distribution among its members.

Old Haleians' Memorial Scholarship

No award has yet been made of this scholarship. Members are once again reminded that any boy, who is the son of an Old Boy who has been killed or incapacitated as the result of active naval, military or air service during any War or from causes attributable to such active service needs financial assistance in the education of his son, is eligible for the scholarship. As an understandable diffidence may exist in applying for this scholarship, members are requested to bring any deserving case under the notice of the Selection Committee.

Ferguson Memorial Prize

The Misses Ferguson of "Houghton," Middle Swan, have presented to the School a War Bond for £50, the interest from which is to provide an annual prize for the champion gymnast. The donation has been made to perpetuate the memory of a nephew, Sergeant-Pilot Bruce Ferguson, who lost his life in air operations.

Retirement of Messrs. Newbery and Wells

These two masters, after over 28 years' service to the School, retired early in the year. At a well attended gathering at the Adelphi on the 1st June, these two dear old friends were affectionately farewelled and each presented with an inscribed wallet of notes.

Retirement of Dr. M. A. Buntine

Early in the year it became known that Dr. Buntine had been appointed Headmaster of Geelong College, Victoria, and would take up the appointment at the beginning of 1946. On the eve of his departure, at one of the best attended functions for many years, Dr. Buntine was presented with a walking stick and a cheque for the purchase of 100 gallons of petrol for use on his transcontinental journey by car. Information to hand is to the effect that the overland trip was accomplished without untoward incident.

Appointment of Mr. V. S. Murphy

On the 3rd August the Governors of the School announced the appointment of Mr. V. S. Murphy as successor to Dr. Buntine. Mr. Murphy, who was the West Australian Rhodes Scholar for 1921, possesses a distinguished scholastic and sporting record and is personally well-known to many Old Haleians against whom he competed in Interschool events. The news of his

appointment was well received and the Association's congratulations were conveyed to him with an assurance of a warm welcome on his arrival.

Congratulations

We extend hearty congratulations to a distinguished Old Boy, Len Walker, on his elevation to the Supreme Court Bench, an honour he richly deserved.

Condolences

It is with deep sympathy with their relatives that we record the names of many Old Boys who made the supreme sacrifice in the service of our nation. In particular, our thoughts are with our old friend, Mr. Matthew Wilson, who mourns the loss of Ronnie.

Enrolment of Sons

Owing to the large number of students seeking admission to Hale School, members are urged to inform the School well in advance, of the year when they will require accommodation for their sons. Omission to do this has in several instances caused embarrassment to parents and to the School.

In conclusion it is desired to place on record our grateful thanks to Evan Saw for the use of his Board Room for Committee meetings and for the splendid work done by him as our Secretary and to members of the Committee for their courtesy and attention to the affairs of the Association.

P. S. DURSTON, *President.*

RE-APPOINTMENT TO BOARD OF GOVERNORS

On May 16th, the Committee was notified by the Chief Secretary of the Government of Western Australia that the Lieutenant-Governor in Council had appointed Mr. John Morrison to be a member of the Governors of Hale School as the representative of the Old Haleians' Association for a further term of three years ending April 30, 1949.

On behalf of the members of the Association the Committee extends its congratulations to Mr. Morrison on his re-appointment and sincere appreciation of his tireless efforts for the Association since his initial election to office.

OLD BOY IS CROWN SOLICITOR

The appointment of Mr. G. B. D'Arcy as Crown Solicitor was recently announced by the Minister for Justice. Mr. D'Arcy, who was born at Claremont, received his education at Perth Modern School and Hale School.

He was admitted to the bar on September 15, 1925. He practised on his own account in Perth until March, 1940, when he became a law officer in the Crown Law Department. During the past six years he has handled about 500 cases, including a number of capital charges as Crown Prosecutor, and cases in the civil jurisdiction.

As Secretary of the Law Students' Association and later as a foundation member of the Law Council, Mr. D'Arcy was among those whose efforts resulted in the inauguration of the Chair of Law at the University of Western Australia. He is a former member of the South Perth Road Board and resides in Labouchere Road, South Perth. After having been rejected for active service in the last war he served in the Naval Auxiliary Patrol.

To this distinguished Old Boy the committee offers its congratulations and best wishes for his future.

General Notes

News of Old Haleians which arrived too late for inclusion in the recently-published Circular Letter is published in these brief notes of Old Boys.

T. A. Davy, continuing his studies in Law at the University of Melbourne, has dispatched the following information to the committee regarding the activities of Old Haleians in or near Melbourne. Tony will be remembered as an outstanding cricketer and footballer for the School in 1938. He writes:—

"Dick Fethers (brilliant sprinter and brother of double 'blue riband' winner, Lloyd) was recently engaged to be married and is frequently to be seen in Melbourne. He is a Captain flying for Australian National Airways. Dick has a flat in Jolimont near the Melbourne Cricket Ground.

"Ralph Pickering was a visitor some weeks ago and staying at the Oriental Hotel. Merely a flying visit on business.

"Keith Jackson and 'Hooks' Oliphant recently passed through en route to Tasmania where they are holidaying. They seemed to be enjoying themselves and without a doubt will enjoy Tasmania—everyone does.

"Roland Farrant is to be found at the University where he is interesting himself in psychology.

"Tony Murray, who has been living in Melbourne for some years, is now out of uniform and back at work. He completed his law course in Melbourne and was admitted to the Victorian bar before he joined the R.A.N. He lives in Toorak but spends most of his time in the Supreme Court library.

"Ross Ewen (Captain of the School in 1938) and his wife are returning to Perth shortly. Since leaving the R.A.A.F. Ross has been working in Melbourne—nearly a year now.

"Dick Farmer is at the University and intending flying to Perth for the first term vacation. Others at the 'Shop' include Maurie Dean, Harry Cohen and Trevor Wolff. Charlie Green has been shining in the athletic sphere and recently the *Herald* sporting writer referred to him as 'perhaps the best hurdler in Australia at present.' Charlie is nearing completion of his course in medicine. John McGibbon is now studying dentistry having switched from commerce. John Brine and Ken Neerhut are two medical students—the former at Trinity College and Neerhut at Queen's College. All other students, with the exception of Maurie Dean are at Ormond.

"Kevin Cullen is at present in Hobart awaiting 'sups' for the last year medicine and has recently announced his engagement to a Tasmanian girl in Miss Diana Adams.

"Sorry to hear Hale missed the Head of the River. Regards to all in the Association and luck to the School for the football season."

(Thanks for your interesting letter, Tony.—*Ed.*)

From Clem Love, footballer, rower and athlete for the School a few years ago, comes news of Old Boys at Adelaide University where Clem is studying medicine. Clem writes:—

"Most of the Old Haleians I contact here are in the medical faculty. Don Bromfield has just finished his finals whilst Doug MacWhae and Bob Godfrey have returned to Perth.

"Ken Tregonning is the most solid of the backs for the "A" grade rugby team and is doing Arts I. He has designs on being a teacher (incidentally, the Professor of History is the rugby coach, so there may be some connection). Mrs. Tregonning now has a home in Toorak (Melbourne) and 'Chip,' who has a hockey blue and is captain of the team, is doing third year medicine along with Alec. Latter is a mainstay in the football XVIII and convincingly won his heats in the 100 and 220-yd., but lacked condition for the finals when an athletic meet was held recently.

"Geoff Lilburne (third year medicine) also competed. He has had several matches in the "A" football team and is lecturing shortly to the Medical Society on the 'History of the the Circulation.'

"Brian Vivian (second year medicine) is at St. Mark's College, re-opened since the end of the war. He is now a member of the Seaton Golf Club and told me that he met Stewart Home, en route to Melbourne, recently.

"Harry Cohen came over from Melbourne at Easter for the Oakbank Steeplechase.

"Jimmy Ryan, who coached the athletic team from early 1930's to 1938 when P. D. Langley took over, is living here and very keen on anything Old Haleian.

"Peter Wickens and Ralph Pitman are others to take up residence in Adelaide."

(Incidentally, from another source comes news that Clem is breakaway for the "A" rugby team. Thanks for the information and congratulations, Clem.—*Ed.*)

Newton Roberts and Gresley Cohen have both been discharged from the R.A.N. and are studying architecture. Both were seen at the recent T-Square Ball with other Old Boys in Peter Grigg, Dudley Macgibbon and Rolly Tasker.

John Milward is now farming near Mt. Barker.

Frequent visitors to the "Sport of Kings" are Bill Ellis and Les Jackson. Both were on the Panto Boy double recently at Belmont Park and said life was grand. Tony Craig is another keen punter.

Captain George Gwynne is now out of uniform after a long time in Japanese hands. He is looking much better in recent weeks and has taken up his old position on the committee of the W.A. Turf Club and is interesting himself in Hunt Club activities. Together with his wife he races a number of good class performers including Jinga, which recently won a seven furlongs event for W.A.-bred horses at Headquarters.

Johnny Langer is in Rabaul where he has met John Hoffman. Johnny is a member of the Eighth Military District L.A.D. and has earned two stripes. After 21 months in the islands he hates Rabaul and everything associated with the name. However, he has hopes of returning to Perth shortly.

Bruce Shipway is a cadet reporter on *The West Australian*.

Ron Rankine-Wilson is commencing studies in dentistry shortly, following his discharge from the R.A.A.F. Christ Church, Claremont, was recently the scene for his wedding with Miss June Fernie, announcer for 6PR.

Harry Lodge has joined the recently-wedded ranks in company with Toby James, Keith Mitchell, Arthur Draper and Keith Marshall.

W. Moore is in Perth after several years in the Eastern States.

"Buzz" Farmer has joined the staff of the Melbourne *Herald*.

Blake Senior is working on his father's station near Sandstone, and recently spent some time in Perth increasing his knowledge at Elders Ltd., Fremantle. Pleasure, of course, gained a placing, and the Club Cabarita was a favourite haunt.

Ken Hummerston recently broke an arm in an automobile accident, but is steadily recovering.

Robin Farmer and Norman Gilchrist are playing league football with Claremont and Perth respectively. Both have been shining in the forward lines.

Ron Armstrong is a photographer with Art Photo Engravers and has specialised in most sporting events in recent months. His illustrations of race finishes are to be seen in the week-end newspapers.

Geoff Hammond is studying law at the University of Western Australia where he is President of the Blackstone Society. Gordon Ross makes frequent visits to the Eastern States in his capacity as President of the Under-Graduates Guild. He is completing a course in engineering.

Chris Barrett, a prominent member of the First XI in 1943 is a Second-Lieutenant in the Middlesex Regiment and is now serving in Italy. His brother, Roger, who left Hale at the end of 1944 to go to England is a pupil of Bradfield College, Berks, England.

Peter Harrison, recently discharged from the R.A.A.F., has resumed with 6PM as an announcer. Swing is his speciality.

Cliff Hamblin is at the Muresk Agricultural College. His brilliant middle-distance feats at the "Inters" in recent years have marked him as being one of the best athletes in the history of the School. He recently won the first of the W.A. Amateur Athletic Association's cross-country races.

Bill Paterson, D.F.C., is discharged from the R.A.A.F., after a lengthy period of service which included operational flights over Germany. He has returned to farm life, recently had an accident to his leg but has now recovered.

Jack Nelson and "Spike" Michelides are prominent members of the W.A. Sporting Car Club. Jack driving his Ford-Ballot finished into fourth place in the Victory Grand Prix at Caversham. His long string of successes in motor racing include the winning of an Albany Grand Prix. "Spike" performed well in recent standing acceleration tests in his supercharged M.G. "T" type. Mitch Crawcour is another keen sports car driver.

Andy Olney is a parliamentary roundsman on *The West Australian* and at present occupied in editing a new style book for W.A. Newspapers Ltd. His wife is a keen short story writer and has also contributed regularly to "Life and Letters" in *The West Australian*. Housing problem has forced them to take up residence in the Captain Stirling Hotel.

Pat Dyas writes interestingly from Deolali, India. Both twins are 2nd-Lieutenants in the Gloucestershire Battalion in different companies and apparently still getting considerable enjoyment from the inability of their men to distinguish between them. They have found the going hard and long to be back in their schooldays. Cause and effect?

Paragraphs in newspapers issued since last *Cygnets* that have caught the eye tell of a bar to M. Parry's D.F.C.; a commendation for bravery for Ian Beaton; Geoff Hammond's experiences as a prisoner in Germany and a tennis player at Wimbledon; C. M. Clifton's work for the blind and his subsequent death in action; Kim Roberts' death over France; Ross Mount, writing of conditions in Paris after V.E. Day; H. A. Garland, who received a certificate for bravery on a tanker; S. B. Rosier tying for Lady James prize in Science, and B. G. Green who won the Wilsmore prize in Chemistry, both at the University of W.A.; A. R. Driver, now Administrator of the Northern Territory; Lieutenant-Colonel A. R. G. Wilson, who joined the Old Boys' Association from Ethiopia; G. Ross, President of the National Union of Australian University Students; F. Blakey, R. Traill-Nash, awarded Hackett Research Studentships; J. R. Clarke and B. G. Green, Hackett Research Scholarships.

HOCKEY CLUB NOTES

This year the Old Haleians' Hockey Club was re-formed and, although its membership is only half the average total of pre-war seasons, there are three sides fielded on Saturdays in A-2, B-1 and Junior grades.

The A-2 team has met with considerable success and, of the five matches played, it has won four and drawn one. Under the captaincy of Barney Hancock the team has settled down to the playing of good hockey and, on present indications, has excellent prospects of improving its position to the A-1 status at the end of the season.

The B-2 team has yet to score a win. This has been due to a shortage of experienced players and frequent changes in the team. In the last two matches it has improved considerably and it should not be long in scoring its first success.

The Junior team, unfortunately, has only played one game. The club has a shortage of junior members and recently, with the approval of the Headmaster, six or seven boys attending School practised the game. This is an insufficient number to form a team and junior members are still urgently required.

Anyone interested in joining the Old Haleians' Hockey Club should contact the Secretary (Charlie Hale) at the Shell Coy., Perth.

During the war years records and books of the club were mislaid. If any old member can aid the Secretary in locating these missing books the Shell Coy. telephone number will find him.

NEW SECRETARY APPOINTED

The Committee of the Old Haleians' Association has selected T. E. Eyres Secretary in succession to Evan Saw. Mr. Eyres can be located in the Alliance Assurance Buildings, St. George's Terrace, Perth, or by ringing B 7454.

FOOTBALL MATCH

Annual football match between Old and present boys of Hale School, which was to have been played on June 10th, was deferred until a match can be arranged between the first and second rounds of the Cup competition. An advertisement will appear in *The West Australian* when the date and venue are finalised.

"ALL FOR AN EXTRA TWO BOB A DAY"

Being an Old Haleian, and having done part of my war service as a paratrooper, I have been asked to write some notes on this branch of the service for *The Cygnet*.

I did my training at Rawalpindi in India. I was attached to an Indian parachute brigade composed mostly of Ghurkas. Only the signals, some of the medics, and the battalion commanders were British.

Training consists of strenuous P.T. continuously, ground training in the hangars, and the actual jumping course. Ground training takes about five days, the jumping course about the same, sometimes two jumps being done in one day.

My first jump was on New Year's Day, 1944, a sunny but cold winter's day. First jumps are done in "slow pairs." That is, the aircraft (a Douglas Dakota in this case) runs over the D.Z. drops two men, circles, runs in again, drops two more, and so on till the aircraft is empty.

I was number one of the third pair. Before you take up your position by the door you must hook up your static line (from your 'chute) to a wire cable running about one foot from the floor on the starboard side.

You get only two commands before jumping, "Action stations," and "GO!"

Jumping from a Dakota, you come out directly behind the port engine, and catch the full force of its slip-stream. You get a violent buffeting, which is more noticeable than the sensation of falling. The opening of your 'chute is not accompanied by a violent jerk, but rather by a tightening of the harness about your body.

Practice drops are done from about 800 feet. As you reach the height of about 50 feet the ground seems to rush you, and you make contact with an almighty wallop. Experts in the manipulation of their 'chutes can execute a stand-up landing, but I'm damned if I ever could.

I completed five jumps for my course, the latter ones being in "sticks" of 20 men, with full equipment, carrying kit-bags weighted to about 80 pounds attached to the right leg with a quick-release device.

Later the Brigade was called on to play a part in the recapture of Rangoon. 1,000 men were landed at the mouth of Rangoon River, with the object of clearing Elephant Pt. of enemy coastal guns, to allow sea-borne forces to move up the river to make the assault on the city.

The force took off from Akyab, where there was a good strip though it was only freshly captured, at about 3 a.m. in pouring rain. Sleep on the journey was impossible, the aircraft being jam-packed with 'chutes, equipment, and men.

Ours was the twelfth aircraft in formation, and to watch the armada with port and starboard lights streaming behind us, was an inspiring sight. At dawn we sighted the sea-borne forces below us, heading south along the coast. Later we turned due east across the swampy mouths of the Irrawaddy.

We dropped at about 7 a.m.

By nightfall — and what a night! — we had gained our objective.

Some months later, when the war against Japan was nearly over, I went on a mission (as a wireless operator), with an officer of my unit (he used to be General Wingate's A.D.C.), which took us to Siam.

For the first time I made a jump from a B29 (Liberator). You make your exit through a hole in the floor, going down a slide, to ensure a smooth exit. The minimum airspeed of a Lib being considerably greater than that of a Dakota, the whole thing is over with a snap.

My parachuting activities have taken me to some interesting places, through which I have gained experiences I would not have missed for worlds.

— R. MARTIN.

MEMORIAL SCHOLARSHIP

Reference is made to the 1945 *Cygnets* in connection with the Old Haleians' Memorial Scholarship. As no nominations have yet been received, all members of the Association are particularly requested to advise the committee of any meritorious case.

Nominations close on September 3rd, 1946. Particulars of qualifications include: The applicant to be not over 13 years and be completing his Primary Education; he must be a son of an Old Boy who has been killed or incapacitated as the result of Active Naval, Military or Air Service during the war.

ROLL OF HONOUR

"With faith in their hearts and hope on their lips, they passed beyond the mists that blind us here. Their yesterday makes possible our tomorrow."

EDITORIAL NOTE

We wish to thank a number of Old Boys and their relatives for recent assistance in compiling these lists; notably C. Traill-Nash, who wrote from Tokyo Bay, F. J. Nathan from Queensland, and M. Nairn from "Somewhere up North." We have tried to make this last compilation as reliable as possible, but should there still be errors or omissions, we shall correct them in the 1947 issue, if notified.

The School regrets that some Old Boys have not received their *Cygnets*, especially last year, but any shortage was due to paper rationing, it not being learned till too late that more paper could have been got for the services. Though we acted in all good faith, we apologise to any who were disappointed.

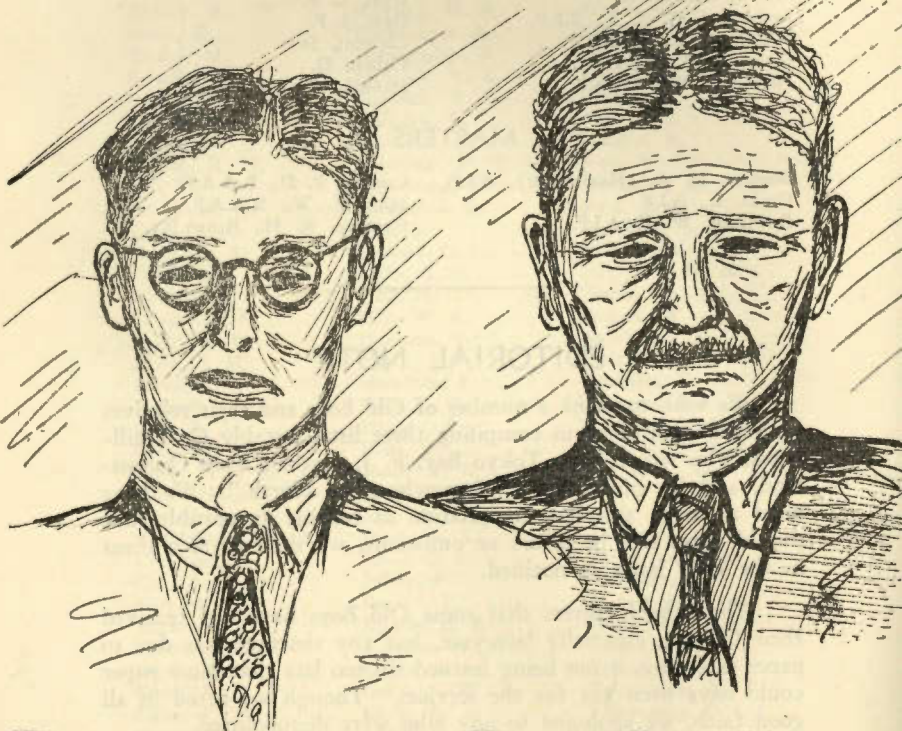

At the same time we take this opportunity of welcoming back those fortunate ones who have survived the hazards of war. They will find many of "the old familiar faces" missing at School—there have been great changes—but "all, all are NOT

gone," and there are still many links to bind them to their old School. We shall be glad to see any who visit the School—as many have already done—and would express the hope that all Old Boys will connect themselves actively with their old School, through the Old Haleians' Association and some of its functions.

With all good wishes for the years of peace to come, on behalf of both boys and staff,

Yours very sincerely,

A. C. MARSHALL.

Original Column

"Striving blindly."

WE feel that we must apologise for this section of *The Cygnet* this year. It seems that we have fallen on a lean year, as far as literary ability is concerned. Serious constructive thought, if present in the School, is silent and incoherent. That cannot be remedied now. But we must not let this stagnation continue. So, contributors, try again next year. But do not wait till next June. If you have ideas put them on paper and send them in when they come to you. You whose work has been rejected—quite a number—are in good company. You join some of the great names in literature whose early work proved failures; we call them great because they triumphed over failure. Do ye likewise. We thank everyone, whether successful or not, for all that they have sent in, and to those who sent work we did not select for publication, better luck next time!

—EDITOR.

The following thoughts, though running to some length for a school magazine, we publish in their entirety because of the obvious sincerity of their tone and because of the writer's keenness, which we share, to see more serious articles in the "Original Column."

ON LEAVING SCHOOL

Hitherto I have always regarded leaving school as something only the older fellows have had to do from time to time. As to that fate concerning me, it was always an abstract happening for the distant and vague future. Now, however, I have been jarred out of my complacency by the brutal realisation that all good things must come to an end, and that the time is near when I, too, must go.

It has been my entire existence and life for all these years, and one finds it impossible to cut without regret the threads that bind one to school and all its activities.

We were as these other little fellows, when we first came, carefree, rowdy little ruffians. Just as the masters have watched past generations of boys pass through the school, they watched us; saw us grow from children to lanky youths, from youths to men; till, under their careful eye we have risen to the zenith of authority, Prefects, Lieutenants and Sports Captains; Seniors

of the School with poise, confidence and responsibilities. If you should think this does not apply to me try to realise that I am not speaking only for myself, but I am attempting to be the voice of the feelings of all that have reached this stage.

As I sit by the fire and ruminate, my mind with intense pleasure, like a screen, recalls past incidents and vignettes of the good old days: The wind howling with baffled fury, while two shivering little brats, the light of anticipation in their eyes, cook some mysterious brew over a "kero" stove; the helter-skelter and confusion, the flashes of white and clouds of feathers, the thuds and gasps, as one exulting dormitory attacks another, desperately defending its own domain; cheer upon cheer as bedraggled crowds in pouring rain applaud the double-blue boat, in front, and the eight exhausted heroes rowing in it. The electricity has failed, and by the light of lamps a community concert is in full swing in the dining room. The flickering flames with macabre effect light up the jovial faces and energetic pianist, and the boisterous strains of "Auld Lang Syne" roll out into the night air. These are the memories that increase in value with the years and no amount of repetition can dull the edge of their enjoyment.

To the eye which quickly runs over the crowd, all but a few are merely mediocre personalities. Close contact, eating and sleeping together for years, however, bring out the features in their make-up till we realise they all are characters every one, and nothing is more enjoyable than associating with them, drinking the pleasures of their company to the dregs. Many of the old "gang" are gone now, broken up and spread to far regions. Nevertheless, past the screen of the mind they march, march! like dim ghosts of the past nebulous, nought but memories, caught all in the old familiar poses by which we best remember them.

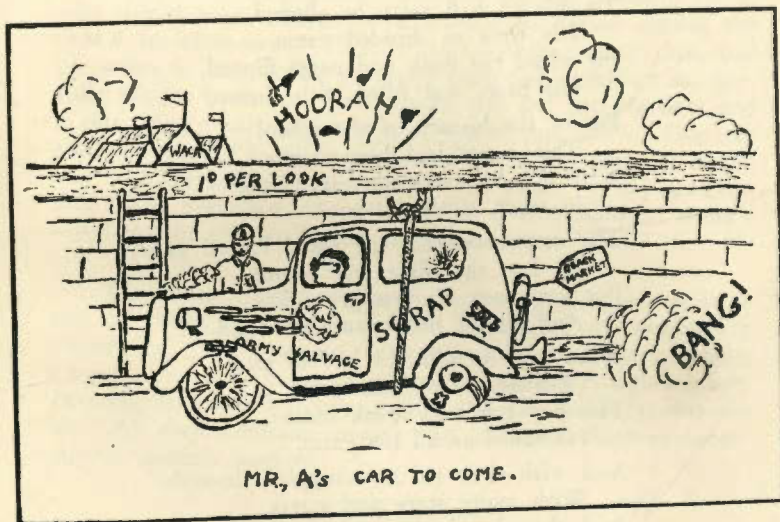

The masters occupy a large part of our school life. It is not till we grow older that we realise it was for our own good that they chastised us and the old prejudices are broken down. How well we know them! Not for nothing did we con all their mannerisms by rote later to cast in their teeth. A school-master's lot is absurdly supposed to be an unprofitable one. Well rewarded are they. Like no one else can they sit back in their own generation and watch the products of their work go forth and bear fruit.

Now I stand on the threshold of life and my thoughts are divided between plans for the future and regrets of the past. I

am burning my boats behind me, there can be no going back, and my heart is heavy within me.

Long live the School! May it, and all who love her, flourish!

MR. A'S CAR TO COME.

A LESSON LEARNED

The clock was just on four to nine,
As up the street he sped,
This prefect should have been on time,
But he had stayed in bed.

So fast he ran, so loud he sighed
He soon was in a sweat.
"Oh! I am late," he feebly cried,
And then began to fret.

You see, today it was his turn,
The lesson he would read
But that he'd had no time to learn
He must perforce make speed.

He shot in through the open door
And cast off coat and cap
No luck had favoured this lad poor,
Why did he take that nap?

He raced into the crowded hall
And scudded down the aisle,
Only to see his fond hopes fall —
The masters came in file!

THE CYGNET

A "LIGHT" SONNET

Apollo! How these falsely imitate
 In envy; yet your fire does burn all day;
 No time you disappoint us. Yet debate
 Is made upon mysterious coils. Away,
 They say, Away. Diana's light must now
 Suffice, for candles can't be had. So night
 With darkness comes, and we to them allow
 Two weeks, and still our houses are not bright.
 But really does our mind not have great food
 For deeper thought and recollection. Does
 This not bring back those days of war, or good
 Old days when miners' pay made all the buzz?
 But oh! Misfortune, deep and dire despair,
 Our study lost we never can repair.

—Harley.

RETORTS COLLECTED IN VIB

Tennyson wrote hundreds of poems Must have been
 trying to get one in *The Cygnet*.

To one scribbling in his class book . . . Writing round the
 subject.

What is a loafer? One who is not well bred.
 To Bob on Thursday . . . Beware the Ives of March.
 Jack in distress . . . The team rally round the skipper.
 A discussion on sheep . . . Mut'n talk about sheep.
 French for atmospherics is "parasites" . . . Capital French!
 A boat tacking in to a swimmer . . . An income tack.
 Talking about ears of corn . . . That will crop up.
 Why do we cut things into "morceaux"? So they will be

less so.

A 4A DAY

I wandered lonely as a cloud
 To 4A classroom in the morn;
 My Physics was not up to tick,
 In Latin I had dropped a brick,
 My spirits were forlorn.

With Algebra and other work
 The time is somehow slowly filled;
 With Crawley Baths a constant urge
 I find Arithmetic a dirge
 But conscience must be stilled.

And when at last the day is o'er
 And bed and sweet dreams loom in sight
 A pile of homework still remains
 To worry my exhausted brains
 Before I say goodnight.

THE KANGAROO

I wish I was a kangaroo
 To hop about as well as you,
 To jump the creeks and fences, too,
 I wish I was a kangaroo
 I'd like to crop the sweet green grass
 Which grows where no cruel humans pass,
 And yet I don't think that I'd be you
 For you're a hunted kangaroo.
